

AMP CAPITAL INVESTMENT FUNDS INDEX FUNDS

Product Disclosure Statement

Dated 18 July 2019

This document replaces the Product Disclosure Statement dated 3 December 2018.

Issued by AMP Investment Management (N.Z.) Limited

1. Key information summary

What is this?

This is a managed investment scheme. Your money will be pooled with other investors' money and invested in various investments. AMP Investment Management (N.Z.) Limited will invest your money and charge you a fee for its services. The returns you receive are dependent on the investment decisions of AMP Investment Management (N.Z.) Limited, and of its investment managers and the performance of the investments. The value of those investments may go up or down. The types of investments and the fees you will be charged are described in this document.

What will your money be invested in?

There are four investment options offered under this Product Disclosure Statement (PDS).

These investment options are summarised below. More information about the investment target and strategy for each investment option is provided in section 3 of the PDS, "Description of your investment options" on page 6.

Who manages the AMP Capital Index Funds?

The manager of the funds is AMP Investment Management (N.Z.) Limited (Manager).

See section 7 of the PDS, "Who is involved?" on page 9 for more information about us.

What are the returns?

The return on your investment comes from:

- · any increase or decrease in the unit price, and
- · any income distributions made from the fund.

The Funds distribute income half yearly. The Manager's policy is to distribute 72% of the income of each fund (adjusted for any imputation credits that may be available).

See section 2 of the PDS, "How does this investment work?" on page 5 for more information.

How can you get your money out?

You may at any time request the redemption of some or all of your investment. For each fund, payment will normally be made within 10 business days of the Manager receiving a redemption request from

We reserve the right to refuse a redemption request for less than \$50 or a redemption request that would result in you holding less than \$50 of units (except where all of your units are to be redeemed). We also have the ability, in certain circumstances, to suspend redemptions (for instance, where we believe, in good faith, that it is not practicable or would be prejudicial to investors' interests for the Supervisor to realise assets or borrow to permit redemptions - this could be because of market or asset conditions or other circumstances).

See section 2 of the PDS "How does this investment work?" on page 5 for more information.

Your investment in the AMP Capital Index Funds can be sold but there is no established market for trading these financial products. This means that you may not be able to find a buyer for your investment.

How will your investment be taxed?

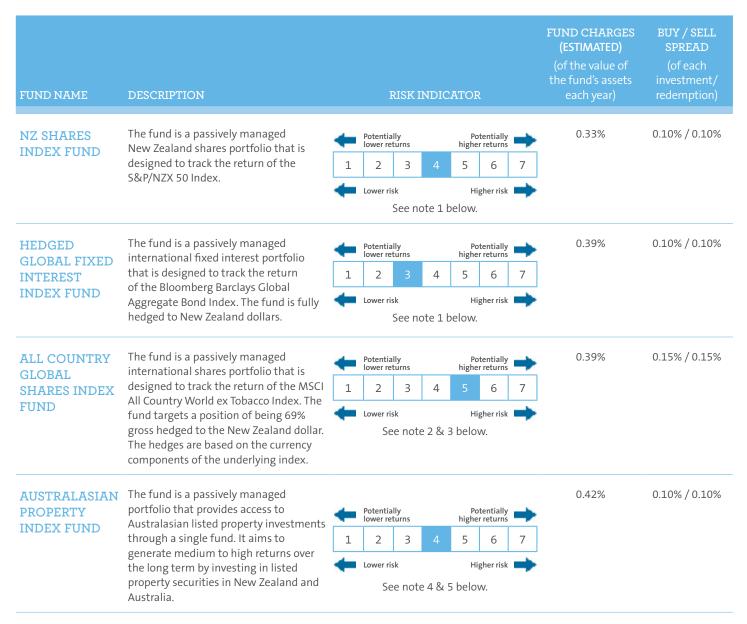

All of the funds offered under this PDS are Portfolio Investment Entities (PIEs).

The amount of tax you pay in respect of a PIE is based on your Prescribed Investor Rate (PIR). To determine your PIR go to www.ird.govt.nz/toii/pir.

See section 6 of the PDS "What taxes will you pay?" on page 9 for more information.

Where can you find more key information?

AMP Investment Management (N.Z.) Limited is required to publish quarterly updates for each fund. The updates show the returns, and the total fees actually charged to investors, during the previous year. The latest fund updates are available at www.ampcapital.com. The Manager will also give you copies of those documents on request.

Notes.

- 1. A combination of actual fund returns and market index returns were used to determine the risk indicator for the NZ Shares Index Fund and the Hedged Global Fixed Interest Index Fund as these funds commenced operation on 1 December 2017. The risk indicator may therefore provide a less reliable indicator of potential future volatility of these funds. For the five year period ending 30 June 2019, market index returns have been used up to 1 December 2017 with actual fund returns used for the balance of the period to 30 June 2019.
- 2. A combination of actual fund returns and market index returns were used to determine the risk indicator for the All Country Global Shares Index Fund as this fund commenced operation on 14 December 2017. The risk indicator may therefore provide a less reliable indicator of potential future volatility of this fund. For the five year period ending 30 June 2019, market index returns have been used up to 14 December 2017 with actual fund returns used for the balance of the period to 30 June 2019.
- 3. For the All Country Global Shares Index Fund, the MSCI All Country World Index was used as a proxy for the MSCI All Country World ex Tobacco Index as the MSCI All Country World ex Tobacco Index was not being calculated for that period and the differences between these two indices are not material.
- 4. Prior to 1 April 2018, the Australasian Property Index Fund was called the AMP Capital NZ Property Fund.
- 5. A combination of actual fund returns and market index returns were used to determine the risk indicator for the Australasian Property Index Fund. This is due to changes in this fund's investment policy taking effect from 1 April 2015. The risk indicator may therefore provide a less reliable indicator of potential future volatility of this fund. For the five year period ending 30 June 2019, market index returns have been used up to 1 April 2015 with actual fund returns used for the balance of the period to 30 June 2019.

See section 4 of the PDS, "What are the risks of investing?" on page 7 for an explanation of the risk indicator and for information about other risks that are not included in the risk indicator. To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz.

2. How does this investment work?

This PDS is an offer to purchase units in the AMP Capital Index Funds. Each of the funds offered under this PDS is constituted within a managed investment scheme that is governed by a trust deed dated 24 November 2015 (the AMP Capital Investment Retail Funds Trust Deed).

The money you invest buys units in the fund or funds you choose. Each fund invests in assets, such as shares or bonds. The units do not give you legal ownership of the fund's assets but they do give you rights to the returns from the assets.

The price of each unit depends on the value of the fund at the time you invest and any buy spread that applies to that fund. We calculate the unit price for a fund by dividing the Current Value of the fund by the number of units the fund has issued. The unit price is calculated

A change in the value of the fund's assets affects the value of your units. The unit price for a fund will change as the market value of that fund's assets changes.

The number of units you have, when multiplied by the unit price, gives you the total value of your investment in any one fund (although the impact of tax can result in a change in the number of units you hold, up or down).

The assets of a fund are not available to meet the liabilities of any other fund in the scheme.

Investing in managed funds can help you achieve your savings goals and create greater wealth for the future by offering you:

- Diversification. Pooling together large amounts of money enables fund managers to invest in a spread of assets which allows diversification and aims to reduce the risk of your investment portfolio. It also provides access to markets and securities that might otherwise be out of reach.
- Professional management. Employing the expertise and resources of a professional manager is particularly beneficial if you do not have the time or the skill to manage your own investments.
- Simplified investing. Fund managers take care of the paperwork involved in buying, selling, reporting and record keeping.

The funds are passively managed, meaning the investment managers buy and sell financial products to track the performance of a designated market index.

The return on your investment comes from:

- · any increase or decrease in the unit price, and
- · any income distributions made from the fund.

The funds distribute income half yearly. Our policy is to distribute 72% of the income (adjusted for any imputation credits that may be available).

The distributions will be calculated on or about 31 March and 30 September in each year. The distributions will be made to those unit holders on the relevant fund's register of unit holders as at the close of business on the last business day prior to the day the distribution is calculated.

Distribution payments are intended to be made within five business days of the date on which the distribution is calculated.

You may elect to have all (but not part) of your distribution of income reinvested in further units (Reinvestment Option) and you can cancel, at any time, your election to reinvest in further units. A buy spread will not be charged on your reinvestment. Two weeks' notice is required of any changes to your election for those changes to be effective for a given distribution.

The Reinvestment Option may be varied, withdrawn or cancelled by us at any time, by giving not less than three months' notice to you.

Making investments

You can make an investment in any of the funds by completing the application form at the back of this PDS or invest online at www.ampcapital.com.

You may invest in one or more funds as long as you invest a minimum of \$50 in each fund. When you make an investment in a fund, we will issue units at the unit price for that fund, adjusted for the applicable buy spread for that fund.

We also offer these funds via selected administration and custodial services. When reading this PDS you should remember that if your investments are made through an administration and custodial service they will be held by a custodian on your behalf. You should refer to the administration and custodial service terms and the relevant marketing information about investing in the funds through that service.

Withdrawing your investments

You may request a redemption of some or all of your investment at any time. For each fund, payment will normally be made within 10 business days of our receiving a redemption request from you. However, we have the ability, in certain circumstances, to suspend redemptions (for instance, where we believe, in good faith, that it is not practicable or would be prejudicial to investors' interests for the Supervisor to realise assets or borrow to permit redemptions - this could be because of market or asset conditions or other circumstances).

When you redeem all or part of your investment from a fund, we will redeem your investment at the unit price for that fund adjusted for the applicable sell spread for that fund.

We reserve the right to refuse a redemption request for less than \$50 or a redemption request that would result in you holding less than \$50 of units (except where all of your units are to be redeemed).

How to switch between funds

You may at any time request to switch your investment between the funds offered under this PDS or to any other AMP Capital Investment Fund offered by us. A switch will be treated as a redemption from one fund or funds and an application into the other fund or funds.

You will not be charged a switch fee but the buy and sell spreads will apply on each redemption and application under the switch. More information about the buy and sell spreads can be found in section 5 of the PDS "What are the fees?" on page 8.

This PDS provides information on the AMP Capital Index Funds. Information on other AMP Capital Investment Funds not offered under this PDS is provided in the following PDS documents:

- · AMP Capital Cash and Fixed Interest Funds PDS
- AMP Capital Global Shares Funds PDS
- AMP Capital Goals Based Funds PDS
- AMP Capital New Zealand and Australian Shares Funds PDS

Notes:

- 1. A combination of actual fund returns and market index returns were used to determine the risk indicator for the NZ Shares Index Fund and the Hedged Global Fixed Interest Index Fund as these funds commenced operation on 1 December 2017. The risk indicator may therefore provide a less reliable indicator of potential future volatility of these funds. For the five year period ending 30 June 2019, market index returns have been used up to 1 December 2017 with actual fund returns used for the balance of the period to 30 June 2019.
- 2. A combination of actual fund returns and market index returns were used to determine the risk indicator for the All Country Global Shares Index Fund as this fund commenced operation on 14 December 2017. The risk indicator may therefore provide a less reliable indicator of potential future volatility of this fund. For the five year period ending 30 June 2019, market index returns have been used up to 14 December 2017 with actual fund returns used for the balance of the period to 30 June 2019.
- 3. For the All Country Global Shares Index Fund, the MSCI All Country World Index was used as a proxy for the MSCI All Country World ex Tobacco Index as the MSCI All Country World ex Tobacco Index was not being calculated for that period and the differences between these two indices are not material.
- 4. A combination of actual fund returns and market index returns were used to determine the risk indicator for the Australasian Property Index Fund. This is due to changes in this fund's investment policy taking effect from 1 April 2015. The risk indicator may therefore provide a less reliable indicator of potential future volatility of this fund. For the five year period ending 30 June 2019, market index returns have been used up to 1 April 2015 with actual fund returns used for the balance of the period to 30 June 2019.

The Manager can make changes to the Statement of Investment Policy and Objectives (SIPO) of any fund in accordance with the Trust Deed and the FMC Act 2013. Before making changes to the SIPO, the Manager will consider if the changes are in your best interests and consult with the Supervisor. We will give notice of changes to unit holders of the relevant fund prior to effecting any material changes. The most current SIPO for the funds can be found on the scheme register at www.companiesoffice.govt.nz/disclose.

The Manager's use of the various market indices referred to here is subject to certain terms, conditions and disclaimers as described in the offer register at www.companiesoffice.govt.nz/disclose in the document titled 'Other material information', located under the 'Documents' tab on the managed fund offer register for the AMP Capital Investment Funds.

Further information about the assets in each fund can be found in the fund updates at www.ampcapital.com.

4. What are the risks of investing?

Understanding the risk indicator

Managed funds in New Zealand must have a standard risk indicator. The risk indicator is designed to help investors understand the uncertainties both for loss and growth that may affect their investment. You can compare funds using the risk indicator.

See section 1 of the PDS "Key information summary" on page 2 for the risk indicators for the funds offered under this PDS.

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down (volatility). A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz.

Note that even the lowest category does not mean a risk-free investment, and there are other risks (described under the heading "Other specific risks") that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the five years to 30 June 2019. While risk indicators are usually relatively stable, they do shift from time to time. You can see the most recent risk indicator in the latest fund updates for these funds.

General investment risks

Some of the things that may cause the funds' value to move up and down, which affect the risk indicator, are:

Market risk is the risk of losses in a fund's investments arising due to the market prices of those investments changing.

This is of significance to the Index Funds as the assets of those funds are market linked, and are therefore susceptible to general market fluctuations and individual security price fluctuations.

Interest rate risk

Interest rate risk is the risk that market interest rates rise which will lead to a drop in the market values of fixed interest securities.

This is of significance to the Hedged Global Fixed Interest Index Fund, as it invests in fixed interest securities and therefore movements in market interest rates will impact the value of this fund.

Credit risk

Credit rate risk is the risk that a business or government bond issuer does not make a payment on a coupon or principal payment when

This is of significance to the Hedged Global Fixed Interest Index Fund as it invests in fixed interest securities and is dependent on the payment of interest, coupons and principal from the issuers of these securities.

Currency risk

Currency risk is the risk of exchange rate fluctuations between the New Zealand dollar (the currency in which the funds are valued) and foreign currencies.

Currency risk will affect funds that invest in offshore assets that are not fully hedged back to New Zealand dollars. The Hedged Global Fixed Interest Index Fund, the All Country Global Shares Index Fund and the Australasian Property Index Fund have some or all of the assets invested offshore and therefore the returns of these funds can be affected by movements between the New Zealand dollar and other currencies if they are not adequately hedged.

We manage currency risk for each of the funds which have exposure to overseas assets by a currency management policy, where some or all of the currency exposure is hedged back to New Zealand dollars. The currency management policy for each fund is detailed in the AMP Capital Investment Funds SIPO.

Concentration risk

Concentration risk arises when a fund's assets are concentrated in a particular security, investment vehicle or type of investment vehicle, geographical area or industry. In some circumstances these funds may be subject to higher credit and volatility risks than funds having a more diversified portfolio.

This is of significance to the NZ Shares Index Fund as this fund is concentrated in the New Zealand share market. Concentration risk is also of significance to the Australasian Property Index Fund as this fund is concentrated in the property sector.

Liquidity risk

In volatile market conditions, a fund's assets may not necessarily be as easily realisable as they may have been at a previous point in time, or may only be able to be realised at a lower value than might be expected in normal market conditions. This could have a negative effect on the value of a fund's assets and its performance, and in turn may affect the value of your investment and the returns you receive from the fund.

Other specific risks

Passive management risk

The funds are passively managed, meaning the investment managers buy and sell financial products to track the performance of a designated market index. We do not make active investment decisions in these funds, which move the fund's portfolio holdings significantly away from those portfolio weightings that are determined by the index. Among the consequences of this will be that the funds will not sell a security because the issuer is in financial difficulty or negatively impacting the index return, unless that security is removed from the index being tracked by the fund. There is a risk that this could result in lower returns than would be the case if the investment manager were able to add and remove securities at will.

Tracking difference risk

The funds are designed to track the price performance of specific market indices. However, a fund will not always be able to exactly match the performance of the index. This could be for a variety of reasons, including the liquidity of the securities held by the fund, timing issues arising in the pricing of international holdings or associated foreign exchange hedging contracts, or operational error. There is a risk that this could result in an investor's returns being lower than the return on the index for a given period.

5. WHAT ARE THE FEES?

You will be charged fees for investing in the AMP Capital Index Funds. Fees are deducted from your investment and will reduce your returns. If any of the funds invest in other funds, those other funds may also charge fees. The fees you pay will be charged in two ways:

Regular charges - for example annual fund charges. Small differences in these fees can have a big impact on your investment over the long

One-off fees - for example the initial buy spread.

Annual fund charges

	MANAGEMENT FEES (excluding GST)	ESTIMATED ADMINISTRATION CHARGES (including GST)	TOTAL ANNUAL FUND CHARGES
NZ Shares Index Fund	0.28%	0.05%	0.33%
Hedged Global Fixed Interest Index Fund	0.35%	0.04%	0.39%
All Country Global Shares Index Fund	0.30%	0.09%	0.39%
Australasian Property Index Fund	0.35%	0.07%	0.42%

Management fees - We charge an annual management fee to each fund as set out above. GST is currently charged at 15% on 10% of the management fee in accordance with the non-binding IRD agreement with the Financial Services Council of New Zealand Incorporated on behalf of the funds management industry. GST on management fees is currently under review and therefore this percentage may change in the future.

Administration charges - These charges cover the general management of the fund e.g. supervisor, legal, custodian and audit fees. Subject to the exception noted below, they also cover charges payable in respect of the underlying funds that the above funds invest in. These charges are an estimate. Actual charges over the previous 12 months are available in the latest fund update.

Individual action fees

Buy/Sell spreads

	BUY SPREAD	SELL SPREAD
NZ Shares Index Fund	0.10%	0.10%
Hedged Global Fixed Interest Index Fund	0.10%	0.10%
All Country Global Shares Index Fund	0.15%	0.15%
Australasian Property Index Fund	0.10%	0.10%

Explanation

Buy/Sell spreads - When you enter or leave a fund, any buy or sell spread applicable at that time will be a cost to you. The buy spread is added to the unit price on entry to the fund, and the sell spread is deducted from the unit price on exit from the fund. The buy/ sell spreads belong to the fund and are not fees paid to us or any investment manager. The purpose of buy/sell spreads is to make sure that any transaction costs incurred as a result of an investor entering or leaving the fund are borne by that investor, and not other investors in the fund. There is no GST charged on buy/sell spreads.

There are no other one-off fees currently being charged to any of the funds offered under this PDS.

Example of how fees apply to an investor

Molly invests \$10,000 in the All Country Global Shares Index Fund. A buy spread of 0.15% is incorporated in the unit price that she pays for her investment. This equates to \$15.

This brings the starting value of her investment to \$9,985.

She is also charged management and administration fees, which work out to about \$38.94 (0.39% of \$9,985). These fees might be more or less if the value of her investment has increased or decreased over the year.

Estimated total fees for the first year

Individual action fees: \$15 Fund charges: \$38.94

See the latest fund update for an example of the actual returns and fees investors were charged over the past year.

This example applies only to the All Country Global Shares Index Fund. If you are considering investing in other funds in the scheme, this example may not be representative of the actual fees you may be charged.

The fees can be changed

We can change fees from time to time. We can also add new fees. The rules about fee changes are in the Trust Deed which can be found on the scheme register at www.companiesoffice.govt.nz/disclose.

AMP Investment Management (N.Z.) Limited must publish a fund update for each fund showing the fees actually charged during the most recent year. Fund updates, including past updates, are available on the offer register at www.companiesoffice.govt.nz/disclose.

6. What taxes will you pay?

Each fund is a Portfolio Investment Entity. The amount of tax you pay is based on your PIR. To determine your PIR, go to www.ird.govt.nz/toii/pir/. If you are unsure of your PIR, we recommend you seek professional advice or contact the Inland Revenue Department. It is your responsibility to tell the Manager (or, if you invest through an administration and/or custodial service, the provider of that service) your PIR when you invest or if your PIR changes. If you do not tell the Manager (or the provider of the administration and/or custodial service you invest through, if applicable), a default rate may be applied. If the advised PIR is lower than the correct PIR, you will need to complete a personal tax return and pay any tax shortfall, interest, and penalties. If the default rate or the advised PIR is higher than the correct PIR, you will not get a refund of any overpaid tax.

STEP 7 ACKNOWLEDGEMENTS

18 July 2019.

I/We have received and read the latest Product Disclosure Statement for the AMP Capital Index Funds dated 18 July 2019 and understand that the terms and conditions of the Trust Deed will be binding on us. I/We agree to accept the Units issued to me/us by the Manager as a Unit Holder under the Trust Deed. I/We agree to be bound by the provisions of that Trust Deed (as duly amended from time to time). I/we acknowledge that AMP Investment Management (N.Z.) Limited, AMP Capital Investors (New Zealand) Limited and other members of the AMP group of companies (AMP Group) are subject to anti-money laundering, countering financing of terrorism and sanctions laws (AML Laws) in New Zealand, Australia and elsewhere. I/we agree not to do anything that could cause any member of the AMP Group to breach the AML Laws. I/we agree to provide each member of the AMP Group with all information and other assistance it reasonably requires to comply with the AML Laws. I/we agree to indemnify each member of the AMP Group against any loss it suffers as a result of me/us providing incorrect or incomplete information. I/we agree that no member of the AMP Group shall be liable to me/us or anyone else for any refusal to process or delay in processing a transaction I/we have requested or a suspension of my/our accounts with a member of the AMP Group in accordance with the AML Laws. I/we represent and warrant that I/We have no cause to believe the funds used to purchase Units in the Funds are the proceeds of crime or will be used to finance terrorism.

I/We confirm that I/we are authorised to provide the personal details presented in this application form.

I/We agree that all information about me/us disclosed in this form may be used by AMP Investment Management (N.Z.) Limited or disclosed to and used by AMP Capital Investors (New Zealand) Limited and the Supervisor for the purpose of managing the Funds and my/our holding, including compliance with the AML Laws.

I/We consent to my information being passed to and checked with the document issuer, official record holder, a credit bureau, and any other third parties authorised by AMP Investment Management (NZ) Limited for the purpose of verifying my identity and address.

I/We know that I/we can request such access to and correction of any information held about me/us by AMP Investment Management (N.Z.) Limited or AMP Capital Investors (New Zealand) Limited and the Supervisor. Notwithstanding the foregoing, I/we acknowledge that where a suspicious transaction report has been made about me/us, the person who has made that report is not able to give me/us access to any information about that report (including its existence) and I/we have no right to request information in that report be corrected. I/We will inform AMP Investment Management (N.Z.) Limited of any changes to the information provided by me/us to AMP Investment Management (N.Z.) Limited, AMP Capital Investors (New Zealand) Limited or the Supervisor.

I/We acknowledge that I/we may be required separately in relation to this application to pay a fee to AMP Capital Investors (New Zealand) Limited or an associated person.

I/we undertake to advise the recipient promptly and provide an updated self-certification form where any change in circumstances occur, which causes any of the information contained in Step 3 this form to be inaccurate or incomplete.
