

# Fund Update

## Pie Funds Management Scheme: Pie KiwiSaver Growth Fund

### Fund update for the quarter ended: 30.06.25

This fund update was first made publicly available on 25.07.25

#### What is the purpose of this update?

This document tells you how the Pie KiwiSaver Growth Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Pie Funds Management Limited (**Pie Funds**) prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

#### Description of this fund

The Pie KiwiSaver Growth Fund seeks to maximise capital growth for members over a period exceeding 7 years. The Fund invests primarily in International and Australasian equities with a focus on globally-known brands, along with a cash and fixed interest exposure, directly and/or through investment in other funds also managed by Pie Funds.

|                                    |               |
|------------------------------------|---------------|
| Total value of fund as at 30.06.25 | \$463,339,501 |
| Number of investors in the fund    | 11,809        |
| The date the fund started          | 01.08.18      |

#### How has the fund performed?

|                                                                               | Average over past 5 years | Past Year |
|-------------------------------------------------------------------------------|---------------------------|-----------|
| <b>Annual return</b> (after deductions for charges and tax)                   | 5.39%                     | 7.89%     |
| <b>Annual return</b> (after deductions for charges but before tax)            | 6.46%                     | 8.41%     |
| <b>Market Index annual return</b> (reflects no deduction for charges and tax) | 11.51%                    | 12.45%    |

The market index annual return is calculated using the target investment mix and the indices of each asset class. The composition of the market index for this fund changed effective 1 May 2025 due to a change in the underlying index for the Australasian equities asset class.

Additional information about the market index is available in the Statement of Investment Policy and Objectives (SIPO) on the offer register.

### What are the risks of investing?<sup>1</sup>

Risk indicator for the Pie KiwiSaver Growth Fund

|                             |   |   |   |                              |   |   |
|-----------------------------|---|---|---|------------------------------|---|---|
| < Potentially Lower Returns |   |   |   | Potentially Higher Returns > |   |   |
| 1                           | 2 | 3 | 4 | 5                            | 6 | 7 |
| < Lower Risk                |   |   |   | Higher Risk >                |   |   |

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at [www.sorted.org.nz/tools/investor-profiler](http://www.sorted.org.nz/tools/investor-profiler).

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the last five years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (**PDS**) for more information about the risks associated with investing in this fund.

Annual return graph

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 30 June 2025. Important: This does not tell you how the fund will perform in the future.

† Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

\*For the period 1 August 2018 - 31 March 2019

What fees are investors charged?

Investors in the Pie KiwiSaver Growth Fund are charged fund charges. In the year to 31 March 2025, these were:

|                                                                     | % of net asset value   |
|---------------------------------------------------------------------|------------------------|
| Total fund charges                                                  | 0.68%                  |
| Which are made up of:                                               |                        |
| Total management and administration charges                         | 0.68%                  |
| Including                                                           |                        |
| Manager's basic fee                                                 | 0.68%                  |
| Other management and administration charges (estimate) <sup>2</sup> | 0.00%                  |
| Total performance-based fees                                        | 0.00%                  |
| Other charges                                                       | \$ amount per investor |
| Other charges                                                       | \$0.00                 |

\*The manager expects the fund charges for the next scheme year will be more than the fund charges disclosed in this fund update because the manager's basic fee was increased effective 1 May 2025 from 0.68% to 0.95% per year.

Fees are exclusive of GST, if any.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds, although these are not currently charged by Pie Funds).

Example of how this applies to an investor

Small differences in fees and charges can have a big impact on your investment over the long term.

Lucy had \$35,000\* in the fund at the start of the year and did not make any further contributions. At the end of the year, Lucy incurred a gain after fund charges were deducted of \$2,944 (that is 8.41% of her initial \$35,000). Lucy did not pay any other charges. This gives Lucy a total gain after tax of \$2,762 for the year.

\*This figure has been used as it represents close to the average KiwiSaver Scheme member's balance as per 2024 FMA KiwiSaver Statistical return.

## What does the fund invest in?

This shows the types of assets that the fund invests in.<sup>2</sup>

**Hedging:** We actively manage all currency exposure. It is not our intention to 100% hedge the currency at all times; some overseas securities may be unhedged. The hedged foreign currency exposure (as a percentage of total foreign currency exposure of the fund) is 78.42% (unhedged 21.58%).

## Top 10 investments

|    | Name                                      | % of fund net assets | Type                      | Country | Credit rating (if applicable) |
|----|-------------------------------------------|----------------------|---------------------------|---------|-------------------------------|
| 1  | BNZ Call Account - NZD                    | 4.20%                | Cash and cash equivalents | NZ      | AA-                           |
| 2  | iShares Bitcoin Trust                     | 2.56%                | International Equities    | US      |                               |
| 3  | NVIDIA Corp                               | 1.94%                | International Equities    | US      |                               |
| 4  | JPM Call Account - AUD                    | 1.83%                | Cash and cash equivalents | AU      | A+                            |
| 5  | Morrison & Co High Conviction Infra Fund  | 1.60%                | International Equities    | NZ      |                               |
| 6  | Microsoft Corporation                     | 1.31%                | International Equities    | US      |                               |
| 7  | Icehouse Ventures Growth Fund II LP - PIE | 1.22%                | Australasian Equities     | NZ      |                               |
| 8  | Apple Inc                                 | 1.18%                | International Equities    | US      |                               |
| 9  | Spotify Technology SA                     | 0.98%                | International Equities    | US      |                               |
| 10 | Life360 Inc                               | 0.86%                | Australasian Equities     | AU      |                               |

The total value of the top 10 individual assets of the fund make up 17.68% of the net asset value of the fund.

## Key personnel

| Name           | Current position                                    | Time in current position | Previous or other current position                        | Time in previous or other current position |
|----------------|-----------------------------------------------------|--------------------------|-----------------------------------------------------------|--------------------------------------------|
| Michael Taylor | Executive Director and Chief Investment Officer     | 3 years and 3 months     | Executive Director and Chief Executive Officer, Pie Funds | 15 years and 5 months                      |
