What are the risks of investing?

Risk indicator for the US Equities Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way. To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at <https://sorted.org.nz/guides/kiwisaver/kiwisaver-which-fund-suits/>.

Note that even the lowest category does not mean a risk-free investment, and there may be other risks that are not captured by this rating. This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the five years ended 31 March 2025. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates. See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

Annual return graph ^{1,2}

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the return since the fund started, up to 31 March 2025 on an annualised basis.

Important: This does not tell you how the fund will perform in the future. Returns in this update are after tax at the highest prescribed investor rate (PIR) 28% tax for an individual New Zealand resident. Your tax may be lower. The market index return reflects no deduction for charges and tax.

What fees are investors charged?

Investors in the US Equities Fund are charged fund charges. For the year to 31 March 2025, these were:

	% of net asset value
Total Fund charges	0.63%
Which are made up of:	
Total Management and administration charges	0.63%
Including:	
Manager's basic fee	0.53%
Other Management and administration fees	0.10%
Total performance based fees	0.00%
Other charges	
Administration Fee	\$30 per year

All fund charges are exclusive of GST.

Investors are not charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds).

Example of how this applies to an investor:

Small differences in fees and charges can have a big impact on your investment over the long term.

Lily had \$10,000 in the fund at the beginning of the year and did not make any further contributions. At the end of the period, Lily received a return after fund charges were deducted of \$618. (That is 6.18% of her initial \$10,000). Lily also paid \$30 in administration charges. This gives Lily a total return after tax and charges of \$588 for the period.
