

AMP CAPITAL INVESTMENT FUNDS AMP CAPITAL GLOBAL COMPANIES FUND

Product Disclosure Statement

Dated 16 October 2018

This document replaces the Product Disclosure Statement dated 21 September 2018.

Issued by AMP Investment Management (N.Z.) Limited

This document gives you important information about this investment to help you decide whether you want to invest. There is other useful information about this offer on www.companiesoffice.govt.nz/disclose. AMP Investment Management (N.Z.) Limited has prepared this document in accordance with the Financial Markets Conduct Act 2013 (**FMC Act**). You can also seek advice from a financial adviser to help you to make an investment decision.

1. Key Information Summary

What is this?

This is a managed investment scheme. Your money will be pooled with other investors' money and invested in various investments. AMP Investment Management (N.Z.) Limited will invest your money and charge you a fee for its services. The returns you receive are dependent on the investment decisions of AMP Investment Management (N.Z.) Limited, and of its investment managers and the performance of the investments. The value of those investments may go up or down. The types of investments and the fees you will be charged are described in this document.

Who manages the Global Companies Fund?

The manager of the fund is AMP Investment Management (N.Z.) Limited (**Manager**).

See section 7 of the PDS, "Who is involved?" on page 9 for more information about us.

How can you get your money out?

You may at any time request the redemption of some or all of your investment. For the fund, payment will normally be made within 10 business days of the Manager receiving a redemption request from you.

We reserve the right to refuse a redemption request for less than \$50 or a redemption request that would result in you holding less than \$50 of units (except where all of your units are to be redeemed). We also have the ability, in certain circumstances, to suspend redemptions (for instance, where we believe, in good faith, that it is not practicable or would be prejudicial to investors' interests for the Supervisor to realise assets or borrow to permit redemptions - this could be because of market or asset conditions or other circumstances).

See section 2 of the PDS "How does this investment work?" on page 5 for more information.

Your investment in the fund can be sold but there is no established market for trading these financial products. This means that you may not be able to find a buyer for your investment.

How will your investment be taxed?

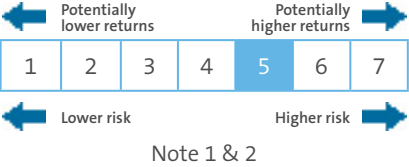

The fund is a Portfolio Investment Entity (PIE).

The amount of tax you pay in respect of a PIE is based on your Prescribed Investor Rate (PIR). To determine your PIR go to www.ird.govt.nz/toii/pir.

See section 6 of the PDS "What taxes will you pay?" on page 9 for more information.

Where can you find more key information?

AMP Investment Management (N.Z.) Limited is required to publish quarterly updates for the fund. The updates show the returns, and the total fees actually charged to investors, during the previous year. The latest fund updates are available at www.ampcapital.com. The Manager will also give you copies of these documents on request.

FUND NAME	DESCRIPTION	RISK INDICATOR	FUND CHARGES (ESTIMATED) (of the value of the fund's assets each year)	PERFORMANCE FEES	BUY / SELL SPREAD (of each investment/redemption)
GLOBAL COMPANIES FUND	<p>The fund seeks to deliver a compound rate of return greater than 10% per annum, after fees and costs, over the long term (typically 5 to 7 years). We expect the fund will exhibit lower risk of capital loss than broader global equity markets, over the long term. The fund invests in what we consider to be 25 to 35 global exceptional companies with strong wealth creation credentials.</p> <p>The fund aims to offer investors capital growth, global diversification and capital preservation through the investment team's deep understanding of how companies can create or destroy value over the long term.</p> <p>Environmental, social and governance factors are integrated into our investment process.</p>	 <p>Potentially lower returns</p> <p>Potentially higher returns</p> <p>1 2 3 4 5 6 7</p> <p>Lower risk</p> <p>Higher risk</p> <p>Note 1 & 2</p>	1.64%	YES (See page 7)	0.30% / 0.30%

Note 1: For the five year period ending 30 June 2018, market index returns have been used to determine the risk indicator for the fund as the fund was not in operation prior to 30 June 2018. The risk indicator may therefore provide a less reliable indicator of potential future volatility of the fund.

Note 2: The MSCI All Country World Index was used as a proxy for the MSCI All Country World ex Tobacco Index for the period up to 30 September 2017 as the MSCI All Country World ex Tobacco Index was not being calculated for that period and the differences between these two indices are not material. The MSCI All Country World ex Tobacco Index was used for the balance of the period to 30 June 2018.

See section 4 of the PDS, "What are the risks of investing ?" on page 7 for an explanation of the risk indicator and for information about other risks that are not included in the risk indicator. To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz.

2. How does this investment work?

This PDS is an offer to purchase units in the AMP Capital Global Companies Fund. The fund offered under this PDS is constituted within a managed investment scheme that is governed by a trust deed dated 24 November 2015 (the AMP Capital Investment Retail Funds Trust Deed).

The money you invest buys units in the fund. The fund invests in assets, such as shares. The units do not give you legal ownership of the fund's assets but they do give you rights to the returns from the assets.

The price of each unit depends on the value of the fund at the time you invest and any buy spread that applies to the fund. We calculate the unit price for the fund by dividing the Current Value of the fund by the number of units the fund has issued. The unit price is calculated daily.

A change in the value of the fund's assets affects the value of your units. The unit price for the fund will change as the market value of the fund's assets changes.

The number of units you have, when multiplied by the unit price, gives you the total value of your investment in the fund (although the impact of tax can result in a change in the number of units you hold, up or down).

The assets of the fund are not available to meet the liabilities of any other fund in the scheme.

Investing in managed funds can help you achieve your savings goals and create greater wealth for the future by offering you:

- **Diversification.** Pooling together large amounts of money enables fund managers to invest in a spread of assets which allows diversification and aims to reduce the risk of your investment portfolio. It also provides access to markets and securities that might otherwise be out of reach.
- **Professional management.** Employing the expertise and resources of a professional manager is particularly beneficial if you do not have the time or the skill to manage your own investments.
- **Simplified investing.** Fund managers take care of the paperwork involved in buying, selling, reporting and record keeping.

The return on your investment comes from any increase or decrease in the unit price.

The fund does not distribute income. Accordingly, any income of the fund is reflected in the unit price.

Making investments

You can make an investment in the fund by completing the application form at the back of this PDS or invest online at www.ampcapital.com.

You must invest at least a minimum of \$50 in the fund. When you make an investment in the fund, we will issue units at the unit price for the fund, adjusted for the applicable buy spread for the fund.

We also offer this fund via selected administration and custodial services. When reading this PDS you should remember that if your investments are made through an administration and custodial service they will be held by a custodian on your behalf. You should refer to the administration and custodial service terms and the relevant marketing information about investing in the fund through that service.

Withdrawing your investments

You may request a redemption of some or all of your investment at any time. For the fund, payment will normally be made within 10 business days of our receiving a redemption request from you. However, we have the ability, in certain circumstances, to suspend redemptions (for instance, where we believe, in good faith, that it is not practicable or would be prejudicial to investors' interests for the Supervisor to realise assets or borrow to permit redemptions – this could be because of market or asset conditions or other circumstances).

When you redeem all or part of your investment from the fund, we will redeem your investment at the unit price for the fund adjusted for the applicable sell spread for the fund.

We reserve the right to refuse a redemption request for less than \$50 or a redemption request that would result in you holding less than \$50 of units (except where all of your units are to be redeemed).

How to switch between funds

You may at any time request to switch your investment between the fund offered under this PDS to any other AMP Capital Investment Fund offered by us. A switch will be treated as a redemption from one fund or funds and an application into the other fund or funds.

You will not be charged a switch fee but the buy and sell spreads will apply on each redemption and application under the switch. More information about the buy and sell spreads can be found in section 4 of the PDS "What are the fees?" on page 9.

This PDS provides information on the AMP Capital Global Companies Fund. Information on other AMP Capital Investment Funds not offered under this PDS is provided in the following PDS documents:

- AMP Capital Cash and Fixed Interest Funds PDS
- AMP Capital Global Shares Funds PDS
- AMP Capital Goals Based Funds PDS

The Manager can make changes to the Statement of Investment Policy and Objectives (SIPO) of the fund in accordance with the Trust Deed and the FMC Act. Before making changes to the SIPO, the Manager will consider if the changes are in your best interests and consult with the Supervisor. We will give notice of changes to unit holders of the fund prior to effecting any material changes. The most current SIPO for the fund can be found on the scheme register at www.companiesoffice.govt.nz/disclose.

The Manager's use of the various market indices referred to here is subject to certain terms, conditions and disclaimers as described in the offer register at www.companiesoffice.govt.nz/disclose in the document titled 'Other material information', located under the 'Documents' tab on the managed fund offer register for the AMP Capital Investment Funds.

Further information about the assets in the fund can be found in the fund updates at www.ampcapital.com.

Notes

- For the five year period ending 30 June 2018, market index returns have been used to determine the risk indicator for the Fund as the Fund was not in operation prior to 30 June 2018. The risk indicator may therefore provide a less reliable indicator of potential future volatility of the Fund.
- The fund's market index the MSCI All Country World (ex Tobacco) Index with net dividends reinvested on a rolling three year basis and the fund's performance will be benchmarked against that index in its fund updates. In order to calculate the risk indicator in this PDS, the MSCI All Country World Index was used as a proxy for the MSCI All Country World ex Tobacco Index for the period up to 30 September 2017. The MSCI All Country World ex Tobacco Index was not being calculated for that period and the differences between these two indices are not material. The MSCI All Country World ex Tobacco Index was used for the balance of the period to 30 June 2018.

4. What are the risks of investing?

Understanding the risk indicator

Managed funds in New Zealand must have a standard risk indicator. The risk indicator is designed to help investors understand the uncertainties both for loss and growth that may affect their investment. You can compare funds using the risk indicator.

See section 1 of the PDS, “Key information summary” on page 2 for the risk indicators for the funds offered under this PDS.

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund’s assets goes up and down (volatility). A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz.

Note that even the lowest category does not mean a risk-free investment, and there may be other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund’s future performance. The risk indicator is based on the returns data for the five years to 30 June 2018. While risk indicators are usually relatively stable, they do shift from time to time. You can see the most recent risk indicator in the latest fund updates for this fund (once available).

General investment risks

Some of the things that may cause the fund’s value to move up and down, which affect the risk indicator, are:

Market risk

Market risk is the risk of losses in a fund’s investments arising due to the market prices of those investments changing. Market risk in emerging markets may be higher, as these markets are smaller and have greater volatility than securities markets in more developed countries.

This is of significance to the Global Companies Fund as the assets of the fund are market linked and may be held in emerging markets. As a result, they may be susceptible to increased general market fluctuations and individual security price fluctuations.

Currency risk

Currency risk is the risk of exchange rate fluctuations between the New Zealand dollar (the currency in which the funds are valued) and foreign currencies.

Currency risk will affect funds that invest in offshore assets that are not fully hedged back to New Zealand dollars. The Global Companies Fund has most of its assets invested offshore and therefore the returns of the fund can be affected by movements between the New Zealand dollar and other currencies as these currencies are not hedged.

The currency management policy for the fund is detailed in the SIPO.

Concentration risk

Concentration risk arises when a fund’s assets are concentrated in a particular security, investment vehicle or type of investment vehicle, geographical area or industry. In some circumstances these funds may be subject to higher credit and volatility risks than funds having a more diversified portfolio.

This is of significance to the Global Companies Fund as the fund holds only a small number of securities and the underperformance of a particular security may have a proportionately greater negative effect on the fund’s overall performance than if the fund held a larger number of securities.

Liquidity risk

In volatile market conditions, a fund’s assets may not necessarily be as easily realisable as they may have been at a previous point in time, or may only be able to be realised at a lower value than might be expected in normal market conditions. This could have a negative effect on the value of a fund’s assets and its performance, and in turn may affect the value of your investment and the returns you receive from the fund.

5. What are the fees?

You will be charged fees for investing in the fund. Fees are deducted from your investment and will reduce your returns.

The fees you pay will be charged in two ways:

Regular charges - for example annual fund charges. Small differences in these fees can have a big impact on your investment over the long term.

One-off fees - for example the initial buy spread.

Annual Fund Charges

GLOBAL COMPANIES FUND	
Management fees (excluding GST)	0.95%
Estimated administration charges (including GST)	0.24%
Estimated performance-based fees (including GST)	0.45%
Total annual fund charges	1.64%

Management fees - We charge an annual management fee to the fund as set out above. GST is currently charged at 15% on 10% of the management fee in accordance with the non-binding IRD agreement with the Financial Services Council of New Zealand Incorporated on behalf of the funds management industry. GST on management fees is currently under review and therefore this percentage may change in the future.

Administration charges - These charges cover the general management of the fund, e.g. supervisor, legal, custodian and audit fees. These charges are an estimate. Actual charges over the previous 12 months are available in the latest fund update (once available).

Performance-based fees - To estimate the performance fee of 0.45% pa we have assumed that the fund has achieved a 3% outperformance above the fund’s performance benchmark (hurdle rate of return 1). The actual performance fee may be higher, lower or not payable at all. Actual fees for the previous 12 months are available in the latest fund update (once available). More information about these fees is set out below.

PERFORMANCE-BASED FEES

The Global Companies Fund has a performance based fee. The performance fee arrangement is summarised below.

GLOBAL COMPANIES FUND	
Hurdle rate of return 1	Benchmark Index: MSCI All Country World (ex Tobacco) Index (net dividends reinvested)
Hurdle rate of return 2	The annualised 5-year rolling return, after fees and costs, at the end of the performance fee period must be higher than 7% (see Payment Condition below)
Amount of performance fee	15% of the outperformance of the Fund over the performance benchmark (hurdle rate of return 1)
Maximum limit	There is no maximum limit
High water mark	No
Frequency of calculation and payment	Calculated daily and paid in respect of each performance fee period as described in more detail below.

The performance fee amount, calculated each day and accrued the following day, may be zero, positive or negative. The sum of all daily performance fee amounts is the accumulated performance fee amount, whereby:

- a positive daily performance fee amount is added to any positive accumulated performance fee amount or applied to reduce any negative accumulated performance fee amount.
- a negative daily performance fee amount is used to reduce any positive accumulated performance fee amount or applied to further increase any negative accumulated performance fee amount.

When the accumulated performance fee amount is positive, this amount is accrued in the fund’s unit price. The fund will not accrue a performance fee when the accumulated performance fee amount is negative.

Performance fee period

To allow for the development of a 5-year performance track record, the initial performance fee period will be from 1 November 2018 until 1 November 2023. Following the 5-year initial performance fee period ending 1 November 2023, all subsequent performance fee periods will end on 31 March of each year.

Payment condition

If applicable, the fund will record a performance fee accrual in the unit price during the performance fee period. However, the investment manager will not be entitled to receive payment of that performance fee until the end of the performance fee period and only if the payment condition (hurdle rate of return 2) has been met. If the payment condition is not met for any performance fee period, the performance fee accrual will be carried forward as a liability of the fund to the next performance fee period. The investment manager will be entitled to receive payment of the accrued performance fee, including the performance fees accrued for the current and previous performance fee periods, if the payment condition has been met.

High Water Mark

The fund does not apply a high water mark. A ‘high water mark’, is the value a fund must reach before a performance fee can be charged to the fund. When a high water mark is applied, the fund’s value

(measured by the unit price of the fund) must be at least equal to the high water mark the last time a performance fee was charged to the fund. This means that if the fund loses value, this value must be regained before further performance fees are charged to the fund. The impact of a high water mark not being applied in this fund is that, if the fund value drops and then recovers, you may be charged a performance fee both for the original performance as well as for the recovered performance.

INDIVIDUAL ACTION FEES

Buy/Sell spreads

	BUY SPREAD	SELL SPREAD
Global Companies Fund	0.30%	0.30%

Explanation

Buy/Sell spreads - When you enter or leave a fund, any buy or sell spreads applicable at that time will be a cost to you. The buy spread is added to the unit price on entry to the fund, and the sell spread is deducted from the unit price on exit from the fund. The buy/sell spreads belong to the fund and are not fees paid to us or any investment manager. The purpose of buy/sell spreads is to make sure that any transaction costs incurred as a result of an investor entering or leaving the fund are borne by that investor, and not other investors in the fund. There is no GST charged on buy/sell spreads.

There are no other one-off fees currently being charged to any of the funds offered under this PDS.

Example of how fees apply to an investor

Jaxon invests \$10,000 in the Global Companies Fund. A buy spread of 0.30% is incorporated in the unit price that he pays for his investment. This equates to \$30.

This brings the starting value of his investment to \$9,970.

He is also charged management and administration fees, which work out to about \$119 (1.19% of \$9,970). These fees might be more or less if the value of his investment has increased or decreased over the year.

Jaxon may also be charged a performance-based fee if the fund earned more than its target. If the fund outperforms its performance benchmark by 3%, a performance fee of \$45 (0.45% of \$9,970) may be charged.

Estimated total fees for the first year

Individual action fees: \$30

Fund charges: \$164 (This includes a performance based fee of \$45)

See the latest fund update for an example of the actual returns and fees investors were charged over the past year.

The fees can be changed

We can change fees from time to time. We can also add new fees. The rules about fee changes are in the Trust Deed which can be found on the scheme register at www.companiesoffice.govt.nz/disclose.

AMP Investment Management (N.Z.) Limited must publish a fund update for each fund showing the fees actually charged during the most recent year. Fund updates, including past updates are available on the offer register at www.companiesoffice.govt.nz/disclose.

6. What taxes will you pay?

Each fund is a portfolio investment entity. The amount of tax you pay is based on your PIR. To determine your PIR, go to www.ird.govt.nz/toii/pir/. If you are unsure of your PIR, we recommend you seek professional advice or contact the Inland Revenue Department.

It is your responsibility to tell the Manager (or, if you invest through an administration and/or custodial service, the provider of that service) your PIR when you invest or if your PIR changes. If you do not tell the Manager (or the provider of the administration and/or custodial service you invest through, if applicable), a default rate may be applied. If the advised PIR is lower than the correct PIR, you will need to complete a personal tax return and pay any tax shortfall, interest, and penalties. If the default rate or the advised PIR is higher than the correct PIR, you will not get a refund of any overpaid tax.

7. Who is involved?

STEP 6 ACKNOWLEDGEMENTS

I/We have received and read the latest Product Disclosure Statement for the AMP Capital Global Companies Fund dated 16 October 2018 and understand that the terms and conditions of the Trust Deed will be binding on us. I/We agree to accept the Units issued to me/us by the Manager as a Unit Holder under the Trust Deed. I/We agree to be bound by the provisions of that Trust Deed (as duly amended from time to time). I/we acknowledge that AMP Investment Management (N.Z.) Limited, AMP Capital Investors (New Zealand) Limited and other members of the AMP group of companies (AMP Group) are subject to anti-money laundering, countering financing of terrorism and sanctions laws (AML Laws) in New Zealand, Australia and elsewhere. I/we agree not to do anything that could cause any member of the AMP Group to breach the AML Laws. I/we agree to provide each member of the AMP Group with all information and other assistance it reasonably requires to comply with the AML Laws. I/we agree to indemnify each member of the AMP Group against any loss it suffers as a result of me/us providing incorrect or incomplete information. I/we agree that no member of the AMP Group shall be liable to me/us or anyone else for any refusal to process or delay in processing a transaction I/we have requested or a suspension of my/our accounts with a member of the AMP Group in accordance with the AML Laws. I/we represent and warrant that I/we have no cause to believe the funds used to purchase Units in the Funds are the proceeds of crime or will be used to finance terrorism.

I/We agree that all information about me/us disclosed in this form may be used by AMP Investment Management (N.Z.) Limited or disclosed to and used by AMP Capital Investors (New Zealand) Limited and the Supervisor for the purpose of managing the Funds and my/our holding, including compliance with the AML Laws. I/We know that I/we can request such access to and correction of any information held about me/us by AMP Investment Management (N.Z.) Limited or AMP Capital Investors (New Zealand) Limited and the Supervisor. Notwithstanding the foregoing, I/we acknowledge that where a suspicious transaction report has been made about me/us, the person who has made that report is not able to give me/us access to any information about that report (including its existence) and I/we have no right to request information in that report be corrected. I/We will inform AMP Investment Management (N.Z.) Limited of any changes to the information provided by me/us to AMP Investment Management (N.Z.) Limited, AMP Capital Investors (New Zealand) Limited or the Supervisor.

I/We acknowledge that I/we may be required separately in relation to this application to pay a fee to AMP Capital Investors (New Zealand) Limited or an associated person.

I/we undertake to advise the recipient promptly and provide an updated self-certification form where any change in circumstances occur, which causes any of the information contained in Step 3 this form to be inaccurate or incomplete.

STEP 8 DECLARATION AND SIGNATURE
