

# Fund Update

## Conrad Investment Scheme- CFML Mortgage Fund

For the quarter ending 31<sup>st</sup> March 2025

### What is the purpose of this update?

This document tells you how the CFML Mortgage Fund (the “Fund”) has performed and what fees were charged. The document will help you to compare the Fund with other funds. Conrad Funds Management Limited (the “Manager”) prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

### Description of this Fund

The Fund invests solely in shares in CFML Lending Limited (“CFML Lending”). CFML Lending then enters into loans predominantly secured by first ranking mortgages over residential freehold apartments (excluding serviced apartments) and other residential freehold properties (including houses, townhouses, units, terraced houses and rural lifestyle properties) in New Zealand (“Mortgages”), and in on-call and short-term deposits at a New Zealand registered bank. The Fund has a low to medium level of volatility.

*Total value of the Fund* \$14,234,300.00

*The date the Fund started* 08/02/2018

### What are the risks of investing?

Risk indicator for the CFML Mortgage Fund:

Lower risk			Higher risk			
1	2	3	4	5	6	7
Potentially lower returns			Potentially higher returns			

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the Fund’s assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at [sorted.org.nz/tools/investor-kickstarter](https://sorted.org.nz/tools/investor-kickstarter).

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is for the 5-year period to 31<sup>st</sup> of March 2025 and is calculated using the returns of the Fund from 8<sup>th</sup> of February 2018 to the 31<sup>st</sup> of March 2025, and a method that the Manager reasonably considers will allow the risk indicator to reflect the potential future volatility of the Fund. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this Fund.

## How has the Fund performed?

	Past Year	Past 5 years
<b>Annual return</b> (after deductions for charges and tax)	4.83%	4.04%
<b>Annual return</b> (after deductions for charges but before tax)	6.70%	5.61%

There is no appropriate market index and no suitable peer group index or indices for the Fund against which to assess either movements in the market in relation to the returns from the assets in which the Fund invests or the performance of the Fund as a whole.

## Annual return graph

This shows the return after fund charges and tax for each year ending 31<sup>st</sup> of March since the Fund started. The last bar shows the average annual return since the Fund started, up to 31<sup>st</sup> of March 2025.

**Important:** This does not tell you how the Fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

## What fees are investors charged?

Investors in the Fund are charged fund charges. In the year to 31<sup>st</sup> of March 2025 these were:

	% Of net asset value
<b>Total fund charges*</b>	1.82%
<i>Which are made up of:</i>	
<b>Total management and administration charges</b>	1.82%
<i>Including:</i>	
<i>Manager's basic fee</i>	1.30%
<i>Other management and administration charges</i>	0.34%
<i>Costs and Expenses</i>	0.18%

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from the Fund). See the PDS for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term. All fees are stated on a GST exclusive basis.

## Example of how this applies to an investor:

Sarah had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Sarah received a return after fund charges were deducted of \$483 (that is 4.83% of her initial \$10,000). Sarah paid \$0 in other charges. This gives Sarah a total return after tax of \$483.
