

# Fisher Funds KiwiSaver Scheme Investment Update

## GlidePath Age 60 (closed to new investors)

For the quarter ended: 31 December 2025  
This investment update was first made publicly available on:  
10 February 2026.

### What is the purpose of this update?

This document tells you how the GlidePath Age 60 has performed and what fees were charged. The document will help you to compare the investment option with other funds. Fisher Funds Management Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

### Description of this investment option

GlidePath Age 60 is a representation of the GlidePath life cycle. This investment option invests 43% in the Growth Fund and 57% in the Conservative Fund.

Total value of the investment option	\$9,762,856
Number of investors in the investment option	163
The date the investment option started	31 October 2017

### What are the risks of investing?

Risk indicator for the GlidePath Age 60:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the investment option's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at [ipq.fisherfunds.co.nz/ffks](http://ipq.fisherfunds.co.nz/ffks).

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future investment updates.

See the product disclosure statement (available at [disclose-register.companiesoffice.govt.nz](http://disclose-register.companiesoffice.govt.nz)) for more information about the risks associated with investing in this investment option.

### How has the investment option performed?

	Average over past 5 years	Past year
<b>Annual return</b> (after deductions for charges and tax)	3.65%	3.86%
<b>Annual return</b> (after deductions for charges but before tax)	4.12%	5.05%
<b>Market index annual return</b> (reflects no deduction for charges and tax)	5.36%	10.05%

The market index return is made up of 43% Growth Fund market index return and 57% Conservative Fund market index return. Additional information about the market index is available on the offer register at [disclose-register.companiesoffice.govt.nz](http://disclose-register.companiesoffice.govt.nz) under Fisher Funds KiwiSaver Scheme or OFR10664.

## Annual return graph

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 31 December 2025.

**Important:** This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower. The market index return reflects no deduction for charges and tax.

## What fees are investors charged?

Investors in GlidePath Age 60 are charged fund charges. In the year to 31 March 2025 these were:

	% of net asset value
<b>Total fund charges*</b>	0.98%
Which are made up of:	
<b>Total management and administration charges</b>	0.98%
Including:	
Manager's basic fee	0.89%
Other management and administration charges	0.09%
<b>Total performance-based fees</b>	0.00%

\* In the year to 31 March 2026 we expect the total fund charges to be 1.02% as a result of an increase in Other management and administration charges. This is due to an increased exposure to private equity assets.

There is no extra charge for GlidePath. The annual fund charges for the underlying fund(s) apply.

Small differences in fees and charges can have a big impact on your investment over the long term.

### Example of how this applies to an investor

Sarah had \$10,000 in the investment option at the start of the year and did not make any further contributions. At the end of the year, Sarah received a return after fund charges were deducted of \$386 (that is 3.86% of her initial \$10,000). This gives Sarah a total return after tax of \$386 for the year.
