# Fund Update

for the quarter ended 31 March 2023

This fund update was first made publicly available on 3 May 2023

## What is the purpose of this update?

This document tells you how the AMP Australasian Shares Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. AMP Wealth Management New Zealand Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

## Description of this fund

This is a single sector fund with exposure to equity securities of companies that are listed on the NZ and Australian stock exchange. The fund aims to achieve long term capital growth through exposure to shares of companies listed in New Zealand and Australia.

Total value of the fund	\$8,507,673
Number of investors in the fund	526
The date the fund started	28 July 2016

## What are the risks of investing?

Risk indicator for the AMP Australasian Shares Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at [sorted.org.nz/tools/investor-profiler](https://sorted.org.nz/tools/investor-profiler).

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

### Specific risk

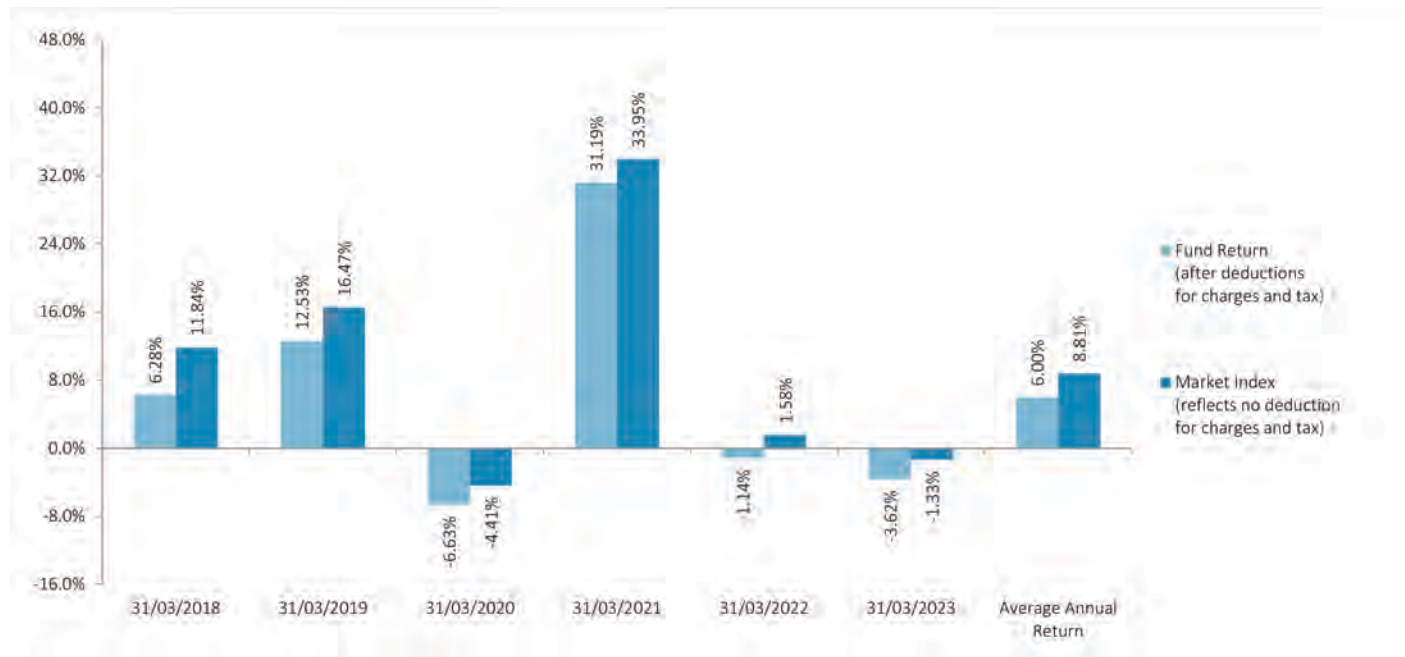

In addition to the general investment risks, you should be aware this fund is concentrated in a particular asset class and not diversified across multiple asset classes. At any given point, market conditions that cause one asset class to perform well may cause another asset class to perform poorly. This could result in negative or lower than expected returns compared to a fund which is diversified across multiple asset classes.

## How has the fund performed?

	Average over past 5 years <sup>1</sup>	Past year
Annual return (after deductions for charges and tax)	5.60%	-3.62%
Annual return (after deductions for charges but before tax)	6.41%	-2.72%
Market index annual return (reflects no deduction for charges and tax)	8.37%	-1.33%

The market index annual return is based on 70% S&P/NZX 50 Index Gross with Imputation and 30% MSCI Australian Shares All Cap 300 ex Select GICS ex Select Securities Custom ESG 100% Hedged to NZD Index. Additional information about the market index is available on the offer register at [disclose-register.companiesoffice.govt.nz](https://disclose-register.companiesoffice.govt.nz). Index disclaimers can be found on the AMP website at [amp.co.nz/indexdisclaimers](https://amp.co.nz/indexdisclaimers).

## Annual return graph<sup>1</sup>

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 31 March 2023.

**Important:** This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

## What fees are investors charged?

Investors in the AMP Australasian Shares Fund are charged fund charges. In the year to 31 March 2022 these were:

	% of net asset value
<b>Total fund charges (estimated)<sup>2</sup></b>	0.89%*
Which are made up of -	
<b>Total management and administration charges (estimated)</b>	0.89%
Including -	
Manager's basic fee (estimated) <sup>3</sup>	0.79%
Other management and administration charges (estimated) <sup>4</sup>	0.10%
<b>Total performance-based fees</b>	0.00%
Other charges	Dollar amount per investor or description of how charge is calculated
Member fee	\$23.40

\* Based on a decrease in the Manager's basic fee, the Manager estimates that the total fund charges for the next scheme year will reduce to 0.79% of the net asset value.

Different member fees or fee rebates may apply to some members. Any different fees or rebates will be set out in the Member Booklet or supplement, if applicable, which you can request from your Adviser.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the 'fees and other charges' document on the entry relating to the offer of interests in the AMP KiwiSaver Scheme maintained on the offer register ([disclose-register.companiesoffice.govt.nz](https://disclose-register.companiesoffice.govt.nz)) for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

## Example of how this applies to an investor

Craig had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Craig incurred a loss after fund charges were deducted of \$362.00 (that is -3.62% of his initial \$10,000). Craig also paid \$23.40 in other charges. This gives Craig a total loss after tax of \$385.40 for the year.

## Notes

- 1 From 12 July 2021, AMP Wealth Management New Zealand Limited (AMPWM) took over from AMP Capital Investors (New Zealand) Limited (AMP Capital), now known as Macquarie Asset Management (NZ) Limited (Macquarie), as the underlying fund manager for this fund. The fund performance in the table shows fund performance which relates to both AMPWM (with support from BlackRock Investment Management (Australia) Limited) and AMP Capital, now known as Macquarie.
- 2 For the "Average over past 5 years" period in the table and period ending 31/03/2022 in the graph, we have used a composite index to calculate market index returns. For periods in the graph prior to the period ending 31/03/2022, the market index returns have been calculated with reference to a composite index or appropriate market index. The composite index is calculated using the target investment mix weightings of the underlying market and peer group indices for the asset classes that the fund invested into. A composite index may be a less reliable indicator of performance than an appropriate market index. The return for the market index reflects no deduction for fund charges, trading expenses and tax, and the return for the peer group index reflects deductions for fund charges and trading expenses, but before tax.
- 3 The total fund charges are inclusive of any applicable GST.
- 4 The Manager's basic fee has been estimated to include a portion of administration fee estimates which was accounted until period 31 March 2022.
- 5 The other management and administration charges include estimates of underlying fund charges provided by underlying fund managers.
- 6 The actual investment mix and top ten investments have been calculated excluding cash and cash equivalents held for operational purposes.

# Fund Update

for the quarter ended 31 March 2023

This fund update was first made publicly available on 3 May 2023

## What is the purpose of this update?

This document tells you how the AMP Cash Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. AMP Wealth Management New Zealand Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

## Description of this fund

This is a single sector fund which primarily invests in cash and short-term deposits. The fund aims to achieve modest, stable returns with a very low level of investment risk, in exchange there should be no significant short-term movements up and down in the value of your investments.

# Fund Update

for the quarter ended 31 March 2023

This fund update was first made publicly available on 3 May 2023

## What is the purpose of this update?

This document tells you how the AMP Global Fixed Interest Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. AMP Wealth Management New Zealand Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

## Description of this fund

This is a single sector fund with a diversified portfolio of international fixed interest securities. The fund aims to primarily preserve the value of your investment with some capital growth by investing in fixed interest securities issues in bond markets around the world (which may include NZ bond markets).

Total value of the fund	\$824,454
Number of investors in the fund	69
The date the fund started	28 July 2016

## What are the risks of investing?

Risk indicator for the AMP Global Fixed Interest Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at [sorted.org.nz/tools/investor-profiler](https://sorted.org.nz/tools/investor-profiler).

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

### Specific risk

In addition to the general investment risks, you should be aware this fund is concentrated in a particular asset class and not diversified across multiple asset classes. At any given point, market conditions that cause one asset class to perform well may cause another asset class to perform poorly. This could result in negative or lower than expected returns compared to a fund which is diversified across multiple asset classes.

## How has the fund performed?

	Average over past 5 years <sup>1</sup>	Past year

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 31 March 2023.

**Important:** This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

## What fees are investors charged?

Investors in the AMP Global Fixed Interest Fund are charged fund charges. In the year to 31 March 2022 these were:

	% of net asset value
<b>Total fund charges (estimated)<sup>2</sup></b>	0.84%*
Which are made up of -	
<b>Total management and administration charges (estimated)</b>	0.84%
Including -	
Manager's basic fee (estimated) <sup>3</sup>	0.72%
Other management and administration charges (estimated) <sup>4</sup>	0.12%
<b>Total performance-based fees</b>	0.00%
<b>Other charges</b>	<b>Dollar amount per investor or description of how charge is calculated</b>
Member fee	\$23.40

\* Based on a decrease in the Manager's basic fee and Other management and administration charges, the Manager estimates that the total fund charges for the next scheme year will reduce to 0.78% of the net asset value.

Different member fees or fee rebates may apply to some members. Any different fees or rebates will be set out in the Member Booklet or supplement, if applicable, which you can request from your Adviser.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the 'fees and other charges' document on the entry relating to the offer of interests in the AMP KiwiSaver Scheme maintained on the offer register ([disclose-register.companiesoffice.govt.nz](https://disclose-register.companiesoffice.govt.nz)) for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

## Example of how this applies to an investor

Craig had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Craig incurred a loss after fund charges were deducted of \$412.00 (that is -4.12% of his initial \$10,000). Craig also paid \$23.40 in other charges. This gives Craig a total loss after tax of \$435.40 for the year.

# Fund Update

for the quarter ended 31 March 2023

This fund update was first made publicly available on 3 May 2023

## What is the purpose of this update?

This document tells you how the AMP International Shares Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. AMP Wealth Management New Zealand Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

## Description of this fund

This is a single sector fund with exposure to a diversified international equities portfolio. The fund aims to achieve long term capital growth through exposure to equities of companies listed on stock exchanges around the world.

Total value of the fund	\$8,304,901
Number of investors in the fund	557
The date the fund started	28 July 2016

## What are the risks of investing?

Risk indicator for the AMP International Shares Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at [sorted.org.nz/tools/investor-profiler](https://sorted.org.nz/tools/investor-profiler).

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

### Specific risk

In addition to the general investment risks, you should be aware this fund is concentrated in a particular asset class and not diversified across multiple asset classes. At any given point, market conditions that cause one asset class to perform well may cause another asset class to perform poorly. This could result in negative or lower than expected returns compared to a fund which is diversified across multiple asset classes.

## How has the fund performed?

	Average over past 5 years <sup>1</sup>	Past year
Annual return (after deductions for charges and tax)	5.95%	-5.19%
Annual return (after deductions for charges but before tax)	6.66%	-5.30%
Market index annual return (reflects no deduction for charges and tax)	8.89%	-2.81%

The market index annual return is based on the MSCI World ex Select Countries & GICS ex Select Securities Custom ESG Enhanced Focus 50% Hedged to NZD Index. Additional information about the market index is available on the offer register at [disclose-register.companiesoffice.govt.nz](https://disclose-register.companiesoffice.govt.nz). Index disclaimers can be found on the AMP website at [amp.co.nz/indexdisclaimers](https://amp.co.nz/indexdisclaimers).

## Annual return graph<sup>1</sup>

**Important:** This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

## What fees are investors charged?

Investors in the AMP International Shares Fund are charged fund charges. In the year to 31 March 2022 these were:

	% of net asset value
<b>Total fund charges (estimated)<sup>2</sup></b>	0.96%*
Which are made up of -	
<b>Total management and administration charges (estimated)</b>	0.96%
Including -	
Manager's basic fee (estimated) <sup>3</sup>	0.80%
Other management and administration charges (estimated) <sup>4</sup>	0.16%
<b>Total performance-based fees</b>	0.00%
Other charges	Dollar amount per investor or description of how charge is calculated
Member fee	\$23.40

\* Based on a decrease in the Manager's basic fee and Other management and administration charges, the Manager estimates that the total fund charges for the next scheme year will reduce to 0.78% of the net asset value.

Different member fees or fee rebates may apply to some members. Any different fees or rebates will be set out in the Member Booklet or supplement, if applicable, which you can request from your Adviser.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the 'fees and other charges' document on the entry relating to the offer of interests in the AMP KiwiSaver Scheme maintained on the offer register ([disclose-register.companiesoffice.govt.nz](https://disclose-register.companiesoffice.govt.nz)) for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

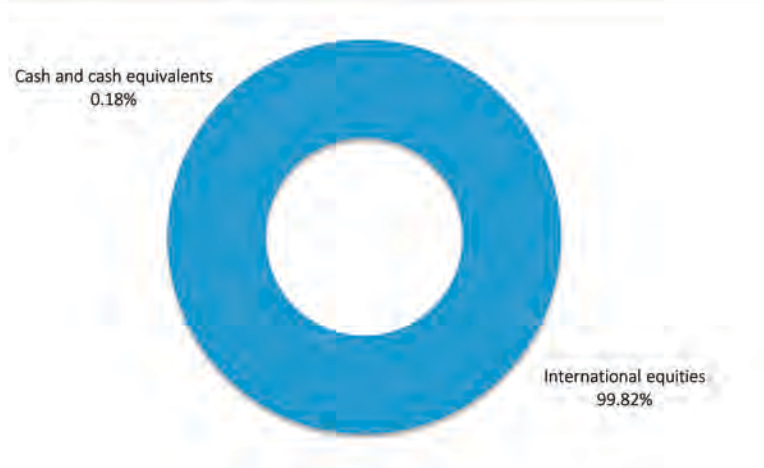

## Example of how this applies to an investor

Craig had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Craig incurred a loss after fund charges were deducted of \$519.00 (that is -5.19% of his initial \$10,000). Craig also paid \$23.40 in other charges. This gives Craig a total loss after tax of \$542.40 for the year.

- 4 The other management and administration charges include estimates of underlying fund charges provided by underlying fund managers.
- 5 The actual investment mix and top ten investments have been calculated excluding cash and cash equivalents held for operational purposes.

# Fund Update

for the quarter ended 31 March 2023

This fund update was first made publicly available on 3 May 2023

## What is the purpose of this update?

This document tells you how the ANZ Balanced Growth Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. AMP Wealth Management New Zealand Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

## Description of this fund

The fund invests mainly in share and listed property assets, with some exposure to cash and fixed interest assets. The fund aims to achieve investment performance ahead of inflation over the long term and achieve investment performance that reflects the level of risk applicable to the fund's underlying asset classes.

Total value of the fund	\$309,022,804
Number of investors in the fund	6434
The date the fund started	1 October 2007

## What are the risks of investing?

Risk indicator for the ANZ Balanced Growth Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at [sorted.org.nz/tools/investor-profiler](https://sorted.org.nz/tools/investor-profiler).

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

## How has the fund performed?

	Average over past 5 years	Past year
Annual return (after deductions for charges and tax)	4.66%	-4.88%
Annual return (after deductions for charges but before tax)	5.29%	-5.47%
Market index annual return (reflects no deduction for charges and tax)	5.85%	-3.71%

The market index annual return is based on a composite index, calculated using the target investment mix weightings of the underlying market indices that the fund invests into. Additional information about the market index is available on the offer register at [disclose-register.companiesoffice.govt.nz](https://disclose-register.companiesoffice.govt.nz). Index disclaimers can be found on the AMP website at [amp.co.nz/indexdisclaimers](https://amp.co.nz/indexdisclaimers).

## Annual return graph

This shows the return after fund charges and tax for each of the last 10 years ending 31 March. The last bar shows the average annual return for the last 10 years, up to 31 March 2023.

**Important:** This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

## What fees are investors charged?

Investors in the ANZ Balanced Growth Fund are charged fund charges. In the year to 31 March 2022 these were:

	% of net asset value
<b>Total fund charges</b> (estimated) <sup>1</sup>	1.16%
Which are made up of -	
<b>Total management and administration charges</b> (estimated)	1.16%
Including -	
Manager's basic fee (estimated) <sup>2</sup>	1.09%
Other management and administration charges (estimated) <sup>3</sup>	0.07%
<b>Total performance-based fees</b>	0.00%
<b>Other charges</b>	<b>Dollar amount per investor or description of how charge is calculated</b>
Member fee	\$23.40

Different member fees or fee rebates may apply to some members. Any different fees or rebates will be set out in the Member Booklet or supplement, if applicable, which you can request from your Adviser.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the 'fees and other charges' document on the entry relating to the offer of interests in the AMP KiwiSaver Scheme maintained on the offer register ([disclose-register.companiesoffice.govt.nz](https://disclose-register.companiesoffice.govt.nz)) for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

## Example of how this applies to an investor

Craig had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Craig incurred a loss after fund charges were deducted of \$488.00 (that is -4.88% of his initial \$10,000). Craig also paid \$23.40 in other charges. This gives Craig a total loss after tax of \$511.40 for the year.

### Specific risk

In addition to the general investment risks, you should be aware this fund is concentrated in a particular asset class and not diversified across multiple asset classes. At any given point, market conditions that cause one asset class to perform well may cause another asset class to perform poorly. This could result in negative or lower than expected returns compared to a fund which is diversified across multiple asset classes.

## How has the fund performed?

	Average over past 5 years <sup>1</sup>	Past year <sup>1</sup>

\* Based on a decrease in the Manager's basic fee and Other management and administration charges, the Manager estimates that the total fund charges for the next scheme year will reduce to 1.09% of the net asset value.

Different member fees or fee rebates may apply to some members. Any different fees or rebates will be set out in the Member Booklet or supplement, if applicable, which you can request from your Adviser.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the 'fees and other charges' document on the entry relating to the offer of interests in the AMP KiwiSaver Scheme maintained on the offer register ([disclose-register.companiesoffice.govt.nz](https://disclose-register.companiesoffice.govt.nz)) for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

## Example of how this applies to an investor

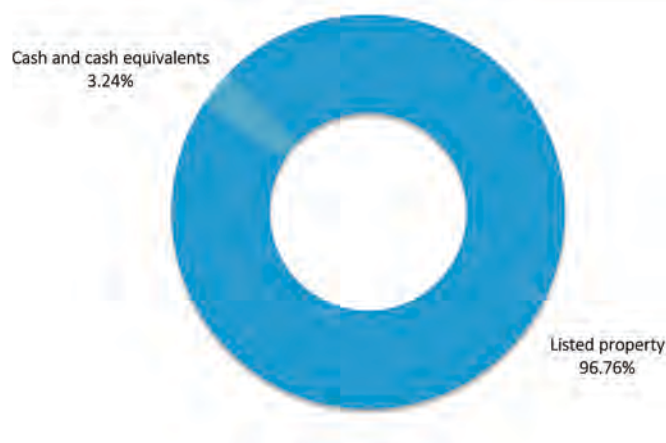

Craig had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Craig incurred a loss after fund charges were deducted of \$2,071.00 (that is -20.71% of his initial \$10,000). Craig also paid \$23.40 in other charges. This gives Craig a total loss after tax of \$2,094.40 for the year.

## Notes

- 1 In December 2021, ANZ New Zealand Investments Limited (ANZ) took over from AMP Capital Investors (New Zealand) Limited (AMP Capital), now known as Macquarie Asset Management (NZ) Limited (Macquarie), as the underlying fund manager for this fund. From 1 June 2019 through to December 2021, the underlying investment of this fund changed from the Australasian Property fund managed by AMP Capital to the Property fund managed by AMP Capital. The fund performance in the table therefore shows the performance of both investment strategies as well as fund performance which relates to both ANZ and AMP Capital, now known as Macquarie.
- 2 The total fund charges are inclusive of any applicable GST.
- 3 The Manager's basic fee has been estimated to include a portion of administration fee estimates which was accounted until period 31 March 2022.
- 4 The other management and administration charges include estimates of underlying fund charges provided by underlying fund managers.
- 5 The actual investment mix and top ten investments have been calculated excluding cash and cash equivalents held for operational purposes.

# Fund Update

for the quarter ended 31 March 2023

This fund update was first made publicly available on 3 May 2023

## What is the purpose of this update?

This document tells you how the ASB Balanced Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. AMP Wealth Management New Zealand Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

## Description of this fund

The fund has a well-diversified portfolio that employs an active approach to asset allocation, with underlying investments predominantly in index tracking funds. The fund aims to provide moderate to high total returns allowing for moderate to high movements of value up and down.

Total value of the fund	\$34,433,426
Number of investors in the fund	1465
The date the fund started	28 July 2016

## What are the risks of investing?

Risk indicator for the ASB Balanced Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at [sorted.org.nz/tools/investor-profiler](https://sorted.org.nz/tools/investor-profiler).

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

## How has the fund performed?

	Average over past 5 years <sup>1</sup>	Past year <sup>1</sup>
Annual return (after deductions for charges and tax)	3.63%	-2.94%
Annual return (after deductions for charges but before tax)	4.01%	-3.01%
Market index annual return (reflects no deduction for charges and tax)	5.28%	-2.42%

The market index annual return is based on a composite index, calculated using the target investment mix weightings of the underlying market indices that the fund invests into. Additional information about the market index is available on the offer register at [disclose-register.companiesoffice.govt.nz](https://disclose-register.companiesoffice.govt.nz). Index disclaimers can be found on the AMP website at [amp.co.nz/indexdisclaimers](https://amp.co.nz/indexdisclaimers).

## Annual return graph<sup>1</sup>

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 31 March 2023.

**Important:** This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

## What fees are investors charged?

Investors in the ASB Balanced Fund are charged fund charges. In the year to 31 March 2022 these were:

	% of net asset value

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

## How has the fund performed?

	Average over past 5 years <sup>1, 2</sup>	Past year <sup>2</sup>
Annual return (after deductions for charges and tax)	3.47%	-3.20%
Annual return (after deductions for charges but before tax)	3.96%	-3.70%
Composite of market index annual return (reflects no deduction for charges and tax) and peer group index annual return (after deductions for charges but before tax)	4.91%	-2.82%

## Annual return graph<sup>1, 2, 3</sup>

This shows the return after fund charges and tax for each of the last 10 years ending 31 March. The last bar shows the average annual return for the last 10 years, up to 31 March 2023.

**Important:** This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

## What fees are investors charged?

Investors in the Mercer Balanced Fund are charged fund charges. In the year to 31 March 2022 these were:

	% of net asset value
<b>Total fund charges (estimated)<sup>4</sup></b>	1.22%
Which are made up of -	
<b>Total management and administration charges (estimated)</b>	1.22%
Including -	
Manager's basic fee (estimated) <sup>5</sup>	1.13%
Other management and administration charges (estimated) <sup>6</sup>	0.09%
<b>Total performance-based fees</b>	0.00%
Other charges	Dollar amount per investor or description of how charge is calculated
Member fee	\$23.40

Different member fees or fee rebates may apply to some members. Any different fees or rebates will be set out in the Member Booklet or supplement, if applicable, which you can request from your Adviser.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the 'fees and other charges' document on the entry relating to the offer of interests in the AMP KiwiSaver Scheme maintained on the offer register ([disclose-register.companiesoffice.govt.nz](https://disclose-register.companiesoffice.govt.nz)) for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

## Example of how this applies to an investor

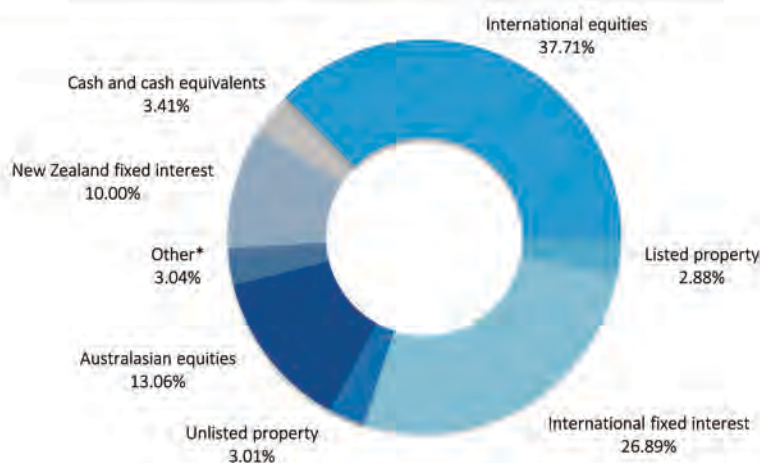

Craig had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Craig incurred a loss after fund charges were deducted of \$320.00 (that is -3.20% of his initial \$10,000). Craig also paid \$23.40 in other charges. This gives Craig a total loss after tax of \$343.40 for the year.

The top 10 investments make up 100.00% of the fund.

## Currency hedging

The fund will (or will invest in underlying funds that will):

- fully hedge (after tax for a 28% PIR investor) foreign currency exposure arising from International fixed interest back to New Zealand dollars;
- hedge the foreign currency exposure arising from Listed and Unlisted property, Listed and Unlisted infrastructure and Commodities 100% net hedged (for a 28% PIR investor) back to New Zealand dollars; and
- hedge the foreign currency exposure arising from International equities (excluding Listed infrastructure) with a benchmark of 50% net hedged (for a 28% PIR investor) back to New Zealand dollars and a permitted range of 0% to 100%. Proxy hedging (i.e. using the currency of a country as a proxy for the currency of another country) is also permitted.

Where active currency management is being employed in accordance with the Active Currency Management Policy set out in the Statement of Investment Policy and Objectives, the result may be something other than a fully-hedged position for International fixed interest.

## Notes

- 1 From 25 June 2018 Mercer (N.Z.) Limited (Mercer) replaced Fisher Funds Management Limited (Fisher) as the underlying fund manager of the Fund. The fund performance in the table therefore shows fund performance which relates to both Mercer and Fisher.
- 2 We have used a composite index to prepare the table and bar graph, as there was no market index available for some of the relevant assets. The composite index is calculated using the target investment mix weightings of the underlying market and peer group indices for the asset classes that the fund invests into. A composite index may be a less reliable indicator of performance than an appropriate market index. In the table and bar graph, the return for the market index reflects no deduction for fund charges, trading expenses and tax, and the return for the peer group index reflects deductions for fund charges and trading expenses, but before tax. Additional information about the market and peer group indices is available in the Statement of Investment Policy and Objectives for your product which is available on the offer register at [disclose-register.companiesoffice.govt.nz](https://disclose-register.companiesoffice.govt.nz). Index disclaimers can be found on the AMP website at [amp.co.nz/indexdisclaimers](https://amp.co.nz/indexdisclaimers).
- 3 From Q1 2021, the methodology used to calculate the index return now uses daily returns, rather than monthly returns. As a result there will be a change in the index return for the years ended 31 March 2019 and 31 March 2020, compared with those shown in previous fund updates.
- 4 The total fund charges are inclusive of any applicable GST.
- 5 The Manager's basic fee has been estimated to include a portion of administration fee estimates which was accounted until period 31 March 2022.
- 6 The other management and administration charges include estimates of underlying fund charges provided by underlying fund managers.
- 7 The actual investment mix and top ten investments have been calculated excluding cash and cash equivalents held for operational purposes.

Total value of the fund	\$22,157,528
Number of investors in the fund	882
The date the fund started	23 February 2022

## What are the risks of investing?

Risk indicator for the Milford Active Growth Fund<sup>1</sup>:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at [sorted.org.nz/tools/investor-profiler](https://sorted.org.nz/tools/investor-profiler).

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates. See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

## How has the fund performed?

	Past year
Annual return (after deductions for charges and tax)	-2.22%
Annual return (after deductions for charges but before tax)	-2.32%
Market index annual return (reflects no deduction for charges and tax)	-2.05%

The market index annual return is based on a composite index, calculated using the target investment mix weightings of the underlying market indices that the fund invests into. Additional information about the market index is available on the offer register at [disclose-register.companiesoffice.govt.nz](https://disclose-register.companiesoffice.govt.nz). ## Notes

- 1 As the fund started on 23 February 2022, actual returns for the last five years are not available. To calculate the risk indicator for the five year period up to the date of this fund update, a combination of market index returns, underlying fund returns and actual returns have been used where relevant. We consider this to be the most appropriate way to calculate the risk indicator, but as a result of this calculation, the risk indicator may provide a less reliable indicator of the potential future volatility of the fund than it would if actual returns for the last five years were able to be used.
- 2 The total fund charges are inclusive of any applicable GST.
- 3 As the fund started on 23 February 2022, historical fee information prior to that date is not available. The total fund charges shown include our best estimates of the amount of costs and expenses that will be charged to the fund. These have been estimated as a percentage of the fund's net asset value and include both expenses expected to be incurred by the fund and fees (and costs) expected to be charged by the managers of the underlying funds in which the fund invests. These include fees for audit, printing and distribution, regulatory compliance, IT costs, administration manager charges, performance fees charged by unrelated underlying funds and other professional services fees. These fees have been determined using estimates provided by the underlying fund managers, our experience with the Scheme and a presumption that total fund charges will increase over the Scheme's next accounting period to 31 March 2023 as a result of increased regulatory costs and administration manager charges.
- 4 The Manager's basic fee has been estimated to include a portion of administration fee estimates which was accounted until period 31 March 2022.
- 5 The other management and administration charges include estimates of underlying fund charges provided by underlying fund managers.
- 6 The actual investment mix and top ten investments have been calculated excluding cash and cash equivalents held for operational purposes.

## Notes

- 1 As the fund started on 23 February 2022, actual returns for the last five years are not available. To calculate the risk indicator for the five year period up to the date of this fund update, a combination of market index returns, underlying fund returns and actual returns have been used where relevant. We consider this to be the most appropriate way to calculate the risk indicator, but as a result of this calculation, the risk indicator may provide a less reliable indicator of the potential future volatility of the fund than it would if actual returns for the last five years were able to be used.
- 2 The total fund charges are inclusive of any applicable GST.
- 3 As the fund started on 23 February 2022, historical fee information prior to that date is not available. The total fund charges shown include our best estimates of the amount of costs and expenses that will be charged to the fund. These have been estimated as a percentage of the fund's net asset value and include both expenses expected to be incurred by the fund and fees (and costs) expected to be charged by the managers of the underlying funds in which the fund invests. These include fees for audit, printing and distribution, regulatory compliance, IT costs, administration manager charges, performance fees charged by unrelated underlying funds and other professional services fees. These fees have been determined using estimates provided by the underlying fund managers, our experience with the Scheme and a presumption that total fund charges will increase over the Scheme's next accounting period to 31 March 2023 as a result of increased regulatory costs and administration manager charges.
- 4 The Manager's basic fee has been estimated to include a portion of administration fee estimates which was accounted until period 31 March 2022.
- 5 The other management and administration charges include estimates of underlying fund charges provided by underlying fund managers.
- 6 The actual investment mix and top ten investments have been calculated excluding cash and cash equivalents held for operational purposes.

# Fund Update

for the quarter ended 31 March 2023

This fund update was first made publicly available on 3 May 2023

## What is the purpose of this update?

This document gives you information about the Milford Conservative Fund, including its target investment mix and what fees are charged. The document will help you to compare the fund with other funds. AMP Wealth Management New Zealand Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

## Description of this fund

To provide a diversified portfolio that primarily invests in fixed interest securities, with a moderate allocation to equities. The fund's objective is to achieve moderate returns and protect capital over the minimum recommended investment timeframe. While conservative in nature, the fund may experience short term negative returns, particularly in times of heightened volatility.

Total value of the fund	\$6,481,360
Number of investors in the fund	189
The date the fund started	23 February 2022

## What are the risks of investing?

Risk indicator for the Milford Conservative Fund<sup>1</sup>:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at [sorted.org.nz/tools/investor-profiler](https://sorted.org.nz/tools/investor-profiler).

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates. See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

## How has the fund performed?

	Past year
<b>Annual return</b> (after deductions for charges and tax)	0.24%
<b>Annual return</b> (after deductions for charges but before tax)	0.53%
<b>Market index annual return</b> (reflects no deduction for charges and tax)	-0.67%

The market index annual return is based on a composite index, calculated using the target investment mix weightings of the underlying market indices that the fund invests into. Additional information about the market index is available on the offer register at [disclose-register.companiesoffice.govt.nz](https://disclose-register.companiesoffice.govt.nz). Index disclaimers can be found on the AMP website at [amp.co.nz/indexdisclaimers](https://amp.co.nz/indexdisclaimers).

Annual return graph

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 31 March 2023.

**Important:** This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the Milford Conservative Fund are charged fund charges. Our estimate of the fund charges as at 31 March 2023 are:

	% of net asset value
Total fund charges (estimated) <sup>2, 3</sup>	1.25%
Which are made up of -	
Total management and administration charges (estimated) <sup>3</sup>	1.25%
Including -	
Manager's basic fee (estimated) <sup>4</sup>	1.21%
Other management and administration charges (estimated) <sup>5</sup>	0.04%
Total performance-based fees	0.00%
Other charges	Dollar amount per investor or description of how charge is calculated
Member fee	\$23.40

Different member fees or fee rebates may apply to some members. Any different fees or rebates will be set out in the Member Booklet or supplement, if applicable, which you can request from your Adviser.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the 'fees and other charges' document on the entry relating to the offer of interests in the AMP KiwiSaver Scheme maintained on the offer register ([disclose-register.companiesoffice.govt.nz](https://disclose-register.companiesoffice.govt.nz)) for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Craig had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Craig received a return after fund charges were deducted of \$24.00 (that is 0.24% of his initial \$10,000). Craig also paid \$23.40 in other charges. This gives Craig a total return after tax of \$0.60 for the year.

This fund update was first made publicly available on 3 May 2023

## What is the purpose of this update?

This document tells you how the Nikko AM Balanced Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. AMP Wealth Management New Zealand Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

## Description of this fund

The fund aims to provide investors with a carefully constructed balance of diversified assets in a manner that aims to both optimise investment returns and to minimise the risk of investment loss, and to preserve the capital value of investing funds over the longer term in real terms. The fund gains its investment exposure by investing into a range of actively managed funds to create a diversified portfolio with a balanced mix of lower and higher risk assets.

Total value of the fund	\$82,040,673
Number of investors in the fund	2683
The date the fund started	1 October 2007

## What are the risks of investing?

Risk indicator for the Nikko AM Balanced Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at [sorted.org.nz/tools/investor-profiler](https://sorted.org.nz/tools/investor-profiler).

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

## Notes

- 1 We have used a composite index to prepare the table and bar graph, as there was no market index available for some of the relevant assets. The composite index is calculated using the target investment mix weightings of the underlying market and peer group indices for the asset classes that the fund invests into. A composite index may be a less reliable indicator of performance than an appropriate market index. The composite index used in this fund update is not directly relevant for all of the underlying assets of this fund. In the table and bar graph, the return for the market index reflects no deduction for fund charges, trading expenses and tax, and the return for the peer group index reflects deductions for fund charges and trading expenses, but before tax. Additional information about the market and peer group indices is available in the Statement of Investment Policy and Objectives for your product which is available on the offer register at [disclose-register.companiesoffice.govt.nz](https://disclose-register.companiesoffice.govt.nz). Index disclaimers can be found on the AMP website at [amp.co.nz/indexdisclaimers](https://amp.co.nz/indexdisclaimers).
- 2 Some components of the composite index for this fund have changed in the past quarter to more closely align with the underlying investments. For details of the indices used to calculate the composite index, please see the Statement of Investment Policy and Objectives for your product which is available on the offer register at [disclose-register.companiesoffice.govt.nz](https://disclose-register.companiesoffice.govt.nz).
- 3 The indices used to calculate index returns for this fund includes the EurekaHedge Fund of Funds Index, which is a peer group index. We have aligned the timing for calculating returns for that index with the approach taken by the underlying fund manager, and accordingly the index return in the annual return graph has been revised slightly from previous fund updates which use those returns.
- 4 The total fund charges are inclusive of any applicable GST.
- 5 The Manager's basic fee has been estimated to include a portion of administration fee estimates which was accounted until period 31 March 2022.
- 6 The other management and administration charges include estimates of underlying fund charges provided by underlying fund managers.
- 7 The actual investment mix and top ten investments have been calculated excluding cash and cash equivalents held for operational purposes.

Total value of the fund	\$39,944,020
Number of investors in the fund	2200
The date the fund started	28 July 2016

## What are the risks of investing?

Risk indicator for the Nikko AM Growth Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at [sorted.org.nz/tools/investor-profiler](https://sorted.org.nz/tools/investor-profiler).

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

## How has the fund performed?

	Average over past 5 years <sup>1, 2</sup>	Past year <sup>1, 2</sup>

## Annual return graph<sup>1, 2, 3</sup>

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 31 March 2023.

**Important:** This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

## What fees are investors charged?

Investors in the Nikko AM Growth Fund are charged fund charges. In the year to 31 March 2022 these were:

	% of net asset value
<b>Total fund charges (estimated)<sup>4</sup></b>	1.34%
Which are made up of -	
<b>Total management and administration charges (estimated)</b>	1.34%
Including -	
Manager's basic fee (estimated) <sup>5</sup>	1.20%
Other management and administration charges (estimated) <sup>6</sup>	0.14%
<b>Total performance-based fees</b>	0.00%
<b>Other charges</b>	<b>Dollar amount per investor or description of how charge is calculated</b>
Member fee	\$23.40

Different member fees or fee rebates may apply to some members. Any different fees or rebates will be set out in the Member Booklet or supplement, if applicable, which you can request from your Adviser.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the 'fees and other charges' document on the entry relating to the offer of interests in the AMP KiwiSaver Scheme maintained on the offer register ([disclose-register.companiesoffice.govt.nz](https://disclose-register.companiesoffice.govt.nz)) for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

## Example of how this applies to an investor

Craig had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Craig incurred a loss after fund charges were deducted of \$850.00 (that is -8.50% of his initial \$10,000). Craig also paid \$23.40 in other charges. This gives Craig a total loss after tax of \$873.40 for the year.

## Notes

- 1 We have used a composite index to prepare the table and bar graph, as there was no market index available for some of the relevant assets. The composite index is calculated using the target investment mix weightings of the underlying market and peer group indices for the asset classes that the fund invests into. A composite index may be a less reliable indicator of performance than an appropriate market index. The composite index used in this fund update is not directly relevant for all of the underlying assets of this fund. In the table and bar graph, the return for the market index reflects no deduction for fund charges, trading expenses and tax, and the return for the peer group index reflects deductions for fund charges and trading expenses, but before tax. Additional information about the market and peer group indices is available in the Statement of Investment Policy and Objectives for your product which is available on the offer register at [disclose-register.companiesoffice.govt.nz](https://disclose-register.companiesoffice.govt.nz). Index disclaimers can be found on the AMP website at [amp.co.nz/indexdisclaimers](https://amp.co.nz/indexdisclaimers).
- 2 Some components of the composite index for this fund have changed in the past quarter to more closely align with the underlying investments. For details of the indices used to calculate the composite index, please see the Statement of Investment Policy and Objectives for your product which is available on the offer register at [disclose-register.companiesoffice.govt.nz](https://disclose-register.companiesoffice.govt.nz).
- 3 The indices used to calculate index returns for this fund includes the EurekaHedge Fund of Funds Index, which is a peer group index. We have aligned the timing for calculating returns for that index with the approach taken by the underlying fund manager, and accordingly the index return in the annual return graph has been revised slightly from previous fund updates which use those returns.
- 4 The total fund charges are inclusive of any applicable GST.
- 5 The Manager's basic fee has been estimated to include a portion of administration fee estimates which was accounted until period 31 March 2022.
- 6 The other management and administration charges include estimates of underlying fund charges provided by underlying fund managers.
- 7 The actual investment mix and top ten investments have been calculated excluding cash and cash equivalents held for operational purposes.
