Conduct (Market Index) Exemption Notice 2024

Dated 1 September 2025

Disclosure to rely on Financial Markets Conduct (Market Index) Exemption Notice 2024

The following funds have opted to rely on the Financial Markets Conduct (Market Index) Exemption Notice 2024 (the exemption).

Diversified Funds

For the GoalsGetter KiwiSaver Scheme Amova Conservative, Balanced, Growth and High Growth funds (together, “Diversified Funds”), a composite index is used in order to calculate the market index annual return published in each funds fund update. These diversified Funds are made up of assets, being underlying sector funds, with an appropriate market index.

Amova NZ (the “Manager”) believes the use of a composite benchmark for these funds is useful to investors in assessing the performance of each Diversified Fund. The composite market index for each Diversified Fund is made up of the index of the underlying sector funds (where an appropriate market index has been identified) multiplied by each respective target investment mix for the underlying sector fund. The average weighted composite return is then applied to the whole fund.

For details of the target asset allocation to each of the above underlying sector funds, please see the Amova Investment Scheme Statement of Investment Policies and Objectives.

Diversified Funds - underlying Sector Funds	Appropriate Market Index (AMI) or Peer Group Index (PGI)	Diversified Fund Composite Index Components			
		Conservative Fund	Balanced Fund	Growth Fund	High Growth Fund
