Dear Sir

NZME BUILDING A, 4 GRAHAM STREET, AUCKLAND
HG REF: 1011-139819-01

In relation to Building A located at 4 Graham Street in Auckland, we can confirm that Harrison Grierson has completed a review of the seismic rating of the existing building. We can confirm that the seismic rating is at least 100% New Building Standard (%NBS) and the building meets all current seismic code requirements.

After a further review of the structural calculations provided by MSC Consulting Group, we can confirm that critical element capacity in the design was found to be at 102% of the demand. This gives the exact rating as 102% NBS.

We confirm that this can be relied upon by Augusta Funds Management Limited and/or nominees.

Please contact us if you require any further information.

Yours faithfully
Harrison Grierson
