

Sustainability reporting for the quarter ended 30 June 2025

ONEANSWER KIWISAVER SCHEME SUSTAINABLE INTERNATIONAL SHARE FUND

FUND DESCRIPTION

The Sustainable International Share Fund (the **Fund**) invests mainly in international equities with a focus on environmental, social and governance (**ESG**) considerations. Investments may include:

- equities in companies that are listed on a recognised stock exchange, and
- cash and cash equivalents.

The Fund aims to achieve a positive yearly return (after the fund charge and before tax) that over the long term outperforms the relevant market index, currently the MSCI World ex Australia Index with net dividends reinvested (New Zealand dollar) (the **Index**).

SUSTAINABILITY STRATEGY

The Fund invests in the ANZ Wholesale International Share – No. 5 Fund, an underlying single-asset-class fund managed by us. We have appointed Northern Trust Investments, Inc. (**Northern Trust**) as the external fund manager of this underlying fund. Northern Trust's investment strategy focuses on companies that:

- screen well on quality, including measures of profitability and return on equity,
- have a low carbon intensity as measured by a company's carbon emissions compared to annual sales revenues,
- have a high ESG score (that is, how well a company scores on environmental, social and governance factors), and
- score well on their ability to transition to a low carbon economy as measured by the low carbon transition score.

*We do not guarantee that the sustainability goals will be achieved.

As part of our rolling 3-year assessment, we are in the process of reviewing the Fund's sustainability goals. We will disclose any changes to these goals in the [Statement of Investment Policy and Objectives](#) and future quarterly reports and updates.

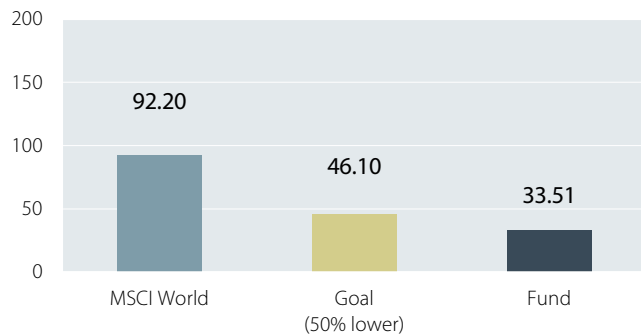

1. WEIGHTED AVERAGE CARBON INTENSITY¹

Weighted average carbon intensity represents a company's most recently reported (or estimated) Scope 1 + Scope 2² greenhouse gas emissions divided by sales in US dollars (tonnes CO₂ for every 1 million sales). This allows for comparison between companies of different sizes.

The goal is for the Fund to have a carbon intensity that is 50% lower than the Index.

In the quarter to 30 June 2025, the carbon intensity for the Fund was 63.7% below the Index at 48.08 versus the target reduction of 50% as a result of tilting towards companies that have a lower carbon intensity.
