Fund Update

for the quarter ended 31 March 2022

This fund update was first made publicly available on 3 May 2022

What is the purpose of this update?

This document tells you how the AMP Australasian Shares Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. AMP Wealth Management New Zealand Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

This is a single sector fund with exposure to equity securities of companies that are listed on the NZ and Australian stock exchange. The fund aims to achieve long term capital growth through exposure to shares of companies listed in New Zealand and Australia.

| | |
|---------------------------------|--------------|
| Total value of the fund | \$8,395,505 |
| Number of investors in the fund | 546 |
| The date the fund started | 28 July 2016 |

What are the risks of investing?

Risk indicator for the AMP Australasian Shares Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

Specific risk

In addition to the general investment risks, you should be aware this fund is concentrated in a particular asset class and not diversified across multiple asset classes. At any given point, market conditions that cause one asset class to perform well may cause another asset class to perform poorly. This could result in negative or lower than expected returns compared to a fund which is diversified across multiple asset classes.

How has the fund performed?

| | Average over past 5 years ¹ | Past year ¹ |
|--|--|------------------------|
| Annual return (after deductions for charges and tax) | 7.69% | -1.14% |
| Annual return (after deductions for charges but before tax) | 8.56% | -0.43% |
| Market index annual return (reflects no deduction for charges and tax) | 11.12% | 1.58% |

The market index annual return is based on 71% S&P/NZX 50 Index Gross with Imputation and 29% MSCI Australian Shares All Cap 300 ex Select GICS ex Select Securities Custom ESG 100% Hedged to NZD Index. Additional information about the market index is available on the offer register at disclose-register.companiesoffice.govt.nz. Index disclaimers can be found on the AMP website at amp.co.nz/indexdisclaimers.

Annual return graph¹

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 31 March 2022.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the AMP Australasian Shares Fund are charged fund charges. In the year to 31 March 2021 these were:

| | % of net asset value |
|--|--|
| Total fund charges (estimated)² | 1.12%* |
| Which are made up of - | |
| Total management and administration charges (estimated) | 1.12% |
| Including - | |
| Manager's basic fee (estimated) | 1.03% |
| Other management and administration charges (estimated) ³ | 0.09% |
| Total performance-based fees | 0.00% |
| Other charges | Dollar amount per investor or description of how charge is calculated |
| Member fee | \$23.40 |

* Based on a decrease in the Manager's basic fee, the Manager estimates that the total fund charges for the next scheme year will reduce to 0.88% of the net asset value.

Different member fees or fee rebates may apply to some members. Any different fees or rebates will be set out in the Member Booklet or supplement, if applicable, which you can request from your Adviser.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the 'fees and other charges' document on the entry relating to the offer of interests in the AMP KiwiSaver Scheme maintained on the offer register (disclose-register.companiesoffice.govt.nz) for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Craig had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Craig incurred a loss after fund charges were deducted of \$114.00 (that is -1.14% of his initial \$10,000). Craig also paid \$23.40 in other charges. This gives Craig a total loss after tax of \$137.40 for the year.

Notes

- 1 From 12 July 2021, AMP Wealth Management New Zealand Limited (AMPWM) took over from AMP Capital Investors (New Zealand) Limited (AMP Capital), now known as Macquarie Asset Management (NZ) Limited (Macquarie), as the underlying fund manager for this fund. The fund performance in the table shows fund performance which relates to both AMPWM (with support from BlackRock Investment Management (Australia) Limited) and AMP Capital, now known as Macquarie.
- 2 The total fund charges are inclusive of any applicable GST.
- 3 The other management and administration charges include estimates of underlying fund charges provided by underlying fund managers. The balance dates of the underlying fund(s) do not align with the balance date of the fund. To estimate the charges, AMP includes the underlying fund charges as at the relevant underlying fund(s) balance date, adjusted (where required) to reflect any material changes advised to AMP by the relevant underlying manager as having occurred during the intervening period.
- 4 The actual investment mix and top ten investments have been calculated excluding cash and cash equivalents held for operational purposes.

Fund Update

Notes

- 1 From 12 July 2021, AMP Wealth Management New Zealand Limited (AMPWM) took over from AMP Capital Investors (New Zealand) Limited (AMP Capital), now known as Macquarie Asset Management (NZ) Limited (Macquarie), as the underlying fund manager for this fund. The fund performance in the table shows fund performance which relates to both AMPWM (with support from BlackRock Investment Management (Australia) Limited) and AMP Capital, now known as Macquarie.
- 2 For the table, we have used a combined composite index and appropriate market index to calculate market index returns because the fund ceased to invest in relevant assets during the quarter ending 30 September 2021. For the bar graph, index returns have been calculated with reference to a composite index or appropriate market index. The composite index is calculated using the target investment mix weightings of the underlying market and peer group indices for the asset classes that the fund invested into. A composite index may be a less reliable indicator of performance than an appropriate market index. In the table and bar graph, the return for the market index reflects no deduction for fund charges, trading expenses and tax, and the return for the peer group index (forming part of the composite index) reflects deductions for fund charges and trading expenses, but before tax.
- 3 The total fund charges are inclusive of any applicable GST.
- 4 The other management and administration charges include estimates of underlying fund charges provided by underlying fund managers. The balance dates of the underlying fund(s) do not align with the balance date of the fund. To estimate the charges, AMP includes the underlying fund charges as at the relevant underlying fund(s) balance date, adjusted (where required) to reflect any material changes advised to AMP by the relevant underlying manager as having occurred during the intervening period.
- 5 The actual investment mix and top ten investments have been calculated excluding cash and cash equivalents held for operational purposes.

Fund Update

for the quarter ended 31 March 2022

This fund update was first made publicly available on 3 May 2022

What is the purpose of this update?

This document tells you how the AMP Capital Global Multi-Asset Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. AMP Wealth Management New Zealand Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

This is a diversified fund that aims to generate a positive return above inflation and actively respond to market conditions with a flexible approach to investing. Assets are managed using a multi-manager approach that provides diversity across asset classes, sectors, geographies and investment managers, and enables change in investment allocations due to market conditions. Risk mitigation strategies are designed to lower return volatility and reduce the impact of market related events.

|---------------------------------|--------------|
| Total value of the fund | \$9,941,456 |
| Number of investors in the fund | 324 |
| The date the fund started | 28 July 2016 |

What are the risks of investing?

Risk indicator for the AMP Capital Global Multi-Asset Fund¹:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

Specific risk

In addition to the general investment risks, you should be aware that the investment management style of this fund means that it may be concentrated in a particular asset class or type of investment vehicle, geographical area or industry at any point in time. This may subject the fund to significant performance volatility relative to its objectives. If this volatility occurs, the AMP Capital Global Multi-Asset Fund may fail to meet its stated performance objective.

How has the fund performed?

| | Average over past 5 years ^{2,3,4} | Past year ^{2,3,4} |
|--|--|----------------------------|
| Annual return (after deductions for charges and tax) | 1.93% | 0.97% |

Annual return graph^{2,3,4}

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 31 March 2022.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the AMP Capital Global Multi-Asset Fund are charged fund charges. In the year to 31 March 2021 these were:

| | % of net asset value |
|--|--|
| Total fund charges (estimated)⁵ | 1.61% |
| Which are made up of - | |
| Total management and administration charges (estimated) | 1.61% |

| Manager's basic fee (estimated) | 1.43% |
| Other management and administration charges (estimated) ⁶ | 0.18% |
| Total performance-based fees | 0.00% |
| Other charges | Dollar amount per investor or description of how charge is calculated |
| Member fee | \$23.40 |

Different member fees or fee rebates may apply to some members. Any different fees or rebates will be set out in the Member Booklet or supplement, if applicable, which you can request from your Adviser.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the 'fees and other charges' document on the entry relating to the offer of interests in the AMP KiwiSaver Scheme maintained on the offer register (disclose-register.companiesoffice.govt.nz) for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

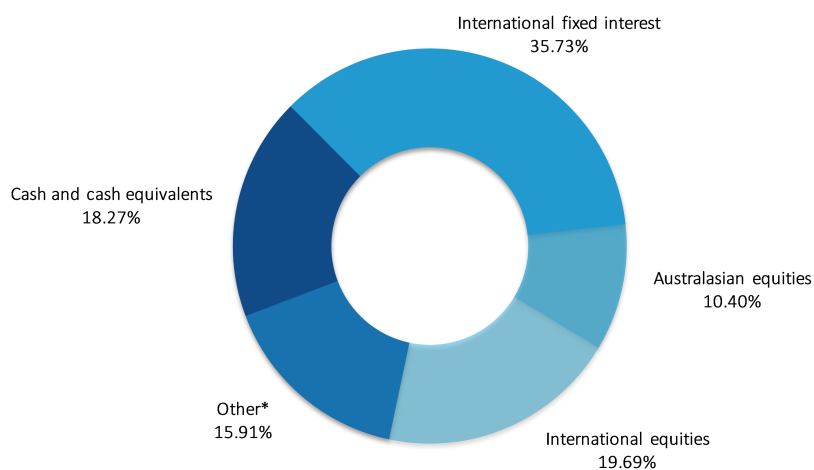

Example of how this applies to an investor

Craig had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Craig received a return after fund charges were deducted of \$97.00 (that is 0.97% of his initial \$10,000). Craig also paid \$23.40 in other charges. This gives Craig a total return after tax of \$73.60 for the year.

Notes

- 1 To calculate the risk indicator we have used expected volatility of the underlying fund. We consider this is the most reasonable method available. As a result of this method being used, the risk indicator may provide a less reliable indicator of the potential future volatility of the fund.
- 2 The table and bar graph does not include a market index return for comparative purposes.
- 3 There is no appropriate market index and no suitable peer group index or indices for the exempt fund against which to assess either movements in the market in relation to the returns from the assets in which the exempt fund invests, or the performance of the exempt fund as a whole.
- 4 AMP Capital Investors (New Zealand) Limited (AMP Capital) was renamed Macquarie Asset Management (NZ) Limited (Macquarie) and on 25 March 2022, AMP Limited divested ownership of Macquarie. The fund performance in the table therefore shows fund performance which relates to both Macquarie and AMP Capital. As part of these changes to the underlying fund manager, this fund was also renamed with effect from 1 April 2022. For more information, see amp.co.nz/transforming-amp.
- 5 The total fund charges are inclusive of any applicable GST.
- 6 The other management and administration charges include estimates of underlying fund charges provided by underlying fund managers. The balance dates of the underlying fund(s) do not align with the balance date of the fund. To estimate the charges, AMP includes the underlying fund charges as at the relevant underlying fund(s) balance date, adjusted (where required) to reflect any material changes advised to AMP by the relevant underlying manager as having occurred during the intervening period.
- 7 The actual investment mix and top ten investments have been calculated excluding cash and cash equivalents held for operational purposes.
- 8 The Global Multi-Asset Fund's target investment mix of 95% "Other" represents the fact that it doesn't have a target asset allocation but operates within broad ranges across asset types.

Fund Update

This fund update was first made publicly available on 3 May 2022

What is the purpose of this update?

This document tells you how the AMP Capital Income Generator Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. AMP Wealth Management New Zealand Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The fund invests in an underlying fund that invests in a diversified mix of growth and defensive assets, with a focus on reliable income generation. The fund aims to provide a gross fixed monthly income in excess of bank deposit rates, along with a positive return on capital over the long term.

| | |
|---------------------------------|--------------|
| Total value of the fund | \$3,693,318 |
| Number of investors in the fund | 165 |
| The date the fund started | 28 July 2016 |

What are the risks of investing?

Risk indicator for the AMP Capital Income Generator Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

How has the fund performed?

| | Average over past 5 years ¹ | Past year ¹ |
|---|--|------------------------|
| Annual return (after deductions for charges and tax) | 5.02% | 4.09% |
| Annual return (after deductions for charges but before tax) | 5.79% | 4.23% |
| Market index annual return (reflects no deduction for charges and tax) | 5.72% | 0.94% |

The market index annual return is based on a composite index, calculated using the target investment mix weightings of the underlying market indices that the fund invests into. Additional information about the market index is available on the offer register at disclose-register.companiesoffice.govt.nz. Index disclaimers can be found on the AMP website at amp.co.nz/indexdisclaimers.

Annual return graph¹

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 31 March 2022.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the AMP Capital Income Generator Fund are charged fund charges. In the year to 31 March 2021 these were:

| | % of net asset value |
|--|--|
| Total fund charges² | 1.12% |
| Which are made up of - | |
| Total management and administration charges | 1.12% |
| Including - | |
| Manager's basic fee | 0.98% |
| Other management and administration charges | 0.14% |
| Total performance-based fees | 0.00% |
| Other charges | Dollar amount per investor or description of how charge is calculated |
| Member fee | \$23.40 |

Different member fees or fee rebates may apply to some members. Any different fees or rebates will be set out in the Member Booklet or supplement, if applicable, which you can request from your Adviser.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the 'fees and other charges' document on the entry relating to the offer of interests in the AMP KiwiSaver Scheme maintained on the offer register (disclose-register.companiesoffice.govt.nz) for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Craig had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Craig received a return after fund charges were deducted of \$409.00 (that is 4.09% of his initial \$10,000). Craig also paid \$23.40 in other charges. This gives Craig a total return after tax of \$385.60 for the year.

- 3 The actual investment mix and top ten investments have been calculated excluding cash and cash equivalents held for operational purposes.

Fund Update

for the quarter ended 31 March 2022

This fund update was first made publicly available on 3 May 2022

What is the purpose of this update?

This document tells you how the AMP Cash Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. AMP Wealth Management New Zealand Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

This is a single sector fund which primarily invests in cash and short-term deposits. The fund aims to achieve modest, stable returns with a very low level of investment risk, in exchange there should be no significant short-term movements up and down in the value of your investments.

| | |
|---------------------------------|----------------|
| Total value of the fund | \$86,812,144 |
| Number of investors in the fund | 3201 |
| The date the fund started | 1 October 2007 |

What are the risks of investing?

Risk indicator for the AMP Cash Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

Specific risk

In addition to the general investment risks, you should be aware this fund is concentrated in a particular asset class and not diversified across multiple asset classes. At any given point, market conditions that cause one asset class to perform well may cause another asset class to perform poorly. This could result in negative or lower than expected returns compared to a fund which is diversified across multiple asset classes.

How has the fund performed?

| | Average over past 5 years ¹ | Past year ¹ |
|--|--|------------------------|
| Annual return (after deductions for charges and tax) | 0.65% | 0.03% |
| Annual return (after deductions for charges but before tax) | 0.91% | 0.04% |
| Market index annual return (reflects no deduction for charges and tax) | 1.26% | 0.58% |

The market index annual return is based on the Bloomberg NZBond Bank Bill Index. Additional information about the market index is available on the offer register at disclose-register.companiesoffice.govt.nz. Index disclaimers can be found on the AMP website at amp.co.nz/indexdisclaimers.

Annual return graph¹

This shows the return after fund charges and tax for each of the last 10 years ending 31 March. The last bar shows the average annual return for the last 10 years, up to 31 March 2022.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the AMP Cash Fund are charged fund charges. In the year to 31 March 2021 these were:

| | % of net asset value |
|--|--|
| Total fund charges² | 0.57% |
| Which are made up of - | |
| Total management and administration charges | 0.57% |
| Including - | |
| Manager's basic fee | 0.51% |
| Other management and administration charges | 0.06% |
| Total performance-based fees | 0.00% |
| Other charges | Dollar amount per investor or description of how charge is calculated |
| Member fee | \$23.40 |

Different member fees or fee rebates may apply to some members. Any different fees or rebates will be set out in the Member Booklet or supplement, if applicable, which you can request from your Adviser.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the 'fees and other charges' document on the entry relating to the offer of interests in the AMP KiwiSaver Scheme maintained on the offer register (disclose-register.companiesoffice.govt.nz) for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Craig had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Craig received a return after fund charges were deducted of \$3.00 (that is 0.03% of his initial \$10,000). Craig also paid \$23.40 in other charges. This gives Craig a total loss after tax of \$20.40 for the year.

| Member fee | \$23.40 |

* Based on a decrease in the Manager's basic fee and Other management and administration charges, the Manager estimates that the total fund charges for the next scheme year will reduce to 0.90% of the net asset value.

Different member fees or fee rebates may apply to some members. Any different fees or rebates will be set out in the Member Booklet or supplement, if applicable, which you can request from your Adviser.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the 'fees and other charges' document on the entry relating to the offer of interests in the AMP KiwiSaver Scheme maintained on the offer register (disclose-register.companiesoffice.govt.nz) for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Craig had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Craig received a return after fund charges were deducted of \$611.00 (that is 6.11% of his initial \$10,000). Craig also paid \$23.40 in other charges. This gives Craig a total return after tax of \$587.60 for the year.

Fund Update

for the quarter ended 31 March 2022

This fund update was first made publicly available on 3 May 2022

What is the purpose of this update?

This document tells you how the AMP International Shares Fund No. 2 has performed and what fees were charged. The document will help you to compare the fund with other funds. AMP Wealth Management New Zealand Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

This is a single sector fund with exposure to a diversified international equities portfolio. The fund aims to achieve long term capital growth through exposure to equities of companies listed on stock exchanges around the world.

| | |
|---------------------------------|--------------|
| Total value of the fund | \$13,628,757 |
| Number of investors in the fund | 550 |
| The date the fund started | 28 July 2016 |

What are the risks of investing?

Risk indicator for the AMP International Shares Fund No. 2:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

Specific risk

In addition to the general investment risks, you should be aware this fund is concentrated in a particular asset class and not diversified across multiple asset classes. At any given point, market conditions that cause one asset class to perform well may cause another asset class to perform poorly. This could result in negative or lower than expected returns compared to a fund which is diversified across multiple asset classes.

How has the fund performed?

| | Average over past 5 years ¹ | Past year ¹ |
|---|--|------------------------|
| Annual return (after deductions for charges and tax) | 10.15% | 7.29% |
| Annual return (after deductions for charges but before tax) | 11.22% | 8.58% |
| Market index annual return (reflects no deduction for charges and tax) | 11.88% | 8.34% |

The market index annual return is based on the MSCI World ex Select Countries & GICS ex Select Securities Custom ESG Enhanced Focus 45.5% Hedged to NZD Index. Additional information about the market index is available on the offer register at disclose-register.companiesoffice.govt.nz. Index disclaimers can be found on the AMP website at amp.co.nz/indexdisclaimers.

Annual return graph¹

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 31 March 2022.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the AMP International Shares Fund No. 2 are charged fund charges. In the year to 31 March 2021 these were:

| | % of net asset value |
|--|--|
| Total fund charges² | 0.86%* |
| Which are made up of - | |
| Total management and administration charges | 0.86% |
| Including - | |
| Manager's basic fee | 0.73% |
| Other management and administration charges | 0.13% |
| Total performance-based fees | 0.00% |
| Other charges | Dollar amount per investor or description of how charge is calculated |
| Member fee | \$23.40 |

* Based on a decrease in the Manager's basic fee and Other management and administration charges, the Manager estimates that the total fund charges for the next scheme year will reduce to 0.80% of the net asset value.

Different member fees or fee rebates may apply to some members. Any different fees or rebates will be set out in the Member Booklet or supplement, if applicable, which you can request from your Adviser.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the 'fees and other charges' document on the entry relating to the offer of interests in the AMP KiwiSaver Scheme maintained on the offer register (disclose-register.companiesoffice.govt.nz) for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Craig had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Craig received a return after fund charges were deducted of \$729.00 (that is 7.29% of his initial \$10,000). Craig also paid \$23.40 in other charges. This gives Craig a total return after tax of \$705.60 for the year.

Risk indicator for the ANZ Conservative Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

How has the fund performed?

| | Average over past 5 years | Past year |
|--|---------------------------|-----------|
| Annual return (after deductions for charges and tax) | 3.00% | -0.55% |
| Annual return (after deductions for charges but before tax) | 3.62% | -1.00% |
| Market index annual return (reflects no deduction for charges and tax) | 3.98% | -0.92% |

The market index annual return is based on a composite index, calculated using the target investment mix weightings of the underlying market indices that the fund invests into. Additional information about the market index is available on the offer register at disclose-register.companiesoffice.govt.nz. Index disclaimers can be found on the AMP website at amp.co.nz/indexdisclaimers.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the ANZ Conservative Fund are charged fund charges. In the year to 31 March 2021 these were:

| | % of net asset value |
|--|--|
| Total fund charges¹ | 1.06% |
| Which are made up of - | |
| Total management and administration charges | 1.06% |
| Including - | |
| Manager's basic fee | 0.98% |
| Other management and administration charges | 0.08% |
| Total performance-based fees | 0.00% |
| Other charges | Dollar amount per investor or description of how charge is calculated |
| Member fee | \$23.40 |

Different member fees or fee rebates may apply to some members. Any different fees or rebates will be set out in the Member Booklet or supplement, if applicable, which you can request from your Adviser.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the 'fees and other charges' document on the entry relating to the offer of interests in the AMP KiwiSaver Scheme maintained on the offer register (disclose-register.companiesoffice.govt.nz) for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Craig had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Craig incurred a loss after fund charges were deducted of \$55.00 (that is -0.55% of his initial \$10,000). Craig also paid \$23.40 in other charges. This gives Craig a total loss after tax of \$78.40 for the year.

Specific risk

In addition to the general investment risks, you should be aware this fund is concentrated in a particular asset class and not diversified across multiple asset classes. At any given point, market conditions that cause one asset class to perform well may cause another asset class to perform poorly. This could result in negative or lower than expected returns compared to a fund which is diversified across multiple asset classes.

How has the fund performed?

| | Average over past 5 years ¹ | Past year ¹ |
|--|--|------------------------|
| Annual return (after deductions for charges and tax) | 7.99% | 9.79% |
| Annual return (after deductions for charges but before tax) | 8.92% | 11.10% |
| Market index annual return (reflects no deduction for charges and tax) | 9.10% | 11.20% |

The market index annual return is based on 25% S&P/NZX All Real Estate (Industry Group) Gross with Imputation, 25% S&P/ASX 200 A-REIT (Sector) (TR) (100% hedged to NZD) and 50% FTSE EPRA/NAREIT Developed Rental Index Net TRI (100% hedged to NZD). Additional information about the market index is available on the offer register at disclose-register.companiesoffice.govt.nz. Index disclaimers can be found on the AMP website at amp.co.nz/indexdisclaimers.

| Other management and administration charges | 0.15% |
| Total performance-based fees | 0.00% |
| Other charges | Dollar amount per investor or description of how charge is calculated |
| Member fee | \$23.40 |

* Based on a decrease in the Other management and administration charges, the Manager estimates that the total fund charges for the next scheme year will reduce to 1.12% of the net asset value.

Different member fees or fee rebates may apply to some members. Any different fees or rebates will be set out in the Member Booklet or supplement, if applicable, which you can request from your Adviser.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the 'fees and other charges' document on the entry relating to the offer of interests in the AMP KiwiSaver Scheme maintained on the offer register (disclose-register.companiesoffice.govt.nz) for more information about those fees.

Fund Update

for the quarter ended 31 March 2022

This fund update was first made publicly available on 3 May 2022

What is the purpose of this update?

This document tells you how the ASB Growth Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. AMP Wealth Management New Zealand Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The fund has a well-diversified portfolio that employs an active approach to asset allocation, with underlying investments predominantly in index tracking funds. The fund aims to provide high total returns allowing for large movements of value up and down.

| | |
|---------------------------------|--------------|
| Total value of the fund | \$33,430,484 |
| Number of investors in the fund | 2220 |
| The date the fund started | 28 July 2016 |

What are the risks of investing?

Risk indicator for the ASB Growth Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

How has the fund performed?

| | Average over past 5 years ¹ | Past year ¹ |
|--|--|------------------------|
| Annual return (after deductions for charges and tax) | 7.05% | 2.75% |
| Annual return (after deductions for charges but before tax) | 7.77% | 3.36% |
| Market index annual return (reflects no deduction for charges and tax) | 9.38% | 5.10% |

The market index annual return is based on a composite index, calculated using the target investment mix weightings of the underlying market indices that the fund invests into. Additional information about the market index is available on the offer register at disclose-register.companiesoffice.govt.nz. Index disclaimers can be found on the AMP website at amp.co.nz/indexdisclaimers.

Annual return graph¹

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 31 March 2022.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the ASB Growth Fund are charged fund charges. In the year to 31 March 2021 these were:

| | % of net asset value |
|--|--|
| Total fund charges² | 1.13% |
| Which are made up of - | |
| Total management and administration charges | 1.13% |
| Including - | |
| Manager's basic fee | 1.03% |
| Other management and administration charges | 0.10% |
| Total performance-based fees | 0.00% |
| Other charges | Dollar amount per investor or description of how charge is calculated |
| Member fee | \$23.40 |

Different member fees or fee rebates may apply to some members. Any different fees or rebates will be set out in the Member Booklet or supplement, if applicable, which you can request from your Adviser.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the 'fees and other charges' document on the entry relating to the offer of interests in the AMP KiwiSaver Scheme maintained on the offer register (disclose-register.companiesoffice.govt.nz) for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Craig had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Craig received a return after fund charges were deducted of \$275.00 (that is 2.75% of his initial \$10,000). Craig also paid \$23.40 in other charges. This gives Craig a total return after tax of \$251.60 for the year.

Currency hedging

The fund will (or will invest in underlying funds that will):

- fully hedge (after tax for a 28% PIR investor) foreign currency exposure arising from International fixed interest back to New Zealand dollars;
- hedge the foreign currency exposure arising from Listed and Unlisted property, Listed and Unlisted infrastructure and Commodities 100% net hedged (for a 28% PIR investor) back to New Zealand dollars; and
- hedge the foreign currency exposure arising from International equities (excluding Listed infrastructure) with a benchmark of 50% net hedged (for a 28% PIR investor) back to New Zealand dollars and a permitted range of 0% to 100%. Proxy hedging (i.e. using the currency of a country as a proxy for the currency of another country) is also permitted.

Where active currency management is being employed in accordance with the Active Currency Management Policy set out in the Statement of Investment Policy and Objectives, the result may be something other than a fully-hedged position for International fixed interest.

Notes

- 1 From 25 June 2018 Mercer (N.Z.) Limited (Mercer) replaced Fisher Funds Management Limited (Fisher) as the underlying fund manager of the Fund. The fund performance in the table therefore shows fund performance which relates to both Mercer and Fisher.
- 2 We have used a composite index to prepare the table and bar graph, as there was no market index available for some of the relevant assets. The composite index is calculated using the target investment mix weightings of the underlying market and peer group indices for the asset classes that the fund invests into. A composite index may be a less reliable indicator of performance than an appropriate market index. In the table and bar graph, the return for the market index reflects no deduction for fund charges, trading expenses and tax, and the return for the peer group index reflects deductions for fund charges and trading expenses, but before tax. Additional information about the market and peer group indices is available in the Statement of Investment Policy and Objectives for your product which is available on the offer register at disclose-register.companiesoffice.govt.nz. Index disclaimers can be found on the AMP website at amp.co.nz/indexdisclaimers.
- 3 From Q1 2021, the methodology used to calculate the index return now uses daily returns, rather than monthly returns. As a result there will be a change in the index return for the years ended 31 March 2019 and 31 March 2020, compared with those shown in previous fund updates.
- 4 The total fund charges are inclusive of any applicable GST.
- 5 The other management and administration charges include estimates of underlying fund charges provided by underlying fund managers. The balance dates of the underlying fund(s) do not align with the balance date of the fund. To estimate the charges, AMP includes the underlying fund charges as at the relevant underlying fund(s) balance date, adjusted (where required) to reflect any material changes advised to AMP by the relevant underlying manager as having occurred during the intervening period.
- 6 The actual investment mix and top ten investments have been calculated excluding cash and cash equivalents held for operational purposes.

| Other management and administration charges (estimated) | 0.19% |
| Total performance-based fees | 0.00% |
| Other charges | Dollar amount per investor or description of how charge is calculated |
| Member fee | \$23.40 |

Different member fees or fee rebates may apply to some members. Any different fees or rebates will be set out in the Member Booklet or supplement, if applicable, which you can request from your Adviser.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the 'fees and other charges' document on the entry relating to the offer of interests in the AMP KiwiSaver Scheme maintained on the offer register (disclose-register.companiesoffice.govt.nz) for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Craig had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Craig received a return after fund charges were deducted of \$554.00 (that is 5.54% of his initial \$10,000). Craig also paid \$23.40 in other charges. This gives Craig a total return after tax of \$530.60 for the year.⁴

Notes

- 1 As the fund started on 23 February 2022, actual returns for the last five years are not available. Therefore, to calculate the risk indicator for the five year period up to the date of this fund update, a combination of market index returns, underlying fund returns and actual returns have been used where relevant. We consider this allows the risk indicator to reflect the potential future volatility of the fund. As a result of relying on a combination of market index returns, underlying fund returns and actual returns, the risk indicator may provide a less reliable indicator of the potential future volatility of the fund.
- 2 The total fund charges are inclusive of any applicable GST.
- 3 As the fund started on 23 February 2022, historical fee information prior to that date is not available. The total fund charges shown include our best estimates of the amount of costs and expenses that will be charged to the fund. These have been estimated as a percentage of the fund's net asset value and include both expenses expected to be incurred by the fund and fees (and costs) expected to be charged by the managers of the underlying funds in which the fund invests. These include fees for audit, printing and distribution, regulatory compliance, IT costs, administration manager charges, performance fees charged by unrelated underlying funds and other professional service fees. These fees have been determined using estimates provided by the underlying fund managers, our experience with the Scheme and a presumption that total fund charges may have changed as a result of regulatory costs, administration manager charges and performance fees charged by unrelated underlying funds.
- 4 As the fund started on 23 February 2022, this calculation is based on the market index return for the past year and treats all investment returns as taxable.
- 5 The actual investment mix and top ten investments have been calculated excluding cash and cash equivalents held for operational purposes.

Fund Update

for the quarter ended 31 March 2022

This fund update was first made publicly available on 3 May 2022

What is the purpose of this update?

This document gives you information about the Milford Aggressive Fund, including its target investment mix and what fees are charged. The document will help you to compare the fund with other funds. AMP Wealth Management New Zealand Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

To provide a portfolio that primarily invests in international equities, with a moderate allocation to Australasian equities. The fund's objective is to maximise capital growth after fees (but before tax, cost and expenses), over the minimum recommended investment timeframe of ten years.

| | |
|---------------------------------|------------------|
| Total value of the fund | \$5,586,051 |
| Number of investors in the fund | 185 |
| The date the fund started | 23 February 2022 |

What are the risks of investing?

Risk indicator for the Milford Aggressive Fund¹:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

How has the fund performed?

| | Past year |
|--|----------------|
| Annual return (after deductions for charges and tax) | Not applicable |
| Annual return (after deductions for charges but before tax) | Not applicable |
| Market index annual return (reflects no deduction for charges and tax) | 10.67% |

The market index annual return is based on a composite index, calculated using the target investment mix weightings of the underlying market indices that the fund invests into. Additional information about the market index is available on the offer register at disclose-register.companiesoffice.govt.nz. Index disclaimers can be found on the AMP website at amp.co.nz/indexdisclaimers.

What fees are investors charged?

Investors in the Milford Aggressive Fund are charged fund charges. Our estimate of the fund charges as at 31 March 2022 are:

| | % of net asset value |
|---|--|
| Total fund charges (estimated) ^{2,3} | 1.50% |
| Which are made up of - | |
| Total management and administration charges (estimated) ³ | 1.50% |
| Including - | |
| Manager's basic fee (estimated) | 1.46% |
| Other management and administration charges (estimated) | 0.04% |
| Total performance-based fees | 0.00% |
| Other charges | Dollar amount per investor or description of how charge is calculated |
| Member fee | \$23.40 |

Different member fees or fee rebates may apply to some members. Any different fees or rebates will be set out in the Member Booklet or supplement, if applicable, which you can request from your Adviser.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the 'fees and other charges' document on the entry relating to the offer of interests in the AMP KiwiSaver Scheme maintained on the offer register (disclose-register.companiesoffice.govt.nz) for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Craig had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Craig received a return after fund charges were deducted of \$1,067 (that is 10.67% of his initial \$10,000). Craig also paid \$23.40 in other charges. This gives Craig a total return after tax of \$1,043.60 for the year.⁴

Fund Update

for the quarter ended 31 March 2022

This fund update was first made publicly available on 3 May 2022

What is the purpose of this update?

This document tells you how the Nikko AM Balanced Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. AMP Wealth Management New Zealand Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The fund aims to provide investors with a carefully constructed balance of diversified assets in a manner that aims to both optimise investment returns and to minimise the risk of investment loss, and to preserve the capital value of investing funds over the longer term in real terms. The fund gains its investment exposure by investing into a range of actively managed funds to create a diversified portfolio with a balanced mix of lower and higher risk assets.

|---------------------------------|----------------|
| Total value of the fund | \$95,546,805 |
| Number of investors in the fund | 2955 |
| The date the fund started | 1 October 2007 |

What are the risks of investing?

Risk indicator for the Nikko AM Balanced Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

Annual return graph^{1,2}

This shows the return after fund charges and tax for each of the last 10 years ending 31 March. The last bar shows the average annual return for the last 10 years, up to 31 March 2022.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the Nikko AM Balanced Fund are charged fund charges. In the year to 31 March 2021 these were:

| | % of net asset value |
|--|--|
| Total fund charges (estimated)³ | 1.57%* |
| Which are made up of - | |
| Total management and administration charges (estimated) | 1.57% |
| Including - | |
| Manager's basic fee (estimated) | 1.08% |
| Other management and administration charges (estimated) | 0.49% |
| Total performance-based fees | 0.00% |
| Other charges | Dollar amount per investor or description of how charge is calculated |
| Member fee | \$23.40 |

* Based on a decrease in the Other management and administration charges, the Manager estimates that the total fund charges for the next scheme year will reduce to 1.33% of the net asset value.

Different member fees or fee rebates may apply to some members. Any different fees or rebates will be set out in the Member Booklet or supplement, if applicable, which you can request from your Adviser.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the 'fees and other charges' document on the entry relating to the offer of interests in the AMP KiwiSaver Scheme maintained on the offer register (disclose-register.companiesoffice.govt.nz) for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Craig had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Craig incurred a loss after fund charges were deducted of \$119.00 (that is -1.19% of his initial \$10,000). Craig also paid \$23.40 in other charges. This gives Craig a total loss after tax of \$142.40 for the year.

Notes

- 1 We have used a composite index to prepare the table and bar graph, as there was no market index available for some of the relevant assets. The composite index is calculated using the target investment mix weightings of the underlying market and peer group indices for the asset classes that the fund invests into. A composite index may be a less reliable indicator of performance than an appropriate market index. The composite index used in this fund update is not directly relevant for all of the underlying assets of this fund. In the table and bar graph, the return for the market index reflects no deduction for fund charges, trading expenses and tax, and the return for the peer group index reflects deductions for fund charges and trading expenses, but before tax. Additional information about the market and peer group indices is available in the Statement of Investment Policy and Objectives for your product which is available on the offer register at disclose-register.companiesoffice.govt.nz. Index disclaimers can be found on the AMP website at amp.co.nz/indexdisclaimers.
- 2 The indices used to calculate index returns for this fund includes the Eurekahedge Fund of Funds Index, which is a peer group index. We have aligned the timing for calculating returns for that index with the approach taken by the underlying fund manager, and accordingly the index return in the annual return graph has been revised slightly from previous fund updates which use those returns.
- 3 The total fund charges are inclusive of any applicable GST.
- 4 The actual investment mix and top ten investments have been calculated excluding cash and cash equivalents held for operational purposes.

Fund Update

for the quarter ended 31 March 2022

This fund update was first made publicly available on 3 May 2022

What is the purpose of this update?

This document tells you how the Nikko AM Conservative Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. AMP Wealth Management New Zealand Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The fund aims to minimise the risk of investment loss while optimising investment returns and to preserve the capital value of invested funds over the long term in real terms.

| | |
|---------------------------------|--------------|
| Total value of the fund | \$37,706,906 |
| Number of investors in the fund | 1152 |
| The date the fund started | 28 July 2016 |

What are the risks of investing?

Risk indicator for the Nikko AM Conservative Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

How has the fund performed?

| | Average over past 5 years ¹ | Past year ¹ |
|---|--|------------------------|
| Annual return (after deductions for charges and tax) | 3.64% | -1.74% |
| Annual return (after deductions for charges but before tax) | 4.11% | -2.39% |
