

InvestNow

KiwiSaver Scheme

Product Disclosure Statement – Diversified Funds #4

Offer of membership of the InvestNow KiwiSaver Scheme

This document replaces the Product Disclosure Statement Dated 5 July 2021
Dated 21 July 2021 | Issued by Implemented Investment Solutions Limited

This document gives you important information about this investment to help you decide whether you want to invest. There is other useful information about this offer on www.disclose-register.companiesoffice.govt.nz. Implemented Investment Solutions Limited has prepared this document in accordance with the Financial Markets Conduct Act 2013. You can also seek advice from a financial advice provider to help you to make an investment decision.

1. Key information summary

What is this?

This is a managed investment scheme. Your money will be pooled with other investors' money and invested in various investments. Implemented Investment Solutions Limited (IIS, we, our or us) will invest your money and charge you a fee for its services. The returns you receive are dependent on the investment decisions of IIS and the performance of the investments. The value of those investments may go up or down. The types of investments and the fees you will be charged are described in this document.

What will your money be invested in?

The InvestNow KiwiSaver Scheme (Scheme) provides you with access to a range of investment options, which you can combine in any way you choose.

There are three diversified fund options offered under this Product Disclosure Statement (PDS). These investment options are summarised below. More information about the investment target and strategy for each investment option is provided at section 3 'Description of your investment option(s)'.

Fund	Description	Risk Indicator*	Fund Charges (Estimated, % per annum of the Fund's net asset value)	Indicative ⁺ Buy/Sell Spread or Swing Price Adjustment (of each investment /redemption)
InvestNow Smartshares Growth Fund	Provides exposure to a diversified fund that invests mostly in growth assets. It is designed for investors that want a growth investment option.	<p>Lower risk potentially lower returns Higher risk potentially higher returns</p> <p>1 2 3 4 5 6 7</p>	0.51%	N/A
InvestNow Fisher Funds Growth Fund	Provides exposure to a diversified fund that aims to grow your investment over the long term by investing mainly in growth assets.	<p>Lower risk potentially lower returns Higher risk potentially higher returns</p> <p>1 2 3 4 5 6 7</p>	1.02% Performance-based fees may apply, see Section 5 for details	N/A
InvestNow Milford Active Growth Fund	Provides exposure to a diversified fund that primarily invests in shares, with a moderate allocation to fixed interest securities. Aims to provide annual returns of 10% after the base fund fee ¹ , but before tax and before the performance fee over the minimum recommended investment timeframe.	<p>Lower risk potentially lower returns Higher risk potentially higher returns</p> <p>1 2 3 4 5 6 7</p>	1.25% Performance-based fees may apply, see Section 5 for details	0.13%**

1. The base fund fee covers costs and charges payable in respect of the underlying fund into which the InvestNow Milford Active Growth Fund invests.

* The funds have been in existence for less than 5 years. Market index returns (rather than the funds' actual returns) have been used to calculate the risk indicators for the 5-year period to 30 June 2021.. The risk indicators may therefore provide less reliable indicators of the funds' future volatility.

** A swing pricing adjustment to the unit price for applications and withdrawals into the underlying fund may be applied (see section 5 of this PDS and the Other Material Information document for the InvestNow KiwiSaver Scheme for more information)

⁺ Buy/sell spreads and the swing price adjustments are as at the date of this PDS and are indicative only. For the most up to date buy/sell spreads and swing price adjustments see www.investnow.co.nz/kiwisaver.

If you instruct us by providing an agreement signed by you and your financial advice provider, and we have an agreement with your financial advice provider, we will pay them an ongoing advice and administration fee from your

account. The maximum ongoing advice and administration fee is 0.50% per annum (including GST) of your account balance.

See section 4 'What are the risks of investing?' on page 9 for an explanation of the risk indicator and for information about other risks that are not included in the risk indicator. To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz/tools/investor-kickstarter.

Who manages the InvestNow KiwiSaver Scheme?

IIS is the manager of the Scheme. See section 7 'Who is involved?' for more information.

How can you get your money out?

Generally, you can withdraw your investment when you reach the age to qualify for New Zealand superannuation (currently age 65).

You can transfer your investment to another KiwiSaver scheme at any time.

In certain circumstances, you may be able to make an early withdrawal. These circumstances include the purchase of a first home, financial hardship and serious illness.

See section 2 'How does this investment work?' for more information.

How will your investment be taxed?

The Scheme is a portfolio investment entity (PIE). The amount of tax you pay in respect of a PIE is based on your prescribed investor rate (PIR). This can be 10.5%, 17.5% or 28%. See section 6 'What taxes will you pay?' on page 12 for more information.

Where can you find more key information?

IIS is required to publish quarterly updates for each investment option. The updates show the returns, and the total fees actually charged to investors, during the previous year. The latest fund updates are available at www.investnow.co.nz/kiwisaver. The manager will also give you copies of those documents on request.

2. How does this investment work?

This PDS offers you membership in the Scheme. Each of the funds offered under this PDS is constituted within a managed investment scheme that is governed by a trust deed dated 10 September 2020 (the InvestNow KiwiSaver Scheme Trust Deed). The Scheme is a KiwiSaver scheme and is registered under the Financial Markets Conduct Act 2013.

To protect the interests of investors, the Scheme's investments are held by an independent custodian, and our operations are supervised by an independent supervisor, Public Trust.

The Scheme provides you with access to a range of investment options via the online InvestNow investment platform.

The Scheme offers the following investment options:

- **Diversified funds:** Funds that provide a range of risk return profiles. The funds invest in a mix of asset classes such as: cash; fixed interest; shares; and property. If you invest in a diversified fund, it's up to you to change funds if your risk-return profile changes.
- **Sector funds:** Funds invested in New Zealand, Australian and international markets that you can use to set your own investment strategy. Each sector fund invests predominantly in one of the main investment asset classes of cash, fixed interest, shares or property. If you invest in the sector funds, it's up to you to change funds if your investment strategy changes.

You also have the flexibility to combine the investment options.

Your money is pooled and invested with other investors' money. Contributions are made by you and your employer.

Your money goes into an account in your name. This account is invested in one or more of the investment options chosen by you. As an investor, you have an interest in the Scheme. However, your interest does not give you any right to any particular asset of a fund.

When you become eligible to withdraw your investment, you can do so by redeeming your interest in the Scheme for cash.

All funds have assets (the investments of the fund) and liabilities (the fees, taxes and other costs payable by the fund). All liabilities incurred in respect of a fund will be met in the first instance from the assets of that fund. If the investments in a fund are not sufficient to meet its liabilities, the investments in another fund may be used to meet those liabilities.

There is no Crown guarantee of any KiwiSaver scheme or investment product of a KiwiSaver scheme.

The key benefits of the Scheme are:

- Active, passive and responsible investment options: Ability to choose your own investment options to suit your own risk profile, investment objectives and investment beliefs.
- Access to specialist managers: Utilising the investment expertise of professional fund managers.
- Cost effective: No member fees and access to low cost passive investment options provide you with flexibility to effectively manage the overall cost of your portfolio.
- Diversification: Diversification benefits are provided by investment type and fund manager.

These benefits are current at the date of this PDS and may change at any time.

Responsible investment, including environmental, social and governance considerations, is not taken into account in the investment policies and procedures of the Scheme as at the date of this PDS. However, responsible investment is taken into account in the investment policies and procedures of various specialist funds that are available within the Scheme.

The information about KiwiSaver set out below is only a summary. For more information, go to www.kiwisaver.govt.nz.

Joining the Scheme

If you are a new KiwiSaver investor or transferring from another KiwiSaver scheme, you can join the Scheme by applying to us. If your employer has chosen the Scheme as its preferred KiwiSaver scheme you will be automatically enrolled in the Scheme. Additional information on these joining methods is provided below.

If you are not a KiwiSaver member

If you are not yet a KiwiSaver member, you can join the Scheme if you are:

- living or normally living in New Zealand; and
- a New Zealand citizen, or entitled to live in New Zealand indefinitely.

If you are already a KiwiSaver member

If you are already a member of another KiwiSaver scheme, in most cases you can transfer your investment into the Scheme (even if you do not meet the criteria set out above). You can only be a member of one KiwiSaver scheme at a time.

If you have been automatically enrolled in the Scheme

If your employer has chosen the Scheme as its preferred KiwiSaver scheme and you are not already a KiwiSaver member, you will automatically be enrolled in the Scheme when you start your job (you can choose to opt out between 14 and 56 days from the date you start your job).

Any special conditions that apply where an employer has chosen the Scheme as its preferred KiwiSaver scheme are set out in the PDS Supplement for your employer, which will be provided to automatically enrolled employees, together with PDSs for the Scheme.

We can decide not to accept your application to join. If that happens, we will let you know.

Making investments

If you are employed, contributions will be taken out of your gross (before-tax) salary or wages at the rate you have told your employer (3%, 4%, 6%, 8% or 10%). You can also make voluntary contributions at any time. If you are contributing to KiwiSaver, you may also be entitled to an employer contribution of 3% of your gross (before tax) salary or wages. Tax will be deducted from your employer contributions.

If you are self-employed or not working, you can make voluntary contributions by regular or occasional lump sum payments. There is no minimum contribution amount.

If you are between the ages of 18 and 65, you may be eligible to receive a Government contribution at the rate of 50 cents for each dollar you contribute, up to a maximum of \$521.43 per year.

You can contribute to the Scheme in the following ways:

Contribution method	Employment status			
	If you are employed	If you are self-employed*	If you are not working	If you are under 18
Payment through PAYE via your employer	✓	✓	-	✓
Regular payment by automatic payment or direct debit to us	✓	✓	✓	✓
Lump sum payment by automatic payment or direct debit to us or via the IRD	✓	✓	✓	✓

* If you are self-employed and pay yourself through the PAYE system, you will be treated as an employee and will need to make employer contributions.

You can change your contribution rate or take a savings suspension, subject to some restrictions. You can also stop contributing to the Scheme when you reach your qualifying date (see below).

If you have permanently emigrated from Australia to New Zealand, or if you are a New Zealander returning from Australia, you may be able to transfer your money in an Australian complying superannuation scheme into the Scheme.

Your contributions will be invested in the investment options you have chosen.

Withdrawing your investments

KiwiSaver is a savings initiative to help set you up for your retirement. This means that you will not usually be able to withdraw your investment until you reach the age to qualify for New Zealand superannuation (currently age 65).

If you first joined KiwiSaver (or a complying superannuation fund) before 1 July 2019, a five-year membership requirement also usually applies before you can make a withdrawal. You can opt out of the five-year membership requirement by making a retirement withdrawal. If you opt out, you'll no longer be eligible to receive any Government contributions and your employer can stop their contributions. Once you are able to withdraw your investment, you may withdraw your investment by making regular or lump sum withdrawals or by withdrawing the full amount. You may also continue to make contributions to the Scheme.

Early withdrawals are permitted in limited circumstances. The main types of early withdrawals available and what you can withdraw are set out below.

	Member contribution	Employer contribution	Government contribution	Savings transferred from an Australian complying Superannuation scheme
Purchase of first home ¹	✓	✓	✓	-
Significant financial hardship ²	✓	✓	-	✓
Serious illness	✓	✓	✓	✓
Permanent emigration (other than to Australia)	✓	✓	-	-
Permanent emigration (to Australia) ³	✓	✓	✓	✓
Retirement withdrawal of Australian savings from age 60	-	-	-	✓

1. For a purchase of first home withdrawal, you must leave at least \$1,000, plus any money you transferred from an Australian complying superannuation scheme, in your account after the withdrawal.

2. If you received the \$1,000 kick-start contribution from the Government, you cannot withdraw this contribution when making a significant financial hardship withdrawal.

3. Your investment will be transferred to an Australian complying superannuation scheme (which is an Australian superannuation scheme that has membership criteria similar to KiwiSaver).

You can also transfer your investment to another KiwiSaver scheme at any time. You can only be a member of one KiwiSaver scheme at a time.

If you die, we will pay your investment to your personal representatives (the executors or administrators of your estate) or otherwise in accordance with law.

Withdrawals may also be required by law (for example, if a court orders the release of money from your account).

We may, in limited circumstances, suspend processing withdrawal requests (including where we cannot sell enough assets of a fund to satisfy a withdrawal request, or if we consider a withdrawal could be detrimental to other investors in a fund).

How to switch between funds

You can at any time request to switch your investment between the funds offered under this PDS or to any other fund currently being offered under the Scheme. A switch is treated as an application and withdrawal, so may incur a buy/sell spread or swing price adjustment. You also have the flexibility to leave your existing investment in your current investment options, and just change the investment options that your future contributions are allocated to. You can do this by completing a change investment strategy form (which is available by contacting us) and providing it to us. We may, in limited circumstances, suspend processing requests to switch between investment options.

This PDS provides information on the InvestNow KiwiSaver Scheme Diversified Funds #4. Information on other Scheme funds not offered under this PDS is provided in the following documents:

- InvestNow KiwiSaver Scheme Diversified Funds #1 PDS
- InvestNow KiwiSaver Scheme Diversified Funds #2 PDS
- InvestNow KiwiSaver Scheme Diversified Funds #3 PDS
- InvestNow KiwiSaver Scheme Cash and NZ Fixed Interest Funds PDS
- InvestNow KiwiSaver Scheme Global Fixed Interest Funds PDS
- InvestNow KiwiSaver Scheme Australasian Shares Funds PDS
- InvestNow KiwiSaver Scheme Global Shares Funds PDS
- InvestNow KiwiSaver Scheme Property Funds PDS

3. Description of your investment option(s)

The funds invest in underlying funds that themselves invest in income and growth assets. The general characteristics of these asset classes are outlined below:

- **Income assets:** Income assets include cash and fixed interest. With cash, we would usually expect positive returns, but lower than the returns for other assets over the long term. Investing in cash is suitable when money may be required in the short term (0 – 3 years). With fixed interest, we would expect positive returns that are higher than the returns for cash over 3 – 5 years, but at times returns can be negative over the shorter term. Investing in fixed interest is suitable when money may be required in the medium term (3 – 10 years).
- **Growth assets:** Growth assets include shares, property and infrastructure. With shares, property and infrastructure, we would expect positive returns that are higher than the returns for cash and fixed interest over the long term, but at times returns can be negative over the short to medium term. These negative returns can be quite large. Investing in shares and property is suitable when money can be invested for the long term (7 years plus).

The funds in this PDS invest in a mix of income and growth assets.

To help you understand what type of investor you are, you can seek financial advice or work it out at www.sorted.org.nz/tools/investor-kickstarter.

Fund	Description	Risk Indicator*	Minimum Suggested Investment Timeframe

1	2	3	4	5	6	7				

1. The base fund fee covers costs and charges payable in respect of the underlying fund into which the InvestNow Milford Active Growth Fund Invests.

* The funds have been in existence for less than 5 years. Market index returns (rather than the funds' actual returns) have been used to calculate the risk indicators for the 5-year period to 30 June 2021. The risk indicators may therefore provide less reliable indicators of the funds' future volatility.

The Statement of Investment Policy and Objectives (SIPO) for the Scheme sets out the investment policies and objectives for the Scheme.

We may change the SIPO at any time in accordance with the InvestNow KiwiSaver Scheme Trust Deed. We will notify you if we make any material SIPO changes.

The SIPO is available at www.investnow.co.nz/kiwisaver. Material changes to the SIPO will be described in the Scheme's annual report.

Further information about the assets in each fund can be found in the fund updates at www.investnow.co.nz/kiwisaver.

4. What are the risks of investing?

Understanding the risk indicator

Managed funds in New Zealand must have a standard risk indicator. The risk indicator is designed to help investors understand the uncertainties both for loss and growth that may affect their investment. You can compare funds using the risk indicator.

See section 3 'Description of your investment option(s)' for the risk indicators which have been calculated for each of the investment options described in this PDS.

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down (volatility). A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks (described under the heading 'Other specific risks') that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for 5 years to 30 June 2021. While risk indicators are usually relatively stable, they do shift from time to time. You can see the most recent risk indicator in the latest fund update for each fund.

General investment risks

Some of the things that may cause a fund's value to move up and down, which affect the risk indicator, are:

- **Market risk:** The risk that a market or a sector of a market that a fund invests in declines.
- **Individual financial product risk:** The risk that changes in the financial condition or credit rating of an issuer of a financial product causes the value of a financial product held by a fund to decline.
- **Liquidity risk:** The risk that an investment is difficult to buy or sell and a fund suffers a loss as a result.
- **Currency risk:** The risk that changes in exchange rates cause the value of an international investment to reduce.
- **Credit risk:** The risk that issuers of fixed interest or cash investments do not pay interest and/or capital repayments when these are due.
- **Interest rate risk:** The risk that interest rates rise and the value of investments (in particular, fixed interest and cash investments) reduce.

Other specific risks

There are other risks that may affect returns for investors, which are not reflected in the risk indicator. These risks include:

- **Fund selection risk:** There is a Scheme specific risk relating to the selection of the underlying fund managers who are responsible for managing the underlying funds that the Scheme's funds invest into. We mitigate this risk by having an appropriate manager selection and monitoring process. However, there is the risk an underlying fund manager underperforms compared to other fund managers.

See the 'Other Material Information' document on the offer register at www.disclose-register.companiesoffice.govt.nz for further information about the risks of investing in the Scheme.

5. What are the fees?

You will be charged fees for investing in the Scheme. Fees are deducted from your investment and will reduce your returns. Currently, these fees are only charged by the underlying fund which each investment option invests into. The fees you pay will be charged in two ways:

- regular charges - for example, annual fund charges. Small differences in these fees can have a big impact on your investment over the long term:
- one-off fees – for example trading costs.

Annual fund charges (% of net asset value)

These are as follows for the funds detailed in this PDS:

Fund	Estimated Management and Other Fees (incl. GST)	Estimated Performance-based Fees (incl. GST)	Estimated Total Annual Fund Charges (incl. GST)
InvestNow Smartshares Growth Fund	0.51%	N/A	0.51%
InvestNow Fisher Funds Growth Fund	1.02%	0.00%*	1.02%
InvestNow Milford Active Growth Fund	1.05%	0.20%	1.25%

*The InvestNow Fisher Funds Growth Fund, through its underlying fund, includes a performance-based fee estimate of 0% based on the long-term average performance of the market indices used to measure the performance of the underlying fund compared against the long term performance of the hurdle rate (see the "Performance-based fees" section below for a description of the hurdle rate). The performance-based fee is capped at 2% of the average net asset value of the underlying fund.

The fund charges represent our best estimates of the fees and expenses that will be charged to each fund. These have been estimated using information provided by the underlying fund managers and by reference to the underlying fund's disclosure documents.

The fund charges outlined above are deducted from, and reflected in the value of each fund. The fund charges include all normal day-to-day fund costs and expenses including the fees and charges charged by the supervisor, custodian, administration manager and registry provider. They also include the fees and costs charged by any other funds we invest in.

We do not charge any other fees to you, however, InvestNow are remunerated by the underlying fund managers. IIS are remunerated by InvestNow for the services provided to the Scheme.

Performance-based fees

InvestNow Milford Active Growth Fund

The InvestNow Milford Active Growth Fund invests into the Milford Active Growth Wholesale Fund No.2, which may charge a performance fee. The performance fees are deducted from and reflected in the unit price of the fund. The performance fee for the fund is calculated daily and payable within ten business days of six-monthly periods ending 31 March and 30 September. The performance fee for the fund is capped at 0.95% of the fund's average net asset value per year. The performance fee is 15% of the excess return above the hurdle rate of return (assuming Milford have beaten the high water mark), plus GST, subject to any caps as above. The hurdle rate of return is 10% p.a. The estimated performance fees are included in the fees table above.

The Milford Active Growth Wholesale Fund No.2 is an absolute return style fund and has a hurdle rate of return which differs from the stated market index. This means you may be paying a performance fee if the underlying funds performance beats the hurdle rate of return but does not match or beat the performance of the blend of market indices.

InvestNow Fisher Funds Growth Fund

The InvestNow Fisher Funds Growth Fund invests into the Fisher Funds Growth Fund, which may charge a performance fee. The performance fees are deducted from and reflected in the unit price of the fund. The performance fee for the fund is calculated daily and payable within three business days of 30 June each year. The performance fee for the fund is capped at 2% of the fund's average net asset value per year. The performance-based fees payable are

10% of the excess return above the hurdle rate of return (assuming Fisher Funds have beaten the high water mark), plus GST, subject to any caps as above. The hurdle rate of return for the fund is the Official Cash Rate plus 5%. The estimated performance fees are included in the fees table above.

More information on the performance fee structure for the Fisher Funds Growth Fund can be found in the Fisher Funds Managed Funds PDS which is available at www.disclose-register.companiesoffice.govt.nz.

Ongoing advice and administration fee (applies only if you agree and receive financial advice)

If you instruct us by providing an agreement signed by you and your financial advice provider and we have an agreement with your financial advice provider, we will pay them an ongoing advice and administration fee from your account. The maximum ongoing advice and administration fee is 0.50% per annum (including GST) of your account balance.

The fee is calculated daily and paid monthly from your contributions.

We do not deduct the ongoing advice and administration fee before calculating your PIE tax. Hence you should seek tax advice as to whether you can receive a tax deduction by including the fee in your tax return.

You can instruct us at any time to stop deducting the ongoing advice and administration fee.

Individual action fees and trading costs (% of amount contributed or withdrawn)

Individual action fees

There are no individual action fees currently being charged to members in the funds offered under this PDS.

Trading costs

Swing pricing adjustment - The InvestNow Milford Active Growth Fund invest into an underlying fund that uses a swing pricing adjustment mechanism. A swing pricing adjustment is used to mitigate the potential dilution impact to existing investors caused by the trading activity of investors buying or selling units in a fund. Milford will calculate a swing pricing adjustment for each underlying fund that, subject to a threshold being met, will be applied daily when setting the price for applications and withdrawals.

The swing pricing adjustment is not a fee. It is retained in the fund to offset against the estimated transaction costs that arise from investors' applications and withdrawals.

Swing price adjustments for the funds detailed in the table below are indicative and are as at the date of this PDS:

Fund	Swing Pricing Adjustment
InvestNow Milford Active Growth Fund	0.13%

The amount of the adjustment may vary between funds and is reviewed by Milford periodically. Swing pricing adjustments may change, particularly in times of heightened market volatility. Please note that the adjustment may not entirely cover transaction costs. For the most up to date swing pricing adjustment see www.investnow.co.nz/kiwisaver.

Example of how fees apply to an investor

Anthony invests \$10,000 in the InvestNow Fisher Funds Growth Fund. There is no buy spread charged. This brings the starting value of his investment to \$10,000.

He is charged management and administration fees, which work out to about \$102 (1.02% of \$10,000). These fees might be more or less if his account balance has increased or decreased over the year. Anthony does not have a financial advice provider.

Estimated total fees for the first year

Fund charges: \$102

See the latest fund update for an example of the actual returns and fees members were charged over the past year.

This example applies only to the InvestNow Fisher Funds Growth Fund. If you are considering investing in other funds or investment options in the scheme, this example may not be representative of the actual fees you may be charged.

The fees can be changed

The underlying fund fees, buy/sell spreads and swing price adjustments are set by the underlying fund managers and not by us. This means they can change at any time and without prior notice to you.

There are currently no other fees or charges paid by members for the Scheme. However, under the InvestNow KiwiSaver Scheme Trust Deed, we can add new fees in future (such as administration, management, membership, transaction or other fees) and change those from time to time. If we add new fees or increase the new fees added, we will give 30 days prior written notice to the supervisor and affected members.

We must publish a fund update for each fund showing the fees actually charged during the most recent year. Fund updates, including past updates, are available at www.investnow.co.nz/kiwisaver.

6. What taxes will you pay?

The Scheme is a portfolio investment entity. The amount of tax you pay is based on your prescribed investor rate. To determine your PIR, go to <https://www.ird.govt.nz/roles/portfolio-investment-entities/find-my-prescribed-investor-rate>. If you are unsure of your PIR, we recommend you seek professional advice or contact the Inland Revenue Department. It is your responsibility to tell us your PIR when you invest or if your PIR changes. If you do not tell us, a default rate may be applied. If the rate applied to your PIE Income is lower than the correct PIR, you will be required to pay any tax shortfall, as part of the income tax year-end process. If the rate applied to your PIE income is higher than your PIR any tax over-withheld will be used to reduce any income tax liability you may have for the tax year and any remaining amount will be refunded to you.

7. Who is involved?

About Implemented Investment Solutions Limited

8. How to complain

Any complaints or problems with your membership should be directed to us for resolution through our internal dispute resolution process:

Implemented Investment Solutions Limited

Level 2, Woodward House

1 Woodward Street

PO Box 25003

WELLINGTON 6140

Telephone: (04) 499 9654

Email: contact@iisolutions.co.nz

If you are not satisfied with the outcome of your complaint to us, you may refer the matter to the Supervisor for resolution through its internal dispute resolution process:

Public Trust

Corporate Trustee Services

Private Bag 5902

WELLINGTON 6140

Telephone: 0800 371 471

Email: cts.enquiry@PublicTrust.co.nz

If your complaint is not able to be resolved through our internal dispute resolution process or that of the Supervisor you may refer your complaint to the dispute resolution scheme operated by the Insurance and Financial Services Ombudsman, an approved dispute resolution scheme under the Financial Service Providers (Registration and Dispute

Resolution) Act 2008. We are a registered financial service provider and member of this scheme. The Insurance and Financial Services Ombudsman's service is provided at no cost to you. The contact details for the scheme are:

Insurance and Financial Services Ombudsman

Level 8, Shamrock House
79-81 Molesworth Street
PO Box 10-845
WELLINGTON 6143
Telephone: 0800 888 202
Email: info@ifso.nz

The Supervisor is also a member of an approved dispute resolution scheme, operated by Financial Services Complaints Limited (FSCL). If your complaint to the Supervisor has not been resolved, you can refer it to FSCL. The contact details for the scheme are:

Financial Services Complaints Limited

PO Box 5967
WELLINGTON 6145
Telephone: 0800 347 257
Email: complaints@fscl.org.nz

The FSCL scheme will not charge a fee to any complainant to investigate or resolve a complaint.

9. Where you can find more information

Further information relating to the Scheme, including financial statements, annual reports, quarterly fund updates, the InvestNow KiwiSaver Scheme Trust Deed, and SIPO is available, free of charge, on the offer register and the scheme register at www.disclose-register.companiesoffice.govt.nz. A copy of information on the offer register or scheme register is available on request to the Registrar of Financial Service Providers.

You will also be sent an annual tax statement, which will include the amount of PIE income allocated to you and the amount of tax paid at your chosen PIR.

You can find general information about our management team, and us on our website www.iisolutions.co.nz.

10. How to apply

To become a member of the InvestNow KiwiSaver Scheme, please complete the Application Form, which can be completed online at www.investnow.co.nz, or is available by emailing contact@investnow.co.nz.
