Fund Update

for the quarter ended 31 December 2021

This fund update was first made publicly available on 14 February 2022

What is the purpose of this update?

This document tells you how the AMP Australasian Shares Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. AMP Wealth Management New Zealand Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

This is a single sector fund with exposure to equity securities of companies that are listed on the NZ and Australian stock exchange. The fund aims to achieve long term capital growth through exposure to shares of companies listed in New Zealand and Australia.

Total value of the fund	\$8,655,371
Number of investors in the fund	552
The date the fund started	28 July 2016

What are the risks of investing?

Risk indicator for the AMP Australasian Shares Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

Specific risk

In addition to the general investment risks, you should be aware this fund is concentrated in a particular asset class and not diversified across multiple asset classes. At any given point, market conditions that cause one asset class to perform well may cause another asset class to perform poorly. This could result in negative or lower than expected returns compared to a fund which is diversified across multiple asset classes.

How has the fund performed?

	Past year ¹
Annual return (after deductions for charges and tax)	3.30%
Annual return (after deductions for charges but before tax)	4.00%
Market index annual return (reflects no deduction for charges and tax)	5.91%

The market index annual return is based on 71% S&P/NZX 50 Index Gross with Imputation and 29% MSCI Australian Shares All Cap 300 ex Select GICS ex Select Securities Custom ESG 100% Hedged to NZD Index. Additional information about the market index is available on the offer register at disclose-register.companiesoffice.govt.nz. Index disclaimers can be found on the AMP website at amp.co.nz/indexdisclaimers.

Annual return graph¹

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 31 December 2021.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the AMP Australasian Shares Fund are charged fund charges. In the year to 31 March 2021 these were:

	% of net asset value
Total fund charges (estimated)²	1.12%*
Which are made up of -	
Total management and administration charges (estimated)	1.12%
Including -	
Manager's basic fee (estimated)	1.03%
Other management and administration charges (estimated) ³	0.09%
Total performance-based fees	0.00%
Other charges	Dollar amount per investor or description of how charge is calculated
Member fee	\$23.40

* Based on a decrease in the Manager's basic fee, the Manager estimates that the total fund charges for the next scheme year will reduce to 0.87% of the net asset value.

Different member fees or fee rebates may apply to some members. Any different fees or rebates will be set out in the Member Booklet or supplement, if applicable, which you can request from your Adviser.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the 'fees and other charges' document on the entry relating to the offer of interests in the AMP KiwiSaver Scheme maintained on the offer register (disclose-register.companiesoffice.govt.nz) for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Craig had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Craig received a return after fund charges were deducted of \$330.00 (that is 3.30% of his initial \$10,000). Craig also paid \$23.40 in other charges. This gives Craig a total return after tax of \$306.60 for the year.

Notes

- On 12 July 2021, AMP Wealth Management New Zealand Limited (AMPWM) took over from AMP Capital Investors (New Zealand) Limited (AMP Capital) as the underlying fund manager for this fund and commenced transition of the fund to AMPWM's new investment approach (for more information see amp.co.nz/transforming-amp). The transition completed during the quarter ending 30 September 2021 and, with effect from completion of the transition, BlackRock Investment Management (Australia) Limited (BlackRock) commenced providing investment management services to AMPWM for its wholesale funds. The fund performance in the table shows fund performance which relates to both AMPWM (with support from BlackRock) and AMP Capital.
- The total fund charges are inclusive of any applicable GST.
- The other management and administration charges include estimates of underlying fund charges provided by underlying fund managers. The balance dates of the underlying fund(s) do not align with the balance date of the fund. To estimate the charges, AMP includes the underlying fund charges as at the relevant underlying fund(s) balance date, adjusted (where required) to reflect any material changes advised to AMP by the relevant underlying manager as having occurred during the intervening period.
- The actual investment mix and top ten investments have been calculated excluding cash and cash equivalents held for operational purposes.

The top 10 investments make up 15.98% of the fund.

Currency hedging

The fund will (or will invest in underlying funds that will) target:

- fully hedging foreign currency exposure from International fixed interest and Australasian equities;
- hedging foreign currency exposure from International equities – Developed markets at 45.5% hedged to New Zealand dollars; and
- not hedging foreign currency exposure from International equities – Emerging markets.

Actual hedging positions may less closely align with the target hedging positions, and some hedging may be applied to unhedged asset classes, during the transition to the fund's new investment management approach.

Notes

- 1 On 12 July 2021, AMP Wealth Management New Zealand Limited (AMPWM) took over from AMP Capital Investors (New Zealand) Limited (AMP Capital) as the underlying fund manager for this fund and commenced transition of the fund to AMPWM's new investment approach (for more information see amp.co.nz/transforming-amp). The transition completed during the quarter ending 30 September 2021 and, with effect from completion of the transition, BlackRock Investment Management (Australia) Limited (BlackRock) commenced providing investment management services to AMPWM for its wholesale funds. The fund performance in the table shows fund performance which relates to both AMPWM (with support from BlackRock) and AMP Capital.
- 2 For the table, we have used a combined composite index and appropriate market index to calculate market index returns because the Fund ceased to invest in relevant assets during the quarter ending 30 September 2021. For the bar graph, index returns have been calculated with reference to a composite index or appropriate market index. The composite index is calculated using the target investment mix weightings of the underlying market and peer group indices for the asset classes that the fund invested into. A composite index may be a less reliable indicator of performance than an appropriate market index. In the table and bar graph, the return for the market index reflects no deduction for fund charges, trading expenses and tax, and the return for the peer group index (forming part of the composite index) reflects deductions for fund charges and trading expenses, but before tax.
- 3 The total fund charges are inclusive of any applicable GST.
- 4 The other management and administration charges include estimates of underlying fund charges provided by underlying fund managers. The balance dates of the underlying fund(s) do not align with the balance date of the fund. To estimate the charges, AMP includes the underlying fund charges as at the relevant underlying fund(s) balance date, adjusted (where required) to reflect any material changes advised to AMP by the relevant underlying manager as having occurred during the intervening period.
- 5 The actual investment mix and top ten investments have been calculated excluding cash and cash equivalents held for operational purposes.

Fund Update

for the quarter ended 31 December 2021

This fund update was first made publicly available on 14 February 2022

What is the purpose of this update?

This document tells you how the AMP Capital Global Multi-Asset Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. AMP Wealth Management New Zealand Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

This is a diversified fund that aims to generate a positive return above inflation and actively respond to market conditions with a flexible approach to investing. Assets are managed using a multi-manager approach that provides diversity across asset classes, sectors, geographies and investment managers, and enables change in investment allocations due to market conditions. Risk mitigation strategies are designed to lower return volatility and reduce the impact of market related events.

Total value of the fund	\$10,207,114
Number of investors in the fund	327
The date the fund started	28 July 2016

What are the risks of investing?

Risk indicator for the AMP Capital Global Multi-Asset Fund¹:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

Specific risk

In addition to the general investment risks, you should be aware that the investment management style of this fund means that it may be concentrated in a particular asset class or type of investment vehicle, geographical area or industry at any point in time. This may subject the fund to significant performance volatility relative to its objectives. If this volatility occurs, the AMP Capital Global Multi-Asset Fund may fail to meet its stated performance objective.

How has the fund performed?

	Past year ^{2,3}
Annual return (after deductions for charges and tax)	5.29%
Annual return (after deductions for charges but before tax)	6.48%

Annual return graph^{2,3}

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 31 December 2021.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the AMP Capital Global Multi-Asset Fund are charged fund charges. In the year to 31 March 2021 these were:

	% of net asset value
Total fund charges (estimated)⁴	1.61%
Which are made up of -	
Total management and administration charges (estimated)	1.61%
Including -	
Manager's basic fee (estimated)	1.43%
Other management and administration charges (estimated) ⁵	0.18%
Total performance-based fees	0.00%
Other charges	Dollar amount per investor or description of how charge is calculated
Member fee	\$23.40

Different member fees or fee rebates may apply to some members. Any different fees or rebates will be set out in the Member Booklet or supplement, if applicable, which you can request from your Adviser.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the 'fees and other charges' document on the entry relating to the offer of interests in the AMP KiwiSaver Scheme maintained on the offer register (disclose-register.companiesoffice.govt.nz) for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Craig had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Craig received a return after fund charges were deducted of \$529.00 (that is 5.29% of his initial \$10,000). Craig also paid \$23.40 in other charges. This gives Craig a total return after tax of \$505.60 for the year.

Notes

- 1 To calculate the risk indicator we have used expected volatility of the underlying fund. We consider this is the most reasonable method available. As a result of this method being used, the risk indicator may provide a less reliable indicator of the potential future volatility of the fund.
- 2 The table and bar graph does not include a market index return for comparative purposes.
- 3 There is no appropriate market index and no suitable peer group index or indices for the exempt fund against which to assess either movements in the market in relation to the returns from the assets in which the exempt fund invests, or the performance of the exempt fund as a whole.
- 4 The total fund charges are inclusive of any applicable GST.
- 5 The other management and administration charges include estimates of underlying fund charges provided by underlying fund managers. The balance dates of the underlying fund(s) do not align with the balance date of the fund. To estimate the charges, AMP includes the underlying fund charges as at the relevant underlying fund(s) balance date, adjusted (where required) to reflect any material changes advised to AMP by the relevant underlying manager as having occurred during the intervening period.
- 6 The actual investment mix and top ten investments have been calculated excluding cash and cash equivalents held for operational purposes.
- 7 The Global Multi-Asset Fund's target investment mix of 95% "Other" represents the fact that it doesn't have a target asset allocation but operates within broad ranges across asset types.

Fund Update

for the quarter ended 31 December 2021

This fund update was first made publicly available on 14 February 2022

What is the purpose of this update?

This document tells you how the AMP Capital Income Generator Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. AMP Wealth Management New Zealand Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The fund invests in an underlying fund that invests in a diversified mix of growth and defensive assets, with a focus on reliable income generation. The fund aims to provide a gross fixed monthly income in excess of bank deposit rates, along with a positive return on capital over the long term.

Total value of the fund	\$3,904,463
Number of investors in the fund	164
The date the fund started	28 July 2016

What are the risks of investing?

Risk indicator for the AMP Capital Income Generator Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

How has the fund performed?

	Past year
Annual return (after deductions for charges and tax)	4.13%
Annual return (after deductions for charges but before tax)	4.23%
Market index annual return (reflects no deduction for charges and tax)	3.09%

The market index annual return is based on a composite index, calculated using the target investment mix weightings of the underlying market indices that the fund invests into. Additional information about the market index is available on the offer register at disclose-register.companiesoffice.govt.nz. Index disclaimers can be found on the AMP website at amp.co.nz/indexdisclaimers.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the AMP Capital Income Generator Fund are charged fund charges. In the year to 31 March 2021 these were:

	% of net asset value
Total fund charges¹	1.12%
Which are made up of -	
Total management and administration charges	1.12%
Including -	
Manager's basic fee	0.98%
Other management and administration charges	0.14%
Total performance-based fees	0.00%
Other charges	Dollar amount per investor or description of how charge is calculated
Member fee	\$23.40

Different member fees or fee rebates may apply to some members. Any different fees or rebates will be set out in the Member Booklet or supplement, if applicable, which you can request from your Adviser.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the 'fees and other charges' document on the entry relating to the offer of interests in the AMP KiwiSaver Scheme maintained on the offer register (disclose-register.companiesoffice.govt.nz) for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Craig had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Craig received a return after fund charges were deducted of \$413.00 (that is 4.13% of his initial \$10,000). Craig also paid \$23.40 in other charges. This gives Craig a total return after tax of \$389.60 for the year.

Fund Update

for the quarter ended 31 December 2021

This fund update was first made publicly available on 14 February 2022

What is the purpose of this update?

This document tells you how the AMP Cash Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. AMP Wealth Management New Zealand Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

This is a single sector fund which primarily invests in cash and short-term deposits. The fund aims to achieve modest, stable returns with a very low level of investment risk, in exchange there should be no significant short-term movements up and down in the value of your investments.

Total value of the fund	\$82,698,512
Number of investors in the fund	3187
The date the fund started	1 October 2007

What are the risks of investing?

Risk indicator for the AMP Cash Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

Specific risk

In addition to the general investment risks, you should be aware this fund is concentrated in a particular asset class and not diversified across multiple asset classes. At any given point, market conditions that cause one asset class to perform well may cause another asset class to perform poorly. This could result in negative or lower than expected returns compared to a fund which is diversified across multiple asset classes.

How has the fund performed?

	Average over past 5 years ¹	Past year ¹
Annual return (after deductions for charges and tax)	0.69%	-0.05%
Annual return (after deductions for charges but before tax)	0.96%	-0.07%
Market index annual return (reflects no deduction for charges and tax)	1.31%	0.41%

The market index annual return is based on the Bloomberg NZBond Bank Bill Index. Additional information about the market index is available on the offer register at disclose-register.companiesoffice.govt.nz. Index disclaimers can be found on the AMP website at amp.co.nz/indexdisclaimers.

Annual return graph¹

This shows the return after fund charges and tax for each of the last 10 years ending 31 March. The last bar shows the average annual return for the last 10 years, up to 31 December 2021.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the AMP Cash Fund are charged fund charges. In the year to 31 March 2021 these were:

	% of net asset value
Total fund charges²	0.57%
Which are made up of -	
Total management and administration charges	0.57%
Including -	
Manager's basic fee	0.51%
Other management and administration charges	0.06%
Total performance-based fees	0.00%
Other charges	Dollar amount per investor or description of how charge is calculated
Member fee	\$23.40

Different member fees or fee rebates may apply to some members. Any different fees or rebates will be set out in the Member Booklet or supplement, if applicable, which you can request from your Adviser.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the 'fees and other charges' document on the entry relating to the offer of interests in the AMP KiwiSaver Scheme maintained on the offer register (disclose-register.companiesoffice.govt.nz) for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Craig had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Craig incurred a loss after fund charges were deducted of \$5.00 (that is -0.05% of his initial \$10,000). Craig also paid \$23.40 in other charges. This gives Craig a total loss after tax of \$28.40 for the year.

What are the risks of investing?

Risk indicator for the AMP International Shares Fund No. 2:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

Specific risk

In addition to the general investment risks, you should be aware this fund is concentrated in a particular asset class and not diversified across multiple asset classes. At any given point, market conditions that cause one asset class to perform well may cause another asset class to perform poorly. This could result in negative or lower than expected returns compared to a fund which is diversified across multiple asset classes.

How has the fund performed?

	Past year ¹
Annual return (after deductions for charges and tax)	23.75%
Annual return (after deductions for charges but before tax)	24.51%
Market index annual return (reflects no deduction for charges and tax)	25.56%

The market index annual return is based on the MSCI World ex Select Countries & GICS ex Select Securities Custom ESG Enhanced Focus 45.5% Hedged to NZD Index. Additional information about the market index is available on the offer register at disclose-register.companiesoffice.govt.nz. Index disclaimers can be found on the AMP website at amp.co.nz/indexdisclaimers.

Annual return graph¹

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 31 December 2021.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the AMP International Shares Fund No. 2 are charged fund charges. In the year to 31 March 2021 these were:

	% of net asset value
Total fund charges²	0.86%*
Which are made up of -	
Total management and administration charges	0.86%
Including -	
Manager's basic fee	0.73%
Other management and administration charges	0.13%
Total performance-based fees	0.00%
Other charges	Dollar amount per investor or description of how charge is calculated
Member fee	\$23.40

* Based on a decrease in the Manager's basic fee and Other management and administration charges, the Manager estimates that the total fund charges for the next scheme year will reduce to 0.80% of the net asset value.

Different member fees or fee rebates may apply to some members. Any different fees or rebates will be set out in the Member Booklet or supplement, if applicable, which you can request from your Adviser.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the 'fees and other charges' document on the entry relating to the offer of interests in the AMP KiwiSaver Scheme maintained on the offer register (disclose-register.companiesoffice.govt.nz) for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Craig had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Craig received a return after fund charges were deducted of \$2,375.00 (that is 23.75% of his initial \$10,000). Craig also paid \$23.40 in other charges. This gives Craig a total return after tax of \$2,351.60 for the year.

Description of this fund

The fund invests mainly in share and listed property assets, with a smaller exposure to cash and fixed interest assets. The fund aims to achieve investment performance ahead of inflation over the long term and achieve investment performance that reflects the level of risk applicable to the fund's underlying asset classes.

Total value of the fund	\$60,678,019
Number of investors in the fund	2858
The date the fund started	28 July 2016

What are the risks of investing?

Risk indicator for the ANZ Growth Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

How has the fund performed?

	Past year
Annual return (after deductions for charges and tax)	14.45%
Annual return (after deductions for charges but before tax)	15.19%
Market index annual return (reflects no deduction for charges and tax)	14.61%

The market index annual return is based on a composite index, calculated using the target investment mix weightings of the underlying market indices that the fund invests into. Additional information about the market index is available on the offer register at disclose-register.companiesoffice.govt.nz. Index disclaimers can be found on the AMP website at amp.co.nz/indexdisclaimers.

Annual return graph

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 31 December 2021.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the ANZ Growth Fund are charged fund charges. In the year to 31 March 2021 these were:

	% of net asset value
Total fund charges¹	1.27%
Which are made up of -	
Total management and administration charges	1.27%
Including -	
Manager's basic fee	1.18%
Other management and administration charges	0.09%
Total performance-based fees	0.00%
Other charges	Dollar amount per investor or description of how charge is calculated
Member fee	\$23.40

Different member fees or fee rebates may apply to some members. Any different fees or rebates will be set out in the Member Booklet or supplement, if applicable, which you can request from your Adviser.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the 'fees and other charges' document on the entry relating to the offer of interests in the AMP KiwiSaver Scheme maintained on the offer register (disclose-register.companiesoffice.govt.nz) for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Craig had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Craig received a return after fund charges were deducted of \$1,445.00 (that is 14.45% of his initial \$10,000). Craig also paid \$23.40 in other charges. This gives Craig a total return after tax of \$1,421.60 for the year.

Currency hedging

The fund will (or will invest in underlying funds that will):

- fully hedge foreign currency exposure for International fixed interest, Listed property and International equities - Listed infrastructure back to New Zealand dollars;
- hedge foreign currency exposure arising from Australasian equities with a benchmark of 50% and a range of 0% - 100%; and
- hedge foreign currency exposure arising from International equities with a benchmark of 65% and a range of 0% - 100%.

Where active currency management is being employed in accordance with the Active Currency Management Policy set out in the Statement of Investment Policy and Objectives, the result may be something other than a fully-hedged position for International fixed interest.

Specific risk

In addition to the general investment risks, you should be aware this fund is concentrated in a particular asset class and not diversified across multiple asset classes. At any given point, market conditions that cause one asset class to perform well may cause another asset class to perform poorly. This could result in negative or lower than expected returns compared to a fund which is diversified across multiple asset classes.

How has the fund performed?

	Past year ¹
Annual return (after deductions for charges and tax)	17.53%
Annual return (after deductions for charges but before tax)	18.52%
Market index annual return (reflects no deduction for charges and tax)	19.46%

The market index annual return is based on 25% S&P/NZX All Real Estate (Industry Group) Gross with Imputation, 25% S&P/ASX 200 A-REIT (Sector) (TR) (100% hedged to NZD) and 50% FTSE EPRA/NAREIT Developed Rental Index Net TRI (100% hedged to NZD) from December 2021. Prior to December 2021, the market index annual return was based on 30% S&P/NZX All Real Estate (Industry Group) Gross with Imputation, 20% S&P/ASX 200 A-REIT (Sector) (TR) (100% hedged to NZD) and 50% FTSE EPRA/NAREIT Developed Index Net TRI (100% hedged to NZD). The index was changed in line with the transition of this fund to a new underlying fund manager. Additional information about the market index is available on the offer register at disclose-register.companiesoffice.govt.nz. Index disclaimers can be found on the AMP website at amp.co.nz/indexdisclaimers.

What fees are investors charged?

Investors in the ANZ Property Fund are charged fund charges. In the year to 31 March 2021 these were:

	% of net asset value
Total fund charges²	1.18%*
Which are made up of -	
Total management and administration charges	1.18%
Including -	
Manager's basic fee	1.03%
Other management and administration charges	0.15%
Total performance-based fees	0.00%
Other charges	Dollar amount per investor or description of how charge is calculated
Member fee	\$23.40

* Based on a decrease in the Other management and administration charges, the Manager estimates that the total fund charges for the next scheme year will reduce to 1.12% of the net asset value.

Different member fees or fee rebates may apply to some members. Any different fees or rebates will be set out in the Member Booklet or supplement, if applicable, which you can request from your Adviser.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the 'fees and other charges' document on the entry relating to the offer of interests in the AMP KiwiSaver Scheme maintained on the offer register (disclose-register.companiesoffice.govt.nz) for more information about those fees.

As of 11 February 2022, Smartshares Limited has replaced ASB Group Investments Limited (ASBGI) as manager of the ASB Moderate Fund, the underlying fund that this fund invests its net assets into. Smartshares Limited has delegated to ASBGI, the former manager of the ASB Moderate Fund, certain investment management and administration functions, as investment manager and administration manager for ASB Moderate Fund. Over time, Smartshares Limited will assume these functions from ASBGI through a transition process which may take several years.

What is the purpose of this update?

This document tells you how the ASB Moderate Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. AMP Wealth Management New Zealand Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The fund has a well-diversified portfolio that employs an active approach to asset allocation, with underlying investments predominantly in index tracking funds. The fund aims to provide moderate returns allowing for moderate movements of value up and down.

Total value of the fund	\$25,379,652
Number of investors in the fund	836
The date the fund started	28 July 2016

What are the risks of investing?

Risk indicator for the ASB Moderate Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

How has the fund performed?

	Past year
Annual return (after deductions for charges and tax)	2.34%
Annual return (after deductions for charges but before tax)	2.02%
Market index annual return (reflects no deduction for charges and tax)	4.63%

The market index annual return is based on a composite index, calculated using the target investment mix weightings of the underlying market indices that the fund invests into. Additional information about the market index is available on the offer register at disclose-register.companiesoffice.govt.nz. Index disclaimers can be found on the AMP website at amp.co.nz/indexdisclaimers.

Annual return graph

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 31 December 2021.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the ASB Moderate Fund are charged fund charges. In the year to 31 March 2021 these were:

	% of net asset value
Total fund charges¹	1.04%
Which are made up of -	
Total management and administration charges	1.04%
Including -	
Manager's basic fee	0.93%
Other management and administration charges	0.11%
Total performance-based fees	0.00%
Other charges	Dollar amount per investor or description of how charge is calculated
Member fee	\$23.40

Different member fees or fee rebates may apply to some members. Any different fees or rebates will be set out in the Member Booklet or supplement, if applicable, which you can request from your Adviser.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the 'fees and other charges' document on the entry relating to the offer of interests in the AMP KiwiSaver Scheme maintained on the offer register (disclose-register.companiesoffice.govt.nz) for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Craig had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Craig received a return after fund charges were deducted of \$234.00 (that is 2.34% of his initial \$10,000). Craig also paid \$23.40 in other charges. This gives Craig a total return after tax of \$210.60 for the year.

Currency hedging

The fund will (or will invest in underlying funds that will):

- fully hedge (after tax for a 28% PIR investor) foreign currency exposure arising from International fixed interest back to New Zealand dollars;
- hedge the foreign currency exposure arising from Listed and Unlisted property, Listed and Unlisted infrastructure and Commodities 100% net hedged (for a 28% PIR investor) back to New Zealand dollars; and
- hedge the foreign currency exposure arising from International equities (excluding Listed infrastructure) with a benchmark of 50% net hedged (for a 28% PIR investor) back to New Zealand dollars and a permitted range of 0% to 100%. Proxy hedging (i.e. using the currency of a country as a proxy for the currency of another country) is also permitted.

Where active currency management is being employed in accordance with the Active Currency Management Policy set out in the Statement of Investment Policy and Objectives, the result may be something other than a fully-hedged position for International fixed interest.

Notes

- 1 From 25 June 2018 Mercer (N.Z.) Limited (Mercer) replaced Fisher Funds Management Limited (Fisher) as the underlying fund manager of the Fund. The fund performance in the table therefore shows fund performance which relates to both Mercer and Fisher.
- 2 We have used a composite index to prepare the table and bar graph, as there was no market index available for some of the relevant assets. The composite index is calculated using the target investment mix weightings of the underlying market and peer group indices for the asset classes that the fund invests into. A composite index may be a less reliable indicator of performance than an appropriate market index. In the table and bar graph, the return for the market index reflects no deduction for fund charges, trading expenses and tax, and the return for the peer group index reflects deductions for fund charges and trading expenses, but before tax. Additional information about the market and peer group indices is available in the Statement of Investment Policy and Objectives for your product which is available on the offer register at disclose-register.companiesoffice.govt.nz. Index disclaimers can be found on the AMP website at amp.co.nz/indexdisclaimers.
- 3 From Q1 2021, the methodology used to calculate the index return now uses daily returns, rather than monthly returns. As a result there will be a change in the index return for the years ended 31 March 2019 and 31 March 2020, compared with those shown in previous fund updates.
- 4 The total fund charges are inclusive of any applicable GST.
- 5 The other management and administration charges include estimates of underlying fund charges provided by underlying fund managers. The balance dates of the underlying fund(s) do not align with the balance date of the fund. To estimate the charges, AMP includes the underlying fund charges as at the relevant underlying fund(s) balance date, adjusted (where required) to reflect any material changes advised to AMP by the relevant underlying manager as having occurred during the intervening period.
- 6 The actual investment mix and top ten investments have been calculated excluding cash and cash equivalents held for operational purposes.

Fund Update

Notes

- 1 As at 23 February 2022, this fund may be selected as an investment option by members of the Scheme. However, it was not available prior to that date.
- 2 As the fund started on the date above, actual returns are not available. Therefore, to calculate the risk indicator for the five year period up to the date of this fund update, a combination of market index returns and underlying returns have been used where relevant. We consider this allows the risk indicator to reflect the potential future volatility of the fund. As a result of relying on a combination of market index returns and underlying returns, the risk indicator may provide a less reliable indicator of the potential future volatility of the fund.
- 3 The total fund charges are inclusive of any applicable GST.
- 4 As the fund started on the date noted above, historical fee information is not available. The total fund charges shown include our best estimates of the amount of costs and expenses that will be charged to the fund. These have been estimated as a percentage of the fund's net asset value and include both expenses expected to be incurred by the fund and fees (and costs) expected to be charged by the managers of the underlying funds in which the fund invests. These include fees for audit, printing and distribution, regulatory compliance, IT costs, administration manager charges, performance fees charged by unrelated underlying funds and other professional service fees. These fees have been determined using estimates provided by the underlying fund managers, our experience with the Scheme and a presumption that total fund charges will increase over the Scheme's next accounting period to 31 March 2022 as a result of increased regulatory costs and administration manager charges.
- 5 Note that the amount of the member fee could be less if you are in an employer plan and the impact of these fees on you could be less than that set out in the example - check your Member Booklet for details.
- 6 As the fund started on the date above, this calculation is based on the market index return for the past year and treats all investment returns as taxable.

- 6 As the fund started on the date above, this calculation is based on the market index return for the past year and treats all investment returns as taxable.

Fund Update

for the quarter ending 31 December 2021

This fund update was first made publicly available on 14 February 2022

What is the purpose of this update?

This document gives you information about the Milford Balanced Fund, including its target investment mix and what fees are charged. The document will help you to compare the fund with other funds. AMP Wealth Management New Zealand Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

To provide a diversified portfolio that primarily invests in equities, with a significant allocation to fixed interest securities. The fund's objective is to achieve capital growth over the minimum recommended investment timeframe.

Total value of the fund	-
Number of investors in the fund	-
The date the fund started	23/02/2022 ¹

What are the risks of investing?

Risk indicator for the Milford Balanced Fund²:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

How has the fund performed?

	Past year
Annual return (after deductions for charges and tax)	Not applicable
Annual return (after deductions for charges but before tax)	Not applicable
Market index annual return (reflects no deduction for charges and tax)	10.77%

The market index annual return is based on a composite index, calculated using the target investment mix weightings of the underlying market indices that the fund invests into. Additional information about the market index is available on the offer register at disclose-register.companiesoffice.govt.nz. Index disclaimers can be found on the AMP website at amp.co.nz/indexdisclaimers.

What fees are investors charged?

Investors in the Milford Balanced Fund are charged fund charges. Our estimate of the fund charges as at 31 December 2021 are:

	% of net asset value
Total fund charges (estimated) ^{3,4}	1.37%
Which are made up of -	
Total management and administration charges (estimated) ⁴	1.37%
Including -	
Manager's basic fee (estimated)	1.31%
Other management and administration charges (estimated)	0.06%
Total performance-based fees	0.00%
Other charges	Dollar amount per investor or description of how charge is calculated
Member fee ⁵	\$23.40

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the 'fees and other charges' document on the entry relating to the offer of interests in the AMP KiwiSaver Scheme maintained on the offer register (disclose-register.companiesoffice.govt.nz) for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Craig had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Craig received a return after fund charges were deducted of \$1,077 (that is 10.77% of his initial \$10,000). Craig also paid \$23.40 in other charges. This gives Craig a total return after tax of \$1053.60 for the year.⁶

Notes

- 1 As at 23 February 2022, this fund may be selected as an investment option by members of the Scheme. However, it was not available prior to that date.
- 2 As the fund started on the date above, actual returns are not available. Therefore, to calculate the risk indicator for the five year period up to the date of this fund update, a combination of market index returns and underlying returns have been used where relevant. We consider this allows the risk indicator to reflect the potential future volatility of the fund. As a result of relying on a combination of market index returns and underlying returns, the risk indicator may provide a less reliable indicator of the potential future volatility of the fund.
- 3 The total fund charges are inclusive of any applicable GST.
- 4 As the fund started on the date noted above, historical fee information is not available. The total fund charges shown include our best estimates of the amount of costs and expenses that will be charged to the fund. These have been estimated as a percentage of the fund's net asset value and include both expenses expected to be incurred by the fund and fees (and costs) expected to be charged by the managers of the underlying funds in which the fund invests. These include fees for audit, printing and distribution, regulatory compliance, IT costs, administration manager charges, performance fees charged by unrelated underlying funds and other professional service fees. These fees have been determined using estimates provided by the underlying fund managers, our experience with the Scheme and a presumption that total fund charges will increase over the Scheme's next accounting period to 31 March 2022 as a result of increased regulatory costs and administration manager charges.
- 5 Note that the amount of the member fee could be less if you are in an employer plan and the impact of these fees on you could be less than that set out in the example - check your Member Booklet for details.
- 6 As the fund started on the date above, this calculation is based on the market index return for the past year and treats all investment returns as taxable.

Fund Update

for the quarter ended 31 December 2021

This fund update was first made publicly available on 14 February 2022

What is the purpose of this update?

This document tells you how the Nikko AM Balanced Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. AMP Wealth Management New Zealand Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The fund aims to provide investors with a carefully constructed balance of diversified assets in a manner that aims to both optimise investment returns and to minimise the risk of investment loss, and to preserve the capital value of investing funds over the longer term in real terms. The fund gains its investment exposure by investing into a range of actively managed funds to create a diversified portfolio with a balanced mix of lower and higher risk assets.

Total value of the fund	\$104,294,732
Number of investors in the fund	3024
The date the fund started	1 October 2007

What are the risks of investing?

Risk indicator for the Nikko AM Balanced Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

Notes

- 1 We have used a composite index to prepare the table and bar graph, as there was no market index available for some of the relevant assets. The composite index is calculated using the target investment mix weightings of the underlying market and peer group indices for the asset classes that the fund invests into. A composite index may be a less reliable indicator of performance than an appropriate market index. The composite index used in this fund update is not directly relevant for all of the underlying assets of this fund. In the table and bar graph, the return for the market index reflects no deduction for fund charges, trading expenses and tax, and the return for the peer group index reflects deductions for fund charges and trading expenses, but before tax. Additional information about the market and peer group indices is available in the Statement of Investment Policy and Objectives for your product which is available on the offer register at disclose-register.companiesoffice.govt.nz. Index disclaimers can be found on the AMP website at amp.co.nz/indexdisclaimers.
- 2 The indices used to calculate index returns for this fund includes the Eurekahedge Fund of Funds Index, which is a peer group index. We have aligned the timing for calculating returns for that index with the approach taken by the underlying fund manager, and accordingly the index return in the annual return graph has been revised slightly from previous fund updates which use those returns.
- 3 The total fund charges are inclusive of any applicable GST.
- 4 The actual investment mix and top ten investments have been calculated excluding cash and cash equivalents held for operational purposes.

Fund Update

for the quarter ended 31 December 2021

This fund update was first made publicly available on 14 February 2022

What is the purpose of this update?

This document tells you how the Nikko AM Growth Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. AMP Wealth Management New Zealand Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The fund aims to provide investors with a portfolio of predominantly growth assets to deliver growth in capital value over the long term. The fund gains its investment exposure by investing into a range of actively managed funds to create a diversified portfolio with a focus on higher risk assets.

Total value of the fund	\$49,973,058
Number of investors in the fund	2433
The date the fund started	28 July 2016

What are the risks of investing?

Risk indicator for the Nikko AM Growth Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

How has the fund performed?

	Past year ¹
Annual return (after deductions for charges and tax)	5.66%
Annual return (after deductions for charges but before tax)	6.01%
Composite of market index annual return (reflects no deduction for charges and tax) and peer group index annual return (after deductions for charges but before tax)	10.85%

Annual return graph^{1,2}

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 31 December 2021.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the Nikko AM Growth Fund are charged fund charges. In the year to 31 March 2021 these were:

	% of net asset value
Total fund charges (estimated)³	1.70%*
Which are made up of -	
Total management and administration charges (estimated)	1.70%
Including -	
Manager's basic fee (estimated)	1.18%
Other management and administration charges (estimated)	0.52%
Total performance-based fees	0.00%
Other charges	Dollar amount per investor or description of how charge is calculated
Member fee	\$23.40

* Based on a decrease in the Other management and administration charges, the Manager estimates that the total fund charges for the next scheme year will reduce to 1.34% of the net asset value.

Different member fees or fee rebates may apply to some members. Any different fees or rebates will be set out in the Member Booklet or supplement, if applicable, which you can request from your Adviser.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the 'fees and other charges' document on the entry relating to the offer of interests in the AMP KiwiSaver Scheme maintained on the offer register (disclose-register.companiesoffice.govt.nz) for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Craig had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Craig received a return after fund charges were deducted of \$566.00 (that is 5.66% of his initial \$10,000). Craig also paid \$23.40 in other charges. This gives Craig a total return after tax of \$542.60 for the year.

Notes

- 1 We have used a composite index to prepare the table and bar graph, as there was no market index available for some of the relevant assets. The composite index is calculated using the target investment mix weightings of the underlying market and peer group indices for the asset classes that the fund invests into. A composite index may be a less reliable indicator of performance than an appropriate market index. The composite index used in this fund update is not directly relevant for all of the underlying assets of this fund. In the table and bar graph, the return for the market index reflects no deduction for fund charges, trading expenses and tax, and the return for the peer group index reflects deductions for fund charges and trading expenses, but before tax. Additional information about the market and peer group indices is available in the Statement of Investment Policy and Objectives for your product which is available on the offer register at disclose-register.companiesoffice.govt.nz. Index disclaimers can be found on the AMP website at amp.co.nz/index-disclaimers.
- 2 The indices used to calculate index returns for this fund includes the Eurekahedge Fund of Funds Index, which is a peer group index. We have aligned the timing for calculating returns for that index with the approach taken by the underlying fund manager, and accordingly the index return in the annual return graph has been revised slightly from previous fund updates which use those returns.
- 3 The total fund charges are inclusive of any applicable GST.
- 4 The actual investment mix and top ten investments have been calculated excluding cash and cash equivalents held for operational purposes.
