

AMP CAPITAL INVESTMENT FUNDS GOALS BASED FUNDS

Product Disclosure Statement

Dated 18 July 2019

This document replaces the Product Disclosure Statement dated 3 December 2018.

Issued by AMP Investment Management (N.Z.) Limited

This document gives you important information about this investment to help you decide whether you want to invest. There is other useful information about this offer on www.companiesoffice.govt.nz/disclose. AMP Investment Management (N.Z.) Limited has prepared this document in accordance with the Financial Markets Conduct Act 2013 (**FMC Act**). You can also seek advice from a financial adviser to help you to make an investment decision.

1. Key information summary

What is this?

This is a managed investment scheme. Your money will be pooled with other investors' money and invested in various investments. AMP Investment Management (N.Z.) Limited will invest your money and charge you a fee for its services. The returns you receive are dependent on the investment decisions of AMP Investment Management (N.Z.) Limited, and of its investment managers and the performance of the investments. The value of those investments may go up or down. The types of investments and the fees you will be charged are described in this document.

What will your money be invested in?

There are two investment options offered under this Product Disclosure Statement (PDS).

These investment options are summarised below. More information about the investment target and strategy for each investment option is provided in section 3 of the PDS, "Description of your investment options" on page 6.

Who manages the AMP Capital Goals Based Funds?

The manager of the funds is AMP Investment Management (N.Z.) Limited (**Manager**).

See section 7 of the PDS, "Who is involved?" on page 8 for more information about us.

What are the returns?

The return on your investment comes from:

- any increase or decrease in the unit price, and
- any income distributions made from the fund.

The Income Generator Fund pays a fixed monthly distribution amount to investors.

The Global Multi-Asset Fund does not distribute income.

See section 2 of the PDS, "How does this investment work?" on page 5 for more information.

How can you get your money out?

You may at any time request the redemption of some or all of your investment. For each fund, payment will normally be made within 10 business days of the Manager receiving a redemption request from you.

We reserve the right to refuse a redemption request for less than \$50 or a redemption request that would result in you holding less than \$50 of units (except where all of your units are to be redeemed). We also have the ability, in certain circumstances, to suspend redemptions (for instance, where we believe, in good faith, that it is not practicable or would be prejudicial to investors' interests for the Supervisor to realise assets or borrow to permit redemptions – this could be because of market or asset conditions or other circumstances).

See section 2 of the PDS, "How does this investment work?" on page 5 for more information.

Your investment in the AMP Capital Goals Based Funds can be sold but there is no established market for trading these financial products. This means that you may not be able to find a buyer for your investment.

How will your investment be taxed?

All of the funds offered under this PDS are Portfolio Investment Entities (PIEs).

The amount of tax you pay in respect of a PIE is based on your Prescribed Investor Rate (PIR). To determine your PIR go to www.ird.govt.nz/toii/pir/.

See section 6 of the PDS "What taxes will you pay?" on page 8 for more information.

Where can you find more key information?

AMP Investment Management (N.Z.) Limited is required to publish quarterly updates for each fund. The updates show the returns, and the total fees actually charged to investors, during the previous year. The latest fund updates are available at www.ampcapital.com. The Manager will also give you copies of those documents on request.

FUND NAME	DESCRIPTION	RISK INDICATOR	FUND CHARGES (ESTIMATED) (of the value of the fund's assets each year)	BUY / SELL SPREAD (of each investment/redemption)
GLOBAL MULTI-ASSET FUND	The fund is a diversified fund that aims to generate a positive return above inflation and to actively respond to changing market conditions with a flexible approach to investing.		1.27%	0.15% / 0.15%
See note 1 below.				
INCOME GENERATOR FUND	The fund aims to provide a gross fixed monthly income in excess of bank deposit rates, along with a positive return on capital over the long term. To achieve this, the fund invests in a diversified mix of growth and defensive assets, with a focus on reliable income generation. Environmental, Social and Governance characteristics are integrated into the underlying investment managers' investment processes.		0.87%	0.25% / 0.25%

See section 4 of the PDS, “What are the risks of investing?” on page 7 for an explanation of the risk indicator and for information about other risks that are not included in the risk indicator. To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz.

Note 1: Due to the absence of five years of actual data and the absolute return nature of the Global Multi-Asset Fund, the risk indicator is based on the expected volatility of the fund. This has been calculated by reference to the expected volatility of the underlying funds into which it invests.

See page 7 for an explanation of the risk indicator and for information about other risks that are not included in the risk indicator. To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz.

2. How does this investment work?

This PDS is an offer to purchase units in the AMP Capital Goals Based Funds. Each of the funds offered under this PDS is constituted within a managed investment scheme that is governed by a trust deed dated 24 November 2015 (the AMP Capital Investment Retail Funds Trust Deed).

The money you invest buys units in the fund or funds you choose. Each fund invests in assets, such as other funds. The units do not give you legal ownership of the fund's assets but they do give you rights to the returns from the assets.

The price of each unit depends on the value of the fund at the time you invest and any buy spread that applies to that fund. We calculate the unit price for a fund by dividing the Current Value of the fund by the number of units the fund has issued. The unit price is calculated daily.

A change in the value of the fund's assets affects the value of your units. The unit price for a fund will change as the market value of that fund's assets changes.

The number of units you have, when multiplied by the unit price, gives you the total value of your investment in any one fund (although the impact of tax can result in a change in the number of units you hold, up or down).

The assets of a fund are not available to meet the liabilities of any other fund in the scheme.

Investing in managed funds can help you achieve your savings goals and create greater wealth for the future by offering you:

- **Diversification.** Pooling together large amounts of money enables fund managers to invest in a spread of assets which allows diversification and aims to reduce the risk of your investment portfolio. It also provides access to markets and securities that might otherwise be out of reach.
- **Professional management.** Employing the expertise and resources of a professional manager is particularly beneficial if you do not have the time or the skill to manage your own investments.
- **Simplified investing.** Fund managers take care of the paperwork involved in buying, selling, reporting and record keeping.

The return on your investment comes from:

- any increase or decrease in the unit price, and
- any income distributions made from the fund.

The Income Generator Fund pays a fixed monthly distribution amount to unit holders. For the current monthly distribution amount either refer to the fund details for the Income Generator Fund on the register entry for the AMP Capital Investment Funds at www.companiesoffice.govt.nz/disclose or the fund's latest Fact Sheet on our website: www.ampcapital.com.

The monthly distributions will be based on our estimate of the fund's annual income in the current financial year, apportioned on a monthly basis. The fund aims to pay a stream of identical monthly distributions. However, if circumstances require, the amount of each distribution may be varied within a twelve-month distribution period. The capability to vary the distribution amount may be used to provision or build a reserve within the Fund, or to release previously reserved income and/or capital of the Fund and thus can lead to either an upward or downward adjustment in the distribution amount. The regular practice will be a monthly distribution reflecting the apportionment of the fund's income stream.

On or around 1 April each year, we will provide you with an indication of the distribution rate for the coming year ahead. An interim confirmation of, or adjustment to, the distribution rate will be provided on or around 1 October of the same year. While the initial indicative rate set on 1 April will normally be valid for the subsequent monthly distributions through until the succeeding re-set date, it is possible that changing market conditions will require a mid-year rate re-set. This adjustment may be either an increase or a decrease in the distribution rate for the remainder of that calendar year. If the income received by the Fund has differed materially from the level expected and indicated in the 1 April indicative communication, the distribution amount may be adjusted to ensure the sustainability of the fund's pay-out ratio or to build reserves in the fund against future volatility or shortfalls in income.

You may elect to have all (but not part) of your distribution of income reinvested in further units (**Reinvestment Option**) and you can cancel, at any time, your election to reinvest in further units. A buy spread will not be charged on your reinvestment. Two weeks' notice is required of any changes to your election for those changes to be effective for a given distribution.

The Reinvestment Option may be varied, withdrawn or cancelled by us at any time, by giving not less than three months' notice to you.

The Global Multi-Asset Fund does not distribute income.

Accordingly, any income of this fund is reflected in its unit price.

Making investments

You can make an investment in any of the funds by completing the application form at the back of this PDS or invest online at www.ampcapital.com.

You may invest in one or more funds as long as you invest a minimum of \$50 in each fund. When you make an investment in a fund, we will issue units at the unit price for that fund, adjusted for the applicable buy spread for that fund.

We also offer these funds via selected administration and custodial services. When reading this PDS you should remember that if your investments are made through an administration and custodial service they will be held by a custodian on your behalf. You should refer to the administration and custodial service terms and the relevant marketing information about investing in the funds through that service.

Withdrawing your investments

You may request a redemption of some or all of your investment at any time. For each fund, payment will normally be made within 10 business days of our receiving a redemption request from you. However, we have the ability, in certain circumstances, to suspend redemptions (for instance, where we believe, in good faith, that it is not practicable or would be prejudicial to investors' interests for the Supervisor to realise assets or borrow to permit redemptions – this could be because of market or asset conditions or other circumstances).

When you redeem all or part of your investment from a fund, we will redeem your investment at the unit price for that fund adjusted for the applicable sell spread for that fund.

We reserve the right to refuse a redemption request for less than \$50 or a redemption request that would result in you holding less than \$50 of units (except where all of your units are to be redeemed).

How to switch between funds

You may at any time request to switch your investment between the funds offered under this PDS or to any other AMP Capital Investment Fund offered by us. A switch will be treated as a redemption from one fund or funds and an application into the other fund or funds.

You will not be charged a switch fee but the buy and sell spreads will apply on each redemption and application under the switch. More information about the buy and sell spreads can be found in section 5 of the PDS, "What are the fees?" on page 8.

This PDS provides information on the AMP Capital Goals Based Funds. Information on other AMP Capital Investment Funds not offered under this PDS is provided in the following PDS documents:

- AMP Capital Cash and Fixed Interest Funds PDS
- AMP Capital Global Shares Funds PDS
- AMP Capital New Zealand and Australian Shares Funds PDS

3. Description of your investment options

FUND	SUMMARY OF INVESTMENT OBJECTIVES AND STRATEGY	TARGET ASSET MIX	RISK CATEGORY	MINIMUM SUGGESTED INVESTMENT TIMEFRAME
GLOBAL MULTI-ASSET FUND	<p>Objective: To provide a Real Return of greater than 5% per annum over a rolling five year period.</p> <p>Strategy: Assets are managed using an approach with multiple managers. The underlying funds provide diversity across asset classes, sectors, geographies and investment managers, and have the ability to change the investment allocations in order to navigate the ups and downs of the investment cycle. Risk mitigation strategies within the underlying funds are designed to lower expected volatility in returns and reduce the impact of market related events.</p> <p>The underlying funds do not have a target asset allocation, rather the funds operate within broad ranges.</p> <p>Active currency hedging back to Australian dollars is undertaken within the underlying funds. The Australian dollar exposure of the fund (the combined market value of the underlying funds) will be hedged back to New Zealand dollars.</p>	<p>Cash and cash equivalents 0 - 100%</p> <p>International fixed interest 0 - 100%</p> <p>Australasian equities 0 - 75%</p> <p>International equities 0 - 75%</p> <p>Listed property 0 - 75%</p> <p>Unlisted property 0 - 30%</p> <p>Other 0 - 75%</p>	3	4 years
INCOME GENERATOR FUND	<p>Objective: To maximise the amount of the monthly distribution payments by outperforming, over the medium term, the weighted average return of the market indices used to measure performance of the underlying funds/assets in which the fund invests.</p> <p>Strategy: Investment in a diversified mix of growth and defensive assets aims to provide regular income along with a positive return on capital over the long term. Payment of a fixed monthly distribution is delivered by actively managing a diversified range of income-producing assets such as fixed interest securities, corporate bonds, equities and infrastructure. Environmental, Social and Governance characteristics are integrated into the underlying investment managers' investment process.</p> <p>The fund's foreign currency exposure (excluding Australian dollar exposure) is fully hedged back to New Zealand dollars. Australian dollar exposure is not currently hedged.</p>	<p>Cash and cash equivalents 10%</p> <p>New Zealand fixed interest 25%</p> <p>International fixed interest 25%</p> <p>Australasian equities 30%</p> <p>International equities 5%</p> <p>Listed property 5%</p>	3	3 years

The Manager can make changes to the Statement of Investment Policy and Objectives (SIPO) of any fund in accordance with the Trust Deed and the FMC Act. Before making changes to the SIPO, the Manager will consider if the changes are in your best interests and consult with the Supervisor. We will give notice of changes to unit holders of the relevant fund prior to effecting any material changes. The most current SIPO for the funds can be found on the scheme register at www.companiesoffice.govt.nz/disclose.

The Manager's use of the various market indices referred to here is subject to certain terms, conditions and disclaimers as described in the offer register at www.companiesoffice.govt.nz/disclose in the document titled 'Other material information', located under the 'Documents' tab on the managed fund offer register for the AMP Capital Investment Funds.

Further information about the assets in each fund can be found in the fund updates at www.ampcapital.com.

4. What are the risks of investing?

Understanding the risk indicator

Managed funds in New Zealand must have a standard risk indicator. The risk indicator is designed to help investors understand the uncertainties both for loss and growth that may affect their investment. You can compare funds using the risk indicator.

See section 1 of the PDS, “Key information summary” on page 3 for the risk indicators for the funds offered under this PDS.

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund’s assets goes up and down (volatility). A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz.

Note that even the lowest category does not mean a risk-free investment, and there are other risks (described under the heading ‘Other specific risks’) that are not captured by this rating.

This risk indicator is not a guarantee of a fund’s future performance. The risk indicator is based on the returns data for the five years to 30 June 2019 (see page 3 for more detail on how these were calculated). While risk indicators are usually relatively stable, they do shift from time to time. You can see the most recent risk indicator in the latest fund updates for these funds.

General investment risks

Some of the things that may cause the funds’ value to move up and down, which affect the risk indicator, are:

Market risk

Market risk is the risk of losses in a fund’s investments arising due to the market prices of those investments changing.

This is of significance to the AMP Capital Goals Based Funds as the assets of those funds are market linked, and are therefore susceptible to general market fluctuations and individual security price fluctuations.

Currency risk

Currency risk is the risk of exchange rate fluctuations between the New Zealand dollar (the currency in which the funds are valued) and foreign currencies.

Currency risk will affect funds that invest in offshore assets that are not fully hedged back to New Zealand dollars. The AMP Capital Goals Based Funds all have assets invested offshore and therefore the returns of these funds can be affected by movements between the New Zealand dollar and other currencies if they are not adequately hedged.

We manage currency risk for each of the funds which have exposure to overseas assets by a currency management policy, where some or all of the currency exposure is hedged back to New Zealand dollars.

The currency management policy for each fund is detailed in the AMP Capital Investment Funds SIPO.

Liquidity risk

In volatile market conditions, a fund’s assets may not necessarily be as easily realisable as they may have been at a previous point in time, or may only be able to be realised at a lower value than might be expected in normal market conditions. This could have a negative effect on the value of a fund’s assets and its performance, and in turn may affect the value of your investment and the returns you receive from the fund.

Global Multi-Asset Fund - Asset allocation and concentration risk

The Global Multi-Asset Fund invests in the Australian AMP Capital Multi-Asset Fund and the Schroder Real Return Fund. The investment managers of the Australian AMP Capital Multi-Asset Fund and the Schroder Real Return Fund each have the flexibility to significantly change the asset class mix at any time and within broad ranges. Therefore, the Global Multi-Asset Fund may be concentrated in a particular asset class or type of investment vehicle, geographical area or industry at any point in time, which may subject the Global Multi-Asset Fund to significant performance volatility relative to its objective. If this volatility occurs, the Global Multi-Asset Fund may fail to meet its stated performance objective.

Other specific risks

Income Generator Fund – Capital and Distribution Risk

In the event of adverse market conditions, the income generated by the fund may become insufficient to meet the monthly fixed distributions. If this occurs, it will be necessary for either the distributions to be made by selling some of the fund’s assets, or the Manager may elect to temporarily suspend distributions. In the event of distributions being made from the sale of assets, there will be a commensurate reduction in the assets available to be invested by the fund. Where the Manager forms the view that it is in the best interests of investors to suspend distributions, then it may do so by providing written notice to investors and the Supervisor. During the period for which any such suspension is in effect, any income that would otherwise have been paid as distributions will be retained within the fund and, as such, will be reflected as an increase in the price of the fund’s units.

PIE tax will be calculated on your share of allocated taxable income of the fund. This PIE tax will be deducted and paid for those investor’s with a PIR greater than 0%. PIE tax on allocated taxable income is deducted on the redemption of units and at PIE year end, generally on 31 March each year. There could be a reduction in the value of your investment in the fund due to satisfying PIE tax liability, as appropriate and the monthly distributions paid to you.

No PIE tax will be deducted from your income distribution or retained in the Fund for the payment of PIE tax.

5. What are the fees?

You will be charged fees for investing in the AMP Capital Goals Based Funds. Fees are deducted from your investment and will reduce your returns. If any of the funds invest in other funds, those other funds may also charge fees. The fees you pay will be charged in two ways:

Regular charges - for example annual fund charges. Small differences in these fees can have a big impact on your investment over the long term.

One-off fees - for example the initial buy spread.

Annual Fund Charges

	MANAGEMENT FEES (excluding GST)	ESTIMATED ADMINISTRATION CHARGES (including GST)	TOTAL ANNUAL FUND CHARGES
Global Multi-Asset Fund	1.15%	0.12%	1.27%
Income Generator Fund	0.80%	0.07%	0.87%

Management fees - We charge an annual management fee to each fund as set out above. GST is currently charged at 15% on 10% of the management fee in accordance with the non-binding IRD agreement with the Financial Services Council of New Zealand Incorporated on behalf of the funds management industry. GST on management fees is currently under review and therefore this percentage may change in the future.

Administration charges - These charges cover the general management of the fund eg supervisor, legal, custodian and audit fees. Subject to the exception noted below, they also cover charges payable in respect of the underlying funds that the above funds invest in. These charges are an estimate. Actual charges over the previous 12 months are available in the latest fund update.

Individual Action Fees

Buy/Sell spreads

	BUY SPREAD	SELL SPREAD
Global Multi-Asset Fund	0.15%	0.15%
Income Generator Fund	0.25%	0.25%

Explanation

Buy/Sell spreads - When you enter or leave a fund, any buy or sell spreads applicable at that time will be a cost to you. The buy spread is added to the unit price on entry to the fund, and the sell spread is deducted from the unit price on exit from the fund. The buy/sell spreads belong to the fund and are not fees paid to us or any investment manager. The purpose of buy/sell spreads is to make sure that any transaction costs incurred as a result of an investor entering or leaving the fund are borne by that investor, and not other investors in the fund. There is no GST charged on buy/sell spreads.

There are no other one-off fees currently being charged to any of the funds offered under this PDS.

Example of how fees apply to an investor

See the latest fund update for an example of the actual returns and fees investors were charged over the past year.

This example applies only to the Global Multi-Asset Fund. If you are considering investing in other funds in the scheme, this example may not be representative of the actual fees you may be charged.

Alistair invests \$10,000 in the Global Multi-Asset Fund. A buy spread of 0.15% is incorporated in the unit price that he pays for his investment. This equates to \$15.

This brings the starting value of his investment to \$9,985.

He is also charged management and administration fees, which work out to about \$127 (1.27% of \$9,985). These fees might be more or less if the value of his investment has increased or decreased over the year.

Estimated total fees for the first year

Individual action fees: \$15

Fund charges: \$127

The fees can be changed

We can change fees from time to time. We can also add new fees. The rules about fee changes are in the Trust Deed which can be found on the scheme register at www.companiesoffice.govt.nz/disclose.

AMP Investment Management (N.Z.) Limited must publish a fund update for each fund showing the fees actually charged during the most recent year. Fund updates, including past updates are available on the offer register at www.companiesoffice.govt.nz/disclose.

6. What taxes will you pay?

Each fund is a Portfolio Investment Entity. The amount of tax you pay is based on your PIR. To determine your PIR, go to www.ird.govt.nz/toii/pir/. If you are unsure of your PIR, we recommend you seek professional advice or contact the Inland Revenue Department. It is your responsibility to tell the Manager (or, if you invest through an administration and/or custodial service, the provider of that service) your PIR when you invest or if your PIR changes. If you do not tell the Manager (or the provider of the administration and/or custodial service you invest through, if applicable), a default rate may be applied. If the advised PIR is lower than the correct PIR, you will need to complete a personal tax return and pay any tax shortfall, interest, and penalties. If the default rate or the advised PIR is higher than the correct PIR, you will not get a refund of any overpaid tax.

STEP 7 ACKNOWLEDGEMENTS

I/We have received and read the latest Product Disclosure Statement for the AAMP Capital Goals Based Funds dated 18 July 2019 and understand that the terms and conditions of the Trust Deed will be binding on us. I/We agree to accept the Units issued to me/us by the Manager as a Unit Holder under the Trust Deed. I/We agree to be bound by the provisions of that Trust Deed (as duly amended from time to time). I/we acknowledge that AMP Investment Management (N.Z.) Limited, AMP Capital Investors (New Zealand) Limited and other members of the AMP group of companies (AMP Group) are subject to anti-money laundering, countering financing of terrorism and sanctions laws (AML Laws) in New Zealand, Australia and elsewhere. I/we agree not to do anything that could cause any member of the AMP Group to breach the AML Laws. I/we agree to provide each member of the AMP Group with all information and other assistance it reasonably requires to comply with the AML Laws. I/we agree to indemnify each member of the AMP Group against any loss it suffers as a result of me/us providing incorrect or incomplete information. I/we agree that no member of the AMP Group shall be liable to me/us or anyone else for any refusal to process or delay in processing a transaction I/we have requested or a suspension of my/our accounts with a member of the AMP Group in accordance with the AML Laws. I/we represent and warrant that I/We have no cause to believe the funds used to purchase Units in the Funds are the proceeds of crime or will be used to finance terrorism.

I/We confirm that I/we are authorised to provide the personal details presented in this application form.

I/We agree that all information about me/us disclosed in this form may be used by AMP Investment Management (N.Z.) Limited or disclosed to and used by AMP Capital Investors (New Zealand) Limited and the Supervisor for the purpose of managing the Funds and my/our holding, including compliance with the AML Laws.

I/We consent to my information being passed to and checked with the document issuer, official record holder, a credit bureau, and any other third parties authorised by AMP Investment Management (NZ) Limited for the purpose of verifying my identity and address.

I/We know that I/we can request such access to and correction of any information held about me/us by AMP Investment Management (N.Z.) Limited or AMP Capital Investors (New Zealand) Limited and the Supervisor. Notwithstanding the foregoing, I/we acknowledge that where a suspicious transaction report has been made about me/us, the person who has made that report is not able to give me/us access to any information about that report (including its existence) and I/we have no right to request information in that report be corrected. I/We will inform AMP Investment Management (N.Z.) Limited of any changes to the information provided by me/us to AMP Investment Management (N.Z.) Limited, AMP Capital Investors (New Zealand) Limited or the Supervisor.

I/We acknowledge that I/we may be required separately in relation to this application to pay a fee to AMP Capital Investors (New Zealand) Limited or an associated person.

I/we undertake to advise the recipient promptly and provide an updated self-certification form where any change in circumstances occur, which causes any of the information contained in Step 3 this form to be inaccurate or incomplete.
