ASB KiwiSaver Scheme Conservative Fund

Fund Update for the quarter ending 30 September 2025

This fund update was first made publicly available on: 29 October 2025

What is the purpose of this update?

This document tells you how the Conservative Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. ASB Group Investments Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

To provide modest total returns allowing for modest movements of value up and down. The number of years with negative returns are generally expected to be higher than the NZ Cash Fund but lower than the Moderate Fund in the ASB KiwiSaver Scheme. We manage asset allocation and currency hedging over the medium to long term relative to the target investment mix. We focus on cost effective management. The Conservative Fund invests in income and growth assets with a target investment mix of 80% income assets and 20% growth assets.

Total value of the fund	$3,698,821,323
Number of investors in the fund	133,010
The date the fund started	02/10/2007

What are the risks of investing?

Risk indicator for Conservative Fund

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at http://www.sorted.org.nz/tools/investor-kickstarter

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

The risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for a 5 year period to 30 September 2025. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this fund.

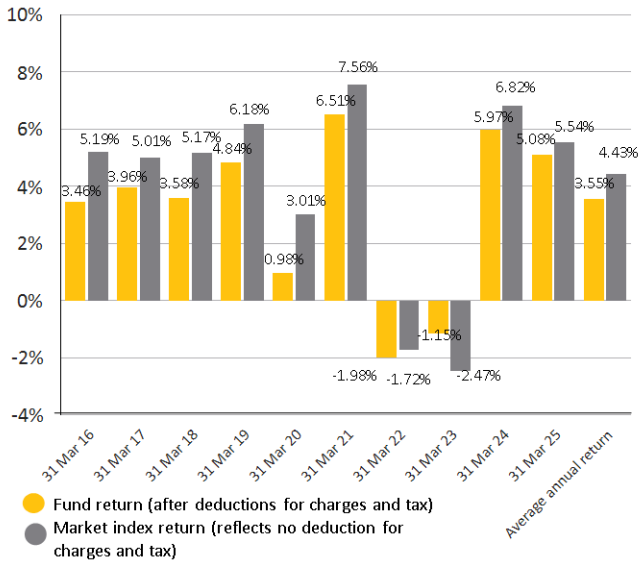
The risk indicator may not be a reliable indicator of the risk or returns that a fund is likely to experience in the future. For example, the risk indicator may be different if it was based on returns over a longer period.

How has the fund performed?

	Average over past five years	Past year
Annual return (after deductions for charges and tax)	2.80%	6.84%
Annual return (after deductions for charges but before tax)	3.22%	8.04%
Market index annual return (reflects no deduction for charges and tax)	2.83%	6.95%

The market index return is calculated using the market index for each asset class and the target investment mix which applied during the relevant period. The market index for each asset class and the target investment mix which applied during the relevant period are each as described in the Statements of Investment Policy and Objectives (SIPO) which applied during the relevant period. Additional information about the market index is available on the offer register at disclose-register.companiesoffice.govt.nz (search for ASB KiwiSaver Scheme).

Annual return graph



This shows the return after fund charges and tax for each of the last 10 years ending 31 March. The last bar shows the average annual return for the last 10 years, up to 30 September 2025.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the Conservative Fund are charged fund charges. In the year to 31 March 2025 these were:

	% of net asset value
Total fund charges[1]	0.40%
Which are made up of:	
Total management and administration charges	0.40%
Including:	
Manager's basic fee	0.40%
Other management and administration charges	0.00%
Total performance-based fees	0.00%
Other charges	Nil

[1]*Currently no GST or other tax is payable on the fees.*

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). These fees are not currently charged for the fund.

Small differences in fees and charges can have a big impact on your investment over the long term.

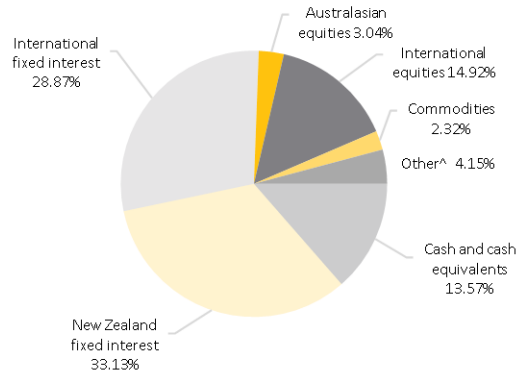
Example of how this applies to an investor

Jason had $10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Jason received a return after fund charges were deducted of $684.00 (that is 6.84% of his initial $10,000). Jason also paid $0.00 in other charges. This gives Jason a total return after tax of $684.00 for the year.

What does the fund invest in?

Actual investment mix

This shows the types of assets that the fund invests in.



Target investment mix

This shows the mix of assets that the fund generally intends to invest in.

Cash and cash equivalents	23.25%
New Zealand fixed interest	30.00%
International fixed interest	26.75%
Australasian equities	3.30%
International equities	16.70%
Listed property	0.00%
Unlisted property	0.00%
Commodities	0.00%
Other	0.00%

Currency hedging

As at 30 September 2025 the fund's exposure to assets denominated in foreign currencies was 49%, of which 78% was hedged. This means the fund's unhedged foreign currency exposure was 11% of the net asset value of the fund. More information on our currency hedging policy can be found in the SIPO on the scheme register at disclose-register.companiesoffice.govt.nz (search for ASB KiwiSaver Scheme).
