Section 1 - Key Information Summary

What is this?

This is an offer of unsecured, subordinated, redeemable shares that qualify as Tier 2 Regulatory Capital (**SBS Capital Bonds**). SBS Capital Bonds are debt securities issued by Southland Building Society (**SBS Bank**). You give SBS Bank money, and in return we promise to pay you Interest and repay the money at the end of the term. If SBS Bank runs into financial trouble, you might lose some or all of the money you invested.

SBS Capital Bonds are debt securities that have the features of Regulatory Capital instruments and building society shares. They are different to most bonds issued by banks or other corporates because they are able to be repaid early by us in some situations and they give Holders a membership right, which includes the right to vote and participate in surplus assets of SBS Bank on a liquidation.

About Southland Building Society

No guarantee

SBS Bank is responsible for paying Interest on the SBS Capital Bonds and for the repayment of the SBS Capital Bonds.

The SBS Capital Bonds are not guaranteed by any member of the Group or any other person.

The SBS Capital Bonds are not protected deposits for the purposes of the Deposit Takers Act 2023 and therefore will not be subject to the depositor compensation scheme provisions of that Act.

How you can get your money out early

You have no ability to require us to redeem/repay the Principal Amount of your SBS Capital Bonds early (or any accrued Interest) including where there is an Event of Default as described in the Master Deed.

We do not intend to quote these SBS Capital Bonds on a market licensed in New Zealand and there is no other established market for trading them. This means that you may not be able to sell your SBS Capital Bonds before the end of their term.

We may, at our option, repay the Principal Amount of your SBS Capital Bonds early as described under the heading “*Early redemption*” above.

How the SBS Capital Bonds rank for repayment

In a liquidation of SBS Bank, the SBS Capital Bonds rank equally among themselves, equally with all other debt securities of SBS Bank which are issued as subordinated redeemable shares, and behind secured creditors and liabilities mandatorily preferred by law, and debt securities issued as redeemable shares which are not subordinated.

This means that in a liquidation of SBS Bank, if there are insufficient funds to repay all of the SBS Capital Bonds, you will be repaid by us:

- only **after** SBS Bank has repaid:
 - creditors preferred by law and secured creditors (for example, Inland Revenue and employees);
 - all holders of unsecured and unsubordinated debt securities not issued as redeemable shares; and
 - all holders of unsubordinated redeemable shares (which includes redeemable shares issued in respect of our everyday transactional and savings accounts and call and term deposits); and

- on a proportionate basis** (at the same time and to the same extent) together with SBS Bank’s debt securities issued as subordinated redeemable shares; and
- before** equity and holders of other securities and obligations that rank behind the SBS Capital Bonds.

More information regarding how the SBS Capital Bonds rank on a liquidation of SBS Bank can be found in section 4 of this LDD “*Key Features of the SBS Capital Bonds*” and a table showing the ranking of the SBS Capital Bonds in the event of a liquidation of SBS Bank can be found on the Offer Register at www.disclose-register.companiesoffice.govt.nz, offer number OFR13463.

No security

Our obligation to repay the Principal Amount of, or pay Interest on, the SBS Capital Bonds is not secured against any asset of SBS Bank or the Group.

Key risks affecting this investment

Investments in debt securities have risks. A key risk is that we do not meet our commitments to repay you or pay you Interest (credit risk). Section 5 of this document (“*Risks of Investing*”) discusses the main factors that give rise to the risk. You should consider if the credit risk of these debt securities is suitable for you.

The Interest rate for these SBS Capital Bonds should also reflect the degree of credit risk. In general, higher returns are demanded by investors from businesses with higher risk of defaulting on their commitments. You need to decide whether the offer is fair. We consider that the most significant risk factors are:

- Credit risk:**

Risks associated with SBS Bank’s lending activities including default by our borrowers. The economic performance of the New Zealand residential market will affect how this risk impacts on SBS Bank. This risk may be heightened by high interest rates and persistent inflation, which may reduce disposable income for borrowers and increase household and business financial stress. SBS Bank’s predominant activity is the provision of residential first mortgage finance, which is undertaken throughout New Zealand. Where serious and adverse changes occur in the residential market, widespread default becomes more likely. If widespread default occurs, this could impact on SBS Bank’s ability to meet its financial commitments.

- **Funding risk:**

SBS Bank is subject to risks associated with the availability and cost of funding. SBS Bank's sources of funding include funding from retail deposits and financial institutions. Serious and adverse economic conditions could impact on SBS Bank's sources of funding, including SBS Bank's ability to access funding and/or interest rates at which SBS Bank can borrow and/or lend money. SBS Bank's relative size and its mutual status impact how this risk affects SBS Bank. This summary does not cover all of the risks of investing in SBS Capital Bonds. You should also read section 5 of this LDD "Risks of Investing" and section 4 "Key Features of the SBS Capital Bonds".

What is the SBS Capital Bond's credit rating?

A credit rating is an independent opinion of the capability and willingness of an entity to repay its debts (in other words, its creditworthiness). It is not a guarantee that the financial product being offered is a safe investment. A credit rating should be considered alongside all other relevant information when making an investment decision.

Both SBS Bank and the SBS Capital Bonds have been rated by Fitch Australia Pty Limited (**Fitch**). The SBS Capital Bonds have a credit rating of BB+. SBS Bank's credit rating is BBB with a stable outlook. The credit rating for the SBS Capital Bonds is lower than our issuer credit rating because the SBS Capital Bonds are subordinated obligations of SBS Bank.

Fitch gives ratings from AAA through to C. The following describes the credit rating grades available:

	Credit rating ¹	Description of the rating	Probability of default ²
	AAA	Highest credit quality: Exceptionally strong capacity for payment of financial commitments.	1 in 600
	AA	Very high credit quality: Very strong capacity for payment of financial commitments.	1 in 300
	A	High credit quality: Strong capacity for payment of financial commitments but may be more vulnerable to adverse business or economic conditions than is the case for higher ratings.	1 in 150
Our credit rating is BBB with a stable outlook	BBB	Good credit quality: Adequate capacity for payment of financial commitments but adverse business or economic conditions are more likely to impair the capacity of the obligor to meet its financial commitments.	1 in 30
The SBS Capital Bonds' credit rating is BB+	BB	Speculative: Elevated vulnerability to default risk, particularly in the event of adverse changes in business economic conditions over time; however, business or financial flexibility exists which supports the servicing of financial commitments.	1 in 10
	B	Highly speculative: Material default risk is present, but a limited margin of safety remains. Financial commitments are currently being met; however, capacity for continued payment is vulnerable to deterioration in the business and economic environment.	1 in 5
	CC	Very high levels of credit risk: Default of some kind appears probable.	1 in 2
	C	Exceptionally high levels of credit risk: Default is imminent or inevitable, or the issuer is in standstill.	-

¹The modifiers + or – may be added to the above ratings to indicate relative status within the major rating categories.

The current fixed Interest rate for the SBS Capital Bonds can be found on our website at www.sbsbank.co.nz/sbs-capital-bonds-2, or on the Offer Register at www.disclose-register.companiesoffice.govt.nz, offer number OFR13463.</p> <p>After the first five years, the Interest rate applicable to each Interest Period (3 months) will be a floating rate and will:</p> <ul style="list-style-type: none"> • be reset quarterly and apply from the first day of each Interest Period; and • be equal to the sum of the BKBK Rate (applying at the time the Interest rate is set) and a margin which will be set by SBS Bank and notified to you prior to your Issue Date. Holders of SBS Capital Bonds under this LDD may, at any time, be on different floating interest rates. Fluctuations in the floating rate (due to fluctuations in the BKBK Rate) could have a different effect on Holders depending on when their Interest Payment Dates fall.</p>
Interest Payments	<p>Interest will be paid on each quarterly date (calculated from the Issue Date) which is the first day after each Interest Period (each an Interest Payment Date).</p> <p>An Interest Period is the period from (and including) an Interest Payment Date (or the Issue Date in the case of the first Interest Period) to (but excluding) the next Interest Payment Date (or the Maturity Date in the case of the final Interest Period).</p> <p>Interest payable on each Interest Payment Date will be calculated on the basis of the actual number of days in the relevant Interest Period and a year of 365 days (366 days in a leap year), subject to solvency requirements.</p> <p>The payment of interest on each Interest Payment Date (other than on the Maturity Date), is conditional on SBS Bank satisfying the Solvency Condition (set out below). Payments are also subject to the Business Day convention (set out below).</p>
Business day convention	Where any payment on the SBS Capital Bonds is due on a date which is not a Business Day, that payment will be made on the next Business Day.
Entitlement to payments	Payments on the SBS Capital Bonds will be made to the persons who are the registered Holders of the SBS Capital Bonds as at the due date for payment.

Solvency Condition	<p>Where Interest payments or early repayment of the Principal Amount are suspended because we don't have a current Solvency Certificate (or can no longer rely on a Solvency Certificate given), we are not required to make such payment and this will not constitute a default by us under the Master Deed.</p> <p>Failure to make any Interest payment or repay the Principal Amount when due where we are otherwise solvent, is a default under the Master Deed, but does not allow the Holder to call for early repayment of the SBS Capital Bonds. Any Interest not paid because we are not solvent, remains owing by us. That unpaid Interest will also accrue Interest at the relevant Interest rate. That Interest will be payable on the earlier of the first Business Day on which the Solvency Condition is satisfied, and the Maturity Date.</p> <p>The Solvency Condition does not apply to payments that are required to be made on the Maturity Date or if we are in liquidation.</p>
Ranking of the SBS Capital Bonds on a liquidation	<p>The SBS Capital Bonds are unsecured, subordinated debt obligations of SBS Bank. This means that if we go into liquidation or we are dissolved (other than for the purposes of a solvent reconstruction or amalgamation), you will not be entitled to any payment of the Principal Amount of, or accrued Interest on, your SBS Capital Bonds until all of our prior ranking creditors have been paid in full.</p> <p>This means that in a liquidation of SBS Bank, if there are insufficient funds to repay all of the SBS Capital Bonds, you will be repaid by us:</p> <ul style="list-style-type: none"> • only after we have repaid: <ul style="list-style-type: none"> - creditors preferred by law and secured creditors (for example, Inland Revenue and employees); - all holders of unsecured and unsubordinated debt securities not issued as redeemable shares; and - all holders of unsubordinated redeemable shares (which includes redeemable shares issued in respect of SBS Bank everyday transactional and savings accounts and call and term deposits); and • on a proportionate basis (at the same time and to the same extent) together with SBS Bank's debt securities issued as subordinated redeemable shares; and • before equity and holders of other securities and obligations that rank behind the SBS Capital Bonds. <p>You will also have the right (equally with all of our other members) to participate in SBS Bank's surplus assets (if any) on liquidation.</p> <p>In a liquidation of SBS Bank, it is unlikely that there will be surplus assets available for the liquidator to pay any amount to Holders in respect of the SBS Capital Bonds.</p>

How to apply	<p>Application instructions are set out in section 10 of this LDD "How to Apply".</p>
No early redemption by Holder	<p>You have no right to require early redemption of the SBS Capital Bonds, including in relation to an Event of Default as described in the Master Deed. This means that subject to early redemption by us, or you selling your SBS Capital Bonds to another Holder, you will have to hold your SBS Capital Bonds until maturity to receive repayment of the Principal Amount.</p>
Early redemption by SBS Bank	<p>Early redemption on SBS Optional Redemption Dates</p> <p>We may repay the Principal Amount of your SBS Capital Bonds (together with accrued Interest) on any SBS Optional Redemption Date (which is the fifth anniversary of the Issue Date (being the first SBS Optional Redemption Date) and each quarterly Interest Payment Date thereafter), provided we give you notice of the early repayment and receive the approval of the RBNZ.</p> <p>Early redemption by SBS Bank for a Regulatory Event or Tax Event</p> <p>We may redeem the Principal Amount of the SBS Capital Bonds early if a Regulatory Event or a Tax Event occurs. In brief:</p> <ul style="list-style-type: none"> • A Regulatory Event would occur if we determined that, because of a material change in law, regulation or directive or a change in interpretation or administration of any relevant law, regulation or directive (that was not anticipated by us at the time of issuing the SBS Capital Bonds), our treatment of the SBS Capital Bonds as Tier 2 capital of SBS Bank is adversely affected, or will be adversely affected. A full definition of 'Regulatory Event' can be found in the Master Deed. • A Tax Event would occur if we determined that, because of a material change in law or practice affecting taxation (that was not anticipated by us at the time of issuing the SBS Capital Bonds), there would be a more than minimal increase in our costs in respect of the SBS Capital Bonds. A full definition of 'Tax Event' can be found in the Master Deed. <p>In each case, we must first satisfy the Solvency Condition, obtain the consent of the RBNZ to repay the Principal Amount early and we are required to give you notice of that early repayment. The RBNZ is not obliged to provide such consent and generally will not do so unless either:</p> <ul style="list-style-type: none"> • Prior to or concurrent with the early redemption, the SBS Capital Bonds are replaced with another capital instrument of at least the same quality; or • The RBNZ notifies us that replacement of the SBS Capital Bonds is not needed having regard to our capital position.

As a registered bank, SBS Bank is required by the RBNZ to maintain an adequate level of Regulatory Capital to provide a buffer to absorb losses from its activities. The proceeds of this offer will be used for SBS Bank and the Group’s general banking and corporate purposes.

The use of the money will not change depending on how much is raised under this offer. This offer is not underwritten.

See section 7 of this LDD “*Information about SBS Bank*” for more information about SBS Bank’s business, Regulatory Capital requirements and capital management strategy.

Section 4 - Key Features of the SBS Capital Bonds

A number of key features of the SBS Capital Bonds are described in section 2 of this LDD “*Terms of the Offer*”. The other key features of the SBS Capital Bonds are described below.

The information in this section is a summary of certain terms of the Master Deed and Supplemental Deed. Copies of the Master Deed and Supplemental Deed are included on our website at www.sbsbank.co.nz/sbs-capital-bonds-2, or the Offer Register at www.disclose-register.companiesoffice.govt.nz, offer number OFR13463.

Capitalised terms used but not defined in this section 4 of this LDD “*Key Features of the SBS Capital Bonds*” have the meanings given to them in the Master Deed.

Status of the SBS Capital Bonds

The SBS Capital Bonds are unsecured and subordinated obligations of SBS Bank, issued and owing under the Master Deed and the Supplemental Deed. Legal title to each SBS Capital Bond is determined by reference to the name of the Holder listed in the Bond Register (subject to correction for fraud or error). SBS Bank is entitled to deal exclusively with the Holder named in the Bond Register for all purposes, including when making any payments.

Ranking

Ranking on a liquidation of SBS Bank

As a building society, SBS Bank issues the following classes of debt securities:

- debt securities not issued as redeemable shares;
- debt securities issued as redeemable shares; and
- debt securities issued as subordinated redeemable shares.

The SBS Capital Bonds are issued as subordinated redeemable shares.

In a liquidation of SBS Bank, the SBS Capital Bonds rank equally among themselves, equally with all other debt securities of SBS Bank which are issued as subordinated redeemable shares, and behind; secured creditors and liabilities mandatorily preferred by law; debt securities not issued as redeemable shares; and debt securities issued as redeemable shares which are not subordinated.

This means that in a liquidation of SBS Bank, if there are insufficient funds to repay all of the SBS Capital Bonds, you will be repaid by us:

- only **after** SBS Bank has repaid:
 - creditors preferred by law and secured creditors (for example, Inland Revenue and employees);
 - all holders of unsecured and unsubordinated debt securities not issued as redeemable shares, including the SBS Senior Bonds; and
 - all holders of unsubordinated redeemable shares (which includes redeemable shares issued in respect of our everyday transactional and savings accounts and call and term deposits); and
- **on a proportionate basis** (at the same time and to the same extent) together with holders of SBS Bank’s debt securities issued as subordinated redeemable shares; and
- **before** equity and holders of other securities and obligations that rank behind the SBS Capital Bonds.

A table showing the ranking of the SBS Capital Bonds in the event of a liquidation of SBS Bank can be found on the Offer Register at www.disclose-register.companiesoffice.govt.nz, offer number OFR13463.

Interest Payments

The subordination of the SBS Capital Bonds means that we are only permitted to make Interest payments, and repay any Principal Amount early, if there is a current Solvency Certificate in place on the due date for those payments and no adverse circumstances have occurred which prevent SBS Bank from relying on a Solvency Certificate.

Issue of further liabilities ranking equally with or in priority to the SBS Capital Bonds

There are no restrictions on us incurring liabilities which rank equally with, or in priority to the SBS Capital Bonds except for a covenant which effectively restricts the creation of liabilities which rank ahead of redeemable shares, in proportion to the number of redeemable shares we have on issue. Both deposits and unsubordinated redeemable shares rank ahead of the SBS Capital Bonds. There are no other restrictions on us issuing further debt securities under the Master Deed. The creation of such further liabilities may reduce the amount recoverable by you in the case of a liquidation of SBS Bank.

Except to the extent required by law, you are not entitled to offset or net any claims we may have against you with any amounts owing to you by us in relation to the SBS Capital Bonds.

No Security

Our obligation to repay the Principal Amount of, or pay Interest on, the SBS Capital Bonds, is not secured. This means that you have no recourse to any of our assets if we do not repay the Principal Amount of, or pay Interest on, the SBS Capital Bonds.

No Guarantee

The SBS Capital Bonds are not guaranteed by any member of the Group or any other person and we are solely responsible for the repayment of the SBS Capital Bonds.

Variations to the Master Deed

We may, in limited circumstances, vary the Master Deed without your consent if the variation is of a minor or technical nature only, will not be of any prejudice to Holders, does not apply to any SBS Capital Bonds then outstanding or is made to comply with any requirement or directive of RBNZ or any applicable law.

Events of Default

The SBS Capital Bonds have very limited events of default and your rights are limited if an Event of Default occurs, as described below.

An Event of Default will occur if:

- we do not pay any amount payable under the Master Deed within 10 Business Days of its due date; or
- an order is made, or an effective resolution is passed, for the liquidation of SBS Bank.

However, to the extent that a payment on the SBS Capital Bonds is not required to be made because we do not satisfy the Solvency Condition, the amount is not due and payable and a payment default cannot occur.

If a payment default occurs, you may only bring proceedings:

- to recover any amount then due and payable but unpaid on your SBS Capital Bonds (subject to satisfaction of the Solvency Condition if the payment of the unpaid amount was subject to the Solvency Condition);
- to obtain an order for specific performance of any other obligation in respect of your SBS Capital Bonds; or
- for the liquidation of SBS Bank.

The outcome of any proceedings brought before a court may be uncertain, and a court may decide not to grant the remedies sought.

Where an Event of Default occurs due to the commencement of the liquidation of SBS Bank, in addition to the rights listed above, the Principal Amount of each SBS Capital Bond and any accrued but unpaid interest on the SBS Capital Bonds will immediately become due and payable, and you may claim in the liquidation for that amount. In this circumstance, your claim will be subordinated as described in section 4 of this LDD “*Key Features of the SBS Capital Bonds*”, under *Ranking*, and it is unlikely that you will receive payment of any amount owing on your SBS Capital Bonds.

Section 5 - Risks of Investing

Introduction

Any investment in SBS Capital Bonds will involve risks. This section describes:

- General risks associated with an investment in SBS Capital Bonds; and
- Specific key risks relating to our creditworthiness.

The disclosure of risks relating to our creditworthiness has been based on an assessment of both the realistic probability of a risk occurring and the impact of the risk (to us and/or investors) if it did occur. That assessment is based on SBS Bank's business at the date of this LDD. There is no guarantee or assurance that the importance of different risks will not change or that other risks will not emerge over time.

You should note that the risk factors set out below may not be exhaustive, and you should consider these risk factors in conjunction with other information disclosed in this LDD and our latest disclosure statement and annual report, before deciding to invest in SBS Capital Bonds.

Where practicable, we seek to mitigate these risks to minimise our exposure. However, there can be no assurance that any risk mitigation strategies implemented by us will fully protect us from these risks.

The disclosure of risks in this section does not take into account your personal circumstances, including your financial position or investment requirements. As such, it is important that before making any decision to invest in SBS Capital Bonds, you give consideration to the suitability of this investment in light of your individual risk profile for investments, investment objectives and personal circumstances (including financial and taxation). You can also seek advice from a financial advice provider to help you make an investment decision.

General Risks

Insolvency of SBS Bank

An investment in SBS Capital Bonds is subject to the general risk that we become insolvent, we are placed in receivership, liquidation or statutory management or we are otherwise unable to pay the Principal Amount of, and/or Interest on, your SBS Capital Bonds. In that event, you may not recover all, or any of, your principal investment or receive the expected returns.

There are no restrictions on us incurring liabilities which rank equally with, or in priority to, or behind, the SBS Capital Bonds. This includes further debt securities issued under the Master Deed. In addition, we may repay any of our debt securities which rank equally with, or behind the SBS Capital Bonds, provided it has satisfied the Solvency Condition. Any further issue or repayment of debt securities by us could adversely affect your ability to be repaid and/or the value of the SBS Capital Bonds.

To mitigate this risk, the board of SBS Bank sets appropriate policies to ensure that it has access to funding to enable us to meet our debts as they fall due.

As a registered bank, SBS Bank must also comply with certain liquidity and other financial restrictions (for example, capital ratios measured against risk-weighted assets). The RBNZ also requires most New Zealand incorporated registered banks, including us, to maintain prudential buffers above the minimum ratios.

The following paragraphs explain how specific features of the SBS Capital Bonds, such as their subordination, impact on this general insolvency risk.

Subordination: If we go into liquidation, you will not be entitled to any payment of the outstanding Principal Amount of your SBS Capital Bonds or Interest thereon, until all of our Senior Creditors (including preferred creditors, depositors and the holders of our everyday redeemable shares which we issue in respect of everyday transactional and savings accounts and call and term deposits) have been paid in full.

The SBS Capital Bonds rank equally among themselves and may rank equally with other subordinated debt including any existing SBS capital bonds. This means that on a liquidation of SBS Bank, if there are insufficient funds to repay all of the SBS Capital Bonds, you will be repaid by us on a proportionate basis together with the other holders of subordinated debt.

More information on the subordination features of the SBS Capital Bonds can be found in section 4 "Key Features of the SBS Capital Bonds" of this LDD on page 8.

Interest Payments: We are only permitted to make Interest payments on the SBS Capital Bonds, and repay any Principal Amount early, if there is a current Solvency Certificate in place on the due date for those payments and no adverse circumstances have occurred which prevent us from relying on a Solvency Certificate. This means that you may not be paid Interest on your SBS Capital Bonds.

To mitigate this risk, the board sets appropriate policies to ensure that it has access to funding to enable us to meet our debts as they fall due.

In any case where Interest payments or early repayment of the Principal Amount are suspended because we don't have a current Solvency Certificate, SBS Bank is not required to make such payment and non-payment will not constitute a default by us under the Master Deed.

Negative Interest Rate Repricing

The Interest rate will be a fixed rate for a period of 5 years until the first SBS Optional Redemption Date, after which it will change to a floating rate that resets at quarterly intervals. The floating rate will be equal to the sum of the applicable BKBM Rate plus the margin. The BKBM Rate changes to reflect market conditions over time, so the BKBM Rate will likely vary for each Interest Payment Date after the first SBS Optional Redemption Date. The BKBM Rate may go down, including below 0% per annum. If the sum of the BKBM Rate plus the margin is less than 0% per annum, the floating rate will be deemed to be 0% per annum. This means that you will not receive any interest on your SBS Capital Bonds while the floating is 0% per annum.

Risk if selling the SBS Capital Bonds

You are subject to the general risk that if you wish to sell your SBS Capital Bonds before maturity:

- You may be unable to find a buyer at all, or at an acceptable price, noting that we do not intend to quote these SBS Capital Bonds on a market licensed in New Zealand and there is no other established market for trading them; and
- The price at which you are able to sell your SBS Capital Bonds may be less than what you originally paid for them. This could occur due to interest rate movements, the financial position of SBS Bank at the time, changes to the SBS Capital Bonds' and/or SBS Bank's credit rating or other reasons.

The likelihood of this risk occurring and its impact on the SBS Capital Bonds is more uncertain when markets are affected by domestic and international events or disruptions, like COVID-19. The likelihood of these kinds of disruptions occurring over the term of the SBS Capital Bonds, and their impact (both positive and negative) on the price of the SBS Capital Bonds, is not known. As such, this risk is particularly relevant over a longer period of time, such as the 10 year term of the SBS Capital Bonds.

If the price of the SBS Capital Bonds is adversely affected for any reason including those described above, the SBS Capital Bonds may trade below their Principal Amount (being \$1.00 per SBS Capital Bond). If you sell your SBS Capital Bonds at a time when their price is adversely affected, you may lose some of the money you invested.

Specific Risks relating to SBS Bank's creditworthiness

Like all other businesses and financial institutions, we are subject to risks in relation to our creditworthiness. These risks can arise due to a number of factors including changes in the domestic and international economy, general business conditions and increased competition. Set out below are the risks we consider to be most significant in relation to SBS Bank's creditworthiness.

Credit Risk relating to lending activities

Credit risk is the risk that borrowers or other counterparties to certain contractual arrangements with us, do not meet their payment obligations to us.

The economic performance of the New Zealand residential housing market will affect how this risk impacts on SBS Bank. SBS Bank's predominant activity is the provision of residential first mortgage finance, which is undertaken throughout New Zealand.

A large scale downturn in the New Zealand residential housing market or serious and adverse changes in the economy affecting New Zealand households, could result in widespread default by borrowers. If widespread default occurs, this could impact on SBS Bank's ability to meet its financial commitments.

The majority of our lending is comprised of residential first mortgage lending, meaning we are more sensitive to market changes which adversely affect the housing market, or any geographic regions in which our borrowers are located, including as a result of climate-related events.

SBS Bank seeks to manage and mitigate credit risk through appropriate strategies including managing concentrations, maintaining appropriate credit approval criteria and general credit risk provisioning.

In extreme circumstances, SBS Bank's failure to adequately manage and mitigate credit risk over a sustained period of time could result in SBS Bank suffering financial losses. This could affect our profitability and/or capital position. It could also affect our credit rating and/or the credit rating of the SBS Capital Bonds. These circumstances could affect SBS Bank's ability to make payments on the SBS Capital Bonds and/or could affect the price at which the SBS Capital Bonds can be sold.

More information about our credit risk and provisioning of impaired loans is contained in our disclosure statements which are available, free of charge, at www.sbsbank.co.nz/about-us/Annual-Reports-and-Disclosures

Credit Risk relating to Regulatory Capital

The SBS Capital Bonds are Regulatory Capital instruments and there is no right for Holders (or any other person, except SBS Bank) to require early redemption, including when SBS Bank is unable to make or defaults on scheduled Interest payments.

Your right to receive any Interest or early redemption payments is conditional on SBS Bank having a current Solvency Certificate, and therefore, non-payment will not constitute a default by us under the Master Deed.

Failure to make any Interest payment or early repayment of the Principal Amount when due where SBS Bank is otherwise solvent, is a default under the Master Deed, but does not allow the Holder to call for early repayment of the SBS Capital Bonds.

The rights of Holders on default by SBS Bank under the Master Deed are more limited than is typical of a debt instrument which is not Regulatory Capital. This could mean Holders have to remain as Holders of SBS Capital Bonds in certain situations where there is increased credit risk. More information on Events of Default is set out in section 4 of this LDD "*Key Features of the SBS Capital Bonds*". Investors are encouraged to ensure they understand and seek advice on this feature of the SBS Capital Bonds.

Liquidity and Funding Risk

Liquidity risk is the risk that we are unable to pay our debts as they fall due, or we are unable to access funding (on acceptable terms) to support our on-going operations. Our most significant liabilities are our redeemable share call accounts, funding from other financial institutions, SBS Senior Bonds and term investment deposits (which rank ahead of the SBS Capital Bonds for repayment in a liquidation). Like any bank, if there was a sudden and unexpected number of withdrawals from call accounts and repayment of term investments, we could experience liquidity difficulties.

SBS Bank's sources of funding include funding from retail deposits, wholesale and retail investors and financial institutions. Funding risk may arise if we are unable to attract investment in our deposit products or if there is uncertainty or unfavourable conditions in the financial markets meaning that we are unable to offer desirable terms (including interest rates) or we are unable to access sufficient funding at all or on acceptable terms. This could occur as a result of a number of factors including:

- a material downturn in the New Zealand economy;
- reduced investor confidence (in the New Zealand financial services market generally, or in SBS Bank in particular);
- the credit rating of SBS Bank or the SBS Capital Bonds being downgraded (or being withdrawn or suspended); and
- increased domestic competition for retail deposits.

SBS Bank's credit rating and relative size mean that it may not have available to it the same range of global capital market funding options as larger banks.

Liquidity difficulties which are experienced by us over an extended period, could result in us being unable to pay our debts when due including Interest payments on the SBS Capital Bonds or repayment of the Principal Amount.

SBS Bank has systems and frameworks in place for managing liquidity and funding risks and ensuring compliance with minimum funding and liquidity ratios imposed by the RBNZ. This includes a contingency funding plan to prepare SBS Bank to manage stress.

Financial Markets and Interest Rate Risk

Financial markets and interest rate risk relates to the risk that we face due to changes in wholesale interest rates and the availability or cost of credit in the financial markets. SBS Bank relies on funding within the wholesale markets and could suffer losses if the availability or cost of this funding increases significantly. In addition, we could suffer losses if there are material changes in wholesale interest rates that affect the margin between the interest rate we pay on money we borrow and the interest rate we charge on money we lend.

These circumstances could affect SBS Bank's ability to make payments on the SBS Capital Bonds and/or could affect the price at which the SBS Capital Bonds can be sold.

Capital Risk

Capital risk is the risk that we do not have sufficient capital to meet our prudential regulatory requirements. Maintenance of Regulatory Capital is a condition of our bank registration and a failure to comply could ultimately result in the loss of bank registration, although we expect this is very unlikely to occur. This risk is relevant to us because, as a bank which is also a building society, it may be more difficult for us to raise Regulatory Capital. Loss of our bank registration would materially and adversely impact SBS Bank and the SBS Capital Bonds.

More information about our Regulatory Capital requirements can be found in section 7 of this LDD "*Information about SBS Bank*".

Subsidiaries

The Group comprises SBS Bank and its subsidiaries as specified in its latest published financial statements. The activities of the Group include funds management products and financial advisory services, insurance and consumer personal lending, credit card and motor vehicle finance lending. If any of SBS Bank's subsidiaries experienced a material or sustained failure to manage risks in their respective businesses resulting in a material financial impact on the subsidiary, this could have an adverse impact on SBS Bank and the Group as a whole. SBS Bank has a Group risk management framework to manage and mitigate this risk.

Regulatory Change Risk

Regulatory risk includes the risk that changes in laws, regulations, rules, codes of practice, accounting standards or policies (**Laws**) or the way they are applied, could adversely affect us. This could occur if changes resulted in increased costs or decreased earnings for SBS Bank, changes to prudential regulatory requirements including liquidity and capital adequacy, changes relevant to our predominant activities, increased competition or changes to the structure or operation of our business.

Financial institutions like SBS Bank are subject to ongoing regulatory change which requires significant resources to manage appropriately. SBS Bank's regulated activities, including being a registered bank (which principally involves taking deposits and being a consumer lender under the Credit Contracts and Consumer Finance Act 2003) and being a financial advice provider under the FMCA, mean SBS Bank is subject to financial regulation which is increasingly complex and is changing rapidly. Those operating in New Zealand's financial markets like SBS Bank, are also increasingly subject to conduct risk.

Conduct in the financial markets is a current focus of the New Zealand Government and regulators, with more conduct-specific regulation due to be implemented in the next few years.

Non-compliance with any relevant Laws and/or conduct standards expected by regulators or the New Zealand consumer, could result in regulatory fines, compensation and/or sanctions and could damage our

reputation. This can occur in certain circumstances even if the breach is minor, inadvertent or infrequent. Our relative size in the retail banking market means we may feel the effects of some regulatory changes more acutely than larger financial institutions and appropriately resourcing to manage risk and compliance is more challenging.

Material failure to appropriately manage risks associated with regulatory change could ultimately impact on SBS Bank's financial performance. SBS Bank is committed to standards of good conduct and regulatory compliance to minimise conduct risk, as expressed in its Good Conduct and Ethical Behaviour Charter, the principles of which are imbedded in all SBS Bank policies, procedures and frameworks.

Operational Risk including Cyber Security Risks

Operational risk is the risk of loss to us arising from a failure of our internal or external processes, people or systems. These losses may result from (for example) failure to comply with relevant Laws, from fraud, or forgery, from a breakdown in availability or integrity of services, systems and information, from a breach of security (including cyber-security), loss of key staff or damage to our reputation. In addition to losses, operational failures could result in SBS Bank's operating or information systems failing or becoming disabled, or large fines being imposed on us (if the failure relates to breaches of relevant Laws).

These circumstances could affect SBS Bank's ability to make payments on the SBS Capital Bonds and/or could affect the price at which the SBS Capital Bonds can be sold.

The Bank has in place systems and processes for managing operational risks, including business continuity plans and cyber-security risk protocols.

Impact of Risks

We expect that some of these risks will arise to some degree, in the ordinary course of business. However, it is not possible to forecast accurately the probability, degree or magnitude of impact of any of the particular business, financial and other risks described above.

We manage and mitigate these risks within our Group risk appetite and Group risk management framework and, if appropriately managed, these risks are not expected to have a materially adverse impact on us. However, if unusual or unplanned circumstances arise, such as widespread defaults by borrowers, unexpectedly large numbers of withdrawals from deposits or a breakdown in the financial markets, any or all of the risks discussed above could become difficult to manage and could adversely impact on us. In extreme circumstances, failure to manage these risks in a material way and/or over a sustained period could mean that we are not able to meet our commitments on the SBS Capital Bonds. In addition, material or sustained failure to manage risks could result in a deterioration in the financial performance or creditworthiness of SBS Bank, could adversely affect our credit rating or the credit rating of the SBS Capital Bonds or could impact the market value of the SBS Capital Bonds.

More detailed information around these risks and our general risk governance are contained in our disclosure statements which are available, free of charge, at www.sbsbank.co.nz/about-us/Annual-Reports-and-Disclosures

Section 6 - Tax

The return on the SBS Capital Bonds will be affected by taxes. The information set out in section 6 of this LDD "Tax" is based on the New Zealand law in force at the date of this LDD, does not constitute tax advice to any Holder, is general in nature and is limited to New Zealand taxation only.

Withholding tax will be deducted from Interest that is payable on the SBS Capital Bonds. There may also be other tax consequences from acquiring or disposing of the SBS Capital Bonds. If you have queries relating to the tax consequences of an investment in SBS Capital Bonds, you should obtain professional advice on those consequences.

Withholding tax

Under the Master Deed, you indemnify us in respect of any tax which we become liable to pay on your behalf. We may deduct any indemnity payment from future amounts payable to you.

The information below does not constitute taxation advice to you nor is it a complete statement of the laws applicable. The information is believed by us to be correct as at the date of this LDD. Taxation laws are subject to change, and such changes may materially affect your tax position with respect to an investment in the SBS Capital Bonds. You should seek qualified, independent financial and taxation advice relevant to your own particular circumstances before investing.

New Zealand taxation implications for New Zealand tax resident Holders

Under New Zealand tax law, we must deduct resident withholding tax (**RWT**) from all Interest paid or credited to New Zealand investors, and non-resident investors who hold SBS Capital Bonds through a fixed establishment in New Zealand. If you do not provide us with your IRD number or if you provide your IRD number but do not elect a tax rate in your application form, we will deduct tax at the applicable default rate.

If you have advised us of a current RWT exemption and your IRD number is published on the IRD RWT exemption register, we will not deduct RWT. If you/we are notified of the expiry of your RWT exemption you will be taxed at the applicable default rate.

Inland Revenue can ask us to use a different tax rate than what you have advised.

New Zealand taxation implications for non-New Zealand tax resident holders

If at any time a SBS Capital Bond is held by a Holder who is not a New Zealand tax resident and not engaged in business through a fixed establishment (as defined in the Tax Act) in New Zealand (**Non-resident Holder**), we will deduct non-resident withholding tax (**NRWT**) at the applicable NRWT rate.

In respect of a Non-resident Holder who holds the SBS Capital Bond jointly with a resident Holder, RWT will instead be deducted at the applicable RWT rate.

Overseas Holders may be subject to tax in their own jurisdiction and should seek advice from a tax adviser.

We are entitled to rely upon information given by you as to your tax residency and activities in New Zealand when making any withholding for RWT or NRWT. All non-resident investors must provide us with their current overseas residential address.

Section 7 - Information about SBS Bank

SBS Bank's business

Information about our business is contained in half-yearly disclosure statements that we prepare under the Banking (Prudential Supervision) Act. SBS Bank's disclosure statements are available at www.sbsbank.co.nz/about-us/Annual-Reports-and-Disclosures

SBS Bank's Regulatory Capital requirements

The SBS Capital Bonds qualify as Tier 2 Regulatory Capital for SBS Bank under the RBNZ's prudential regulatory requirements. Those requirements include capital adequacy requirements that banks must comply with under their conditions of registration. These requirements are intended to ensure that an adequate level of capital is maintained, providing a buffer to absorb losses from a bank's activities before depositors and other senior creditors are affected. The RBNZ's approach to assessing capital adequacy focuses on the credit risk associated with a bank's exposures, market and operational risks and the quality and quantity of a bank's capital.

The amount of the SBS Capital Bonds that we may count as Tier 2 Regulatory Capital in our capital ratio calculations will decrease by 20% each year during the final 4 years of the term before the Maturity Date.

It is possible that future rule change(s) may deem that the SBS Capital Bonds will no longer fully qualify as "Tier 2" Regulatory Capital instruments. If that happens, we may determine that a Regulatory Event has occurred and may seek to redeem the Bonds before the end of their 10 year term.

Types of Regulatory Capital

The RBNZ currently classifies a bank's Regulatory Capital into different categories. These are referred to as Tier 1 Capital (consisting of Common Equity Tier 1 capital and Additional Tier 1 Capital) and Tier 2 Regulatory Capital.

The RBNZ released new capital adequacy requirements in 2021 that significantly increase the Regulatory capital requirements applying to New Zealand banks.

The following table sets out the Regulatory Capital ratios that we must maintain as at the date of this LDD and the Regulatory Capital ratios we will be required to maintain once the RBNZ's capital reforms are fully implemented in July 2028. The Regulatory Capital ratios will increase progressively over this period.

		RBNZ's required ratio of capital to risk weighted assets ¹	
Capital type	Description	The date of this LDD ²	July 2028 ³
Common Equity Tier 1 (CET1) Regulatory Capital	CET1 Capital is the highest quality form of capital and is freely available to absorb losses. CET1 Capital includes ordinary share capital, retained earnings, and certain accounting reserves. Some amounts (eg the value of goodwill) must be deducted to determine the final value of CET1 Regulatory Capital.	More than 7%, including a prudential capital buffer of 2.5%	More than 11.5%, including a prudential capital buffer of 7%
Additional Tier 1 Regulatory Capital	Additional Tier 1 Regulatory Capital is a lower quality form of capital than CET1 Regulatory Capital, but is still freely available to absorb losses. Additional Tier 1 Regulatory Capital includes perpetual preference shares.	Up to 2.5%	Up to 2.5%
Tier 1 Regulatory Capital	The sum of CET1 Regulatory Capital and Additional Tier 1 Regulatory Capital	More than 9.5%, including a prudential capital buffer of 2.5%	More than 14%, including a prudential capital buffer of 7%
Tier 2 Regulatory Capital	Tier 2 Regulatory Capital is a lower quality form of capital than Tier 1 Regulatory Capital, but is still available to absorb losses and strengthens a bank's overall capital position. Tier 2 Regulatory Capital includes subordinated instruments like the SBS Capital Bonds.	Up to 2%	Up to 2%
Total Regulatory Capital	The sum of Tier 1 Regulatory Capital and Tier 2 Regulatory Capital	More than 11.5%, including a prudential capital buffer of 2.5%	More than 16%, including a prudential capital buffer of 7%

1. These ratios include the minimum capital ratios that non-systemically important banks (like SBS Bank) must maintain and the prudential capital buffer above the minimum capital ratios that non-systemically important banks must maintain to avoid restrictions on distributions (among other things). Different minimum capital ratios apply to domestically systemically important banks.

2. These are the ratios that apply to SBS Bank as at the date of this LDD. Different ratios apply to domestically systemically important New Zealand banks.

3. These are the ratios that will apply to SBS Bank, from 1 July 2028.

Loss absorbing features of the SBS Capital Bonds

In very general terms, a capital instrument is available to absorb losses if the holder of the instrument has no, or only a very limited, ability to demand that payments are made on the instrument.

The SBS Capital Bonds count as Tier 2 Regulatory Capital, and the conditions of the SBS Capital Bonds include loss absorbing features. For example:

- at any time before the Maturity Date or the liquidation of SBS Bank, the payment of interest on your SBS Capital Bonds is conditional on SBS Bank satisfying the Solvency Condition;
- you have no right to require early repayment of your SBS Capital Bonds;
- any early repayment of your SBS Capital Bonds is at SBS Bank's option and is subject to certain conditions being met (including the Solvency Condition being satisfied and SBS Bank obtaining the RBNZ's prior approval); and
- the SBS Capital Bonds are subordinated to unsubordinated creditors of SBS Bank (including depositors and other unsubordinated debt such as redeemable shares issued by SBS Bank in respect of everyday transactional and savings accounts and call and term investments, including accrued interest) in the event of a liquidation of SBS Bank.

SBS Bank's capital management strategy

The primary objectives of SBS Bank's capital management strategy are to ensure that SBS Bank complies with the Regulatory Capital requirements prescribed by the RBNZ, holds a strong capital position in order to support its business objectives and meets Regulatory Capital requirements even in a stressed environment.

SBS Bank actively measures and manages its capital structure and makes adjustments to this in light of changing economic conditions and the risk characteristics of its activities. This is to ensure that SBS Bank has sufficient capital to absorb losses and to enable SBS Bank's continued growth.

SBS Bank's board of directors has overall responsibility for ensuring the Group has adequate capital in relation to its risk profile and establishes minimum internal capital levels and limits above the regulatory minimum.

SBS Bank's Regulatory Capital position

SBS Bank's historical Regulatory Capital position under the applicable RBNZ rules can be found on the RBNZ dashboard at <https://bankdashboard.rbnz.govt.nz/orgs/SBS-Bk>

Help Sheet - Organisations

What's an organisation?

An organisation is any legal entity or legal arrangement which is not an individual, sole trading individual, or solely a group of individuals in a joint capacity. An organisation includes (but is not limited to): Partnerships, Companies, Societies, Trusts (including Charitable Trusts), Associations, Co-Operatives and Government Bodies.

Identification Requirements for Account Opening

Before you establish a new banking relationship or open a new account with us we are required under the Anti Money Laundering and Countering Financing of Terrorism Act 2009 to obtain suitable forms of Identification as well as evidence of residential address for your organisation and persons who have authority to act for/on behalf of the organisation.

Guidance can be obtained from any team member or by reading our Identification and Address Verification Requirements information which are available from any branch, by calling our Contact Centre on 0800 727 2265, or at sbsbank.co.nz/terms-conditions.

Signing this form

Company: all directors and additional applicants must sign unless there is only one director whose signature must be witnessed;

Estate: all executors or administrators must sign;

Partnership: all directors and additional applicants must sign;

Trusts or Continuing Estates: each trustee must sign. Where a trustee is a corporate trustee, a minimum of two directors must sign unless there is only one director whose signature must be witnessed.

Why are we being asked about beneficiaries or controlling persons?

The New Zealand Government has signed up to worldwide international agreements, to facilitate the Automatic Exchange of Information (AEOI) designed to reduce tax evasion. This includes 2 reporting streams, FATCA for US Citizens and Common Reporting Standards (CRS) for tax residents of other countries. The FATCA component of this has been in operation since 2014. CRS has come into effect from 1 July, 2017 and all banks and financial institutions are legally required to identify overseas tax residents among their customers. This information will then be passed on to IRD which will then share it with other tax authorities of other countries.

How can I get more information about our Trust or Company to answer questions about our Organisation as I'm not sure about some questions?

Contact your solicitor or accountant, or for a Trust – your Trust Deed may provide some answers.

What is a Continuing Estate?

A Continuing Estate is a Testamentary Trust which comes into operation under a will where trustee duties need to be performed over an extended period of time for beneficiaries. In contrast a Terminating Estate exists where the assets of the deceased would be distributed, typically within a year, and does not establish a trust under the will. If you are uncertain if the estate is a Continuing Estate please consult the will and/or your solicitor for clarification.

What are passive investments and passive investment income?

Passive Investment income is either: a dividend; interest; income equivalent to interest; rent or royalties; annuity payments; or the net gains from either: the sales of the preceding assets; transactions in financial assets; foreign currency transactions; swaps; and cash value insurance contracts. A Passive Investment is therefore any asset which generates this income. For instance, a share earning a dividend is a passive investment earning passive investment income.

What is the Definition of a Financial institution?

The following types of entities are "financial institutions":

- Banks, non-bank deposit takers, custodians, investment funds and fund managers, private equity and hedge funds and some related entities and some insurers.
- Investment entities that carry on a business of trading in financial assets and more than 50% of their income is generated from investment activities.
- Entities that are discretionally managed by another financial institution and more than 50% of their income is generated from investment activities.
- Trusts which generate more than 50% of their income from investment activities and have a trustee which is a financial institution (including corporate trustees and lawyers or accountants who are not acting in a personal capacity).

Who is a Controlling Person/Beneficial Owner?

Controlling Persons/Beneficial Owners are defined as any Persons or Entities who:

- Own 25% or more of the organisation (e.g. Shareholders (including Nominee Shareholders), Trustees (Including Corporate Trustees), Settlers, Protectors, Trust Beneficiaries or a Partner within a Partnership (including Nominee General Partners);
- Have 'effective control' of the organisation (Director, Nominee Director President, Secretary, Treasurer, CEO, Senior Management, Settlor, Protector, Partner (including Nominee General Partners), any persons who can appoint signatories, or Power of Attorney holders for the organisation);
- Are either named as Beneficiaries or are un-named beneficiaries who have received a distribution from the trust/Continuing Estate.

Corporate Trustee Companies who are Controlling Persons/Beneficial Owner's must also complete the Corporate Trustee Details Form.

Where the Beneficial Owners of a Trust account include other Entities, all Beneficial Owners (who are individuals) of those other Entities are also treated as Beneficial Owners of the underlying Trust and their details must be provided.

Nominee Directors, Nominee Shareholders and Nominee General Partners

Directors, Shareholders or General Partners who either carry out their role, or are required to, in accordance with the directions or instructions of another person who is not a director, shareholder or general partner are called Nominees. We are required to capture the names of all Nominees. Where a Nominee Shareholder is not otherwise an applicant or a controlling person/Beneficial Owner they need to provide their full name in the Nominee Shareholder section of the Beneficial Owners page of this form.

For Trusts: How do I find out who the beneficiaries of the Trust are?

Your Trust deed, or your solicitor or accountant, will have specific information on this. We will need details of all beneficiaries who are named in the trust deed and also any unnamed beneficiaries who have ever received a distribution from the Trust.

What if I do not provide all the requested information?

Customers who do not properly provide, withhold or provide false information may find that they cannot open an account with us, may have any existing account or application suspended, withdrawn or closed, and may have fines imposed by the New Zealand Government.

Bank with heart.
