

Booster Investment Scheme

Product Disclosure Statement

Focus Series Funds

Offer of units in the
Booster Investment Scheme

1 July 2019

Issuer: Booster Investment Management Limited

This document replaces the Product Disclosure Statement dated 29 September 2017

This document gives you important information about this investment to help you decide whether you want to invest. There is other useful information about this offer on www.disclose-register.companiesoffice.govt.nz. Booster Investment Management Limited has prepared this document in accordance with the Financial Markets Conduct Act 2013.

You can also seek advice from a financial adviser to help you make an investment decision.

1. Key information summary

What is this?

This is a managed investment scheme.

Your money will be pooled with other investors' money and invested in various investments.

Booster Investment Management Limited (**Booster**) will invest your money and charge you a fee for its services.

The returns you receive are dependent on the investment decisions of Booster and the performance of the investments. The value of those investments may go up or down.

The types of investments and the fees you will be charged are described in this document.

What will your money be invested in?

The Booster Investment Scheme has a range of funds for you to choose from.

This Product Disclosure Statement covers four of these funds – the Focus Series Funds. These funds are summarised on the following page.

More information about the investment target and strategy for each fund is provided at Section 3 – *Description of your investment options*.

If you'd like to know about the other funds visit www.booster.co.nz, contact us, or ask your financial adviser.

Who manages the Booster Investment Scheme?

Booster is the manager of the Booster Investment Scheme. You'll learn more about us in Section 7 – *Who is involved?*

How can you get your money out?

Generally, you can withdraw some or all of your investment in the Focus Series Funds at any time. There are minimum withdrawal amount requirements and you must maintain the minimum on-going balance for each fund you invest in.

Withdrawals will normally be paid to your bank account within five business days but could take up to 30 business days.

Your investment in these Focus Series Funds can be sold but there is no established market for trading these financial products. This means that you may not be able to find a buyer for your investment.

We'll explain how you can withdraw your investment in Section 2 – *How does this investment work?*

How will your investment be taxed?

The Booster Investment Scheme is a portfolio investment entity (**PIE**) for tax purposes.

The amount of tax you pay in respect of a PIE is based on your prescribed investor rate (**PIR**). To determine your PIR, go to www.ird.govt.nz/roles/portfolio-investment-entities/using-prescribed-investor-rates.

See Section 6 of the PDS – *What taxes will you pay?* on page 11 for more information.

Where can you find more key information?

Booster is required to publish quarterly updates for each fund. The updates show the returns, and the total fees actually charged to investors, during the previous year. The latest fund updates are available at www.booster.co.nz. The manager will also give you copies of those documents on request.

Your fund options

Fund	Description and investment objective ¹	Risk indicator
Conservative Fund	The fund invests mainly in income assets, but includes some growth assets. It is suited to investors looking for a low to medium level of risk and are willing to accept a moderate level of returns.	<p>← Potentially lower returns Potentially higher returns →</p> <p>1 2 3 4 5 6 7²</p> <p>← Lower risk Higher risk →</p>
Balanced Fund	The fund invests in a balanced mix of income assets and growth assets. It is suited to investors looking for a medium level of risk and are willing to accept a medium level of returns.	<p>← Potentially lower returns Potentially higher returns →</p> <p>1 2 3 4 5 6 7²</p> <p>← Lower risk Higher risk →</p>
Growth Fund	The fund invests mainly in growth assets, but includes some income assets. It is suited to investors who are comfortable with a medium to high level of risk in order to potentially achieve a relatively higher level of returns.	<p>← Potentially lower returns Potentially higher returns →</p> <p>1 2 3 4 5 6 7²</p> <p>← Lower risk Higher risk →</p>
High Growth Fund	The fund invests predominantly in growth assets, with little or no income assets. It is suited to investors who are comfortable with a high level of risk in order to potentially achieve higher returns.	<p>← Potentially lower returns Potentially higher returns →</p> <p>1 2 3 4 5 6 7²</p> <p>← Lower risk Higher risk →</p>

¹Income assets include cash and fixed interest investments. Growth assets include equities (shares) and property investments.

²Because the funds started in September 2015, the risk indicators have been calculated using market index returns for the period 1 April 2014 to 30 September 2015 and actual fund returns for the period 1 October 2015 to 31 March 2019. As a result the risk indicators may provide a less reliable indication of the potential future volatility of the funds.

The fees you pay

	Annual fund charges ³	Other charges	Individual action fees
Fund*	(estimated)	Service fee	Contribution and termination fees
Conservative Fund	0.70%	Your financial adviser, with your agreement, may charge you an annual percentage (%) service fee based on the value of your investment.	Booster does not charge any entry or exit fees.
Balanced Fund	0.80%		Your financial adviser, with your agreement, may charge you other fees for the service they provide to you. These fees may include an entry fee on each lump sum investment amount and regular investment amount and an exit fee when you make a full withdrawal of your investment.
Growth Fund	0.90%		
High Growth Fund	1.00%		

*These funds include performance-based fees charged indirectly to them. See page 9.

³Calculated daily as a percentage of the net asset value of the fund. Goods and services tax (GST) is not included in any of the fees stated. GST will be added to any fees where applicable. For more information about the fees charged, see Section 5 – *What are the fees?*

See Section 4 – *What are the risks of investing?* for an explanation of the risk indicator and for information about other risks that are not included in the risk indicator. To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.booster.co.nz/investment-series.

2. How does this investment work?

Booster Investment Scheme is a managed investment scheme. It's registered under the Financial Markets Conduct Act 2013.

Why invest?

The key benefits of investing in Booster Investment Scheme include:

- **Diversification.** Your money is combined with other investors' money, giving you access to a wider variety of investments than you could usually achieve on your own.
- **Experience.** The investments are managed by experienced professionals.
- **Flexibility.** You can choose from a range of funds to suit your investor profile and investment goals. How much you invest and when you withdraw is up to you. You can also request any changes to your investment at any time.
- **Responsible investing.** For all investment funds, we apply responsible investing principles, analysing each investment according to environmental, social and governance criteria.
- **Knowledge.** We keep you up to date about your investment with regular reporting and you can easily access information about your investment online.
- **Financial advice.** You have access to a financial adviser who will be able to help you with your investment decisions.

How it works

Booster Investment Scheme is governed by a trust deed, which is an agreement between the Manager (**Booster**) and the Supervisor (**Public Trust**) describing how the scheme works and our responsibilities. We are responsible for managing the Booster Investment Scheme and Public Trust supervises us to make sure we meet our responsibilities

and obligations. Public Trust has also appointed a custodian to hold the investments on behalf of investors. This structure is designed to ensure that your best interests are always put first. There are four funds covered by this Product Disclosure Statement, each with a different investment objective and strategy. You do have more funds to choose from – see *How to switch between funds* on page 5 for more information.

The investments of each fund are kept separate and are not able to be used to meet the liabilities of another fund. When you invest your money in a fund, you receive 'units'. These units represent your share of the investments in that fund. The 'unit price' shows what your share is worth at any time. If the fund's investments go up in value your units will be worth more and if they go down in value your units will be worth less. The funds do not make income distributions. The return on your investment is shown in the unit price.

Making investments

How you invest

You can invest in the funds by applying directly to Booster or through your financial adviser, by completing and submitting an application form. The application form is available through Booster, or from your financial adviser.

Which funds can you choose?

You can choose to invest in one or more funds. Your financial adviser can advise you on the fund/s that best suit your investor profile and investment goals.

How much can you invest?

The minimum initial investment in each fund is \$1,000. While you're not required to make any further investments, you can invest more at any time by either making lump sum investments (minimum \$500) or regular investments (minimum \$100). These additional amounts can be invested in one or more of your chosen funds.

While the maximum amount you invest is up to you, the only restriction is that no investor can own 20% or more of all the units in a fund. This is to ensure that the Booster Investment Scheme maintains its PIE eligibility status for tax purposes. If the amount you invest initially or subsequently means the Booster Investment Scheme or the fund will be unable to continue as a PIE, we may either refuse to accept your investment or accept a reduced amount to be invested in your chosen fund/s.

If you would like to make regular investments, you have the option of making deposits weekly, fortnightly, monthly, quarterly or six monthly. You can also choose the date on which the money is deducted from your bank account and then added to your investment. You're also able to increase, reduce or suspend your regular investment amount at any time so long as your investment does not fall below the minimum on-going balance in each fund. To set-up a regular investment, you'll need to complete a regular investment form which is available through Booster or from your financial adviser.

Booster may waive or vary the minimum investment amounts at any time.

How do you pay?

You can make lump sum investments by cheque, direct credit or any other method acceptable to Booster. Regular investments are to be made by direct debit. Cash deposits will not be accepted.

Withdrawing your investments

You can withdraw some or all of your investment at any time.

The minimum lump sum withdrawal amount for each fund is \$500. You also have the option to make regular withdrawals from your investment (minimum \$100 per withdrawal) fortnightly, monthly, quarterly or six monthly. You can also choose the date on which the money is to be paid to your bank account.

You'll need to maintain the minimum on-going balance of \$1,000 in each fund after any withdrawal. If your withdrawal request takes your balance below this amount, you will need to either top up your investment back to the minimum balance or transfer your money to another fund that you hold. If you don't hold units in another fund, Booster reserves the right to pay the balance of your investment less any tax and fees to your bank account and your investment in the fund will cease.

Booster may waive or vary the minimum withdrawal amounts and the minimum on-going balance amount at any time.

Making a withdrawal

To withdraw some or all of your investment, you can apply directly to Booster or through your financial adviser. To set-up a regular withdrawal, you'll need to complete a regular withdrawal authority form which is available either from us or your financial adviser.

Withdrawal requests will normally be processed within five business days but could take up to 30 business days of receiving the request. In very unusual circumstances (such as the suspension of trading on a particular investment market exchange) we can delay the payment of withdrawals if we believe that making payments is not practicable or in the best interests of all Booster Investment Scheme investors.

When a full withdrawal is made, tax will be deducted (or refunded) before the money is paid to you. For partial withdrawals, while tax will normally be deducted (or refunded) at the end of the tax year, a deduction may be made from the amount payable to ensure that enough money remains in your account to cover any tax payment.

How to switch between funds

At any time, you can change the funds that your money is invested in. You can switch some or all of your investment to another fund/s either by contacting us or your financial adviser. Remember, you must maintain the minimum on-going balance in each fund you're invested in.

There are additional Booster Investment Scheme funds that you can invest in which are not covered in this Product Disclosure Statement. You can learn about them in the following Product Disclosure Statements available from your financial adviser, by contacting us, or by visiting www.booster.co.nz.

- Booster Investment Scheme – Investment Series: Multi-sector funds;
- Booster Investment Scheme – Investment Series: Income Funds and Corporate Bond Fund; and
- Booster Investment Scheme – Investment Series: Enhanced Cash Portfolio and Income Securities Portfolio.

3. Description of your investment options

<p>Conservative Fund</p> <p>Investment objective and strategy</p> <ul style="list-style-type: none"> • The fund’s objective is to provide relatively consistent returns, with some capital gains over the long-term. • It aims to achieve returns (after fees but before tax) of at least 2.5% per year above inflation over any four year period. • Generally, there will be some movements up and down in the value of the fund. • The fund invests mainly in income assets, but includes some growth assets. 	<p>Balanced Fund</p> <p>Investment objective and strategy</p> <ul style="list-style-type: none"> • The fund’s objective is to provide an enhanced return over the long-term through capital gains. • It aims to achieve returns (after fees but before tax) of at least 3% per year above inflation over any five year period. • There will be some movements up and down in the value of the fund. • The fund invests in a more balanced mix of income assets and growth assets.

⁴Because the funds started in September 2015, the risk indicators have been calculated using market index returns for the period 1 April 2014 to 30 September 2015 and actual fund returns for the period 1 October 2015 to 31 March 2019. As a result the risk indicators may provide a less reliable indication of the potential future volatility of the funds.

Statement of Investment Policy and Objectives

If you would like to learn more about the funds, you can read the Statement of Investment Policy and Objectives (SIPO). The most current SIPO for the funds can be found on the scheme register at www.disclose-register.companiesoffice.govt.nz or on our website www.booster.co.nz. We may change the SIPO from time to time without notifying you. We will consult with the Supervisor and give them written notice of any changes before they take effect. Any material changes will be advised in the Booster Investment Scheme annual report.

Further information about the assets in the funds can be found in the fund updates at www.booster.co.nz.

What we mean when we talk about:

- **Income assets** – cash and fixed interest investments.
- **Growth assets** – equities (shares) and property investments.
- **Capital gains** – the profit made (money gained) when a fund sells an investment.

Growth Fund

Investment objective and strategy

- The fund's objective is to provide long-term capital gains but to partially offset short-term movements up and down with some income assets.
- It aims to achieve returns (after fees but before tax) of at least 4% per year above inflation over any seven year period.
- There will be larger movements up and down in the value of the fund compared to the Focus Balanced Fund.
- The fund invests mainly in growth assets, but includes some income assets.

Target investment mix

Growth Assets **75%** Income Assets **25%**

Risk indicator

Minimum suggested investment timeframe

7 years

High Growth Fund

Investment objective and strategy

- The fund's objective is to maximise the potential for capital gains over the long-term.
- It aims to achieve returns (after fees but before tax) of at least 5% per year above inflation over any ten year period.
- There will be significant movements up and down in the value of the fund.
- The fund invests predominantly in growth assets, with little or no allocation to income assets.

Target investment mix

Growth Assets **98%** Income Assets **2%**

Risk indicator

Minimum suggested investment timeframe

10 years

⁴Because the funds started in September 2015, the risk indicators have been calculated using market index returns for the period 1 April 2014 to 30 September 2015 and actual fund returns for the period 1 October 2015 to 31 March 2019. As a result the risk indicators may provide a less reliable indication of the potential future volatility of the funds.

4. What are the risks of investing?

Understanding the risk indicator

Managed funds in New Zealand must have a standard risk indicator. The risk indicator is designed to help investors understand the uncertainties both for loss and growth that may affect their investment. You can compare funds using the risk indicator.

The risk indicator for each fund covered in this Product Disclosure Statement can be found on page 3.

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down (volatility). A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.booster.co.nz/investment-series.

Note that even the lowest category does not mean a risk-free investment, and there may be other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the five years to 31 March 2019. While risk indicators are usually relatively stable, they do shift from time to time. You can see the most recent risk indicator in the latest fund update for each fund.

We believe that the period of returns used to calculate the risk ratings may not be representative of the average investment cycle for the funds and therefore the risk indicators shown may be different if calculated over longer term investment periods.

General investment risks

Some of the things that may cause the fund's value to move up and down, which affect the risk indicator, are:

- **Asset class risk.** The risk for each fund is largely determined by the mix of assets in the fund. Funds with more growth assets such as shares generally suffer bigger and more frequent losses and gains over the long-term than funds with more income assets such as fixed interest investments.
- **Market risk.** This is the risk that a fund experiences losses due to factors that may impact the overall performance of financial markets. These factors include, but are not limited to, economic and regulatory conditions, political events, environmental and technological issues.
- **Manager risk.** This is the risk that a fund underperforms because of the way we, or an investment manager that we have selected, manages the fund's investments.
- **Currency risk.** This is the risk that the value of international investments may fall if the value of the foreign currencies in which these investments are held falls (relative to the New Zealand dollar).
- **Interest rate risk.** This is the risk that interest rates on fixed interest investments increase, causing a drop in their value. This has more impact on funds with a higher exposure to longer term fixed interest investments.
- **Share market risk.** This is the risk that share markets or the value of specific shares drop in response to negative information. This has more impact on funds with a higher exposure to shares.
- **Credit risk.** This is the risk that the value of a fixed interest investment drops because there are doubts about the ability of a borrower to meet their future payment obligations. This has more impact on funds with a higher exposure to fixed interest investments.
- **Liquidity risk.** This is the risk that a fund is unable to sell an investment at the desired time, or will be sold at a lower value than would be expected in normal market conditions, which could impact the value of the investment and returns.
- **Settlement risk.** This is the risk that the other party to a transaction by a fund, or an intermediary used, fails to deliver on their obligations, which may result in a loss of value to the fund.

For more information on the risks of investing in the Booster Investment Scheme, see the 'Other material information' document available on the offer register at www.disclose-register.companiesoffice.govt.nz.

5. What are the fees?

You will be charged fees for investing in the Focus Series Funds. Fees are deducted from your investment and will reduce your returns. If Booster invests in other funds, those funds may also charge fees, but these are included in the total fund charges summarised below. The fees you pay will be charged in two ways:

- regular charges (for example, annual fund charges). Small differences in these fees can have a big impact on your investment over the long term;
- one-off fees (currently none are charged by Booster).

Annual fund charges

Fund	Management fee	Other management and administration charges (estimated)	Performance-based fees (estimated)	Total annual fund charges (estimated)
Conservative Fund	0.58%	0.10%	0.02%	0.70%
Balanced Fund	0.67%	0.10%	0.03%	0.80%
Growth Fund	0.71%	0.15%	0.04%	0.90%
High Growth Fund	0.75%	0.20%	0.05%	1.00%

Other charges

Service fee

Your financial adviser, with your agreement, may charge you an annual % service fee based on the value of your investment.

Annual fund charges

The annual fund charges are all charges associated with investing in the funds other than one-off fees relating to individual actions (currently none are charged by Booster). These include:

- **A management fee.** This fee covers the costs of managing and administering the funds, which include administration, accounting and custodian fees, and ongoing marketing expenses. It is calculated daily as a percentage of the net asset value of the fund and paid monthly. This fee also covers the management fees of any fund in which Booster Investment Scheme funds invests other than performance-based fees (as applicable). While a performance fee applies in relation to Booster Tahī LP, because the manager of Booster Tahī LP is Booster Funds Management Limited (a related party of Booster), and it may receive a performance fee based on the returns of Booster Tahī LP, 0.50% of Booster's management fee will be rebated on the amount invested in Booster Tahī LP.
- **Other management and administration charges.** These charges include the Supervisor's fee and an estimate for other costs, disbursements, charges or expenses incurred either directly or indirectly by Booster and the Supervisor which are not covered under the management fee (such as audit fees and legal fees). They are calculated daily as a percentage of the net asset value of the fund and paid monthly.

The charges also include an estimate for a foreign exchange facilitation fee. This fee, of up to 0.50% of any net foreign exchange transaction, may be charged directly or indirectly to a Booster Investment Scheme fund which invest in funds managed by Booster. It is deducted from the relevant fund or underlying fund and paid to Booster Custodial Administration Services Limited.

- **Performance-based fees.** The funds may each invest a portion of their net asset value in Booster Tahī LP. Booster Tahī LP is a limited partnership which invests in private (or unlisted) small to medium sized New Zealand companies. The manager of Booster Tahī LP is paid a performance fee and these are estimated for each fund as per the above table.

The estimates are based on the assumption that Booster Tahī LP comprises 15% of the Australasian equities sector of each fund and will achieve a total return equal to the Australia Private Equity and Venture Capital Index that has returned 12% per year over the last 15 years.

The performance fee payable by Booster Tahī LP and charged indirectly to the relevant fund is based on the hurdle rate of return rather than the market index on which the estimated performance fee is based. This means that you may pay a performance fee even if Booster Tahī LP does not match or beat the return of the market index.

Any performance fee charged will be reflected in the unit price of the relevant Booster Focus Series fund.

Full details of the Booster Tahī LP performance-based fee are set out below.

Hurdle rate of return

A performance fee is payable to Booster Funds Management Limited, as Manager of Booster Tahī LP, where the combination of income before tax and fees (income return) and capital gains on its investments (capital gains), together referred to as the total return, over the financial year ended 31 March is more than 5% above the New Zealand 90-day bank bill rate.

Amount of the performance fee

To the extent the total return of Booster Tahī LP exceeds the hurdle rate of return (subject to the high water mark described below) (the 'excess'):

- 33% of the excess that relates to the income return is payable in cash; plus
- 10% of the excess that relates to capital gains on its investments is payable in the form of bonus units in Booster Tahi LP.

When calculating the fee, the income return is applied against the hurdle return first.

Maximum limit of the fee

There is no maximum limit of the performance fee payable.

High water mark

The performance fee payable on capital gains in Booster Tahi LP is subject to a high water mark. No performance fee is payable on capital gains until both:

- the total return exceeds the hurdle rate, and
- the investment value exceeds the higher of:
 - (i) the value when a performance fee was last paid; and
 - (ii) the value last set when the total return fell below the hurdle rate (in each case adjusted where any performance fee has been refunded).

This means a performance fee will not be payable for the same performance twice, nor where the performance falls below the hurdle rate of return in a year.

Because the performance fee is payable on the total return of Booster Tahi LP, any return that was part of the calculation of the income return portion of any performance fee cannot also be part of the calculation of a capital gain performance fee.

Refund of performance fees

If the value of Booster Tahi LP's investments has fallen over the financial year, Booster Funds Management Limited will repay to Booster Tahi LP 10% of the fall in value, up to a maximum of the total income performance fees paid during the relevant year.

If any of Booster Tahi LP's investments are sold for less than its cost, Booster Funds Management Limited will repay to Booster Tahi LP 10% of the loss in value from the bonus units issued to it (to the extent the loss has not already been refunded from fees). Any repayment will be limited to the bonus units held by Booster Funds Management Limited.

Frequency of calculation and payment

The performance fee is calculated annually. The fee is estimated daily and provisional payments may be made quarterly.

Other charges

Service fee

Your financial adviser, with your agreement, may charge you a service fee for providing you with financial advice on your investment in the Scheme. If a fee is charged, it will be deducted from your account each month, and when you close your account, and paid to your financial adviser.

Individual action fees

Contribution and termination fees

Booster does not charge any entry or exit fees.

Investments in the funds are made through the System and your financial adviser, with your agreement, may charge you other fees for the services they provide to you. These fees may include an entry fee on lump sum and regular investment amounts and an exit fee when you make a full withdrawal of your investment. If an entry fee is charged, it will be deducted from each investment amount before your money is invested in your chosen fund/s and paid to your financial adviser. If an exit fee is charged, it will be deducted when you terminate your investment and paid to your financial adviser.

There are currently no establishment, contribution, termination or withdrawal fees charged by Booster. You may be charged other fees on an individual basis for investor-specific decisions or actions (such as a switching fee or regular withdrawal fee) although none are currently charged.

For more information on the Booster Investment Scheme fees and charges see the 'Other material information' document which can be found on the offer register at www.disclose-register.companiesoffice.govt.nz.

Goods and services tax (GST) is not included in any of the fees stated. GST will be added to any fees where applicable.

Example of how fees apply to an investor

Alex invests \$10,000 in the Balanced Fund. They are not charged an establishment fee or a contribution fee. This means that the starting value of their investment is \$10,000.

They are charged management and administration fees, which work out to about \$77 (0.77% of \$10,000). These fees might be more or less if their account balance has increased or decreased over the year.

The Balanced Fund invests in Booster Tahi LP which may pay performance fees if it earned more than its target. Any performance fees paid will be reflected in the value of their investment in the Balanced Fund.

Estimated total fees for the first year

Individual action fees: \$0 (other than any financial adviser fees that may be payable by Alex).

Fund charges: \$80 (includes an estimate of \$3 for the performance-based fees)

Other charges: \$0 (other than any service fee that may be payable by Alex to his financial adviser.)

See the latest fund update for an example of the actual returns and fees investors were charged over the past year.

This example applies only to the Balanced Fund. If you are considering investing in other funds in the scheme, this example may not be representative of the actual fees you may be charged.

The fees can be changed

Any new fees or changes to existing fees is subject to the Trust Deed. We will consult and agree any fee change with the Supervisor and provide 1 month's notice of any increase in the management fee to all investors in the relevant fund.

Booster must publish a fund update for each fund showing the fees actually charged during the most recent year. Fund updates, including past updates, are available at www.booster.co.nz.

6. What taxes will you pay?

Booster Investment Scheme is a portfolio investment entity. The amount of tax you pay is based on your prescribed investor rate (PIR). To determine your PIR, go to www.ird.govt.nz/roles/portfolio-investment-entities/using-prescribed-investor-rates. If you are unsure of your PIR, we recommend you seek professional advice or contact Inland Revenue.

It is your responsibility to tell Booster your PIR when you invest or if your PIR changes. If you do not tell Booster, a default rate of 28% may be applied.

If the advised PIR is lower than the correct PIR, you will need to complete a personal tax return and pay any tax shortfall, interest, and penalties. If the default rate or the advised PIR is higher than the correct PIR, you will not get a refund of any overpaid tax.

If you are investing in the funds as a joint investor, company, trust, or estate, see the 'Other material information' document available on the offer register at www.disclose-register.companiesoffice.govt.nz for more information.

7. Who is involved?

About Booster

Booster Investment Management Limited (**Booster**) is the manager of the Booster Investment Scheme.

We are part of the Booster Group which has been helping New Zealanders save since 1998. The group currently administers superannuation and investment funds of over \$2.0 billion on behalf of more than 100,000 New Zealanders.

9. Where you can find more information

More information about the Booster Investment Scheme and the funds, including fund updates, financial statements, annual reports, the trust deed, SIPO, and other material information is available on the scheme register and offer register at www.disclose-register.companiesoffice.govt.nz and copies can be requested from the Registrar of Financial Service Providers.

You can also get this and other information about your investment, free of charge, from your financial adviser, or by asking us:

- write to: **Booster Investment Management Limited, PO Box 11872, Manners Street, Wellington 6142**
- email: **clientservices@booster.co.nz**
- call: **04 894 4300** from 8.00am to 5.00pm (Monday to Friday)
- visit: **www.booster.co.nz**

10. How to apply

To invest in the funds, you'll need to either:

1. complete an application form to apply for units in one or more of the funds directly; or
2. investing in one or more of the funds by entering into an agreement with the Booster Wrap Administration System (**System**) administrator and a financial adviser who uses the System; or
3. an agreement with a financial adviser who provides a Discretionary Investment Management Service and uses the System.

If you would like to get in touch with a financial adviser who uses the System, call us on **04 894 4300**.
