For an offer of units in:

Mint Australasian Equity Fund

Mint Australasian Property Fund

Mint New Zealand SRI Equity Fund

Mint Diversified Growth Fund

Mint Diversified Income Fund

Issued By: Mint Asset Management Limited – 3 October 2025

This document replaces the Product Disclosure Statement dated 27 March 2025.

This document gives you important information about this investment to help you decide whether you want to invest.

There is other useful information about this offer on www.disclose-register.companiesoffice.govt.nz. Mint Asset

Management Limited has prepared this document in accordance with the Financial Markets Conduct Act 2013.

You can also seek advice from a financial advice provider to help you to make an investment decision.

1. Key information summary

What is this?

This is a managed investment scheme. Your money will be pooled with other investors' money and invested in various investments. Mint Asset Management Limited (Mint) will invest your money and charge you a fee for its services. The returns you receive are dependent on the investment decisions of Mint and the performance of the investments. The value of those investments may go up or down. The types of investments and the fees you will be charged are described in this document.

What will your money be invested in?

Mint offers 5 Funds for you to invest in.

These investment options are summarised on pages 4-6. More information about the investment target and strategy for each investment option is provided at *section 3 (Description of your investment options)*.

Who manages the Funds?

Mint is the manager of the Funds. See *section 7 (Who is involved?)* for more information.

What are the returns?

The return on your investment comes from:

- Any change in the unit price; and
- Any income distributions made from the Fund

The Diversified Income Fund seeks to pay quarterly distributions, paid out of the net income accrued for the period. Distributions are not currently made from the other Funds.

See *section 2 (How does this investment work?)* for more information.

How can you get your money out?

Investments in the Funds are redeemable. A minimum redemption amount per Fund of the lower of \$5,000 and your full investment currently applies. We may in certain circumstances defer or suspend a redemption, for example, if we determine it is not practicable, or would not be in the general interest of all investors of a Fund.

Section 2 (How does this investment work?) has further information on redeeming your investment.

Your investment in these Funds can be sold but there is no established market for trading these financial products. This means that you may not be able to find a buyer for your investment.

How will your investment be taxed?

The Funds are portfolio investment entities (PIEs).

The amount of tax you pay in respect of a PIE is based on your prescribed investor rate (PIR). To determine your PIR, go to www.ird.govt.nz/pir.

See *section 6* of the PDS (*What taxes will you pay?*) on page 17 for more information.

Where can you find more key information?

Mint is required to publish quarterly updates for each Fund. The updates show the returns, and the total fees actually charged to investors, during the previous year. The latest fund updates are available at www.mintasset.co.nz. The manager will also give you copies of those documents on request.

Significant features of the Funds and our investment philosophy

Mint is the manager of the Funds offered in this Product Disclosure Statement (PDS). We focus our abilities on generating strong, consistent returns for our investors and outsource key functions such as fund administration to specialist providers.

We are an active manager and follow a structured process, combining both quantitative and qualitative factors to manage our investment portfolios. Our research process determines which securities and investment strategies to invest in, and we continuously monitor these positions to ensure the fundamentals behind the decision to invest have not changed. Our investment portfolios reflect our best investment ideas, and we believe through skill and opportunity we can add value over and above the market indices.

All investment decisions are made from a New Zealand investor's perspective.

Our general approach for managing investments in offshore markets is to fully or partially hedge these exposures to reduce the impact of currency fluctuations.

For efficiency, portfolio protection and currency hedging, the Funds are permitted to use derivative instruments. Further information can be found in our Statement of Investment Policy and Objectives (SIPO).

Our approach to responsible investment

We strongly believe that addressing Environmental, Social and Governance (ESG) related issues is important to underpinning the long-term health and effectiveness of capital markets. We also believe incorporating ESG principles into our investment process can help achieve our objective of delivering superior and sustainable returns to our investors by identifying the material effects ESG factors can have on a company's long-term sustainability and prosperity.

Mint is a signatory to the UN-supported Principles for Responsible Investment and the Aotearoa New Zealand Stewardship Code. Our Responsible Investment and Stewardship Policies give a full and comprehensive explanation of our responsible investment approach, including providing detail on the following:

- Full information on Mint's exclusions.
- The additional responsible investment objectives of Mint's NZ SRI Equity Fund, and where reporting on these objectives can be found.
- The definitions of Stewardship, ESG Integration and Exclusions.
- The benefits of the initiatives we are signatories to and members of.

Both the Responsible Investment and Stewardship Policies are available at www.mintasset.co.nz and www.disclose-register.companiesoffice.govt.nz.

Legal structure of the Funds

Each Fund is a separate trust, created by way of an establishment deed and constituted within a managed investment scheme governed by the Trust Deed. A managed investment scheme allows your money to be pooled with that of other investors, giving you access to a potentially much wider range of investments. In this way, you may benefit from diversification, reduced investment risk and enhance the potential for greater returns. Your investment in a Fund is measured in units.

When you invest, you buy a number of units. As the investments made by a Fund rise or fall in value, so too will the value of your units. A unit does not give you any legal ownership of a Fund's assets – it gives you the rights to the returns from those assets.

As the manager of each Fund, we are responsible for their day-to-day management. This includes the implementation of investment strategies and guidelines, as well as administering and promoting the Funds. We have appointed Apex Investment Administration (NZ) Limited to value the assets of each Fund and provide other administration services.

Public Trust is the Supervisor. They monitor the way we manage the Funds and ensure we comply with the Trust Deed and any applicable legislation. They are also responsible for appointing a Custodian, who is independent of us, to hold the assets of each Fund.

The assets of a Fund are not available to be applied to meet the liabilities of any other Fund.

Distributions

The Diversified Income Fund seeks to pay distributions each quarter following the last Business Day of March, June, September and December. Distributions are made from the net income generated by the Fund. This means the amount of the distribution can fluctuate.

You can choose to have any distribution income paid to your bank account or reinvest it by purchasing additional units in the Diversified Income Fund. You make your choice by ticking the appropriate box in the application form when you invest.

The other Funds do not make distributions.

Making investments

You can make an investment into a Fund by completing the application form at the back of this document or the online application form at www.mintasset.co.nz.

You can choose to either make a lump sum investment or set up a monthly regular investment plan (or both).

The minimum investment amounts for a Fund are:

Minimum initial lump sum investment
\$5,000

Minimum additional lump sum investment
\$2,000

Minimum regular investment
\$250 per month

We may vary or waive these amounts for any investor at our discretion.

Withdrawing your investments

You can make a request to redeem all or part of your investment at any time. Withdrawal requests must:

- Be sent in writing to us or the Administrator at the address provided in section 10 (How to Apply);
- Reference the amount to be withdrawn;
- Confirm your investor number and the bank account details where the proceeds are to be deposited; and
- Be signed by all current investors in respect of the relevant account.

The minimum amount that can be withdrawn from a Fund at one time is currently the lower of \$5,000 or the entire amount of the investment. We may vary or waive this minimum at our discretion.

Payment will generally be made to your nominated bank account within 5 Business Days.

In certain circumstances, with notice to the Supervisor, we may defer or suspend withdrawals (including any switch request) where we reasonably determine that it is not practicable or would not be in the general interests of the Fund or its investors.

There is no limit to the period for which we can defer or suspend withdrawals.

Investment and withdrawal requests received before 2.00pm on a Business Day will be processed using the unit price struck at the close of business on that day. All other requests will be processed on the next Business Day. A Business Day means any day (other than Saturday or Sunday) on which registered banks in Auckland are open for business, or other such day as we may determine.

How to switch between funds

You may switch your investment to another Fund at no charge. Written instructions must be sent to us or the Administrator at the address provided in section 10 (*How to Apply*).

4. What are the risks of investing?

Understanding the risk indicator

Managed funds in New Zealand must have a standard risk indicator. The risk indicator is designed to help investors understand the uncertainties both for loss and growth that may affect their investment. You can compare funds using the risk indicator.

See *section 3 (Description of your investment options)* for a statement of the risk category allocated for each of the Funds.

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund’s assets goes up and down (volatility). A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz/tools/investor-profiler.

Note that even the lowest category does not mean a risk-free investment, and there are other risks (described under the heading ‘Other specific risks’) that are not captured by this rating.

This risk indicator is not a guarantee of a fund’s future performance. The risk indicator is based on the returns data for the 5 years to 31 December 2024. While risk indicators are usually relatively stable, they do shift from time to time. You can see the most recent risk indicator in the latest fund update for each Fund.

General investment risks

Some of the things that may cause the Fund's value to move up and down, which affect the risk indicator are:

Investment Risk

We use our skills to evaluate potential investments before including them in our portfolios. However, there can be no guarantee a particular investment will perform well in the future.

Many factors can positively or negatively influence the value of an investment, including the operations and management of a company, business conditions and legislative changes.

Our investments can also be adversely affected by the performance of financial markets generally. Factors can include investor sentiment, economic conditions, geopolitical events, pandemics, natural disasters and other risks which are difficult to predict and can escalate rapidly.

Property Risk

Our Funds can invest in companies that are exposed to the property markets. These markets can be adversely affected by property-specific factors such as the supply/demand balance of property assets, legislation relating to property and economic conditions.

Currency Risk

Funds which can invest in overseas securities are exposed to currency fluctuations. These can both enhance and reduce investment returns. We have the discretion to enter into hedging arrangements designed to fully or partially reduce the impact of currency fluctuations.

ESG Risk

All investments can be impacted by ESG issues, which amongst other things can include the effects of climate change, human rights and governance practices. We look to minimise this risk through incorporating ESG considerations into our investment process.

Interest Rate Risk

Changes in interest rates can have a negative or positive impact on investment values or returns. This risk is particularly important for investments in fixed interest securities. If market interest rates rise, the fixed rate security becomes less valuable, and vice versa when market interest rates fall. Interest rate changes also affect the income received on cash investments and the value of other securities such as shares and property investments.

Liquidity Risk

There is a risk that a Fund may not be able to generate sufficient cash to settle its obligations as they fall due. The New Zealand market, in particular, lacks depth meaning liquidity can be an important factor. This risk is more prevalent in falling markets caused by market stress. Further information on how we try to minimise this risk can be found in our SIPO, and details on our liquidity management tools and the potential impacts of using those tools can be found in the Other Material Information (OMI) document.

Other specific risks

- Other circumstances can significantly increase the risk to returns for investors but are not reflected in the risk indicator. Below we have highlighted two of these risks. Information about other risks, e.g. Counterparty, Tax, Derivatives and Regulatory risk, not mentioned in this PDS can be found on the offer register for the Funds in the OMI document.
- **Key Person Risk:** Like many investment managers, Mint is reliant on a number of key personnel to achieve its investment objectives. As a boutique manager, the loss of key personnel has the potential to adversely affect both the returns and Net Asset Value of the Funds.
We have mitigated this risk where possible through an experienced team who operate in an open and collaborative environment. Each portfolio manager has backup as well as lead responsibilities. Key employees are shareholders of Mint's parent company.
- **Operational Risk:** We have outsourced a number of key functions, including administration, to third-party suppliers. Each Fund's assets are held by the Custodian, which is appointed by the Supervisor. We are exposed to risks from these relationships where there are deficiencies in their systems or internal controls. Such deficiencies could have an adverse effect on our operations, and subsequently your returns or ability to redeem your investment. Third-party suppliers are subject to initial and ongoing due diligence to minimise this risk. The Supervisor is responsible for monitoring the Custodian's performance and ability to fulfil its duties.

5. What are the fees?

You will be charged fees for investing in the Funds. Fees are deducted from your investment and will reduce your returns. If Mint invests in other funds, those funds may also charge fees.

The fees you pay will be charged in two ways:

- Regular fees (for example, annual fund charges).
Small differences in these fees can have a big impact on your investment over the long term
- One-off fees (currently there are no one-off fees).

FUND	Annual Management Fees (including GST)	Estimate of Other Annual Expenses (including GST)	Estimated Total Annual Fund Charges (including GST)
Australasian Equity Fund	1.02%	0.17%	1.19%
Australasian Property Fund	0.76%	0.29%	1.05%
NZ SRI Equity Fund	0.76%	0.19%	0.95%
Diversified Growth Fund	0.96%	0.25%	1.21%
Diversified Income Fund	0.76%	0.22%	0.98%

Explanation of the fees

The total annual fund charges are deducted from the relevant Fund and reflected in the Fund's unit price. The fees in the table above are shown as a percentage of the Fund's Net Asset Value.

Management fees

We charge an annual management fee to each Fund as shown in the table above. This fee is accrued daily by the Administrator and paid to us monthly in arrears.

Other expenses

Other annual expenses that each Fund will incur include administration, supervisor, custodian, audit, regulatory and legal expenses. These are estimated based on past fund expenses and agreed rates with our suppliers. In addition to these expenses, under the Trust Deed, both the Supervisor and the Manager are entitled to be reimbursed out of the assets of the relevant Fund for any other costs reasonably incurred in the operation and administration of that Fund. Transaction costs, which are the costs for purchasing and selling securities, will also be incurred.

Individual action fees

There are no individual action fees such as contribution, establishment, termination or withdrawal fees.

Performance-based fees

We do not charge performance fees on any of our Funds.

Example of how fees apply to an investor

Annie invests \$10,000 in the Australasian Equity Fund. She is charged management and administration fees, which work out to about \$119 (1.19% of \$10,000). These fees might be more or less if her account balance has increased or decreased over the year.

Estimated total fees for the first year:

Fund charges: \$119

See the latest fund update for an example of the actual returns and fees investors were charged over the past year.

This example applies only to the Australasian Equity Fund. If you are considering investing in other Funds or investment options in the scheme, this example may not be representative of the actual fees you may be charged.

Other fees

We can, to the extent permitted by our Trust Deed, charge other fees with approval from the Supervisor. An example would be entry or exit fees, which can be charged in exceptional circumstances to ensure equitable treatment between unitholders. Currently, there are no other fees applied. We will notify you if this changes.

The fees can be changed

We may increase these fees or introduce new fees only upon approval from the Supervisor and after providing investors with one month's prior written notice in accordance with the Trust Deed. We may waive or decrease these fees without notice.

We must publish a fund update for each Fund showing the fees actually charged during the most recent year. Fund updates, including past updates, are available at www.mintasset.co.nz and www.disclose-register.companiesoffice.govt.nz.

6. What taxes will you pay?

Each Fund is a Portfolio Investment Entity. The amount of tax you pay is based on your prescribed investor rate (PIR). To determine your PIR, go to **www.ird.govt.nz/pir**. If you are unsure of your PIR, we recommend you seek professional advice or contact Inland Revenue. It is your responsibility to tell us your PIR when you invest or if your PIR changes.

If you do not tell us, a default rate may be applied. If the rate applied to your PIE income is lower than your correct PIR you will be required to pay any tax shortfall as part of the income tax year-end process. If the rate applied to your PIE income is higher than your PIR any tax over-withheld will be used to reduce any income tax liability you may have for the tax year and any remaining amount will be refunded to you.

Section B Entity self-certification: FATCA & CRS

New Zealand has implemented rules which require financial institutions, including Mint, to collect certain information about their clients' foreign tax residency. For further information about the Foreign Account Tax Compliance Act (FATCA) or the Common Reporting Standard (CRS) you can visit the Inland Revenue website at www.ird.govt.nz/international-tax/exchange-of-information or speak to a tax adviser. For further information about international tax residency rules you can visit the OECD website at www.oecd.org/tax/automatic-exchange/crs-implementation-and-assistance/tax-residency. An 'entity' includes a company, trust, partnership, association, registered co-operative, or government body.

1. Tax residency details:

Is the Entity a US Person for FATCA purposes or US tax resident?

☐ Yes

☐ No

Is the Entity a tax resident in any other country (other than the US or NZ)?

☐ Yes

☐ No

If you answered Yes to either of the questions above, please complete the following table with the country or countries of Tax residence and the Tax Identification Number for each country indicated.

Country of tax residence	TIN or reason TIN is not available

2. Is the Entity a Financial Institution for FATCA or CRS purposes?

☐ Yes

☐ No

The term Financial Institution as defined by FATCA and CRS includes custodial institutions, depository institutions, investment entities or specified insurance companies. A family trust is likely to be a Financial Institution if 50% or more of the trust's income is from financial assets or if the trust is managed by another financial institution.

If you answered NO to question 2, proceed to question 3

If you answered YES to both question 1 and question 2, proceed to question 4

If you answered YES to question 2 only, proceed to Section C

3. Is the Entity an Active or Passive Non-Financial Entity (NFE) for FATCA and CRS purposes?

☐ Active

☐ Passive

An Entity will be an Active NFE where less than 50% of the NFE's income for the preceding calendar year or other appropriate reporting period is passive income and less than 50% of the NFE's assets for the preceding calendar year or other appropriate reporting period produce, or are held for the production of, passive income. Passive income generally include non-trading investment income in the form of: interest, dividends, annuities, other financial arrangements income, rents and royalties.

The Entity may also be characterized as an Active NFE under other criteria.
Generally, an Entity will be a Passive NFE if it is not an active NFE.

4. Does the Entity have any Controlling Persons who are a US Citizen or a tax resident of a country other than New Zealand?

☐ Yes

☐ No

The term Financial Institution as defined by FATCA and CRS includes custodial institutions, depository institutions, investment entities or specified insurance companies. A family trust is likely to be a Financial Institution if 50% or more of the trust's income is from financial assets or if the trust is managed by another financial institution.

If you answered YES, complete FATCA & CRS details in Section C for every applicable Controlling Person.

Section C Beneficial and/or other Controlling Persons of the entity (please include any person with a direct or indirect ownership of greater than 25% AND/OR any effective controller including Directors, Partnerships etc).

Specific conditions relating to notices and disputes

You may ask your bank to reverse a direct debit up to 120 calendar days after the debit if:

- You don't receive a written notice of the amount and date of each direct debit from the initiator, or
- You receive a written notice but the amount or the date of debiting is different from the amount or the date specified on the notice.

The initiator is required to give a written notice of the amount and date of each direct debit in a series of direct debits no less than 10 calendar days before the date of the first direct debit in the series. The notice is to include:

- The dates of the debits, and
- The amount of each direct debit.

If the initiator proposes to change an amount or date of a direct debit specified in the notice, the initiator is required to give you notice no less than 30 calendar days before the change.

If the bank dishonours a direct debit but the initiator sends the direct debit again once within 5 business days of the dishonour, the initiator is not required to give you a second notice of the amount and date of the direct debit.
