Fund Update

for the quarter ended 30 September 2021

This fund update was first made publicly available on 29 October 2021

What is the purpose of this update?

This document tells you how the AMP Aggressive Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. AMP Wealth Management New Zealand Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The fund has a well-diversified portfolio that aims to provide growth, primarily through holding growth assets with a low allocation to income assets. The fund aims to achieve high returns, in exchange there will be larger movements up and down in the value of your investments.

Total value of the fund	\$577,368,768
Number of investors in the fund	27305
The date the fund started	1 October 2007

What are the risks of investing?

Risk indicator for the AMP Aggressive Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

How has the fund performed?

	Average over past 5 years ^{1,2}	Past year ^{1,2}
Annual return (after deductions for charges and tax)	9.14%	17.78%
Annual return (after deductions for charges but before tax)	10.01%	19.24%
Composite of market index annual return (reflects no deduction for charges and tax) and peer group index annual return (after deductions for charges but before tax)	11.64%	19.41%

The market index annual return is based on a composite index, calculated using the target investment mix weightings of the underlying market indices that the fund invests into. Some components of the index for this fund have changed in the past quarter in line with the transition of this fund to a new investment approach. For details of the indices used to calculate the composite index, please see the Statement of Investment Policy and Objectives for your product. Additional information about the market index is available on the offer register at <https://disclose-register.companiesoffice.govt.nz>. Index disclaimers can be found on the AMP website at www.amp.co.nz/indexdisclaimers.

Annual return graph ^{1,2}

This shows the return after fund charges and tax for each of the last 10 years ending 31 March. The last bar shows the average annual return for the last 10 years, up to 30 September 2021.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the AMP Aggressive Fund are charged fund charges. In the year to 31 March 2021 these were:

	% of net asset value
Total fund charges (estimated)³	1.35%*
Which are made up of -	
Total management and administration charges (estimated)	1.35%
Including -	
Manager's basic fee (estimated)	1.13%
Other management and administration charges (estimated) ⁴	0.22%
Total performance-based fees	0.00%
Other charges	Dollar amount per investor or description of how charge is calculated
Member fee	\$23.40

* Based on a decrease in the Manager's basic fee and Other management and administration charges, the Manager estimates that the total fund charges for the next scheme year will reduce to 0.93% of the net asset value.

Different member fees or fee rebates may apply to some members. Any different fees or rebates will be set out in the Member Booklet or supplement, if applicable, which you can request from your Adviser.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the 'fees and other charges' document on the entry relating to the offer of interests in the AMP KiwiSaver Scheme maintained on the offer register (disclose-register.companiesoffice.govt.nz) for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Craig had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Craig received a return after fund charges were deducted of \$1,778.00 (that is 17.78% of his initial \$10,000). Craig also paid \$23.40 in other charges. This gives Craig a total return after tax of \$1,754.60 for the year.

The top 10 investments make up 14.80% of the fund.

Currency hedging

The fund will (or will invest in underlying funds that will) target:

- fully hedging foreign currency exposure from International fixed interest and Australasian equities;
- hedging foreign currency exposure from International equities – Developed markets at 45.5% hedged to New Zealand dollars; and
- not hedging foreign currency exposure from International equities – Emerging markets.

Actual hedging positions may less closely align with the target hedging positions, and some hedging may be applied to unhedged asset classes, during the transition to the fund's new investment management approach.

Notes

- On 12 July 2021, AMP Wealth Management New Zealand Limited (AMPWM) took over from AMP Capital Investors (New Zealand) Limited (AMP Capital) as the underlying fund manager for this Fund and commenced transition of the Fund to AMPWM's new investment approach (for more information see amp.co.nz/transforming-amp). The transition completed during September 2021 and, with effect from completion of the transition, BlackRock Investment Management (Australia) Limited (BlackRock) commenced providing investment management services to AMPWM for its wholesale funds. The fund performance in the table shows fund performance which relates to both AMPWM (with support from BlackRock) and AMP Capital.
- For the periods in the table and bar graph which cover the year, we have used a combined composite index and appropriate market index to calculate market index returns because the fund ceased to invest in relevant assets during the quarter. For periods in the bar graph not covering this quarter, index returns have been calculated with reference to a composite index or appropriate market index. The composite index is calculated using the target investment mix weightings of the underlying market and peer group indices for the asset classes that the fund invested into. A composite index may be a less reliable indicator of performance than an appropriate market index. In the table and bar graph, the return for the market index reflects no deduction for fund charges, trading expenses and tax, and the return for the peer group index (forming part of the composite index) reflects deductions for fund charges and trading expenses, but before tax.
- The total fund charges are inclusive of any applicable GST.
- The other management and administration charges include estimates of underlying fund charges provided by underlying fund managers. The balance dates of the underlying fund(s) do not align with the balance date of the fund. To estimate the charges, AMP includes the underlying fund charges as at the relevant underlying fund(s) balance date, adjusted (where required) to reflect any material changes advised to AMP by the relevant underlying manager as having occurred during the intervening period.
- The actual investment mix and top ten investments have been calculated excluding cash and cash equivalents held for operational purposes.

Fund Update

for the quarter ended 30 September 2021

This fund update was first made publicly available on 29 October 2021

What is the purpose of this update?

This document tells you how the AMP Australasian Shares Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. AMP Wealth Management New Zealand Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

This is a single sector fund with exposure to equity securities of companies that are listed on the NZ and Australian stock exchange. The fund aims to achieve long term capital growth through exposure to shares of companies listed in New Zealand and Australia.

Total value of the fund	\$8,605,675
Number of investors in the fund	545
The date the fund started	28 July 2016

What are the risks of investing?

Risk indicator for the AMP Australasian Shares Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

Specific risk

In addition to the general investment risks, you should be aware this fund is concentrated in a particular asset class and not diversified across multiple asset classes. At any given point, market conditions that cause one asset class to perform well may cause another asset class to perform poorly. This could result in negative or lower than expected returns compared to a fund which is diversified across multiple asset classes.

How has the fund performed?

	Past year ¹
Annual return (after deductions for charges and tax)	16.53%
Annual return (after deductions for charges but before tax)	17.49%
Market index annual return (reflects no deduction for charges and tax)	19.68%

The market index annual return is based on 71% S&P/NZX 50 Index Gross with Imputation and 29% MSCI Australian Shares All Cap 300 ex Select GICS ex Select Securities Custom ESG 100% Hedged to NZD Index from 1 August 2021. Prior to 1 August 2021, the market index annual return was based on 67% S&P/NZX 50 Index Gross with Imputation and 33% S&P/ASX 300 (TR) (50% hedged to NZD). The index was changed in line with the transition of this fund to a new investment approach. Additional information about the market index is available on the offer register at <https://disclose-register.companiesoffice.govt.nz>. Index disclaimers can be found on the AMP website at www.amp.co.nz/indexdisclaimers.

What are the risks of investing?

Risk indicator for the AMP Balanced Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

How has the fund performed?

	Average over past 5 years ^{1,2}	Past year ^{1,2}
Annual return (after deductions for charges and tax)	6.62%	11.10%
Annual return (after deductions for charges but before tax)	7.37%	11.75%
Composite of market index annual return (reflects no deduction for charges and tax) and peer group index annual return (after deductions for charges but before tax)	8.47%	11.35%

The market index annual return is based on a composite index, calculated using the target investment mix weightings of the underlying market indices that the fund invests into. Some components of the index for this fund have changed in the past quarter in line with the transition of this fund to a new investment approach. For details of the indices used to calculate the composite index, please see the Statement of Investment Policy and Objectives for your product. Additional information about the market index is available on the offer register at <https://disclose-register.companiesoffice.govt.nz>. Index disclaimers can be found on the AMP website at www.amp.co.nz/indexdisclaimers.

Annual return graph ^{1,2}

This shows the return after fund charges and tax for each of the last 10 years ending 31 March. The last bar shows the average annual return for the last 10 years, up to 30 September 2021.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the AMP Balanced Fund are charged fund charges. In the year to 31 March 2021 these were:

	% of net asset value
Total fund charges (estimated)³	1.20%*
Which are made up of -	
Total management and administration charges (estimated)	1.20%
Including -	
Manager's basic fee (estimated)	1.03%
Other management and administration charges (estimated) ⁴	0.17%
Total performance-based fees	0.00%
Other charges	Dollar amount per investor or description of how charge is calculated
Member fee	\$23.40

* Based on a decrease in the Manager's basic fee and Other management and administration charges, the Manager estimates that the total fund charges for the next scheme year will reduce to 0.89% of the net asset value.

Different member fees or fee rebates may apply to some members. Any different fees or rebates will be set out in the Member Booklet or supplement, if applicable, which you can request from your Adviser.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the 'fees and other charges' document on the entry relating to the offer of interests in the AMP KiwiSaver Scheme maintained on the offer register (disclose-register.companiesoffice.govt.nz) for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Craig had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Craig received a return after fund charges were deducted of \$1,110.00 (that is 11.10% of his initial \$10,000). Craig also paid \$23.40 in other charges. This gives Craig a total return after tax of \$1,086.60 for the year.

Currency hedging

The fund will (or will invest in underlying funds that will) target:

- fully hedging foreign currency exposure from International fixed interest and Australasian equities;
- hedging foreign currency exposure from International equities – Developed markets at 45.5% hedged to New Zealand dollars; and
- not hedging foreign currency exposure from International equities – Emerging markets.

Actual hedging positions may less closely align with the target hedging positions, and some hedging may be applied to unhedged asset classes, during the transition to the fund's new investment management approach.

Notes

- On 12 July 2021, AMP Wealth Management New Zealand Limited (AMPWM) took over from AMP Capital Investors (New Zealand) Limited (AMP Capital) as the underlying fund manager for this Fund and commenced transition of the Fund to AMPWM's new investment approach (for more information see amp.co.nz/transforming-amp). The transition completed during September 2021 and, with effect from completion of the transition, BlackRock Investment Management (Australia) Limited (BlackRock) commenced providing investment management services to AMPWM for its wholesale funds. The fund performance in the table shows fund performance which relates to both AMPWM (with support from BlackRock) and AMP Capital.
- For the periods in the table and bar graph which cover the year, we have used a combined composite index and appropriate market index to calculate market index returns because the fund ceased to invest in relevant assets during the quarter. For periods in the bar graph not covering this quarter, index returns have been calculated with reference to a composite index or appropriate market index. The composite index is calculated using the target investment mix weightings of the underlying market and peer group indices for the asset classes that the fund invested into. A composite index may be a less reliable indicator of performance than an appropriate market index. In the table and bar graph, the return for the market index reflects no deduction for fund charges, trading expenses and tax, and the return for the peer group index (forming part of the composite index) reflects deductions for fund charges and trading expenses, but before tax.
- The total fund charges are inclusive of any applicable GST.
- The other management and administration charges include estimates of underlying fund charges provided by underlying fund managers. The balance dates of the underlying fund(s) do not align with the balance date of the fund. To estimate the charges, AMP includes the underlying fund charges as at the relevant underlying fund(s) balance date, adjusted (where required) to reflect any material changes advised to AMP by the relevant underlying manager as having occurred during the intervening period.
- The actual investment mix and top ten investments have been calculated excluding cash and cash equivalents held for operational purposes.

Fund Update

for the quarter ended 30 September 2021

This fund update was first made publicly available on 29 October 2021

What is the purpose of this update?

This document tells you how the AMP Capital Global Multi-Asset Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. AMP Wealth Management New Zealand Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

This is a diversified fund that aims to generate a positive return above inflation and actively respond to market conditions with a flexible approach to investing. Assets are managed using a multi-manager approach that provides diversity across asset classes, sectors, geographies and investment managers, and enables change in investment allocations due to market conditions. Risk mitigation strategies are designed to lower return volatility and reduce the impact of market related events.

Total value of the fund	\$10,616,158
Number of investors in the fund	335
The date the fund started	28 July 2016

What are the risks of investing?

Risk indicator for the AMP Capital Global Multi-Asset Fund¹:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

Specific risk

In addition to the general investment risks, you should be aware that the investment management style of this fund means that it may be concentrated in a particular asset class or type of investment vehicle, geographical area or industry at any point in time. This may subject the fund to significant performance volatility relative to its objectives. If this volatility occurs, the Global Multi-Asset Fund may fail to meet its stated performance objective.

How has the fund performed?

	Past year ^{2,3}
Annual return (after deductions for charges and tax)	7.84%
Annual return (after deductions for charges but before tax)	9.84%

Annual return graph^{2,3}

This shows the return after fund charges and tax for each of the last 10 years ending 31 March. The last bar shows the average annual return for the last 10 years, up to 30 September 2021.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the AMP Capital Global Multi-Asset Fund are charged fund charges. In the year to 31 March 2021 these were:

	% of net asset value
Total fund charges (estimated)⁴	1.61%
Which are made up of -	
Total management and administration charges(estimated)	1.61%
Including -	
Manager's basic fee (estimated)	1.43%
Other management and administration charges (estimated) ⁵	0.18%
Total performance-based fees	0.00%
Other charges	Dollar amount per investor or description of how charge is calculated
Member fee	\$23.40

Different member fees or fee rebates may apply to some members. Any different fees or rebates will be set out in the Member Booklet or supplement, if applicable, which you can request from your Adviser.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the 'fees and other charges' document on the entry relating to the offer of interests in the AMP KiwiSaver Scheme maintained on the offer register (disclose-register.companiesoffice.govt.nz) for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Craig had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Craig received a return after fund charges were deducted of \$784.00 (that is 7.84% of his initial \$10,000). Craig also paid \$23.40 in other charges. This gives Craig a total return after tax of \$760.60 for the year.

Notes

- 1 To calculate the risk indicator we have used expected volatility of the underlying fund. We consider this is the most reasonable method available. As a result of this method being used, the risk indicator may provide a less reliable indicator of the potential future volatility of the fund.
- 2 The table and bar graph does not include a market index return for comparative purposes.
- 3 There is no appropriate market index and no suitable peer group index or indices for the exempt fund against which to assess either movements in the market in relation to the returns from the assets in which the exempt fund invests, or the performance of the exempt fund as a whole.
- 4 The total fund charges are inclusive of any applicable GST.
- 5 The other management and administration charges include estimates of underlying fund charges provided by underlying fund managers. The balance dates of the underlying fund(s) do not align with the balance date of the fund. To estimate the charges, AMP includes the underlying fund charges as at the relevant underlying fund(s) balance date, adjusted (where required) to reflect any material changes advised to AMP by the relevant underlying manager as having occurred during the intervening period.
- 6 The actual investment mix and top ten investments have been calculated excluding cash and cash equivalents held for operational purposes.
- 7 The Global Multi-Asset Fund's target investment mix of 95% "Other" represents the fact that it doesn't have a target asset allocation but operates within broad ranges across asset types.

Fund Update

for the quarter ended 30 September 2021

This fund update was first made publicly available on 29 October 2021

What is the purpose of this update?

This document tells you how the AMP Capital Income Generator Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. AMP Wealth Management New Zealand Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The fund invests in an underlying fund that invests in a diversified mix of growth and defensive assets, with a focus on reliable income generation. The fund aims to provide a gross fixed monthly income in excess of bank deposit rates, along with a positive return on capital over the long term.

Total value of the fund	\$4,656,535
Number of investors in the fund	176
The date the fund started	28 July 2016

What are the risks of investing?

Risk indicator for the AMP Capital Income Generator Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

How has the fund performed?

	Past year
Annual return (after deductions for charges and tax)	8.61%
Annual return (after deductions for charges but before tax)	8.76%
Market index annual return (reflects no deduction for charges and tax)	7.10%

The market index annual return is based on a composite index, calculated using the target investment mix weightings of the underlying market indices that the fund invests into. Some components of the index for this fund have changed in the past quarter to more closely align with the underlying investments. For details of the indices used to calculate the composite index, please see the Statement of Investment Policy and Objectives for your product. Additional information about the market index is available on the offer register at <https://disclose-register.companiesoffice.govt.nz>. Index disclaimers can be found on the AMP website at www.amp.co.nz/indexdisclaimers.

Annual return graph

This shows the return after fund charges and tax for each of the last 10 years ending 31 March. The last bar shows the average annual return for the last 10 years, up to 30 September 2021.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the AMP Capital Income Generator Fund are charged fund charges. In the year to 31 March 2021 these were:

	% of net asset value
Total fund charges¹	1.12%
Which are made up of -	
Total management and administration charges	1.12%
Including -	
Manager's basic fee	0.98%
Other management and administration charges	0.14%
Total performance-based fees	0.00%
Other charges	Dollar amount per investor or description of how charge is calculated
Member fee	\$23.40

Different member fees or fee rebates may apply to some members. Any different fees or rebates will be set out in the Member Booklet or supplement, if applicable, which you can request from your Adviser.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the 'fees and other charges' document on the entry relating to the offer of interests in the AMP KiwiSaver Scheme maintained on the offer register (disclose-register.companiesoffice.govt.nz) for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Craig had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Craig received a return after fund charges were deducted of \$861.00 (that is 8.61% of his initial \$10,000). Craig also paid \$23.40 in other charges. This gives Craig a total return after tax of \$837.60 for the year.

Fund Update

for the quarter ended 30 September 2021

This fund update was first made publicly available on 29 October 2021

What is the purpose of this update?

This document tells you how the AMP Cash Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. AMP Wealth Management New Zealand Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

This is a single sector fund which primarily invests in cash and short-term deposits. The fund aims to achieve modest, stable returns with a very low level of investment risk, in exchange there should be no significant short-term movements up and down in the value of your investments.

Total value of the fund	\$85,951,434
Number of investors in the fund	3279
The date the fund started	1 October 2007

What are the risks of investing?

Risk indicator for the AMP Cash Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

Specific risk

In addition to the general investment risks, you should be aware this fund is concentrated in a particular asset class and not diversified across multiple asset classes. At any given point, market conditions that cause one asset class to perform well may cause another asset class to perform poorly. This could result in negative or lower than expected returns compared to a fund which is diversified across multiple asset classes.

How has the fund performed?

	Average over past 5 years ¹	Past year ¹
Annual return (after deductions for charges and tax)	0.75%	-0.09%
Annual return (after deductions for charges but before tax)	1.04%	-0.12%

This fund update was first made publicly available on 29 October 2021

What is the purpose of this update?

This document tells you how the AMP Conservative Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. AMP Wealth Management New Zealand Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The fund has a well-diversified portfolio that primarily invests in lower-risk income assets with a conservative allocation to growth assets. The fund aims to achieve modest to medium returns, in exchange there may be small movements up and down in the value of your investments.

Total value of the fund	\$444,839,556
Number of investors in the fund	11067
The date the fund started	1 October 2007

What are the risks of investing?

Risk indicator for the AMP Conservative Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

How has the fund performed?

	Average over past 5 years ^{1,2}	Past year ^{1,2}
Annual return (after deductions for charges and tax)	3.45%	3.83%
Annual return (after deductions for charges but before tax)	4.05%	3.68%
Composite of market index annual return (reflects no deduction for charges and tax) and peer group index annual return (after deductions for charges but before tax)	4.75%	3.40%

The market index annual return is based on a composite index, calculated using the target investment mix weightings of the underlying market indices that the fund invests into. Some components of the index for this fund have changed in the past quarter in line with the transition of this fund to a new investment approach. For details of the indices used to calculate the composite index, please see the Statement of Investment Policy and Objectives for your product. The top 10 investments make up 25.26% of the fund.

Currency hedging

The fund will (or will invest in underlying funds that will) target:

- fully hedging foreign currency exposure from International fixed interest and Australasian equities;
- hedging foreign currency exposure from International equities – Developed markets at 45.5% hedged to New Zealand dollars; and
- not hedging foreign currency exposure from International equities – Emerging markets.

Actual hedging positions may less closely align with the target hedging positions, and some hedging may be applied to unhedged asset classes, during the transition to the fund's new investment management approach.

Notes

- On 12 July 2021, AMP Wealth Management New Zealand Limited (AMPWM) took over from AMP Capital Investors (New Zealand) Limited (AMP Capital) as the underlying fund manager for this Fund and commenced transition of the Fund to AMPWM's new investment approach (for more information see amp.co.nz/transforming-amp). The transition completed during September 2021 and, with effect from completion of the transition, BlackRock Investment Management (Australia) Limited (BlackRock) commenced providing investment management services to AMPWM for its wholesale funds. The fund performance in the table shows fund performance which relates to both AMPWM (with support from BlackRock) and AMP Capital.
- For the periods in the table and bar graph which cover the year, we have used a combined composite index and appropriate market index to calculate market index returns because the fund ceased to invest in relevant assets during the quarter. For periods in the bar graph not covering this quarter, index returns have been calculated with reference to a composite index or appropriate market index. The composite index is calculated using the target investment mix weightings of the underlying market and peer group indices for the asset classes that the fund invested into. A composite index may be a less reliable indicator of performance than an appropriate market index. In the table and bar graph, the return for the market index reflects no deduction for fund charges, trading expenses and tax, and the return for the peer group index (forming part of the composite index) reflects deductions for fund charges and trading expenses, but before tax.
- The total fund charges are inclusive of any applicable GST.
- The other management and administration charges include estimates of underlying fund charges provided by underlying fund managers. The balance dates of the underlying fund(s) do not align with the balance date of the fund. To estimate the charges, AMP includes the underlying fund charges as at the relevant underlying fund(s) balance date, adjusted (where required) to reflect any material changes advised to AMP by the relevant underlying manager as having occurred during the intervening period.
- The actual investment mix and top ten investments have been calculated excluding cash and cash equivalents held for operational purposes.

A little help.

Investment Update

for the quarter ended 30 September 2021

This investment update was first made publicly available on 29 October 2021

What is the purpose of this update?

This document tells you how the AMP Conservative Fund (Lifesteps) has performed and what fees were charged. The document will help you to compare the fund with other funds. AMP Wealth Management New Zealand Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The fund has a well-diversified portfolio that primarily invests in lower-risk income assets with a conservative allocation to growth assets. The fund aims to achieve modest to medium returns, in exchange there may be small movements up and down in the value of your investments.

Total value of the fund	\$184,607,529
Number of investors in the fund	4152
The date the fund started	1 October 2007

What are the risks of investing?

Risk indicator for the AMP Conservative Fund (Lifesteps):

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future investment updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

How has the fund performed?

	Average over past 5 years ^{1,2}	Past year ^{1,2}
Annual return (after deductions for charges and tax)	3.45%	3.83%
Annual return (after deductions for charges but before tax)	4.05%	3.68%
Composite of market index annual return (reflects no deduction for charges and tax) and peer group index annual return (after deductions for charges but before tax)	4.75%	3.40%

The market index annual return is based on a composite index, calculated using the target investment mix weightings of the underlying market indices that the fund invests into. Some components of the index for this fund have changed in the past quarter in line with the transition of this fund to a new investment approach. For details of the indices used to calculate the composite index, please see the Statement of Investment Policy and Objectives for your product. Additional information about the market index is available on the offer register at <https://disclose-register.companiesoffice.govt.nz>. Index disclaimers can be found on the AMP website at www.amp.co.nz/indexdisclaimers.

Annual return graph ^{1,2}

This shows the return after fund charges and tax for each of the last 10 years ending 31 March. The last bar shows the average annual return for the last 10 years, up to 30 September 2021.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the AMP Conservative Fund (Lifesteps) are charged fund charges. In the year to 31 March 2021 these were:

	% of net asset value
Total fund charges (estimated)³	1.01%*
Which are made up of -	
Total management and administration charges (estimated)	1.01%
Including -	
Manager's basic fee (estimated)	0.88%
Other management and administration charges (estimated) ⁴	0.13%
Total performance-based fees	0.00%
Other charges	Dollar amount per investor or description of how charge is calculated
Member fee	\$23.40

* Based on a decrease in the Manager's basic fee and Other management and administration charges, the Manager estimates that the total fund charges for the next scheme year will reduce to 0.84% of the net asset value.

Different member fees or fee rebates may apply to some members. Any different fees or rebates will be set out in the Member Booklet or supplement, if applicable, which you can request from your Adviser.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the 'fees and other charges' document on the entry relating to the offer of interests in the AMP KiwiSaver Scheme maintained on the offer register (disclose-register.companiesoffice.govt.nz) for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

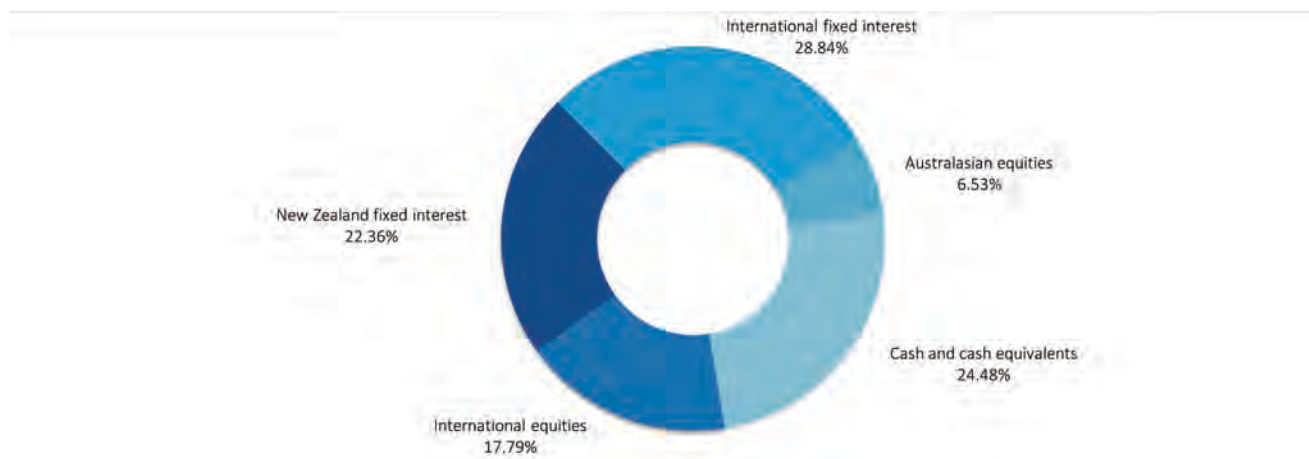

Example of how this applies to an investor

Craig had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Craig received a return after fund charges were deducted of \$383.00 (that is 3.83% of his initial \$10,000). Craig also paid \$23.40 in other charges. This gives Craig a total return after tax of \$359.60 for the year.

The top 10 investments make up 25.26% of the fund.

Currency hedging

The fund will (or will invest in underlying funds that will) target:

- fully hedging foreign currency exposure from International fixed interest and Australasian equities;
- hedging foreign currency exposure from International equities – Developed markets at 45.5% hedged to New Zealand dollars; and
- not hedging foreign currency exposure from International equities – Emerging markets.

Actual hedging positions may less closely align with the target hedging positions, and some hedging may be applied to unhedged asset classes, during the transition to the fund's new investment management approach.

Fund Update

for the quarter ended 30 September 2021

This fund update was first made publicly available on 29 October 2021

What is the purpose of this update?

This document tells you how the AMP Global Fixed Interest Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. AMP Wealth Management New Zealand Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

This is a single sector fund with a diversified portfolio of international fixed interest securities. The fund aims to primarily preserve the value of your investment with some capital growth by investing in fixed interest securities issues in bond markets around the world (which may include NZ bond markets).

Total value of the fund	\$969,808
Number of investors in the fund	71
The date the fund started	28 July 2016

What are the risks of investing?

Risk indicator for the AMP Global Fixed Interest Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

Specific risk

In addition to the general investment risks, you should be aware this fund is concentrated in a particular asset class and not diversified across multiple asset classes. At any given point, market conditions that cause one asset class to perform well may cause another asset class to perform poorly. This could result in negative or lower than expected returns compared to a fund which is diversified across multiple asset classes.

How has the fund performed?

	Past year ¹
Annual return (after deductions for charges and tax)	-1.58%
Annual return (after deductions for charges but before tax)	-2.08%
Market index annual return (reflects no deduction for charges and tax)	-0.65%

The market index annual return is based on the Bloomberg Barclays MSCI Global Aggregate ESG-Weighted Index (100% hedged to NZD) from 1 August 2021. Prior to 1 August 2021, the market index annual return was based on Bloomberg Barclays Global Aggregate Index (100% hedged to NZD). The index was changed in line with the transition of this fund to a new investment approach. Additional information about the market index is available on the offer register at <https://disclose-register.companiesoffice.govt.nz>. Index disclaimers can be found on the AMP website at www.amp.co.nz/indexdisclaimers.

Annual return graph¹

This shows the return after fund charges and tax for each of the last 10 years ending 31 March. The last bar shows the average annual return for the last 10 years, up to 30 September 2021.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the AMP Global Fixed Interest Fund are charged fund charges. In the year to 31 March 2021 these were:

	% of net asset value
Total fund charges²	0.96%*
Which are made up of -	
Total management and administration charges	0.96%
Including -	
Manager's basic fee	0.83%
Other management and administration charges	0.13%
Total performance-based fees	0.00%
Other charges	Dollar amount per investor or description of how charge is calculated
Member fee	\$23.40

* Based on a decrease in the Manager's basic fee and Other management and administration charges, the Manager estimates that the total fund charges for the next scheme year will reduce to 0.84% of the net asset value.

Different member fees or fee rebates may apply to some members. Any different fees or rebates will be set out in the Member Booklet or supplement, if applicable, which you can request from your Adviser.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the 'fees and other charges' document on the entry relating to the offer of interests in the AMP KiwiSaver Scheme maintained on the offer register (disclose-register.companiesoffice.govt.nz) for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Craig had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Craig incurred a loss after fund charges were deducted of \$158.00 (that is -1.58% of his initial \$10,000). Craig also paid \$23.40 in other charges. This gives Craig a total loss after tax of \$181.40 for the year.

Fund Update

for the quarter ended 30 September 2021

This fund update was first made publicly available on 29 October 2021

What is the purpose of this update?

This document tells you how the AMP Growth Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. AMP Wealth Management New Zealand Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The fund has a well-diversified portfolio that aims to provide growth, primarily through holding growth assets diversified with a lower allocation to lower-risk income assets. The fund aims to achieve medium to high returns, in exchange there will be larger movements up and down in the value of your investments.

Total value of the fund	\$920,881,645
Number of investors in the fund	28568
The date the fund started	1 October 2007

What are the risks of investing?

Risk indicator for the AMP Growth Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

How has the fund performed?

	Average over past 5 years ^{1,2}	Past year ^{1,2}
Annual return (after deductions for charges and tax)	8.45%	15.65%
Annual return (after deductions for charges but before tax)	9.30%	16.85%
Composite of market index annual return (reflects no deduction for charges and tax) and peer group index annual return (after deductions for charges but before tax)	10.63%	16.55%

The market index annual return is based on a composite index, calculated using the target investment mix weightings of the underlying market indices that the fund invests into. Some components of the index for this fund have changed in the past quarter in line with the transition of this fund to a new investment approach. For details of the indices used to calculate the composite index, please see the Statement of Investment Policy and Objectives for your product. Additional information about the market index is available on the offer register at <https://disclose-register.companiesoffice.govt.nz>. Index disclaimers can be found on the AMP website at www.amp.co.nz/indexdisclaimers.

Annual return graph ^{1,2}

This shows the return after fund charges and tax for each of the last 10 years ending 31 March. The last bar shows the average annual return for the last 10 years, up to 30 September 2021.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the AMP Growth Fund are charged fund charges. In the year to 31 March 2021 these were:

	% of net asset value
Total fund charges (estimated)³	1.23%*
Which are made up of -	
Total management and administration charges (estimated)	1.23%
Including -	
Manager's basic fee (estimated)	1.04%
Other management and administration charges (estimated) ⁴	0.19%
Total performance-based fees	0.00%
Other charges	Dollar amount per investor or description of how charge is calculated
Member fee	\$23.40

* Based on a decrease in the Manager's basic fee and Other management and administration charges, the Manager estimates that the total fund charges for the next scheme year will reduce to 0.90% of the net asset value.

Different member fees or fee rebates may apply to some members. Any different fees or rebates will be set out in the Member Booklet or supplement, if applicable, which you can request from your Adviser.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the 'fees and other charges' document on the entry relating to the offer of interests in the AMP KiwiSaver Scheme maintained on the offer register (disclose-register.companiesoffice.govt.nz) for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Craig had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Craig received a return after fund charges were deducted of \$1,565.00 (that is 15.65% of his initial \$10,000). Craig also paid \$23.40 in other charges. This gives Craig a total return after tax of \$1,541.60 for the year.

Currency hedging

The fund will (or will invest in underlying funds that will) target:

- fully hedging foreign currency exposure from International fixed interest and Australasian equities;
- hedging foreign currency exposure from International equities – Developed markets at 45.5% hedged to New Zealand dollars; and
- not hedging foreign currency exposure from International equities – Emerging markets.

Actual hedging positions may less closely align with the target hedging positions, and some hedging may be applied to unhedged asset classes, during the transition to the fund's new investment management approach.

Notes

- On 12 July 2021, AMP Wealth Management New Zealand Limited (AMPWM) took over from AMP Capital Investors (New Zealand) Limited (AMP Capital) as the underlying fund manager for this Fund and commenced transition of the Fund to AMPWM's new investment approach (for more information see amp.co.nz/transforming-amp). The transition completed during September 2021 and, with effect from completion of the transition, BlackRock Investment Management (Australia) Limited (BlackRock) commenced providing investment management services to AMPWM for its wholesale funds. The fund performance in the table shows fund performance which relates to both AMPWM (with support from BlackRock) and AMP Capital.
- For the periods in the table and bar graph which cover the year, we have used a combined composite index and appropriate market index to calculate market index returns because the fund ceased to invest in relevant assets during the quarter. For periods in the bar graph not covering this quarter, index returns have been calculated with reference to a composite index or appropriate market index. The composite index is calculated using the target investment mix weightings of the underlying market and peer group indices for the asset classes that the fund invested into. A composite index may be a less reliable indicator of performance than an appropriate market index. In the table and bar graph, the return for the market index reflects no deduction for fund charges, trading expenses and tax, and the return for the peer group index (forming part of the composite index) reflects deductions for fund charges and trading expenses, but before tax.
- The total fund charges are inclusive of any applicable GST.
- The other management and administration charges include estimates of underlying fund charges provided by underlying fund managers. The balance dates of the underlying fund(s) do not align with the balance date of the fund. To estimate the charges, AMP includes the underlying fund charges as at the relevant underlying fund(s) balance date, adjusted (where required) to reflect any material changes advised to AMP by the relevant underlying manager as having occurred during the intervening period.
- The actual investment mix and top ten investments have been calculated excluding cash and cash equivalents held for operational purposes.

Different member fees or fee rebates may apply to some members. Any different fees or rebates will be set out in the Member Booklet or supplement, if applicable, which you can request from your Adviser.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the 'fees and other charges' document on the entry relating to the offer of interests in the AMP KiwiSaver Scheme maintained on the offer register (disclose-register.companiesoffice.govt.nz) for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Craig had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Craig received a return after fund charges were deducted of \$2,373.00 (that is 23.73% of his initial \$10,000). Craig also paid \$23.40 in other charges. This gives Craig a total return after tax of \$2,349.60 for the year.

Fund Update

for the quarter ended 30 September 2021

This fund update was first made publicly available on 29 October 2021

What is the purpose of this update?

This document tells you how the AMP Moderate Balanced Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. AMP Wealth Management New Zealand Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The fund has a well-diversified portfolio that has an allocation to growth assets that broadly equals the allocation to lower-risk income assets. The fund aims to achieve medium returns, in exchange there will be some movements up and down in the value of your investments.

Total value of the fund	\$853,623,555
Number of investors in the fund	20105
The date the fund started	1 October 2007

What are the risks of investing?

Risk indicator for the AMP Moderate Balanced Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

How has the fund performed?

	Average over past 5 years ^{1,2}	Past year ^{1,2}
Annual return (after deductions for charges and tax)	5.56%	8.58%
Annual return (after deductions for charges but before tax)	6.25%	8.93%
Composite of market index annual return (reflects no deduction for charges and tax) and peer group index annual return (after deductions for charges but before tax)	7.33%	8.68%

The market index annual return is based on a composite index, calculated using the target investment mix weightings of the underlying market indices that the fund invests into. Some components of the index for this fund have changed in the past quarter in line with the transition of this fund to a new investment approach. For details of the indices used to calculate the composite index, please see the Statement of Investment Policy and Objectives for your product. Additional information about the market index is available on the offer register at <https://disclose-register.companiesoffice.govt.nz>. Index disclaimers can be found on the AMP website at www.amp.co.nz/indexdisclaimers.

Annual return graph ^{1,2}

This shows the return after fund charges and tax for each of the last 10 years ending 31 March. The last bar shows the average annual return for the last 10 years, up to 30 September 2021.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the AMP Moderate Balanced Fund are charged fund charges. In the year to 31 March 2021 these were:

	% of net asset value
Total fund charges (estimated)³	1.19%*
Which are made up of -	
Total management and administration charges (estimated)	1.19%
Including -	
Manager's basic fee (estimated)	1.03%
Other management and administration charges (estimated) ⁴	0.16%
Total performance-based fees	0.00%
Other charges	Dollar amount per investor or description of how charge is calculated
Member fee	\$23.40

* Based on a decrease in the Manager's basic fee and Other management and administration charges, the Manager estimates that the total fund charges for the next scheme year will reduce to 0.89% of the net asset value.

Different member fees or fee rebates may apply to some members. Any different fees or rebates will be set out in the Member Booklet or supplement, if applicable, which you can request from your Adviser.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the 'fees and other charges' document on the entry relating to the offer of interests in the AMP KiwiSaver Scheme maintained on the offer register (disclose-register.companiesoffice.govt.nz) for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Craig had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Craig received a return after fund charges were deducted of \$858.00 (that is 8.58% of his initial \$10,000). Craig also paid \$23.40 in other charges. This gives Craig a total return after tax of \$834.60 for the year.

The top 10 investments make up 17.74% of the fund.

Currency hedging

The fund will (or will invest in underlying funds that will) target:

- fully hedging foreign currency exposure from International fixed interest and Australasian equities;
- hedging foreign currency exposure from International equities – Developed markets at 45.5% hedged to New Zealand dollars; and
- not hedging foreign currency exposure from International equities – Emerging markets.

Actual hedging positions may less closely align with the target hedging positions, and some hedging may be applied to unhedged asset classes, during the transition to the fund's new investment management approach.

Notes

- On 12 July 2021, AMP Wealth Management New Zealand Limited (AMPWM) took over from AMP Capital Investors (New Zealand) Limited (AMP Capital) as the underlying fund manager for this Fund and commenced transition of the Fund to AMPWM's new investment approach (for more information see amp.co.nz/transforming-amp). The transition completed during September 2021 and, with effect from completion of the transition, BlackRock Investment Management (Australia) Limited (BlackRock) commenced providing investment management services to AMPWM for its wholesale funds. The fund performance in the table shows fund performance which relates to both AMPWM (with support from BlackRock) and AMP Capital.
- For the periods in the table and bar graph which cover the year, we have used a combined composite index and appropriate market index to calculate market index returns because the fund ceased to invest in relevant assets during the quarter. For periods in the bar graph not covering this quarter, index returns have been calculated with reference to a composite index or appropriate market index. The composite index is calculated using the target investment mix weightings of the underlying market and peer group indices for the asset classes that the fund invested into. A composite index may be a less reliable indicator of performance than an appropriate market index. In the table and bar graph, the return for the market index reflects no deduction for fund charges, trading expenses and tax, and the return for the peer group index (forming part of the composite index) reflects deductions for fund charges and trading expenses, but before tax.
- The total fund charges are inclusive of any applicable GST.
- The other management and administration charges include estimates of underlying fund charges provided by underlying fund managers. The balance dates of the underlying fund(s) do not align with the balance date of the fund. To estimate the charges, AMP includes the underlying fund charges as at the relevant underlying fund(s) balance date, adjusted (where required) to reflect any material changes advised to AMP by the relevant underlying manager as having occurred during the intervening period.
- The actual investment mix and top ten investments have been calculated excluding cash and cash equivalents held for operational purposes.

10 New Zealand Government Bond - maturing 14 Apr 33	1.56%	New Zealand fixed interest	New Zealand	Aaa

The top 10 investments make up 22.02% of the fund.

Currency hedging

The fund will (or will invest in underlying funds that will) target:

- fully hedging foreign currency exposure from International fixed interest and Australasian equities;
- hedging foreign currency exposure from International equities – Developed markets at 45.5% hedged to New Zealand dollars; and
- not hedging foreign currency exposure from International equities – Emerging markets.

Actual hedging positions may less closely align with the target hedging positions, and some hedging may be applied to unhedged asset classes, during the transition to the fund's new investment management approach.

Notes

- On 12 July 2021, AMP Wealth Management New Zealand Limited (AMPWM) took over from AMP Capital Investors (New Zealand) Limited (AMP Capital) as the underlying fund manager for this Fund and commenced transition of the Fund to AMPWM's new investment approach (for more information see amp.co.nz/transforming-amp). The transition completed during September 2021 and, with effect from completion of the transition, BlackRock Investment Management (Australia) Limited (BlackRock) commenced providing investment management services to AMPWM for its wholesale funds. The fund performance in the table shows fund performance which relates to both AMPWM (with support from BlackRock) and AMP Capital.
- For the periods in the table and bar graph which cover the year, we have used a combined composite index and appropriate market index to calculate market index returns because the fund ceased to invest in relevant assets during the quarter. For periods in the bar graph not covering this quarter, index returns have been calculated with reference to a composite index or appropriate market index. The composite index is calculated using the target investment mix weightings of the underlying market and peer group indices for the asset classes that the fund invested into. A composite index may be a less reliable indicator of performance than an appropriate market index. In the table and bar graph, the return for the market index reflects no deduction for fund charges, trading expenses and tax, and the return for the peer group index (forming part of the composite index) reflects deductions for fund charges and trading expenses, but before tax.
- The total fund charges are inclusive of any applicable GST.
- The other management and administration charges include estimates of underlying fund charges provided by underlying fund managers. The balance dates of the underlying fund(s) do not align with the balance date of the fund. To estimate the charges, AMP includes the underlying fund charges as at the relevant underlying fund(s) balance date, adjusted (where required) to reflect any material changes advised to AMP by the relevant underlying manager as having occurred during the intervening period.
- The actual investment mix and top ten investments have been calculated excluding cash and cash equivalents held for operational purposes.

A little help.

Investment Update

for the quarter ended 30 September 2021

This investment update was first made publicly available on 29 October 2021

What is the purpose of this update?

This document tells you how the AMP Moderate Fund (Lifesteps) has performed and what fees were charged. The document will help you to compare the fund with other funds. AMP Wealth Management New Zealand Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The fund has a well-diversified portfolio that primarily invests in lower-risk income assets with a moderate allocation to growth assets. The fund aims to achieve modest to medium returns, in exchange there may be small movements up and down in the value of your investments.

Total value of the fund	\$477,958,393
Number of investors in the fund	9530
The date the fund started	1 October 2007

What are the risks of investing?

Risk indicator for the AMP Moderate Fund (Lifesteps):

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future investment updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

How has the fund performed?

	Average over past 5 years ^{1,2}	Past year ^{1,2}
Annual return (after deductions for charges and tax)	4.65%	6.51%
Annual return (after deductions for charges but before tax)	5.29%	6.61%
Composite of market index annual return (reflects no deduction for charges and tax) and peer group index annual return (after deductions for charges but before tax)	6.23%	6.35%

The market index annual return is based on a composite index, calculated using the target investment mix weightings of the underlying market indices that the fund invests into. Some components of the index for this fund have changed in the past quarter in line with the transition of this fund to a new investment approach. For details of the indices used to calculate the composite index, please see the Statement of Investment Policy and Objectives for your product. Additional information about the market index is available on the offer register at <https://disclose-register.companiesoffice.govt.nz>. Index disclaimers can be found on the AMP website at www.amp.co.nz/indexdisclaimers.

Annual return graph ^{1,2}

This shows the return after fund charges and tax for each of the last 10 years ending 31 March. The last bar shows the average annual return for the last 10 years, up to 30 September 2021.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the AMP Moderate Fund (Lifesteps) are charged fund charges. In the year to 31 March 2021 these were:

	% of net asset value
Total fund charges (estimated)³	1.12%*
Which are made up of -	
Total management and administration charges (estimated)	1.12%
Including -	
Manager's basic fee (estimated)	0.98%
Other management and administration charges (estimated) ⁴	0.14%
Total performance-based fees	0.00%
Other charges	Dollar amount per investor or description of how charge is calculated
Member fee	\$23.40

* Based on a decrease in the Manager's basic fee and Other management and administration charges, the Manager estimates that the total fund charges for the next scheme year will reduce to 0.87% of the net asset value.

Different member fees or fee rebates may apply to some members. Any different fees or rebates will be set out in the Member Booklet or supplement, if applicable, which you can request from your Adviser.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the 'fees and other charges' document on the entry relating to the offer of interests in the AMP KiwiSaver Scheme maintained on the offer register (disclose-register.companiesoffice.govt.nz) for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Craig had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Craig received a return after fund charges were deducted of \$651.00 (that is 6.51% of his initial \$10,000). Craig also paid \$23.40 in other charges. This gives Craig a total return after tax of \$627.60 for the year.

Fund Update

for the quarter ended 30 September 2021

This fund update was first made publicly available on 29 October 2021

The AMP Capital NZ Fixed Interest Fund has been renamed the AMP NZ Fixed Interest Fund. From 1 December 2021 AMP Wealth Management New Zealand Limited will replace AMP Capital Investors (NZ) Limited as the underlying fund manager.

What is the purpose of this update?

This document tells you how the AMP NZ Fixed Interest Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. AMP Wealth Management New Zealand Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

This is a single sector fund with exposure to fixed interest securities issued by the New Zealand government or their agencies, the Reserve Bank of New Zealand, local authorities, registered banks and corporations located mainly in New Zealand but may include international securities. The fund may also have exposure to financial derivative instruments for hedging. The fund aims to primarily preserve the value of investment with some capital growth.

From 1 December 2021, as part of the change of investment approach, the new 'Description of the fund', which replaces the above, is: To primarily preserve the value of your investment with some capital growth by mainly investing in NZ Government bonds.

Total value of the fund	\$3,136,973
Number of investors in the fund	125
The date the fund started	28 July 2016

What are the risks of investing?

Risk indicator for the AMP NZ Fixed Interest Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

Specific risk

In addition to the general investment risks, you should be aware this fund is concentrated in a particular asset class and not diversified across multiple asset classes. At any given point, market conditions that cause one asset class to perform well may cause another asset class to perform poorly. This could result in negative or lower than expected returns compared to a fund which is diversified across multiple asset classes.

How has the fund performed?

	Past year
Annual return (after deductions for charges and tax)	-4.79%
Annual return (after deductions for charges but before tax)	-6.58%
Market index annual return (reflects no deduction for charges and tax)	-6.14%

The market index annual return is based on the Bloomberg NZBond Composite 0+ Yr Index. Additional information about the market index is available on the offer register at <https://disclose-register.companiesoffice.govt.nz>. Index disclaimers can be found on the AMP website at www.amp.co.nz/indexdisclaimers.

From 1 December 2021, this fund will use the Bloomberg NZ Bond Treasury 0+ Yr Index.

Annual return graph

This shows the return after fund charges and tax for each of the last 10 years ending 31 March. The last bar shows the average annual return for the last 10 years, up to 30 September 2021.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the AMP NZ Fixed Interest Fund are charged fund charges. In the year to 31 March 2021 these were:

	% of net asset value
Total fund charges¹	0.81%
Which are made up of -	
Total management and administration charges	0.81%
Including -	
Manager's basic fee	0.73%
Other management and administration charges	0.08%
Total performance-based fees	0.00%
Other charges	Dollar amount per investor or description of how charge is calculated
Member fee	\$23.40

Different member fees or fee rebates may apply to some members. Any different fees or rebates will be set out in the Member Booklet or supplement, if applicable, which you can request from your Adviser.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the 'fees and other charges' document on the entry relating to the offer of interests in the AMP KiwiSaver Scheme maintained on the offer register (disclose-register.companiesoffice.govt.nz) for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Craig had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Craig incurred a loss after fund charges were deducted of \$479.00 (that is -4.79% of his initial \$10,000). Craig also paid \$23.40 in other charges. This gives Craig a total loss after tax of \$502.40 for the year.

The top 10 investments make up 44.06% of the fund.

The top 10 investments shown above reflect the underlying management arrangements as at 30th September 2021. The change of manager on 1 December 2021 will result in some assets shown above no longer being held by the fund, and may result in other assets being held in different weights. Accordingly, the top 10 investments table is likely to contain different investments in future.

Currency hedging

The fund will (or will invest in underlying funds that will) hedge foreign currency exposure back to New Zealand dollars.

From 1 December 2021, a currency hedging policy will no longer apply to this fund as there will be no currency hedging for this fund.

This fund update was first made publicly available on 29 October 2021

What is the purpose of this update?

This document tells you how the ANZ Balanced Growth Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. AMP Wealth Management New Zealand Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The fund invests mainly in share and listed property assets, with some exposure to cash and fixed interest assets. The fund aims to achieve investment performance ahead of inflation over the long term and achieve investment performance that reflects the level of risk applicable to the fund's underlying asset classes.

Total value of the fund	\$333,026,335
Number of investors in the fund	6646
The date the fund started	1 October 2007

What are the risks of investing?

Risk indicator for the ANZ Balanced Growth Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

How has the fund performed?

	Average over past 5 years	Past year
Annual return (after deductions for charges and tax)	8.11%	14.58%
Annual return (after deductions for charges but before tax)	9.08%	15.99%
Market index annual return (reflects no deduction for charges and tax)	9.35%	14.33%

The market index annual return is based on a composite index, calculated using the target investment mix weightings of the underlying market indices that the fund invests into. Additional information about the market index is available on the offer register at <https://disclose-register.companiesoffice.govt.nz>. Index disclaimers can be found on the AMP website at www.amp.co.nz/indexdisclaimers.

Risk indicator for the ANZ Conservative Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

How has the fund performed?

	Past year
Annual return (after deductions for charges and tax)	3.65%
Annual return (after deductions for charges but before tax)	3.70%
Market index annual return (reflects no deduction for charges and tax)	3.21%

The market index annual return is based on a composite index, calculated using the target investment mix weightings of the underlying market indices that the fund invests into. Additional information about the market index is available on the offer register at <https://disclose-register.companiesoffice.govt.nz>. Index disclaimers can be found on the AMP website at www.amp.co.nz/indexdisclaimers.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the ANZ Conservative Fund are charged fund charges. In the year to 31 March 2021 these were:

	% of net asset value
Total fund charges¹	1.06%
Which are made up of -	
Total management and administration charges	1.06%
Including -	
Manager's basic fee	0.98%
Other management and administration charges	0.08%
Total performance-based fees	0.00%
Other charges	Dollar amount per investor or description of how charge is calculated
Member fee	\$23.40

Different member fees or fee rebates may apply to some members. Any different fees or rebates will be set out in the Member Booklet or supplement, if applicable, which you can request from your Adviser.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the 'fees and other charges' document on the entry relating to the offer of interests in the AMP KiwiSaver Scheme maintained on the offer register (disclose-register.companiesoffice.govt.nz) for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Craig had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Craig received a return after fund charges were deducted of \$365.00 (that is 3.65% of his initial \$10,000). Craig also paid \$23.40 in other charges. This gives Craig a total return after tax of \$341.60 for the year.

Fund Update

for the quarter ended 30 September 2021

This fund update was first made publicly available on 29 October 2021

The AMP Capital Listed Property Fund has been renamed the ANZ Property Fund. From 1 December 2021 ANZ New Zealand Investments Limited will replace AMP Capital Investors (NZ) Limited as the underlying fund manager.

What is the purpose of this update?

This document tells you how the ANZ Property Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. AMP Wealth Management New Zealand Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

This is a single sector fund that aims to provide investors with exposure to a selection of listed property companies on the New Zealand and international stock exchanges in a diversified portfolio. The fund aims to achieve long term capital growth through exposure to listed property and other property securities in New Zealand and around the world.

Total value of the fund	\$9,135,653
Number of investors in the fund	509
The date the fund started	28 July 2016

What are the risks of investing?

Risk indicator for the ANZ Property Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

Specific risk

In addition to the general investment risks, you should be aware this fund is concentrated in a particular asset class and not diversified across multiple asset classes. At any given point, market conditions that cause one asset class to perform well may cause another asset class to perform poorly. This could result in negative or lower than expected returns compared to a fund which is diversified across multiple asset classes.

How has the fund performed?

	Past year ¹
Annual return (after deductions for charges and tax)	20.14%
Annual return (after deductions for charges but before tax)	21.19%
Market index annual return (reflects no deduction for charges and tax)	21.94%

The market index annual return is based on 30% S&P/NZX All Real Estate (Industry Group) Gross with Imputation, 20% S&P/ASX 200 A-REIT (Sector) (TR) (100% hedged to NZD) and 50% FTSE EPRA/NAREIT Developed Index Net TRI (100% hedged to NZD) from 1 July 2021. Prior to 1 July 2021, the market index annual return was based on 40% S&P/NZX All Real Estate (Industry Group) Gross with Imputation, 10% S&P/ASX 200 A-REIT (Sector) (TR) (100% hedged to NZD) and 50% FTSE EPRA/NAREIT Developed Index Net TRI (100% hedged to NZD). The index was

changed to more closely align with the underlying investments. Additional information about the market index is available on the offer register at <https://disclose-register.companiesoffice.govt.nz>. Index disclaimers can be found on the AMP website at www.amp.co.nz/indexdisclaimers.

From 1 December 2021, this fund will update the benchmark index used to measure performance. Please see the Statement of Investment Policy and Objectives (SIPO) for further details.

Annual return graph¹

This shows the return after fund charges and tax for each of the last 10 years ending 31 March. The last bar shows the average annual return for the last 10 years, up to 30 September 2021.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the ANZ Property Fund are charged fund charges. In the year to 31 March 2021 these were:

	% of net asset value
Total fund charges²	1.18%
Which are made up of -	
Total management and administration charges	1.18%
Including -	
Manager's basic fee	1.03%
Other management and administration charges	0.15%
Total performance-based fees	0.00%
Other charges	Dollar amount per investor or description of how charge is calculated
Member fee	\$23.40

ANZ has estimated that its other management and administration charges will reduce to 0.06% of net asset value with effect from 1 December 2021. Based on that estimate, the Manager estimates that the other management and administration charges will decrease to 0.11% of net asset value for the year ended March 31 2022 and that the total fund charges will decrease to 1.14% of net asset value for that year. The Manager estimates that the other management and administration charges will further decrease to 0.06% of net asset value, and the total fund charges will decrease to 1.09% of net asset value, in subsequent years.

Different member fees or fee rebates may apply to some members. Any different fees or rebates will be set out in the Member Booklet or supplement, if applicable, which you can request from your Adviser.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the 'fees and other charges' document on the entry relating to the offer of interests in the AMP KiwiSaver Scheme maintained on the offer register (disclose-register.companiesoffice.govt.nz) for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Craig had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Craig received a return after fund charges were deducted of \$2,014.00 (that is 20.14% of his initial \$10,000). Craig also paid \$23.40 in other charges. This gives Craig a total return after tax of \$1,990.60 for the year.

Fund Update

for the quarter ended 30 September 2021

This fund update was first made publicly available on 29 October 2021

As of 11 February 2022, Smartshares Limited has replaced ASB Group Investments Limited (ASBGI) as manager of the ASB Balanced Fund, the underlying fund that this fund invests its net assets into. Smartshares Limited has delegated to ASBGI, the former manager of the ASB Balanced Fund, certain investment management and administration functions, as investment manager and administration manager for ASB Balanced Fund. Over time, Smartshares Limited will assume these functions from ASBGI through a transition process which may take several years.

What is the purpose of this update?

This document tells you how the ASB Balanced Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. AMP Wealth Management New Zealand Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The fund has a well-diversified portfolio that employs an active approach to asset allocation, with underlying investments predominantly in index tracking funds. The fund aims to provide moderate to high total returns allowing for moderate to high movements of value up and down.

Total value of the fund	\$36,290,608
Number of investors in the fund	1528
The date the fund started	28 July 2016

What are the risks of investing?

Risk indicator for the ASB Balanced Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

for the quarter ended 30 September 2021

This fund update was first made publicly available on 29 October 2021

As of 11 February 2022, Smartshares Limited has replaced ASB Group Investments Limited (ASBGI) as manager of the ASB Growth Fund, the underlying fund that this fund invests its net assets into. Smartshares Limited has delegated to ASBGI, the former manager of the ASB Growth Fund, certain investment management and administration functions, as investment manager and administration manager for ASB Growth Fund. Over time, Smartshares Limited will assume these functions from ASBGI through a transition process which may take several years.

What is the purpose of this update?

This document tells you how the ASB Growth Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. AMP Wealth Management New Zealand Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The fund has a well-diversified portfolio that employs an active approach to asset allocation, with underlying investments predominantly in index tracking funds. The fund aims to provide high total returns allowing for large movements of value up and down.

Total value of the fund	\$34,627,830
Number of investors in the fund	2188
The date the fund started	28 July 2016

What are the risks of investing?

Risk indicator for the ASB Growth Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

How has the fund performed?

	Past year
Annual return (after deductions for charges and tax)	14.65%
Annual return (after deductions for charges but before tax)	15.59%
Market index annual return (reflects no deduction for charges and tax)	17.22%

The market index annual return is based on a composite index, calculated using the target investment mix weightings of the underlying market indices that the fund invests into. Additional information about the market index is available on the offer register at <https://disclose-register.companiesoffice.govt.nz>. Index disclaimers can be found on the AMP website at www.amp.co.nz/indexdisclaimers.

Annual return graph

This shows the return after fund charges and tax for each of the last 10 years ending 31 March. The last bar shows the average annual return for the last 10 years, up to 30 September 2021.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the ASB Growth Fund are charged fund charges. In the year to 31 March 2021 these were:

	% of net asset value
Total fund charges¹	1.13%
Which are made up of -	
Total management and administration charges	1.13%
Including -	
Manager's basic fee	1.03%
Other management and administration charges	0.10%
Total performance-based fees	0.00%
Other charges	Dollar amount per investor or description of how charge is calculated
Member fee	\$23.40

Different member fees or fee rebates may apply to some members. Any different fees or rebates will be set out in the Member Booklet or supplement, if applicable, which you can request from your Adviser.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the 'fees and other charges' document on the entry relating to the offer of interests in the AMP KiwiSaver Scheme maintained on the offer register (disclose-register.companiesoffice.govt.nz) for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Craig had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Craig received a return after fund charges were deducted of \$1,465.00 (that is 14.65% of his initial \$10,000). Craig also paid \$23.40 in other charges. This gives Craig a total return after tax of \$1,441.60 for the year.

Currency hedging

The fund will (or will invest in underlying funds that will):

- fully hedge (after tax for a 28% PIR investor) foreign currency exposure arising from International fixed interest back to New Zealand dollars;
- hedge the foreign currency exposure arising from Listed and Unlisted property, Listed and Unlisted infrastructure and Commodities 100% net hedged (for a 28% PIR investor) back to New Zealand dollars; and

- hedge the foreign currency exposure arising from International equities (excluding Listed infrastructure) with a benchmark of 50% net hedged (for a 28% PIR investor) back to New Zealand dollars and a permitted range of 0% to 100%. Proxy hedging (i.e. using the currency of a country as a proxy for the currency of another country) is also permitted.

Where active currency management is being employed in accordance with the Active Currency Management Policy set out in the Statement of Investment Policy and Objectives, the result may be something other than a fully-hedged position for International fixed interest.

Notes

- 1 From 25 June 2018 Mercer (N.Z.) Limited (Mercer) replaced Fisher Funds Management Limited (Fisher) as the underlying fund manager of the Fund. The fund performance in the table therefore shows fund performance which relates to both Mercer and Fisher.
- 2 We have used a composite index to prepare the table and bar graph, as there was no market index available for some of the relevant assets. The composite index is calculated using the target investment mix weightings of the underlying market and peer group indices for the asset classes that the fund invests into. A composite index may be a less reliable indicator of performance than an appropriate market index. In the table and bar graph, the return for the market index reflects no deduction for fund charges, trading expenses and tax, and the return for the peer group index reflects deductions for fund charges and trading expenses, but before tax. Additional information about the market and peer group indices is available in the Statement of Investment Policy and Objectives for your product which is available on the offer register at disclose-register.companiesoffice.govt.nz. Index disclaimers can be found on the AMP website at amp.co.nz/indexdisclaimers.
- 3 Some components of the composite index for this fund have changed in the past quarter to more closely align with the underlying investments. For details of the indices used to calculate the composite index, please see the Statement of Investment Policy and Objectives for your product which is available on the offer register at disclose-register.companiesoffice.govt.nz.
- 4 From Q1 2021, the methodology used to calculate the index return now uses daily returns, rather than monthly returns. As a result there will be a change in the index return for the years ended 31 March 2019 and 31 March 2020, compared with those shown in previous fund updates.
- 5 The total fund charges are inclusive of any applicable GST.
- 6 The other management and administration charges include estimates of underlying fund charges provided by underlying fund managers. The balance dates of the underlying fund(s) do not align with the balance date of the fund. To estimate the charges, AMP includes the underlying fund charges as at the relevant underlying fund(s) balance date, adjusted (where required) to reflect any material changes advised to AMP by the relevant underlying manager as having occurred during the intervening period.
- 7 The actual investment mix and top ten investments have been calculated excluding cash and cash equivalents held for operational purposes.

Fund Update

for the quarter ended 30 September 2021

This fund update was first made publicly available on 29 October 2021

What is the purpose of this update?

This document tells you how the Nikko AM Balanced Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. AMP Wealth Management New Zealand Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The fund aims to provide investors with a carefully constructed balance of diversified assets in a manner that aims to both optimise investment returns and to minimise the risk of investment loss, and to preserve the capital value of investing funds over the longer term in real terms. The fund gains its investment exposure by investing into a range of actively managed funds to create a diversified portfolio with a balanced mix of lower and higher risk assets.

Total value of the fund	\$103,261,635
Number of investors in the fund	3046
The date the fund started	1 October 2007

What are the risks of investing?

Risk indicator for the Nikko AM Balanced Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

Other management and administration charges (estimated)	0.49%
Total performance-based fees	0.00%
Other charges	Dollar amount per investor or description of how charge is calculated
Member fee	\$23.40

* Based on a decrease in the Other management and administration charges, the Manager estimates that the total fund charges for the next scheme year will reduce to 1.33% of the net asset value.

Different member fees or fee rebates may apply to some members. Any different fees or rebates will be set out in the Member Booklet or supplement, if applicable, which you can request from your Adviser.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the 'fees and other charges' document on the entry relating to the offer of interests in the AMP KiwiSaver Scheme maintained on the offer register (disclose-register.companiesoffice.govt.nz) for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Craig had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Craig received a return after fund charges were deducted of \$985.00 (that is 9.85% of his initial \$10,000). Craig also paid \$23.40 in other charges. Notes

- 1 We have used a composite index to prepare the table and bar graph, as there was no market index available for some of the relevant assets. The composite index is calculated using the target investment mix weightings of the underlying market and peer group indices for the asset classes that the fund invests into. A composite index may be a less reliable indicator of performance than an appropriate market index. The composite index used in this fund update is not directly relevant for all of the underlying assets of this fund. In the table and bar graph, the return for the market index reflects no deduction for fund charges, trading expenses and tax, and the return for the peer group index reflects deductions for fund charges and trading expenses, but before tax. Additional information about the market and peer group indices is available in the Statement of Investment Policy and Objectives for your product which is available on the offer register at disclose-register.companiesoffice.govt.nz. Index disclaimers can be found on the AMP website at amp.co.nz/indexdisclaimers.
- 2 The total fund charges are inclusive of any applicable GST.
- 3 The actual investment mix and top ten investments have been calculated excluding cash and cash equivalents held for operational purposes.

Fund Update

for the quarter ended 30 September 2021

This fund update was first made publicly available on 29 October 2021

What is the purpose of this update?

This document tells you how the Nikko AM Conservative Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. AMP Wealth Management New Zealand Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The fund aims to minimise the risk of investment loss while optimising investment returns and to preserve the capital value of invested funds over the long term in real terms.

Total value of the fund	\$41,736,732
Number of investors in the fund	1228
The date the fund started	28 July 2016

What are the risks of investing?

Risk indicator for the Nikko AM Conservative Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

How has the fund performed?

	Past year ¹
Annual return (after deductions for charges and tax)	3.60%
Annual return (after deductions for charges but before tax)	3.39%
Composite of market index annual return (reflects no deduction for charges and tax) and peer group index annual return (after deductions for charges but before tax)	3.86%

Annual return graph¹

This shows the return after fund charges and tax for each of the last 10 years ending 31 March. The last bar shows the average annual return for the last 10 years, up to 30 September 2021.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the Nikko AM Conservative Fund are charged fund charges. In the year to 31 March 2021 these were:

	% of net asset value
Total fund charges (estimated)²	1.16%
Which are made up of -	
Total management and administration charges (estimated)	1.16%
Including -	
Manager's basic fee (estimated)	0.98%
Other management and administration charges (estimated)	0.18%
Total performance-based fees	0.00%
Other charges	Dollar amount per investor or description of how charge is calculated
Member fee	\$23.40

Different member fees or fee rebates may apply to some members. Any different fees or rebates will be set out in the Member Booklet or supplement, if applicable, which you can request from your Adviser.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the 'fees and other charges' document on the entry relating to the offer of interests in the AMP KiwiSaver Scheme maintained on the offer register (disclose-register.companiesoffice.govt.nz) for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Craig had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Craig received a return after fund charges were deducted of \$360.00 (that is 3.60% of his initial \$10,000). Craig also paid \$23.40 in other charges. This gives Craig a total return after tax of \$336.60 for the year.
