AMP Responsible Investment Balanced Fund

Fund Update

for the quarter ended 30 June 2019

This fund update was first made publicly available on 26 July 2019

What is the purpose of this update?

This document tells you how the AMP Responsible Investment Balanced Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. AMP Wealth Management New Zealand Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The fund combines financial analysis with a sustainability focus. Asset allocations are actively managed in line with changing investment environments and conditions, with a responsible investment overlay. The fund aims to provide real returns of around 5% per annum over the medium to long term using diversification across asset types and a mix of income and growth assets. The underlying fund has been certified by the Responsible Investment Association of Australasia (RIAA).

| | |
|---------------------------------|--------------|
| Total value of the fund | \$9,031,342 |
| Number of investors in the fund | 427 |
| The date the fund started | 28 July 2016 |

What are the risks of investing?

Risk indicator for the AMP Responsible Investment Balanced Fund¹:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at today.amp.co.nz/risk-profile-calculator.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

How has the fund performed?

| | Past year |
|--|-----------|
| Annual return (after deductions for charges and tax) | 5.53% |
| Annual return (after deductions for charges but before tax) | 6.57% |
| Market index annual return (reflects no deduction for charges and tax) | 8.26% |

The market index annual return is based on a composite index, calculated using the target investment mix weightings of the underlying market indices that the fund invests into. Some components of the index for this fund have changed in the past year to more closely align with our underlying investments. For details of the indices used to calculate the composite index, please see the Statement of Investment Policy and Objectives for your product. Additional information about the market index is available on the offer register at disclose-register.companiesoffice.govt.nz. Index disclaimers can be found on the AMP website at amp.co.nz/indexdisclaimers.

Annual return graph

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 30 June 2019.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the AMP Responsible Investment Balanced Fund are charged fund charges. In the year to 31 March 2019 these were:

| | % of net asset value |
|--|---|
| Total fund charges² | 1.36% |
| Which are made up of - | |
| Total management and administration charges | 1.36% |
| Including - | |
| Manager's basic fee | 1.07% |
| Other management and administration charges ³ | 0.29% |
| Total performance-based fees | 0.00% |
| Other charges | Dollar amount per investor or description of how charge is calculated |
| Member fee | \$23.40 |

Different administration or member fees may apply to some members. Any different fees will be set out in the Member Booklet or supplement, if applicable, which you can request from your Adviser.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the 'fees and other charges' document on the entry relating to the offer of interests in the AMP KiwiSaver Scheme maintained on the offer register (disclose-register.companiesoffice.govt.nz) for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Craig had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Craig received a return after fund charges were deducted of \$553.00 (that is 5.53% of his initial \$10,000). Craig also paid \$23.40 in other charges. This gives Craig a total return after tax of \$529.60 for the year.

Notes

- 1 As the fund started on the date above, actual returns for the last five years are not available. To calculate the risk indicator for the five year period up to the date of this fund update a combination of market index returns, underlying fund returns and actual returns have been used where relevant. We consider this to be the most accurate way to calculate returns and as a result of this calculation, the risk indicator may provide a less reliable indicator of the potential future volatility of the fund.
- 2 The total fund charges are inclusive of any applicable GST.
- 3 The other management and administration charges include estimates of underlying fund charges provided by underlying fund managers. The balance dates of the underlying fund(s) do not align with the balance date of the fund. To estimate the charges, AMP includes the underlying fund charges as at the relevant underlying fund(s) balance date, adjusted (where required) to reflect any material changes advised to AMP by the relevant underlying manager as having occurred during the intervening period.
- 4 The actual investment mix and top ten investments have been calculated excluding cash and cash equivalents held for operational purposes.

AMP Global Multi-Asset Fund

Fund Update

for the quarter ended 30 June 2019

This fund update was first made publicly available on 26 July 2019

What is the purpose of this update?

This document tells you how the AMP Global Multi-Asset Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. AMP Wealth Management New Zealand Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

This is a diversified fund that aims to generate a positive return above inflation and actively respond to market conditions with a flexible approach to investing. Assets are managed using a multi-manager approach that provides diversity across asset classes, sectors, geographies and investment managers, and enables change in investment allocations due to market conditions. Risk mitigation strategies are designed to lower return volatility and reduce the impact of market related events.

| | |
|---------------------------------|--------------|
| Total value of the fund | \$14,419,381 |
| Number of investors in the fund | 424 |
| The date the fund started | 28 July 2016 |

What are the risks of investing?

Risk indicator for the AMP Global Multi-Asset Fund¹:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at today.amp.co.nz/risk-profile-calculator.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

Specific risk

In addition to the general investment risks, you should be aware that the investment management style of this fund means that it may be concentrated in a particular asset class or type of investment vehicle, geographical area or industry at any point in time. This may subject the fund to significant performance volatility relative to its objectives. If this volatility occurs, the Global Multi-Asset Fund may fail to meet its stated performance objective.

How has the fund performed?

| | Past year ^{2,3} |
|--|--------------------------|
| Annual return (after deductions for charges and tax) | 0.33% |
| Annual return (after deductions for charges but before tax) | 2.30% |

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 30 June 2019.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the AMP Global Multi-Asset Fund are charged fund charges. In the year to 31 March 2019 these were:

| | % of net asset value |
|--|--|
| Total fund charges⁴ | 1.62% |
| Which are made up of - | |
| Total management and administration charges | 1.62% |
| Including - | |
| Manager's basic fee | 1.42% |
| Other management and administration charges ⁵ | 0.20% |
| Total performance-based fees | 0.00% |
| Other charges | Dollar amount per investor or description of how charge is calculated |
| Member fee | \$23.40 |

Different administration or member fees may apply to some members. Any different fees will be set out in the Member Booklet or supplement, if applicable, which you can request from your Adviser.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the 'fees and other charges' document on the entry relating to the offer of interests in the AMP KiwiSaver Scheme maintained on the offer register (disclose-register.companiesoffice.govt.nz) for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Craig had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Craig received a return after fund charges were deducted of \$33.00 (that is 0.33% of his initial \$10,000). Craig also paid \$23.40 in other charges. This gives Craig a total return after tax of \$9.60 for the year.

Notes

- 1 As the fund started on the date above, actual returns for the last five years are not available. To calculate the risk indicator we have used forecast volatility of the underlying fund. We consider this is the most reasonable method available. As a result of this method being used, the risk indicator may provide a less reliable indicator of the potential future volatility of the fund.
- 2 The table and bar graph does not include a market index return for comparative purposes.
- 3 There is no appropriate market index and no suitable peer group index or indices for the exempt fund against which to assess either movements in the market in relation to the returns from the assets in which the exempt fund invests, or the performance of the exempt fund as a whole.
- 4 The total fund charges are inclusive of any applicable GST.
- 5 The other management and administration charges include estimates of underlying fund charges provided by underlying fund managers. The balance dates of the underlying fund(s) do not align with the balance date of the fund. To estimate the charges, AMP includes the underlying fund charges as at the relevant underlying fund(s) balance date, adjusted (where required) to reflect any material changes advised to AMP by the relevant underlying manager as having occurred during the intervening period.
- 6 The actual investment mix and top ten investments have been calculated excluding cash and cash equivalents held for operational purposes.
- 7 The Global Multi-Asset Fund's target investment mix of 95% "Other" represents the fact that it doesn't have a target asset allocation but operates within broad ranges across asset types.

AMP Cash Fund

Fund Update

for the quarter ended 30 June 2019

This fund update was first made publicly available on 26 July 2019

What is the purpose of this update?

This document tells you how the AMP Cash Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. AMP Wealth Management New Zealand Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

This is a single sector fund which primarily invests in cash and short-term deposits. The fund aims to achieve modest, stable returns with a very low level of investment risk, in exchange there should be no significant short-term movements up and down in the value of your investments.

| | |
|---------------------------------|----------------|
| Total value of the fund | \$80,403,186 |
| Number of investors in the fund | 3,742 |
| The date the fund started | 1 October 2007 |

What are the risks of investing?

Risk indicator for the AMP Cash Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at today.amp.co.nz/risk-profile-calculator.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

Specific risk

In addition to the general investment risks, you should be aware this fund is concentrated in a particular asset class and not diversified across multiple asset classes. At any given point, market conditions that cause one asset class to perform well may cause another asset class to perform poorly. This could result in negative or lower than expected returns compared to a fund which is diversified across multiple asset classes.

How has the fund performed?

| | Average over past 5 years | Past year |
|--|---------------------------|-----------|
| Annual return (after deductions for charges and tax) | 1.51% | 1.16% |
| Annual return (after deductions for charges but before tax) | 2.10% | 1.62% |
| Market index annual return (reflects no deduction for charges and tax) | 2.53% | 1.92% |

The market index annual return is based on the Bloomberg NZBond Bank Bill Index. Additional information about the market index is available on the offer register at disclose-register.companiesoffice.govt.nz. Index disclaimers can be found on the AMP website at amp.co.nz/indexdisclaimers.

Annual return graph

This shows the return after fund charges and tax for each of the last 10 years ending 31 March. The last bar shows the average annual return for the last 10 years, up to 30 June 2019.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the AMP Cash Fund are charged fund charges. In the year to 31 March 2019 these were:

| | % of net asset value |
|--|---|
| Total fund charges¹ | 0.83%* |
| Which are made up of - | |
| Total management and administration charges | 0.83% |
| Including - | |
| Manager's basic fee | 0.73% |
| Other management and administration charges | 0.10% |
| Total performance-based fees | 0.00% |
| Other charges | Dollar amount per investor or description of how charge is calculated |
| Member fee | \$23.40 |

* Based on a decrease in the management fee, the Manager estimates that the total fund charges for the next scheme year will reduce to 0.58% of the net asset value.

Different administration or member fees may apply to some members. Any different fees will be set out in the Member Booklet or supplement, if applicable, which you can request from your Adviser.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the 'fees and other charges' document on the entry relating to the offer of interests in the AMP KiwiSaver Scheme maintained on the offer register (disclose-register.companiesoffice.govt.nz) for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Craig had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Craig received a return after fund charges were deducted of \$116.00 (that is 1.16% of his initial \$10,000). Craig also paid \$23.40 in other charges. This gives Craig a total return after tax of \$92.60 for the year.

AMP New Zealand Fixed Interest Fund

Fund Update

for the quarter ended 30 June 2019

This fund update was first made publicly available on 26 July 2019

What is the purpose of this update?

This document tells you how the AMP New Zealand Fixed Interest Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. AMP Wealth Management New Zealand Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

This is a single sector fund with exposure to fixed interest securities issued by the New Zealand government or their agencies, the Reserve Bank of New Zealand, local authorities, registered banks and corporations located mainly in New Zealand but may include international securities. The fund may also have exposure to financial derivative instruments for hedging. The fund aims to primarily preserve the value of investment with some capital growth.

| | |
|---------------------------------|--------------|
| Total value of the fund | \$3,119,969 |
| Number of investors in the fund | 149 |
| The date the fund started | 28 July 2016 |

What are the risks of investing?

Risk indicator for the AMP New Zealand Fixed Interest Fund¹:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at today.amp.co.nz/risk-profile-calculator.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

Specific risk

In addition to the general investment risks, you should be aware this fund is concentrated in a particular asset class and not diversified across multiple asset classes. At any given point, market conditions that cause one asset class to perform well may cause another asset class to perform poorly. This could result in negative or lower than expected returns compared to a fund which is diversified across multiple asset classes.

How has the fund performed?

| | Past year |
|--|-----------|
| Annual return (after deductions for charges and tax) | 4.93% |
| Annual return (after deductions for charges but before tax) | 6.91% |
| Market index annual return (reflects no deduction for charges and tax) | 7.56% |

The market index annual return is based on the Bloomberg NZBond Composite 0+ Yr Index. Additional information about the market index is available on the offer register at disclose-register.companiesoffice.govt.nz. Index disclaimers can be found on the AMP website at amp.co.nz/indexdisclaimers.

Annual return graph

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 30 June 2019.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the AMP New Zealand Fixed Interest Fund are charged fund charges. In the year to 31 March 2019 these were:

| | % of net asset value |
|--|---|
| Total fund charges² | 0.82% |
| Which are made up of - | |
| Total management and administration charges | 0.82% |
| Including - | |
| Manager's basic fee | 0.72% |
| Other management and administration charges | 0.10% |
| Total performance-based fees | 0.00% |
| Other charges | Dollar amount per investor or description of how charge is calculated |
| Member fee | \$23.40 |

Different administration or member fees may apply to some members. Any different fees will be set out in the Member Booklet or supplement, if applicable, which you can request from your Adviser.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the 'fees and other charges' document on the entry relating to the offer of interests in the AMP KiwiSaver Scheme maintained on the offer register (disclose-register.companiesoffice.govt.nz) for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Craig had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Craig received a return after fund charges were deducted of \$493.00 (that is 4.93% of his initial \$10,000). Craig also paid \$23.40 in other charges. This gives Craig a total return after tax of \$469.60 for the year.

Notes

- 1 As the fund started on the date above, actual returns for the last five years are not available. To calculate the risk indicator for the five year period up to the date of this fund update a combination of market index returns, underlying fund returns and actual returns have been used where relevant. We consider this to be the most accurate way to calculate returns and as a result of this calculation, the risk indicator may provide a less reliable indicator of the potential future volatility of the fund.

Notes

- 1 As the fund started on the date above, actual returns for the last five years are not available. To calculate the risk indicator for the five year period up to the date of this fund update a combination of market index returns, underlying fund returns and actual returns have been used where relevant. We consider this to be the most accurate way to calculate returns and as a result of this calculation, the risk indicator may provide a less reliable indicator of the potential future volatility of the fund.
- 2 The total fund charges are inclusive of any applicable GST.
- 3 The other management and administration charges include estimates of underlying fund charges provided by underlying fund managers. The balance dates of the underlying fund(s) do not align with the balance date of the fund. To estimate the charges, AMP includes the underlying fund charges as at the relevant underlying fund(s) balance date, adjusted (where required) to reflect any material changes advised to AMP by the relevant underlying manager as having occurred during the intervening period.
- 4 The actual investment mix and top ten investments have been calculated excluding cash and cash equivalents held for operational purposes.

AMP International Shares Fund

Fund Update

for the quarter ended 30 June 2019

This fund update was first made publicly available on 26 July 2019

What is the purpose of this update?

This document tells you how the AMP International Shares Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. AMP Wealth Management New Zealand Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

This is a single sector fund with exposure to a diversified global equities portfolio. The fund aims to achieve long term capital growth through exposure to equities of companies listed on stock exchanges around the world (which may include the NZ stock exchange for this fund).

| | |
|---------------------------------|--------------|
| Total value of the fund | \$4,231,860 |
| Number of investors in the fund | 395 |
| The date the fund started | 28 July 2016 |

What are the risks of investing?

Risk indicator for the AMP International Shares Fund¹:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund’s assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at today.amp.co.nz/risk-profile-calculator.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund’s future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

Specific risk

In addition to the general investment risks, you should be aware this fund is concentrated in a particular asset class and not diversified across multiple asset classes. At any given point, market conditions that cause one asset class to perform well may cause another asset class to perform poorly. This could result in negative or lower than expected returns compared to a fund which is diversified across multiple asset classes.

How has the fund performed?

| | Past year |
|--|-----------|
| Annual return (after deductions for charges and tax) | 3.05% |
| Annual return (after deductions for charges but before tax) | 3.98% |
| Market index annual return (reflects no deduction for charges and tax) | 7.03% |

The market index annual return is based on the MSCI World ex Tobacco Net Index (60% hedged to NZD). Additional information about the market index is available on the offer register at disclose-register.companiesoffice.govt.nz. Index disclaimers can be found on the AMP website at amp.co.nz/indexdisclaimers.

Annual return graph

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 30 June 2019.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the AMP International Shares Fund are charged fund charges. In the year to 31 March 2019 these were:

| | % of net asset value |
|--|---|
| Total fund charges² | 0.88%* |
| Which are made up of - | |
| Total management and administration charges | 0.88% |
| Including - | |
| Manager's basic fee | 1.02% |
| Other management and administration charges | -0.14% |
| Total performance-based fees | 0.00% |
| Other charges | Dollar amount per investor or description of how charge is calculated |
| Member fee | \$23.40 |

* The negative value recorded under "Other management and administration charges" for the year to 31 March 2019 is due to a fee refund from an underlying fund manager. This does not reflect the Managers expectations of the fees and expenses that will be charged in the next scheme year. Based on higher underlying fund manager fees and expenses than in 2019, the Manager estimates that the total fund charges for the next scheme year will increase to 1.22% of the net asset value.

Different administration or member fees may apply to some members. Any different fees will be set out in the Member Booklet or supplement, if applicable, which you can request from your Adviser.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the 'fees and other charges' document on the entry relating to the offer of interests in the AMP KiwiSaver Scheme maintained on the offer register (disclose-register.companiesoffice.govt.nz) for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Craig had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Craig received a return after fund charges were deducted of \$305.00 (that is 3.05% of his initial \$10,000). Craig also paid \$23.40 in other charges. This gives Craig a total return after tax of \$281.60 for the year.

| Other management and administration charges | 0.21% |
| Total performance-based fees | 0.00% |
| Other charges | Dollar amount per investor or description of how charge is calculated |
| Member fee | \$23.40 |

* Based on a decrease in other expenses, the Manager estimates that the total fund charges for the next scheme year will reduce to 0.87% of the net asset value.

Different administration or member fees may apply to some members. Any different fees will be set out in the Member Booklet or supplement, if applicable, which you can request from your Adviser.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the 'fees and other charges' document on the entry relating to the offer of interests in the AMP KiwiSaver Scheme maintained on the offer register (disclose-register.companiesoffice.govt.nz) for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

| Other management and administration charges | 0.09% |
| Total performance-based fees | 0.00% |
| Other charges | Dollar amount per investor or description of how charge is calculated |
| Member fee | \$23.40 |

Different administration or member fees may apply to some members. Any different fees will be set out in the Member Booklet or supplement, if applicable, which you can request from your Adviser.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the 'fees and other charges' document on the entry relating to the offer of interests in the AMP KiwiSaver Scheme maintained on the offer register (disclose-register.companiesoffice.govt.nz) for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Craig had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Craig received a return after fund charges were deducted of \$411.00 (that is 4.11% of his initial \$10,000). Craig also paid \$23.40 in other charges. This gives Craig a total return after tax of \$387.60 for the year.

ANZ Balanced Growth Fund

Fund Update

for the quarter ended 30 June 2019

This fund update was first made publicly available on 26 July 2019

What is the purpose of this update?

This document tells you how the ANZ Balanced Growth Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. AMP Wealth Management New Zealand Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The fund invests mainly in share and listed property assets, with some exposure to cash and fixed interest assets. The fund aims to achieve investment performance ahead of inflation over the long term and achieve investment performance that reflects the level of risk applicable to the fund's underlying asset classes.

| | |
|---------------------------------|----------------|
| Total value of the fund | \$266,339,974 |
| Number of investors in the fund | 6,722 |
| The date the fund started | 1 October 2007 |

What are the risks of investing?

Risk indicator for the ANZ Balanced Growth Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at today.amp.co.nz/risk-profile-calculator.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

How has the fund performed?

| | Average over past 5 years | Past year |
|--|---------------------------|-----------|
| Annual return (after deductions for charges and tax) | 7.41% | 5.73% |
| Annual return (after deductions for charges but before tax) | 8.39% | 6.98% |
| Market index annual return (reflects no deduction for charges and tax) | 9.34% | 8.77% |

The market index annual return is based on a composite index, calculated using the target investment mix weightings of the underlying market indices that the fund invests into. Some components of the index for this fund have changed in the past quarter to more closely align with our underlying investments. For details of the indices used to calculate the composite index, please see the Statement of Investment Policy and Objectives for your product. Additional information about the market index is available on the offer register at disclose-register.companiesoffice.govt.nz. Index disclaimers can be found on the AMP website at amp.co.nz/indexdisclaimers.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the ASB Balanced Fund are charged fund charges. In the year to 31 March 2019 these were:

| | % of net asset value |
|--|---|
| Total fund charges² | 1.10% |
| Which are made up of - | |
| Total management and administration charges | 1.10% |
| Including - | |
| Manager's basic fee | 0.97% |
| Other management and administration charges | 0.13% |
| Total performance-based fees | 0.00% |
| Other charges | Dollar amount per investor or description of how charge is calculated |
| Member fee | \$23.40 |

Different administration or member fees may apply to some members. Any different fees will be set out in the Member Booklet or supplement, if applicable, which you can request from your Adviser.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the 'fees and other charges' document on the entry relating to the offer of interests in the AMP KiwiSaver Scheme maintained on the offer register (disclose-register.companiesoffice.govt.nz) for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Craig had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Craig received a return after fund charges were deducted of \$639.00 (that is 6.39% of his initial \$10,000). Craig also paid \$23.40 in other charges. This gives Craig a total return after tax of \$615.60 for the year.

Notes

- 1 As the fund started on the date above, actual returns for the last five years are not available. To calculate the risk indicator for the five year period up to the date of this fund update a combination of market index returns, underlying fund returns and actual returns have been used where relevant. We consider this to be the most accurate way to calculate returns and as a result of this calculation, the risk indicator may provide a less reliable indicator of the potential future volatility of the fund.
- 2 The total fund charges are inclusive of any applicable GST.
- 3 The actual investment mix and top ten investments have been calculated excluding cash and cash equivalents held for operational purposes.

ASB Growth Fund

Fund Update

for the quarter ended 30 June 2019

This fund update was first made publicly available on 26 July 2019

What is the purpose of this update?

This document tells you how the ASB Growth Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. AMP Wealth Management New Zealand Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The fund has a well-diversified portfolio that employs an active approach to asset allocation, with underlying investments predominantly in index tracking funds. The fund aims to provide high total returns with a negative return expected less than one in every four years.

| | |
|---------------------------------|--------------|
| Total value of the fund | \$13,188,688 |
| Number of investors in the fund | 1,095 |
| The date the fund started | 28 July 2016 |

What are the risks of investing?

Risk indicator for the ASB Growth Fund¹:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at today.amp.co.nz/risk-profile-calculator. Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

How has the fund performed?

| | Past year |
|--|-----------|
| Annual return (after deductions for charges and tax) | 6.86% |
| Annual return (after deductions for charges but before tax) | 8.04% |
| Market index annual return (reflects no deduction for charges and tax) | 10.47% |

The market index annual return is based on a composite index, calculated using the target investment mix weightings of the underlying market indices that the fund invests into. Additional information about the market index is available on the offer register at disclose-register.companiesoffice.govt.nz. Index disclaimers can be found on the AMP website at amp.co.nz/indexdisclaimers.

AMP KiwiSaver Scheme

Mercer Balanced Fund

Fund Update

for the quarter ended 30 June 2019

This fund update was first made publicly available on 20 September 2019

This is a replacement fund update. It replaces the 30 June 2019 AMP KiwiSaver Scheme Mercer Balanced Fund fund update first made publicly available on 26 July 2019. In this replacement fund update, the note in the 'What fees are investors charged?' section stating that we estimate a reduction in total fund charges for the next scheme year has been removed. We estimate the total fund charges for the next scheme year to be 1.34%, a similar level to the total fund charges for the year to 31 March 2019 shown below.

What is the purpose of this update?

This document tells you how the Mercer Balanced Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. AMP Wealth Management New Zealand Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The fund invests in a wide range of assets which may be suitable for long-term investors who want a diversified investment with exposure to shares, real assets, alternative assets, fixed interest and cash. The fund aims to achieve enhanced longer term returns from the 55% benchmark allocation to growth assets.

| | |
|---------------------------------|----------------|
| Total value of the fund | \$48,336,405 |
| Number of investors in the fund | 1,963 |
| The date the fund started | 1 October 2007 |

What are the risks of investing?

Risk indicator for the Mercer Balanced Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at today.amp.co.nz/risk-profile-calculator.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

Notes

- 1 From 25 June 2018 Mercer (N.Z.) Limited (Mercer) replaced Fisher Funds Management Limited (Fisher) as the underlying fund manager of the Fund. The fund performance in the table therefore shows fund performance which relates to both Mercer and Fisher.
- 2 We have used a composite index to prepare the table and bar graph, as there was no market index available for some of the relevant assets. The composite index is calculated using the target investment mix weightings of the underlying market and peer group indices for the asset classes that the fund invests into. A composite index may be a less reliable indicator of performance than an appropriate market index. In the table and bar graph, the return for the market index reflects no deduction for fund charges, trading expenses and tax, and the return for the peer group index reflects deductions for fund charges and trading expenses, but before tax. Additional information about the market and peer group indices is available in the Statement of Investment Policy and Objectives for your product which is available on the offer register at disclose-register.companiesoffice.govt.nz. Index disclaimers can be found on the AMP website at amp.co.nz/indexdisclaimers.
- 3 The total fund charges are inclusive of any applicable GST.
- 4 The other management and administration charges include estimates of underlying fund charges provided by underlying fund managers. The balance dates of the underlying fund(s) do not align with the balance date of the fund. To estimate the charges, AMP includes the underlying fund charges as at the relevant underlying fund(s) balance date, adjusted (where required) to reflect any material changes advised to AMP by the relevant underlying manager as having occurred during the intervening period.
- 5 The actual investment mix and top ten investments have been calculated excluding cash and cash equivalents held for operational purposes.

AMP KiwiSaver Scheme

Nikko AM Conservative Fund

Fund Update

for the quarter ended 30 June 2019

This fund update was first made publicly available on 16 August 2019

This is a replacement fund update. It replaces the 30 June 2019 AMP KiwiSaver Scheme Nikko AM Conservative Fund fund update first made publicly available on 26 July 2019. In this replacement fund update the composite index returns in the “How has this fund performed?” table, and the index return bars for the year to 31/03/2019 and average annual return in the annual return bar graph have been corrected.

What is the purpose of this update?

This document tells you how the Nikko AM Conservative Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. AMP Wealth Management New Zealand Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The fund aims to minimise the risk of investment loss while optimising investment returns and to preserve the capital value of invested funds over the long term in real terms.

| | |
|---------------------------------|--------------|
| Total value of the fund | \$17,663,527 |
| Number of investors in the fund | 698 |
| The date the fund started | 28 July 2016 |

What are the risks of investing?

Risk indicator for the Nikko AM Conservative Fund¹:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund’s assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at today.amp.co.nz/risk-profile-calculator.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund’s future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

| Other management and administration charges ⁴ | 0.19% |
| Total performance-based fees | 0.00% |
| Other charges | Dollar amount per investor or description of how charge is calculated |
| Member fee | \$23.40 |

Different administration or member fees may apply to some members. Any different fees will be set out in the Member Booklet or supplement, if applicable, which you can request from your Adviser.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the 'fees and other charges' document on the entry relating to the offer of interests in the AMP KiwiSaver Scheme maintained on the offer register (disclose-register.companiesoffice.govt.nz) for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Craig had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Craig received a return after fund charges were deducted of \$523.00 (that is 5.23% of his initial \$10,000). Craig also paid \$23.40 in other charges. This gives Craig a total return after tax of \$499.60 for the year.

Notes

- 1 As the fund started on the date above, actual returns for the last five years are not available. To calculate the risk indicator for the five year period up to the date of this fund update a combination of market index returns, underlying fund returns and actual returns have been used where relevant. We consider this to be the most accurate way to calculate returns and as a result of this calculation, the risk indicator may provide a less reliable indicator of the potential future volatility of the fund.
- 2 We have used a composite index to prepare the table and bar graph, as there was no market index available for some of the relevant assets. The composite index is calculated using the target investment mix weightings of the underlying market and peer group indices for the asset classes that the fund invests into. A composite index may be a less reliable indicator of performance than an appropriate market index. The composite index used in this fund update is not directly relevant for all of the underlying assets of this fund. In the table and bar graph, the return for the market index reflects no deduction for fund charges, trading expenses and tax, and the return for the peer group index reflects deductions for fund charges and trading expenses, but before tax. Additional information about the market and peer group indices is available in the Statement of Investment Policy and Objectives for your product which is available on the offer register at disclose-register.companiesoffice.govt.nz. Index disclaimers can be found on the AMP website at amp.co.nz/indexdisclaimers.
- 3 The total fund charges are inclusive of any applicable GST.
- 4 Other management and administration charges include charges by underlying fund managers who are not subject to New Zealand law and are unable to provide us with actual figures. In these circumstances, AMP Wealth Management New Zealand Limited (AMP) is not able to verify that these charges have been calculated in accordance with the requirements of New Zealand law. Therefore, the charges include actual underlying fund costs where available and a component based on estimated costs and expenses provided by an underlying fund manager, after AMP has made reasonable endeavours to obtain all relevant information for the purposes of preparing the fund update.
- 5 The actual investment mix and top ten investments have been calculated excluding cash and cash equivalents held for operational purposes.

AMP KiwiSaver Scheme

Nikko AM Balanced Fund

Fund Update

for the quarter ended 30 June 2019

This fund update was first made publicly available on 16 August 2019

This is a replacement fund update. It replaces the 30 June 2019 AMP KiwiSaver Scheme Nikko AM Balanced Fund fund update first made publicly available on 26 July 2019. In this replacement fund update the composite index returns in the "How has this fund performed?" table, and the index return bars for the year to 31/03/2019 and average annual return in the annual return bar graph have been corrected.

What is the purpose of this update?

This document tells you how the Nikko AM Balanced Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. AMP Wealth Management New Zealand Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The fund aims to provide investors with a carefully constructed balance of diversified assets in a manner that aims to both optimise investment returns and to minimise the risks of investment loss, and to preserve the capital value of investing funds over the longer term in real terms. The fund gains its investment exposure by investing into a range of actively managed funds to create a diversified portfolio with a balanced mix of lower and higher risk assets.

| | |
|---------------------------------|----------------|
| Total value of the fund | \$73,773,452 |
| Number of investors in the fund | 2,872 |
| The date the fund started | 1 October 2007 |

What are the risks of investing?

Risk indicator for the Nikko AM Balanced Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at today.amp.co.nz/risk-profile-calculator.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

How has the fund performed?

| | Average over past 5 years ¹ | Past year ¹ |
|---|--|------------------------|
| Annual return (after deductions for charges and tax) | 8.12% | 4.96% |
| Annual return (after deductions for charges but before tax) | 9.14% | 5.81% |
| Composite of market index annual return (reflects no deduction for charges and tax) and peer group index annual return (after deductions for charges but before tax) | 8.84% | 9.42% |

Annual return graph¹

This shows the return after fund charges and tax for each of the last 10 years ending 31 March. The last bar shows the average annual return for the last 10 years, up to 30 June 2019.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the Nikko AM Balanced Fund are charged fund charges. In the year to 31 March 2019 these were:

| | % of net asset value |
|--|---|
| Total fund charges (estimated) ² | 1.37% |
| Which are made up of - | |
| Total management and administration charges (estimated) | 1.37% |
| Including - | |
| Manager's basic fee | 1.07% |
| Other management and administration charges (estimated) ³ | 0.30% |
| Total performance-based fees | 0.00% |
| Other charges | Dollar amount per investor or description of how charge is calculated |
| Member fee | \$23.40 |

Different administration or member fees may apply to some members. Any different fees will be set out in the Member Booklet or supplement, if applicable, which you can request from your Adviser.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the 'fees and other charges' document on the entry relating to the offer of interests in the AMP KiwiSaver Scheme maintained on the offer register (disclose-register.companiesoffice.govt.nz) for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Craig had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Craig received a return after fund charges were deducted of \$496.00 (that is 4.96% of his initial \$10,000). Craig also paid \$23.40 in other charges. This gives Craig a total return after tax of \$472.60 for the year.

Nikko AM Growth Fund

Fund Update

for the quarter ended 30 June 2019

This fund update was first made publicly available on 16 August 2019

This is a replacement fund update. It replaces the 30 June 2019 AMP KiwiSaver Scheme Nikko AM Growth Fund fund update first made publicly available on 26 July 2019. In this replacement fund update the composite index returns in the “How has this fund performed?” table, and the index return bars for the year to 31/03/2019 and average annual return in the annual return bar graph have been corrected.

What is the purpose of this update?

This document tells you how the Nikko AM Growth Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. AMP Wealth Management New Zealand Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The fund aims to provide investors with a portfolio of predominantly growth assets to deliver growth in capital value over the long term. The fund gains its investment exposure by investing into a range of actively managed funds to create a diversified portfolio with a focus on higher risk assets.

Notes

- 1 As the fund started on the date above, actual returns for the last five years are not available. To calculate the risk indicator for the five year period up to the date of this fund update a combination of market index returns, underlying fund returns and actual returns have been used where relevant. We consider this to be the most accurate way to calculate returns and as a result of this calculation, the risk indicator may provide a less reliable indicator of the potential future volatility of the fund.
- 2 We have used a composite index to prepare the table and bar graph, as there was no market index available for some of the relevant assets. The composite index is calculated using the target investment mix weightings of the underlying market and peer group indices for the asset classes that the fund invests into. A composite index may be a less reliable indicator of performance than an appropriate market index. The composite index used in this fund update is not directly relevant for all of the underlying assets of this fund. In the table and bar graph, the return for the market index reflects no deduction for fund charges, trading expenses and tax, and the return for the peer group index reflects deductions for fund charges and trading expenses, but before tax. Additional information about the market and peer group indices is available in the Statement of Investment Policy and Objectives for your product which is available on the offer register at disclose-register.companiesoffice.govt.nz. Index disclaimers can be found on the AMP website at amp.co.nz/indexdisclaimers.
- 3 The total fund charges are inclusive of any applicable GST.
- 4 Other management and administration charges include charges by underlying fund managers who are not subject to New Zealand law and are unable to provide us with actual figures. In these circumstances, AMP Wealth Management New Zealand Limited (AMP) is not able to verify that these charges have been calculated in accordance with the requirements of New Zealand law. Therefore, the charges include actual underlying fund costs where available and a component based on estimated costs and expenses provided by an underlying fund manager, after AMP has made reasonable endeavours to obtain all relevant information for the purposes of preparing the fund update.
- 5 The actual investment mix and top ten investments have been calculated excluding cash and cash equivalents held for operational purposes.
