

Annual return graph

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 31 December 2025.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower. The market index return reflects no deduction for charges and tax.

What fees are investors charged?

Investors in the Conservative Fund are charged fund charges. In the year to 31 March 2025 these were:

	% of net asset value
Total fund charges	0.74%
Which are made up of:	
Total management and administration charges	0.74%
Including:	
Manager's basic fee	0.71%
Other management and administration charges	0.03%

Small differences in fees and charges can have a big impact on your investment over the long term. GST has been included in the Manager's basic fee and has been added to the Other management and administrations charges where applicable.

Example of how this applies to an investor

Alice had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Alice received a return after fund charges were deducted of \$403 (that is 4.03% of her initial \$10,000). This gives Alice a total return after tax of \$403 for the year.

What does the fund invest in?

Actual investment mix

This shows the types of assets that the fund invests in.

Cash and cash equivalents	6.88%
New Zealand fixed interest	42.75%
International fixed interest	35.97%
