

Fund Update

For the quarter ended 31 March 2025

- Vision Invest NZ Funds
- Vision Income Fund

This fund update was first made publicly available on: 01 May 2025

What is the purpose of this update?

This document tells you how the Vision Income Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. FundRock NZ Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

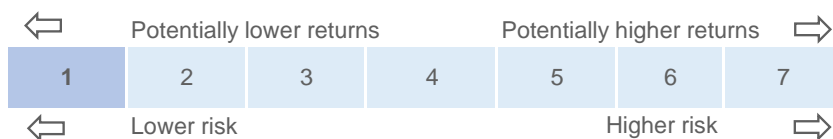

Objective: To generate returns (after fees but before tax) that are above the median 1 year gross term deposit rate paid by the registered New Zealand banks.

Strategy: To provide members of the Brethren community (Community) with an investment product that suitably satisfies the Community's ethical requirements, as an alternative to other fixed income investments in the market. The fund will make loans to businesses in the Community, and may make investments in other fixed income investments and cash and cash-like investments. The fund may also invest in other credit funds or collective investment vehicles whose investments include loans made to the Community.

Total value of the fund	\$NZ 196,024,648
The date the fund started	5 June 2020

What are the risks of investing?¹

Risk indicator for the Vision Income Fund.

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

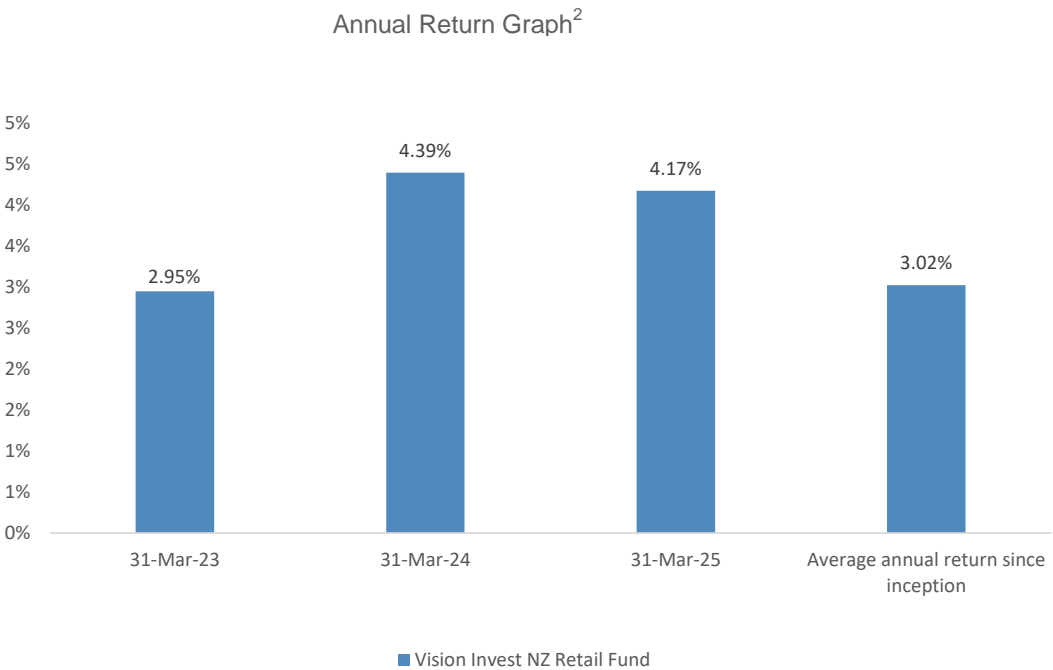

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for 5 years to 31 March 2025. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

How has the fund performed?

	Past year
Annual return (after deductions for charges and tax)	4.17%
Annual return (after deductions for charges but before tax)	5.85%

There is no appropriate market index and no suitable comparable peer group index for the fund against which to assess either movements in relation to the returns from the assets in which the fund invests or the performance of the fund as a whole. For further information see the document entitled "Financial Markets Conduct (Market Index) Exemption Notice 2024", available on the FMA's website (<https://www.fma.govt.nz/>).

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 31 March 2025.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the Vision Income Fund are charged fund charges. In the year to 31 March 2024 these were:

	% of net asset value (including GST)
Total fund charges	2.54%
Which are made up of:	
Total manager and administration charges	2.54%
Including:	
Manager's basic fee (including GST)	2.38%
Other management and administration charges	0.16%

Other management and administration charges includes audit, legal, administration, custody and Supervisor fees.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS for the Vision Income Fund on the offer register at www.disclose-register.companiesoffice.govt.nz for more information about those fees.

Example of how this applies to an investor

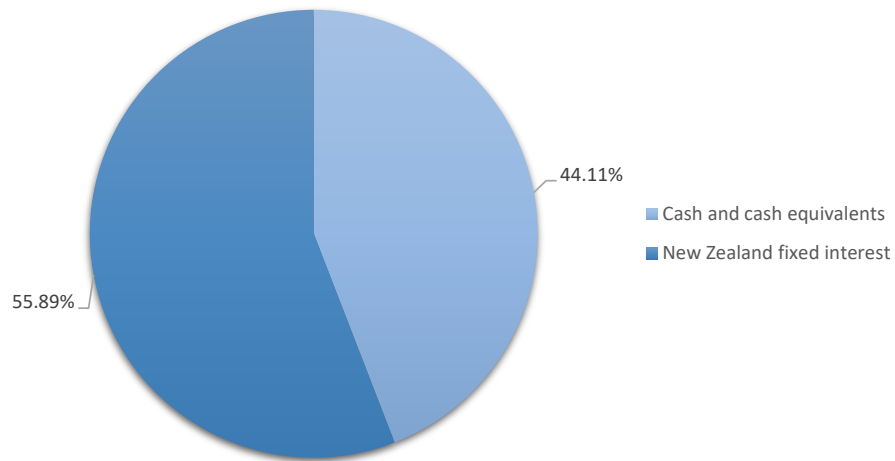

Small differences in fees and charges can have a big impact on your investment over the long term.

Anthony had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Anthony received a return after fund charges were deducted of \$585 (that is 5.85% of his initial \$10,000). This gives Anthony a total return after tax of \$417 for the year.

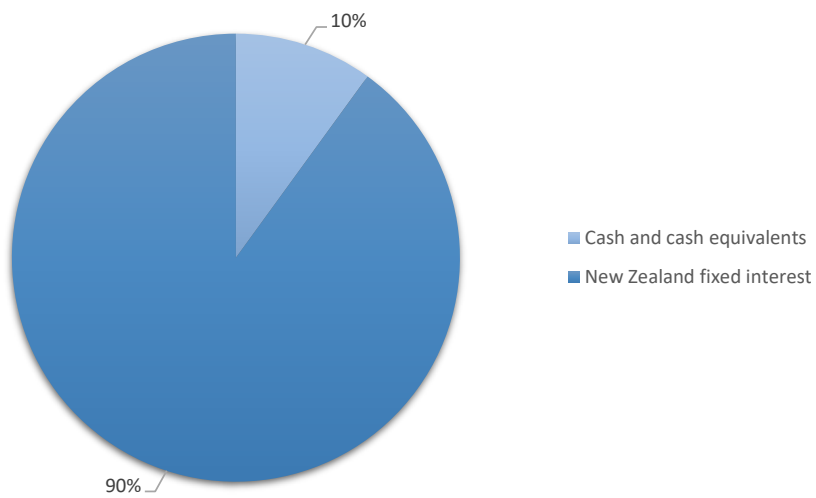

What does the fund invest in?

This shows the types of assets that the fund invests in.

Actual investment mix

Target investment mix

Top 10 investments

	Name*	% of Fund net assets	Type	Country	Risk Rating**	Credit rating (if applicable)
1	Mercer Macquarie NZ Cash Fund	40.14%	Cash and cash equivalents	NZ		0
2	Loan secured by rural property	8.93%	Cash and cash equivalents	NZ	1	0
3	Loan secured by other assets	4.08%	Cash and cash equivalents	NZ	1	0
4	Cash at Bank (BNZ)	3.97%	Cash and cash equivalents	NZ		AA-
5	Loan secured by other assets	3.39%	Cash and cash equivalents	NZ	1	0
6	Loan secured by other assets	3.32%	Cash and cash equivalents	NZ	1	0
7	Loan secured by other assets	2.71%	Cash and cash equivalents	NZ	1	0
8	Loan secured by commercial property	2.38%	Cash and cash equivalents	NZ	1.25	0
9	Loan secured by other assets	2.35%	Cash and cash equivalents	NZ	1	0
10	Loan secured by other assets	2.04%	Cash and cash equivalents	NZ	1	0

The top 10 investments make up 40.14% of the net asset value of the fund.

* For all the loans held by the fund where "other assets" is the primary security asset type, the other assets are secured by business assets such as stock, debtors, plant & equipment, as well as personal assets of the guarantor.

** Investors can find more information on the risk rating methodology in the Vision Invest NZ Funds Other Material Information document, which can be found at <https://disclose-register.companiesoffice.govt.nz>.

Loans secured by rural property	9.39%
Loans secured by other assets	32.76%
Unsecured loans	0.00%
Cash and cash equivalents, and NZ fixed interest assets, with registered banks	44.10%
Other assets	0.00%

Notes

- ¹ The fund has been in existence for less than 5 years. Returns from the Sovereign Capital Trust (a New Zealand wholesale unit trust which invests in a similar way to that proposed by the fund) have been used to calculate the risk indicator for the period 30 June 2020 and fund returns thereafter. The risk indicator may therefore provide a less reliable indicator of the fund's future volatility.
- ² There is no appropriate market index and no suitable comparable peer group index for the fund against which to assess either movements in relation to the returns from the assets in which the fund invests or the performance of the fund as a whole. For further information see the document entitled "Vision Income Fund - No Market Index - FMC Conduct Market Index Exemption 2023" available on the offer register at <https://disclose-register.companiesoffice.govt.nz>.
- ³ Guy Rundle has not been named as key personnel in a previous fund update for the fund.
- ⁴ The Manager has prepared this additional information in accordance with the Financial Markets Conduct (Vision Invest NZ Funds) Exemption Notice 2025.
