What are the risks of investing?

Risk indicator for the Property & Infrastructure Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at ipq.fisherfunds.co.nz/ffmf.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

Notes

- ¹ Total performance-based fees is the amount incurred by the fund for the year ended 31 March 2023. The performance-based fee accrual is calculated on a daily basis. See the product disclosure statement for more information about the basis on which performance fees are charged.
- ² The negative performance-based fee as at 31 March 2023 is a result of the actual performance fee charged to the fund at 30 June 2022 being lower than the fee accrued to 31 March 2022. Because the performance fee period runs from 1 July to 30 June each year and the calculation period for fees disclosed in the fund update runs from 1 April to 31 March each year, a negative performance fee expense at 31 March is possible. The performance-based fee accrual is calculated on a daily basis. See the product disclosure statement for more information about the basis on which performance fees are charged.
