

# Harbour Australasian Equity Fund Fund Update

for the quarter ended 30 September 2025

Harbour Investment Funds

This fund update was first made publicly available on 29 October 2025

## What is the purpose of this update?

This document tells you how the Harbour Australasian Equity Fund has performed and what fees were charged. The document will help you compare the Fund with other funds. Harbour Asset Management Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

## Description of this fund

The Fund provides actively managed exposure to New Zealand and Australian listed equities. The Fund has a growth-oriented investment approach to generate alpha (return over the benchmark) for investors. The Fund incorporates an environmental, social and governance (ESG) strategy involving integration of Harbour's proprietary Corporate Behaviour Survey and external provider scores into investment decision making, company engagement, voting and zero tolerance exclusions.<sup>1</sup>

**Investment Objective:** To achieve a gross return of 5.0% per annum above the benchmark over the long term.

**Benchmark:** S&P/NZX 50 Index

**Total value of the Fund (NZD)** \$ 133,257,923

**The date the Fund started** 11 April 2010

## What are the risks of investing?

### Risk indicator for the Harbour Australasian Equity Fund

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the Fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way. To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at [www.sorted.org.nz](http://www.sorted.org.nz).

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the 5 years to 30 September 2025. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this Fund.

<sup>1</sup> Exclusions include tobacco, nuclear explosives, cluster munitions, anti-personnel mines, pornography, recreational cannabis and controversial firearms. Further information on screening thresholds and processes are outlined in the exclusions section of our ESG policy which can be found on the Harbour website.

|----------------------------------------------------------------------------------------------|---------------------------------|-----------|
| Annual Return <sup>1</sup><br><br>(after deductions for<br>charges and tax)                  | 2.40%                           | 1.12%     |
| Annual Return <sup>1</sup><br><br>(after deductions for<br>charges but before tax)           | 2.90%                           | 1.48%     |
| Market index annual<br>return <sup>1</sup><br>(reflects no deduction for<br>charges and tax) | 3.29%                           | 7.75%     |

The market index annual return is based on the weighted average return of the market indices used to measure performance of the underlying fund. In this case the Market Index is the S&P/NZX50 Index. Additional information about the market index is available on the offer register at <https://disclose-register.companiesoffice.govt.nz/>.

Annual Return Graph<sup>2</sup>

This shows the return after fund charges and tax for each year ending 31 March for each of the last 10 years ending 31 March. The last bar shows the average annual return for the last 10 years, up to 30 September 2025. The Market Index returns do not include any tax, expenses or charges.

**Important:** This does not tell you how the Fund will perform in the future. Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the Fund are charged fund charges. In the year to 30 June 2025 these were as follows:

|                                                          | % of net asset value |
|----------------------------------------------------------|----------------------|
| Total fund charges (Inc. GST)                            | 1.12%                |
| Which are made up of:                                    |                      |
| Total management and administration                      | 1.12%                |
| Including-                                               |                      |
| Manager’s basic fee                                      | 0.98%                |
| Other management and administration charges <sup>3</sup> | 0.14%                |
| Total Performance-based fees                             | 0.00%                |

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS and Other Material Information Document OMI for more information about fees. Also see the product disclosure statement for more information about the basis on which performance fees are charged.

Example of how this applies to an investor

Small differences in fees and charges can have a big impact on your investment over the long term. Jenny had \$10,000 in the Harbour Australasian Equity Fund at the start of the year and did not make any further contributions. At the end of the year, Jenny received a return, after fund charges were deducted, of \$148 (that is 1.48% of her initial \$10,000). This gives Jenny a total return after tax of \$112 for the year.
