1. Description of the Scheme

The SuperLife KiwiSaver scheme (**Scheme**) is a KiwiSaver scheme under the Financial Markets Conduct Act 2013. The Scheme is managed by Smartshares Limited (**Smartshares**).

Each of the funds in the Scheme invests via the equivalent fund in SuperLife Invest. For example, the Scheme's NZ Bonds Fund invests in SuperLife Invest's NZ Bonds Fund.

SuperLife Invest is a managed investment scheme managed by Smartshares. Information about SuperLife Invest is available on the offer register and the scheme register at www.disclose-register.companiesoffice.govt.nz.

2. Investment philosophy

Smartshares' investment philosophy is based on the following key beliefs:

- Most markets and asset classes are efficient, meaning there is limited opportunity for fund managers to provide above market returns after fees and other expenses.
- Based on academic evidence, asset allocation is the single most important factor in determining long-term investment returns.
- Diversification is the best way to manage the risk that a combination of assets within a portfolio fails to meet its investment objectives.

Smartshares aims to provide a comprehensive suite of listed and unlisted funds that can be used by individuals, companies, financial advisers and institutions. Most of these funds are designed to track market indices. These range from traditional market capitalisation weighted indices to customised indices that target or exclude a particular sector, industry or specific securities.

Smartshares recognises that in some markets the predominant index may not provide a diversified or efficient exposure. In these circumstances, it will use a systematic approach to actively manage a portfolio or select an external manager to perform this function.

3. Investment options

The Scheme has a range of investment options.

A. Age Steps

SuperLife Age Steps is an investment option where the mix of income and growth assets is automatically set based on the investor's age. As an investor gets older, the proportion of the investor's investment in growth assets will be reduced, lowering the expected size of the ups and downs in the value of the investor's investment.

SuperLife Age Steps invests in the NZ Cash Fund (a sector fund), the SuperLife Income Fund and the SuperLife High Growth Fund (both diversified funds).

The mix of the NZ Cash Fund, the SuperLife Income Fund and the SuperLife High Growth Fund from under age 18 to age 100 is set out in schedule 1 of this SIPO.

B. Diversified funds

The diversified funds provide a range of risk-return profiles. The funds invest in a mix of the main investment asset classes of cash, fixed interest, shares and property. If an investor invests in a diversified fund, it's up to the investor to change funds if the investor's risk-return profile changes.

C. Default fund

The SuperLife Default Fund is a balanced fund which excludes investments in illegal weapons (cluster munitions, anti-personnel mines and nuclear explosive devices) and fossil fuel production. The fund is a KiwiSaver default fund.

D. Ethical fund

The Ethica Fund is a socially responsible balanced fund which excludes assets that do not meet the fund's defined ethical investment standards.

E. Guest manager fund

The guest manager fund is a fund that invests in an external fund that is actively managed by another manager.

F. Sector funds

The sector funds are a range of funds invested in New Zealand, Australian and international markets that an investor can use to set the investor's own investment strategy. Each sector fund invests in one of the main investment asset classes of cash, fixed interest, shares and property. If an investor invests in the sector funds, it's up to the investor to change funds if the investor's investment strategy changes.

4. Investment objective

Each fund has an investment objective. These are set out in the schedules to this SIPO.

5. Investment policies

A. Derivatives

A derivative is a financial product with a value that is reliant upon or derived from an underlying asset or group of assets.

Each fund that uses derivatives has a derivatives policy. These are set out in the schedules to this SIPO.

B. Hedging

Hedging involves removing some or all of the foreign currency risk implicit in owning international assets. This limits the impact of foreign exchange rate movements on investment performance.

Each fund that has foreign currency exposure has a hedging policy. These are set out in the schedules to this SIPO.

C. Responsible investment

Smartshares' Responsible Investment Policy, which sets out its approach to responsible investing, is available at www.superlife.co.nz.

6. Investment performance monitoring and reporting

The Scheme's investment performance is monitored every month (by Smartshares' Chief Investment Officer) and every three months (by Smartshares' Investment Oversight Committee and Smartshares' Board). In particular:

- every month, Smartshares prepares investment performance reports and provides them to the Chief Investment Officer;
- every three months, Smartshares prepares investment performance reports and provides them to Smartshares' Investment Oversight Committee; and
- every three months, the Smartshares' Oversight Committee reports to Smartshares' Board. The investment performance reports are also provided to Smartshares' Board

Investment performance is monitored over one month, three months, one year, three years and five years periods.

Absolute performance, performance relative to benchmark indices and performance relative to peer averages is monitored.

7. Investment strategy review

Smartshares' Investment Oversight Committee reviews the Scheme's investment strategy annually.

Smartshares' Investment Oversight Committee undertakes an ad hoc review of the Scheme's investment strategy if:

- changes to market conditions necessitate changes to either: (1) the nature or types of investments that can be made and any limits on those; and/or (2) any limits on the proportions of each type of asset invested in; or
- Smartshares' Board instructs Smartshares' Investment Oversight Committee to review the Scheme's investment strategy.

Smartshares' Investment Oversight Committee considers management's recommendations in respect of any proposed changes to the Scheme's investment strategy.

Smartshares' Investment Oversight Committee reports to Smartshares' Board as to the outcome of its review, together with any proposed changes to the Scheme's investment strategy.

Smartshares' Board considers Smartshares' Investment Oversight Committee's report and may approve any changes to the Scheme's investment strategy.

8. SIPO review

Smartshares' Investment Oversight Committee reviews this SIPO annually.

Smartshares' Investment Oversight Committee undertakes an ad hoc review of this SIPO if:

- changes to the law or the Financial Markets Authority's guidance necessitate changes to this SIPO;
- Smartshares' Board instructs Smartshares' Investment Oversight Committee to review this SIPO; or
- changes to the Scheme's investment strategy (made as part of an ad hoc review of investment strategy) necessitate changes to this SIPO.

Smartshares' Investment Oversight Committee considers management's recommendations in respect of any proposed changes to this SIPO.

Smartshares' Investment Oversight Committee reports to Smartshares' Board as to the outcome of its review, together with any proposed changes to this SIPO.

Smartshares' Board considers Smartshares' Investment Oversight Committee's report and may approve any changes to this SIPO.

Changes to the SIPO can only be made following consultation with the supervisor.

DIVERSIFIED FUNDS

Schedule 2 – SuperLife Income Fund

Investment objective

Designed for investors that want an investment in New Zealand and international fixed interest.

Investment strategy

Purpose	Asset class	Target	Range	Market index
Income	Cash and cash equivalents	30%	0% - 100%	S&P/NZX Bank Bills 90-Day Index
	New Zealand fixed interest	28%	0% - 70%	50% S&P/NZX A-Grade Corporate Bond Index 50% S&P/NZX NZ Government Bond Index
	International fixed interest	42%	0% - 70%	Bloomberg Barclays Global Aggregate Bond Index (100% hedged to the New Zealand dollar)
	Total	100%	100%	

Smartshares may from time to time rebalance the fund so that its actual asset allocation is consistent with its target asset allocation.

Permitted investments

The fund may invest (via SuperLife Invest) in the following assets:

- listed financial products;
- tradeable debt securities;
- any fund in the Smartshares Exchange Traded Funds or other managed investment scheme managed by Smartshares;
- any fund managed by a third party; and
- cash and cash equivalents.

Cash and cash equivalents include cash on hand, deposits held at call with banks or the custodian, and other short-term highly liquid investments (and funds that primarily invest in cash and cash equivalents).

Derivatives

The fund may use derivatives to gain exposure to assets that are consistent with the permitted investments set out above or to manage foreign currency exposures. The fund may not use derivatives to lever the fund.

The minimum over-the-counter derivative counterparty rating is A- issued by Standard & Poor's Financial Services LLC (**Standard & Poor's**), or its equivalent issued by Moody's Investor Services (**Moody's**) or Fitch Ratings (**Fitch**).

If a counterparty has multiple credit ratings, Smartshares will use the highest credit rating of Standard & Poor's, Moody's or Fitch. If a counterparty is not rated by any of these rating agencies, Smartshares will decide a credit rating. If a counterparty is downgraded below the minimums set out above, Smartshares will decide the appropriate action.

Hedging

The fund's foreign currency exposure is hedged to the New Zealand dollar. The target hedging level is 100% of the fund's foreign currency exposure. The actual hedging level can be anywhere in the 0% - 120% range.

Investment restrictions

The fund may borrow up to 10% of the fund's net asset value for the purposes of providing short-term liquidity (i.e. to temporarily fund redemptions, securities settlement or pay expenses).

Schedule 3 – SuperLife Conservative Fund

Investment objective

Designed for investors that want a conservative investment option.

Investment strategy

	Other	5%	0% - 15%	FTSE Developed Core Infrastructure 50/50 Index (100% hedged to the New Zealand dollar)
	Total	30%	10% - 50%	

Smartshares may from time to time rebalance the fund so that its actual asset allocation is consistent with its target asset allocation.

Permitted investments

The fund may invest (via SuperLife Invest) in the following assets:

- listed financial products;
- tradeable debt securities;
- any fund in the Smartshares Exchange Traded Funds or other managed investment scheme managed by Smartshares;
- any fund managed by a third party; and
- cash and cash equivalents.

Cash and cash equivalents include cash on hand, deposits held at call with banks or the custodian, and other short-term highly liquid investments (and funds that primarily invest in cash and cash equivalents).

Derivatives

The fund may use derivatives to gain exposure to assets that are consistent with the permitted investments set out above or to manage foreign currency exposures. The fund may not use derivatives to lever the fund.

The minimum over-the-counter derivative counterparty rating is A- issued by Standard & Poor's, or its equivalent issued by Moody's or Fitch.

If a counterparty has multiple credit ratings, Smartshares will use the highest credit rating of Standard & Poor's, Moody's or Fitch. If a counterparty is not rated by any of these rating agencies, Smartshares will decide a credit rating. If a counterparty is downgraded below the minimums set out above, Smartshares will decide the appropriate action.

Hedging

The fund's foreign currency exposure is hedged to the New Zealand dollar. The target hedging level is 88% of the fund's foreign currency exposure. The actual hedging level can be anywhere in the 0% - 120% range.

Investment restrictions

Smartshares may from time to time rebalance the fund so that its actual asset allocation is consistent with its target asset allocation.

Permitted investments

The fund may invest (via SuperLife Invest) in the following assets:

- listed financial products;
- tradeable debt securities;
- any fund in the Smartshares Exchange Traded Funds or other managed investment scheme managed by Smartshares;
- any fund managed by a third party; and
- cash and cash equivalents.

Cash and cash equivalents include cash on hand, deposits held at call with banks or the custodian, and other short-term highly liquid investments (and funds that primarily invest in cash and cash equivalents).

Exclusion – illegal weapons

The fund may not invest in companies that are involved in activities relating to illegal weapons (cluster munitions, anti-personnel mines and nuclear explosive devices).

The exclusion above applies to all investments:

- where the shares are held directly in companies that undertake the activities listed above;
- in shares of majority owners of excluded companies (for example, parent companies);
- in shares of subsidiary companies of excluded companies where that subsidiary has any involvement in the prescribed activity; and
- in managed investment schemes that have any investments in the companies listed above.

Exclusion – fossil fuel production

The fund may not invest in companies that:

- own proved or probable reserves in coal, oil, or gas, and derive at least 15% of their revenue from exploration and extraction of coal, oil or gas; or
- has its primary business activity in any of the excluded subsectors prescribed in table 1 or table 2 of Schedule 5 of the KiwiSaver Default Provider (Smartshares) Notice 2021.

The exclusion above applies to all investments:

- where the shares are held directly in companies that undertake the activities listed above;
- in shares of majority owners of excluded companies (for example, parent companies);
- in shares of subsidiary companies of excluded companies where that subsidiary has any involvement in the prescribed activity; and
- in managed investment schemes that have any investments in the companies listed above.

For the purposes of this exclusion, oil includes tar sands, gas includes shale (as a source of gas) and metallurgical coal is not included in the term coal.

Derivatives

The fund may use derivatives to gain exposure to assets that are consistent with the permitted investments set out above or to manage foreign currency exposures. The fund may not use derivatives to lever the fund.

The minimum over-the-counter derivative counterparty rating is A- issued by Standard & Poor's, or its equivalent issued by Moody's or Fitch.

If a counterparty has multiple credit ratings, Smartshares will use the highest credit rating of Standard & Poor's, Moody's or Fitch. If a counterparty is not rated by any of these rating agencies, Smartshares will decide a credit rating. If a counterparty is downgraded below the minimums set out above, Smartshares will decide the appropriate action.

Hedging

The fund's foreign currency exposure is generally not hedged to the New Zealand dollar. Smartshares may from time to time hedge the fund's foreign currency exposure. The actual hedging level can be anywhere in the 0% - 120% range.

Investment restrictions

The fund may borrow up to 10% of the fund's net asset value for the purposes of providing short-term liquidity (i.e. to temporarily fund redemptions, securities settlement or pay expenses).

Smartshares may from time to time rebalance the fund so that its actual asset allocation is consistent with its target asset allocation.

Permitted investments

The fund may invest (via SuperLife Invest) in the following assets:

- listed financial products;
- tradeable debt securities;

- any fund in the Smartshares Exchange Traded Funds or other managed investment scheme managed by Smartshares;
- any fund managed by a third party; and
- cash and cash equivalents.

The fund may also invest in other assets (which are not set out above) that Smartshares considers are consistent with the permitted investments set out above and that appropriately reflect the risk profile of the fund and will contribute to the investment objective of the fund.

Cash and cash equivalents include cash on hand, deposits held at call with banks or the custodian, and other short-term highly liquid investments (and funds that primarily invest in cash and cash equivalents).

Ethical investment standards

The fund may not invest in investments where (in Smartshares' opinion) the activities of the entities behind the investment:

- have an overall negative impact on social and community outcomes;
- would be illegal in New Zealand;
- are inconsistent with the United Nations' policies on health and safety, child rights and human rights; or
- are expected to result in long-term, detrimental change to the environment.

Current investments and sectors that are excluded are those where a material part of their revenue and/or activities are in the areas of gambling, tobacco, alcohol, armaments, pornography and fossil fuel extraction.

Derivatives

The fund may use derivatives to gain exposure to assets that are consistent with the permitted investments set out above or to manage foreign currency exposures. The fund may not use derivatives to lever the fund.

The minimum over-the-counter derivative counterparty rating is A- issued by Standard & Poor's, or its equivalent issued by Moody's or Fitch.

If a counterparty has multiple credit ratings, Smartshares will use the highest credit rating of Standard & Poor's, Moody's or Fitch. If a counterparty is not rated by any of these rating agencies, Smartshares will decide a credit rating. If a counterparty is downgraded below the minimums set out above, Smartshares will decide the appropriate action.

Hedging

The fund's foreign currency exposure is not hedged, but the fund invests in other funds which foreign currency exposure is hedged to the New Zealand dollar.
