

Fund Update

for the quarter ended 31 March 2025

This fund update was first made publicly available on 1 May 2025

What is the purpose of this update?

This document tells you how the AMP New Zealand Cash Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. AMP Wealth Management New Zealand Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

This is a single sector fund which primarily invests in cash and short-term deposits. The fund aims to achieve modest, stable returns with a very low level of investment risk, in exchange there should be no significant short-term movements up and down in the value of your investments.

Total value of the fund	\$21,485,354
The date the fund started	10 March 2011

What are the risks of investing?

Risk indicator for the AMP New Zealand Cash Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at sorted.org.nz/tools/investor-profiler.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

Specific risk

In addition to the general investment risks, you should be aware this fund is concentrated in a particular asset class and not diversified across multiple asset classes. At any given point, market conditions that cause one asset class to perform well may cause another asset class to perform poorly. This could result in negative or lower than expected returns compared to a fund which is diversified across multiple asset classes.

How has the fund performed?

	Average over past 5 years ^{1, 2}	Past year ²
Annual return (after deductions for charges and tax)	1.77%	3.41%
Annual return (after deductions for charges but before tax)	2.54%	4.77%
Market index annual return (reflects no deduction for charges and tax)	2.98%	5.16%

The market index annual return is based on the Bloomberg NZBond Bank Bill Index. Additional information about the market index is available on the offer register at disclose-register.companiesoffice.govt.nz. Index disclaimers can be found on the AMP website at amp.co.nz/indexdisclaimers.

Annual return graph¹

This shows the return after fund charges and tax for each of the last 10 years ending 31 March. The last bar shows the average annual return for the last 10 years, up to 31 March 2025.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the AMP New Zealand Cash Fund are charged fund charges. In the year to 31 March 2024 these were:

% of net asset value	
Total fund charges (estimated) ³	0.50%
Which are made up of -	
Total management and administration charges (estimated)	0.50%
Including -	
Manager's basic fee	0.30%
Other management and administration charges (estimated) ⁴	0.20%
Total performance-based fees	0.00%
Other charges	Dollar amount per investor or description of how charge is calculated
NIL	

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the 'Other Material Information' document on the entry relating to the offer of interests in the AMP Investment Trust maintained on the offer register (disclose-register.companiesoffice.govt.nz) for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Craig had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Craig received a return after fund charges were deducted of \$341.00 (that is 3.41% of his initial \$10,000). Craig also paid \$0.00 in other charges. This gives Craig a total return after tax of \$341.00 for the year.
