

AMP KiwiSaver Scheme

AMP Moderate Fund (Lifesteps)

Lifesteps age bracket - ages 57 to 64 years

A little help.

Investment Update

for the quarter ended 31 March 2025

This investment update was first made publicly available on 1 May 2025

What is the purpose of this update?

This document tells you how the AMP Moderate Fund (Lifesteps) has performed and what fees were charged. The document will help you to compare the fund with other funds. AMP Wealth Management New Zealand Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The fund has a well-diversified portfolio that primarily invests in lower-risk income assets with a moderate allocation to growth assets. The fund aims to achieve modest to medium returns, in exchange there may be small movements up and down in the value of your investments.

Total value of the fund	\$568,101,233
Number of investors in the fund	9163
The date the fund started	1 October 2007

What are the risks of investing?

Risk indicator for the AMP Moderate Fund (Lifesteps):

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at sorted.org.nz/tools/investor-profiler.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future investment updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

How has the fund performed?

	Average over past 5 years ^{1, 2}	Past year
Annual return (after deductions for charges and tax)	4.02%	4.49%
Annual return (after deductions for charges but before tax)	4.48%	5.57%
Market index annual return (reflects no deduction for charges and tax)	5.21%	6.42%

The market index annual return is based on a composite index, calculated using the target investment mix weightings of the underlying market indices that the fund invests into. Additional information about the market index is available on the offer register at disclose-register.companiesoffice.govt.nz. Index disclaimers can be found on the AMP website at amp.co.nz/indexdisclaimers.

Annual return graph^{1, 2}

This shows the return after fund charges and tax for each of the last 10 years ending 31 March. The last bar shows the average annual return for the last 10 years, up to 31 March 2025.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the AMP Moderate Fund (Lifesteps) are charged fund charges. In the year to 31 March 2024 these were:

% of net asset value	
Total fund charges (estimated) ³	0.78%
Which are made up of -	
Total management and administration charges (estimated)	0.78%
Including -	
Manager's basic fee	0.69%
Other management and administration charges (estimated) ⁴	0.09%
Total performance-based fees	0.00%
Dollar amount per investor or description of how charge is calculated	
Other charges	
Member fee	\$23.40

Different member fees or fee rebates may apply to some members. Any different fees or rebates will be set out in the Member Booklet or supplement, if applicable, which you can request from your Adviser.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the 'Other Material Information' document on the entry relating to the offer of interests in the AMP KiwiSaver Scheme maintained on the offer register (disclose-register.companiesoffice.govt.nz) for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Craig had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Craig received a return after fund charges were deducted of \$449.00 (that is 4.49% of his initial \$10,000). Craig also paid \$23.40 in other charges. This gives Craig a total return after tax of \$425.60 for the year.

What does the fund invest in?

Actual investment mix⁵

This shows the types of assets that the fund invests in.

Further information

You can also obtain this information, the PDSs for the AMP KiwiSaver Scheme, and some additional information from the offer register at disclose-register.companiesoffice.govt.nz.

Notes

- 1 From 12 July 2021, AMP Wealth Management New Zealand Limited (AMPWM) took over from AMP Capital Investors (New Zealand) Limited (AMP Capital), now known as Macquarie Asset Management (NZ) Limited (Macquarie), as the underlying fund manager for this fund. The fund performance in the table shows fund performance which relates to both AMPWM (with support from BlackRock Investment Management (Australia) Limited) and AMP Capital, now known as Macquarie.
- 2 For the "Average over past 5 years" period in the table and period ending 31/03/2022 in the graph, we have used a composite index to calculate market index returns. For periods in the graph prior to the period ending 31/03/2022, the market index returns have been calculated with reference to a composite index or appropriate market index. The composite index is calculated using the target investment mix weightings of the underlying market and peer group indices for the asset classes that the fund invested into. A composite index may be a less reliable indicator of performance than an appropriate market index. The return for the market index reflects no deduction for fund charges, trading expenses and tax, and the return for the peer group index reflects deductions for fund charges and trading expenses, but before tax.
- 3 The total fund charges are inclusive of any applicable GST.
- 4 The other management and administration charges include estimates of underlying fund charges provided by underlying fund managers.
- 5 The actual investment mix and top ten investments have been calculated excluding cash and cash equivalents held for operational purposes.
