

Smartshares Exchange Traded Funds – Specialist Series

Product Disclosure Statement

Offer of units in the Smartshares
Exchange Traded Funds

Issued by Smartshares Limited.

This document gives you important information about this investment to help you decide whether you want to invest. There is other useful information about this offer on disclose-register.companiesoffice.govt.nz. Smartshares Limited has prepared this document in accordance with the Financial Markets Conduct Act 2013. You can also seek advice from a financial adviser to help you to make an investment decision.

This is a replacement product disclosure statement. It replaces the product disclosure statement dated 15 July 2020.

1. Key information summary

This Product Disclosure Statement – Smartshares Exchange Traded Funds – Specialist Series covers 27 of the funds in the Smartshares Exchange Traded Funds (**Scheme**).

The Product Disclosure Statement – Smartshares Exchange Traded Funds – Core Series, which covers the eight other funds in the Scheme, is available at smartshares.co.nz.

Who manages the Scheme?

Smartshares is the manager of the Scheme. See section 7 for more information.

What are the returns?

For some funds, you may choose to have distributions paid to you. See section 3 for whether a fund pays distributions and when (we may change when distributions are paid at any time following consultation with the supervisor).

How can you get your money out?

Units in the funds are quoted on the NZX Main Board, so you can sell your investment if there are interested buyers. The amount you get may be less than the amount that you invested.

Investments in the Scheme are generally not redeemable for cash. See section 2 for more information.

How will your investment be taxed?

Each fund is a listed portfolio investment entity (**PIE**).

As a listed PIE, each fund will pay tax on taxable income at the rate of 28%. See section 6 for more information.

Where can you find more key information?

We are required to publish quarterly updates for each fund. The updates show the returns, and the total fees actually charged to investors, during the previous year. The latest fund updates are available at smartshares.co.nz. We will also give you copies of fund updates on request.

What is this?

This is a managed investment scheme. Your money will be pooled with other investors' money and invested in various investments. Smartshares Limited (**Smartshares, we, our or us**) will invest your money and charge you a fee for our services. The returns you receive are dependent on the investment decisions of Smartshares (and of its investment managers) and the performance of the investments. The value of those investments may go up or down. The types of investments and the fees you will be charged are described in this product disclosure statement.

What will your money be invested in?

The Scheme has 35 exchange traded funds (each listed on the NZX Main Board). This product disclosure statement covers 27 of those funds, each of which are summarised on pages 3 to 5. More information about the investment target and strategy for each of these funds is provided in section 3.

Funds summarised in this product disclosure statement

Each fund aims to provide a return to investors that matches the investment objective for the fund, before taking into account tax, fees and costs.

Fund	Description and investment objective	Risk indicator	Fund charges (% per annum of the fund's net asset value)
New Zealand shares			
Smartshares NZ Top 50 ETF (FNZ)	Invests in New Zealand shares and is designed to track the return on the S&P/NZX 50 Portfolio Index.		0.50%
Smartshares NZ Top 10 ETF (TNZ)	Invests in New Zealand shares and is designed to track the return on the S&P/NZX 10 Index.		0.60%
Smartshares NZ Mid Cap ETF (MDZ)	Invests in New Zealand shares and is designed to track the return on the S&P/NZX Mid Cap Index.		0.60%

Smartshares NZ Property ETF (NPF)	Invests in New Zealand property and is designed to track the return on the S&P/NZX Real Estate Select Index.		0.54%
Australian shares			
Smartshares Australian Top 20 ETF (OZY)	Invests in Australian shares and is designed to track the return on the S&P/ASX 20 Index.		0.60%
Smartshares Australian Mid Cap ETF (MZY)	Invests in Australian shares and is designed to track the return on the S&P/ASX Mid Cap 50 Index.		0.75%
Smartshares Australian Dividend ETF (ASD)	Invests in Australian shares and is designed to track the return on the S&P/ASX Dividend Opportunities Index.		0.54%
Smartshares Australian Financials ETF (ASF)	Invests in Australian shares and is designed to track the return on the S&P/ASX 200 Financials Ex-A-REIT Index.		0.54%

Fund	Description and investment objective	Risk indicator	Fund charges (% per annum of the fund's net asset value)
Smartshares Australian Resources ETF (ASR)	Invests in Australian shares and is designed to track the return on the S&P/ASX 200 Resources Index.		0.54%
Smartshares Australian Property ETF (ASP)	Invests in Australian property and is designed to track the return on the S&P/ASX 200 A-REIT Equal Weight Index.		0.54%
US shares			
Smartshares US Large Growth ETF (USG)	Invests in US shares and is designed to track the return on the CRSP US Large Cap Growth Index.		0.51%
Smartshares US Large Value ETF (USV)	Invests in US shares and is designed to track the return on the CRSP US Large Cap Value Index.		0.51%
Smartshares US Mid Cap ETF (USM)	Invests in US shares and is designed to track the return on the CRSP US Mid Cap Index.		0.51%
Smartshares US Small Cap ETF (USS)	Invests in US shares and is designed to track the return on the CRSP US Small Cap Index.		0.51%
International shares			
Smartshares Asia Pacific ETF (APA)	Invests in international shares and is designed to track the return on the FTSE Developed Asia Pacific All Cap Index.		0.55%
Smartshares Emerging Markets ETF (EMF)	Invests in international shares and is designed to track the return on the FTSE Emerging Markets All Cap China A Inclusion Index.		0.59%
Smartshares Europe ETF (EUF)	Invests in international shares and is designed to track the return on the FTSE Developed Europe All Cap Index.		0.55%

Fund	Description and investment objective	Risk indicator	Fund charges (% per annum of the fund's net asset value)
ESG shares			
Smartshares Global Equities ESG ETF (ESG)	Invests in international shares and is designed to track the return on the MSCI World ESG Screened Index.		0.54%
Smartshares US Equities ESG ETF (USA)	Invests in US shares and is designed to track the return on the MSCI USA ESG Screened Index.		0.34%
Smartshares Japan Equities ESG ETF (JPN)	Invests in Japanese shares and is designed to track the return on the MSCI Japan ESG Screened Index.		0.55%
Smartshares Emerging Markets Equities ESG ETF (EMG)	Invests in emerging markets shares and is designed to track the return on the MSCI EM IMI ESG Screened Index.		0.59%
Smartshares Europe Equities ESG ETF (EUG)	Invests in European shares and is designed to track the return on the MSCI Europe ESG Screened Index.		0.55%
Thematic shares			
Smartshares Automation and Robotics ETF (BOT)	Invests in international shares and is designed to track the return on the iSTOXX® FactSet Automation & Robotics Index.		0.75%
Smartshares Healthcare Innovation ETF (LIV)	Invests in international shares and is designed to track the return on the iSTOXX® FactSet Breakthrough Healthcare Index.		0.75%

Fund	Description and investment objective	Risk indicator	Fund charges (% per annum of the fund's net asset value)
------	--------------------------------------	----------------	--

Bonds

Smartshares NZ Bond ETF (NZB)	Invests in New Zealand bonds, with the objective of outperforming the S&P/NZX A-Grade Corporate Bond Index over rolling 3-year periods. The investment manager is Nikko Asset Management New Zealand Limited.		0.54%
Smartshares Global Bond ETF (GBF)	Invests in international bonds, with the objective of outperforming the Bloomberg Barclays Global Aggregate Bond Index by 1% per annum over rolling 3-year periods, hedged to the New Zealand dollar. The investment manager is PIMCO Australia Pty Ltd.		0.54%

See the Product Disclosure Statement – Smartshares Exchange Traded Funds – Core Series available at smartshares.co.nz for information about the eight other funds in the Scheme.

* The risk indicators are based on returns data for the 5 years to 30 September 2020. Some of these funds have not been in existence for 5 years, so a combination of actual returns and market index returns have been used to complete the risk indicators. As a result, the risk indicators may provide a less reliable indicator of the potential future volatility of these funds. The risk indicators for the Smartshares NZ Top 50 ETF, Smartshares NZ Top 10 ETF, Smartshares NZ Mid Cap ETF, Smartshares Australian Top 20 ETF and Smartshares Australian Mid Cap ETF use 1 year and 2 months of market index returns and the risk indicators for the Smartshares Global Equities ESG ETF, Smartshares US Equities ESG ETF, Smartshares Japan Equities ESG ETF, Smartshares Emerging Markets Equities ESG ETF, Smartshares Europe Equities ESG ETF, Smartshares Automation and Robotics ETF and Smartshares Healthcare Innovation ETF use 3 years and 8 months of market index returns.

The Scheme has an establishment fee of \$30. This one-off fee applies when you first invest in the Scheme. It does not apply to further investments in the Scheme (including when you invest in additional funds in the Scheme) or if you buy units in a fund through an NZX Participant (such as a broker) or financial adviser (although the NZX Participant or financial adviser may charge you a fee for its services).

See section 4 for an explanation of the risk indicator and for information about other risks that are not included in the risk indicator. To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at sorted.org.nz/tools/investor-kickstarter.

2. How does this investment work?

The Scheme offers access to a range of exchange traded funds across the investment asset classes of cash, fixed interest, shares and property. Each of the funds is listed on the NZX Main Board.

25 of the funds covered by this product disclosure statement are passively managed and are designed to track the return on specific indices. We do this by either buying and selling financial products so that the financial products held by the fund closely match the financial products included in the index tracked by the fund or by buying and selling interests in an exchange traded fund managed by another fund manager which is designed to track an index.

The Smartshares NZ Bond ETF and Smartshare Global Bond ETF are actively managed. This means the investment managers for these funds seek to provide a better return than the market by buying and selling financial products based on an assessment of what is happening in the market.

The Scheme is a managed investment scheme under the Financial Markets Conduct Act 2013. To protect the interests of investors, the Scheme's investments are held by an independent custodian, BNP Paribas Fund Services Australasia Pty Ltd, and our operations are supervised by an independent supervisor, Public Trust. The Scheme is governed by a master trust deed between the supervisor and us, and each fund is established as a separate trust.

Your money is pooled and invested with other investors' money.

Every time you pay money into the Scheme you will receive units in the funds you invest in. The number of units that you hold in a fund represents your proportionate interest in that fund. All units in a fund have equal value.

Units only give a beneficial interest in fund assets and do not give you any right to any particular asset of a fund.

All funds have assets (the investments of the fund) and liabilities (the taxes, fees and costs payable by the fund). All liabilities incurred in respect of a fund will be met from the assets of that fund. If the investments in a fund are not sufficient to meet its liabilities, the investments in another fund cannot be used to meet those liabilities.

For some funds, you may choose to have distributions paid to you. See section 3 for whether a fund pays distributions and when (we may change when distributions are paid at any time following consultation with the supervisor).

The Scheme may undertake securities lending (which generates additional revenue for the benefit of investors and us).

Making investments

To invest in the Scheme, you can buy units in the funds through an NZX Participant (such as a broker) or financial adviser. Go to smartshares.co.nz for a list of NZX Participants.

You can also invest in the Scheme by applying at smartshares.co.nz or calling us on 0800 80 87 80 to ask for an application form. The minimum initial contribution amount is \$500. After that, you can make further investments, either through:

- ▶ a cash application for further units (the minimum contribution amount is \$250);
- ▶ the regular savings plan (the minimum contribution amount is \$50 per month); or
- ▶ the reinvestment of distributions.

Contributions will be direct debited from your bank account on or about the 20th day of the month and units will be allocated to you on or about the 3rd business day of the following month. You will receive a statement setting out details of your updated investments (you can also view this information at smartshares.co.nz).

You can make basket contributions (or, in the case of the Smartshares NZ Bond ETF and Smartshares Global Bond ETF, institutional investor contributions).

Withdrawing your investments

Units in the funds are listed on the NZX Main Board, so you can sell your investment through an NZX Participant (such as a broker) or financial adviser if there are interested buyers.

Investments in the Scheme are generally not redeemable for cash.

You can make basket withdrawals (or, in the case of the Smartshares NZ Bond ETF and Smartshares Global Bond ETF, institutional investor withdrawals).

How to switch between funds

You can invest in more than one fund at a time. However, you cannot switch from one fund to another fund. If you want to switch funds, you must first sell your existing investment in a fund and then buy an investment in another fund.

3. Description of your investment options

Each fund aims to provide a return to investors that matches the investment objective for the fund, before taking into account tax, fees and costs.

Bonds

Smartshares NZ Bond ETF (NZB)

Invests in New Zealand bonds, with the objective of outperforming the S&P/NZX A-Grade Corporate Bond Index over rolling 3-year periods. The investment manager is Nikko Asset Management New Zealand Limited.

▶ 100% New Zealand fixed interest

1 - 3 years

March, June, September and December

Smartshares Global Bond ETF (GBF)

Invests in international bonds, with the objective of outperforming the Bloomberg Barclays Global Aggregate Bond Index by 1% per annum over rolling 3-year periods, hedged against the New Zealand dollar. The investment manager is PIMCO Australia Pty Ltd.

▶ 100% International fixed interest

2 - 4 years

March, June, September and December

See the Product Disclosure Statement – Smartshares Exchange Traded Funds – Core Series available at smartshares.co.nz for information about the eight other funds in the Scheme.

* The risk indicators are based on returns data for the 5 years to 30 September 2020. Some of these funds have not been in existence for 5 years, so a combination of actual returns and market index returns have been used to complete the risk indicators. As a result, the risk indicators may provide a less reliable indicator of the potential future volatility of these funds. The risk indicators for the Smartshares NZ Top 50 ETF, Smartshares NZ Top 10 ETF, Smartshares NZ Mid Cap ETF, Smartshares Australian Top 20 ETF and Smartshares Australian Mid Cap ETF use 1 year and 2 months of market index returns and the risk indicators for the Smartshares Global Equities ESG ETF, Smartshares US Equities ESG ETF, Smartshares Japan Equities ESG ETF, Smartshares Emerging Markets Equities ESG ETF, Smartshares Europe Equities ESG ETF, Smartshares Automation and Robotics ETF and Smartshares Healthcare Innovation ETF use 3 years and 8 months of market index returns.

See the 'Other Material Information' document on the offer register at disclose-register.companiesoffice.govt.nz for more information about the indices referred to on pages 10 to 13.

The Statement of Investment Policy and Objectives (SIPO) for the Scheme sets out the investment policies and objectives for the Scheme. We may change the SIPO at any time following consultation with the supervisor. We will give you at least 30 days' notice of

any change that is expected to have a material effect on you.

The SIPO is available at smartshares.co.nz. Material changes to the SIPO will be described in the Scheme's annual report.

Further information about the assets in each fund can be found in the fund updates at smartshares.co.nz.

4. What are the risks of investing?

Understanding the risk indicator

Managed funds in New Zealand must have a standard risk indicator. The risk indicator is designed to help investors understand the uncertainties both for loss and growth that may affect their investment. You can compare funds using the risk indicator.

See section 3 for the risk indicators which have been calculated for each of the funds.

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down (volatility). A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks (described under the heading 'Other specific risks') that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for 5 years to 30 September 2020. While risk indicators are usually relatively stable, they do shift from time to time. You can see the most recent risk indicator in the latest fund update for each of the funds.

General investment risks

Some of the things that may cause a fund's value to move up and down, which affect the risk indicator, are:

- ▶ **Market risk:** The risk that a market or a sector of a market that a fund invests in declines.
- ▶ **Individual financial product risk:** The risk that changes in the financial condition or credit rating of an issuer of a financial product causes the value of a financial product held by a fund to decline.
- ▶ **Liquidity risk:** The risk that an investment is difficult to buy or sell and a fund suffers a loss as a result.
- ▶ **Currency risk:** The risk that changes in exchange rates cause the value of an international investment to reduce.
- ▶ **Credit risk:** The risk that issuers of fixed interest or cash investments do not pay interest and/or capital repayments when these are due.
- ▶ **Interest rate risk:** The risk that interest rates rise and the value of investments (in particular, fixed interest and cash investments) reduce.

Other specific risks

There are other risks that may affect returns for investors, which are not reflected in the risk indicator. These risks include fund tracking risk. In particular, the funds covered by this product disclosure statement (other than the Smartshares NZ Bond ETF and Smartshares Global Bond ETF) are designed to track specific indices. Tracking difference may occur when the weighting of each of the financial products included in an index changes, and the fund that tracks the index is not able to exactly match that change. There is a risk that this may result in the fund achieving a return that is lower than the index being tracked by the fund.

See the 'Other Material Information' document on the offer register at disclose-register.companiesoffice.govt.nz for further information about the risks of investing in the Scheme.

5. What are the fees?

You will be charged fees for investing in the Scheme. Fees are deducted from your investment and will reduce your returns. If we invest in other funds, those funds may also charge fees. The fees you pay will be charged in two ways:

- ▶ regular charges (for example, fund charges). Small differences in these fees can have a big impact on your investment over the long term; and
- ▶ one-off fees (for example, establishment fees).

These are as follows:

Fund	Fund charges (% per annum of the fund's net asset value)	Individual action fees
New Zealand shares		Establishment fee: \$30. This one-off fee applies when you first invest in the Scheme. It does not apply to further investments in the Scheme (including when you invest in additional funds in the Scheme) or if you buy units in a fund through an NZX Participant (such as a broker) or financial adviser (although the NZX Participant or financial adviser may charge you a fee for its services).
Smartshares NZ Top 50 ETF (FNZ)	0.50%	
Smartshares NZ Top 10 ETF (TNZ)	0.60%	
Smartshares NZ Mid Cap ETF (MDZ)	0.60%

Smartshares Healthcare Innovation ETF (LIV)	0.75%	
Bonds		
Smartshares NZ Bond ETF (NZB)	0.54%	
Smartshares Global Bond ETF (GBF)	0.54%	

See the Product Disclosure Statement – Smartshares Exchange Traded Funds – Core Series available at smartshares.co.nz for information about the eight other funds in the Scheme.

The fund charges set out on pages 16 to 17 are deducted from, and reflected in the value of, the fund. The fund charges include the fees and costs charged by the supervisor, custodian, investment managers, administration manager and registrar (together with the fees and costs charged by the exchange traded funds managed by other fund managers that we may invest in).

The establishment fee is deducted from the initial contribution amount. We do not charge any other fees on an individual basis for investor-specific decisions or actions.

We may, in exceptional circumstances (for example, a meeting of fund investors is called), deduct costs that relate to the Scheme that arise outside the ordinary course of business from a fund (such occasions are likely to be very rare).

We retain any interest earned on: (a) the cash temporarily held by the funds between the date the cash is received by the funds and the date it is distributed; and (b) contributions between the date contributions are received by us and the date they are used to issue investors with units in the funds.

The revenue earned from securities lending is shared equally, with 50% being paid to the fund the financial products were lent from, and 50% being paid to us (for administering the lending programme).

The fees set out on pages 16 to 17 include GST where applicable.

Example of how fees apply to an investor

Tara invests \$10,000 in the Smartshares NZ Mid Cap ETF. She is charged an establishment fee of \$30 (this fee does not apply if Tara buys units in the fund through an NZX Participant or financial adviser).

This brings the starting value of her investment to \$9,970.

She is also charged fund charges, which work out to about \$59.82 (0.60% of \$9,970). These fees might be more or less if her account balance has increased or decreased over the year.

Estimated total fees for the first year

Individual action fees: \$30

Fund charges: \$59.82

See the latest fund update for the Smartshares NZ Mid Cap ETF for an example of the actual returns and fees investors were charged over the past year.

This example applies only to the Smartshares NZ Mid Cap ETF. If you are considering investing in other funds in the Scheme, this example may not be representative of the actual fees you may be charged.

The fees can be changed

We can agree to reduce fees for some groups of investors.

We may change the fees payable by an investor at any time. Where we materially increase a fee, we will give you at least three months' notice of the change.

We must publish a fund update for each fund showing the fees actually charged during the most recent year. Fund updates, including past updates, are available at smartshares.co.nz.

6. What taxes will you pay?

Each fund is a listed PIE. The amount of tax that each fund pays is calculated at the rate of 28%. However, for New Zealand tax purposes, certain tax concessions apply to distributions made by listed PIEs. For New Zealand tax residents, these concessions mean that if you are currently paying tax at a rate less than 28%, the excess tax paid by a fund may be able to be used to reduce the tax payable on the other income that you derive at the end of each income year. You can do this by including the fully imputed portion of any distributions (including any bonus issues) from the fund in your tax return.

7. Who is involved?

About the manager

Smartshares is a fund manager. It is a wholly-owned subsidiary of NZX Limited.

Our contact details are:

Smartshares
PO Box 105262
Auckland 1143

Telephone: 0800 808 780

Email: smartshares@smartshares.co.nz

8. How to complain

Manager

Complaints about your investment or the Scheme can be made to us at:

Complaints
Smartshares
PO Box 105262
Auckland 1143

Telephone: 0800 808 780

Email: complaints@smartshares.co.nz

Supervisor

If you make a complaint to us, and the complaint cannot be resolved, you may refer it to the supervisor at:

Complaints
Public Trust
PO Box 1598
Shortland Street
Auckland 1140

Telephone: 0800 371 471

Email: cts.enquiry@publictrust.co.nz

Independent dispute resolution scheme

We are a member of the Financial Services Complaints Limited Scheme (the supervisor is also a member), which is an independent dispute resolution scheme.

If you make a complaint to us (or the supervisor), and the complaint cannot be resolved, you may refer it to Financial Services Complaints Limited at:

Financial Services Complaints Limited
PO Box 5967
Wellington 6140

Telephone: 0800 347 257

Email: complaints@fscl.org.nz

The Financial Services Complaints Limited Scheme will not charge you a fee to investigate or resolve a complaint.

9. Where you can find more information

Further information relating to the Scheme and funds, including financial statements, annual reports, fund updates and the SIPO, is available on the offer register and the scheme register at disclose-register.companiesoffice.govt.nz.

A copy of the information on the offer register or scheme register is available on request to the Registrar of Financial Service Providers.

The information set out above is available at smartshares.co.nz or by contacting us. You can obtain details of your investment at smartshares.co.nz or by contacting us. This information is available free of charge. See section 7 for our contact details.

You can obtain general information about the Scheme and funds at smartshares.co.nz.

10. How to apply

To invest in the Scheme, you can buy units in the funds through an NZX Participant (such as a broker). Go to smartshares.co.nz for a list of NZX Participants.

You can also invest in the Scheme by applying at smartshares.co.nz or by calling us on 0800 80 87 80 to ask for an application form.

You can also ask your financial adviser about the funds, as many financial advisers have arrangements for investing in the funds through us or buying units in the funds through an NZX Participant.
