## Annual Return Graph<sup>2</sup>

This shows the return after fund charges and tax for each year ending 31 March for each of the last 10 years ending 31 March. The last bar shows the average annual return for the last 10 years, up to 31 March 2026. The Market Index returns do not include any tax, expenses or charges.

**Important:** This does not tell you how the Fund will perform in the future. Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

## What fees are investors charged?

Investors in the Fund are charged fund charges. In the year to 30 June 2025 these were as follows:

	% of net asset value
<b>Total fund charges (Inc. GST)</b>	<b>1.12%</b>
Which are made up of:	
<b>Total management and administration</b>	<b>1.12%</b>
Including-	
Manager's basic fee	0.98%
Other management and administration charges <sup>3</sup>	0.14%
<b>Total Performance-based fees</b>	<b>0.00%</b>

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS and Other Material Information Document OMI for more information about fees. Also see the product disclosure statement for more information about the basis on which performance fees are charged.

## Example of how this applies to an investor

Small differences in fees and charges can have a big impact on your investment over the long term.

Jenny had \$10,000 in the Harbour Australasian Equity Fund at the start of the year and did not make any further contributions. At the end of the year, Jenny incurred a loss, after fund charges were deducted, of \$407 (that is -4.07% of her initial \$10,000). This gives Jenny a total loss after tax of \$420 for the year.
