Mercer Global Listed Infrastructure Fund **Mercer Investment Funds**

Quarter ending 31 March 2026

This fund update was first made publicly available on: 1 May 2026

What is the purpose of this update?

This document tells you how the Mercer Global Listed Infrastructure Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Mercer (N.Z.) Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The fund invests in infrastructure securities in both developed and emerging markets across a range of sectors. This provides access to a range of infrastructure sectors across geographic regions, with active portfolio management that seeks to target excess returns and predictable, stable cash flows. Environmental, Social and Governance characteristics are integrated into the investment process. The fund aims to provide total returns (income and capital growth) after costs and before tax, above the FTSE Developed Core Infrastructure 50/50 Index with net dividends reinvested (100% hedged to the NZD on an after-tax basis) on a rolling three-year basis.

Total value of the fund	\$83,754,037
The date the fund started	7 September 2012

What are the risks of investing?

Risk indicator for the Mercer Global Listed Infrastructure Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz/tools/investor-profiler

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for 5 years to 31 March 2026. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

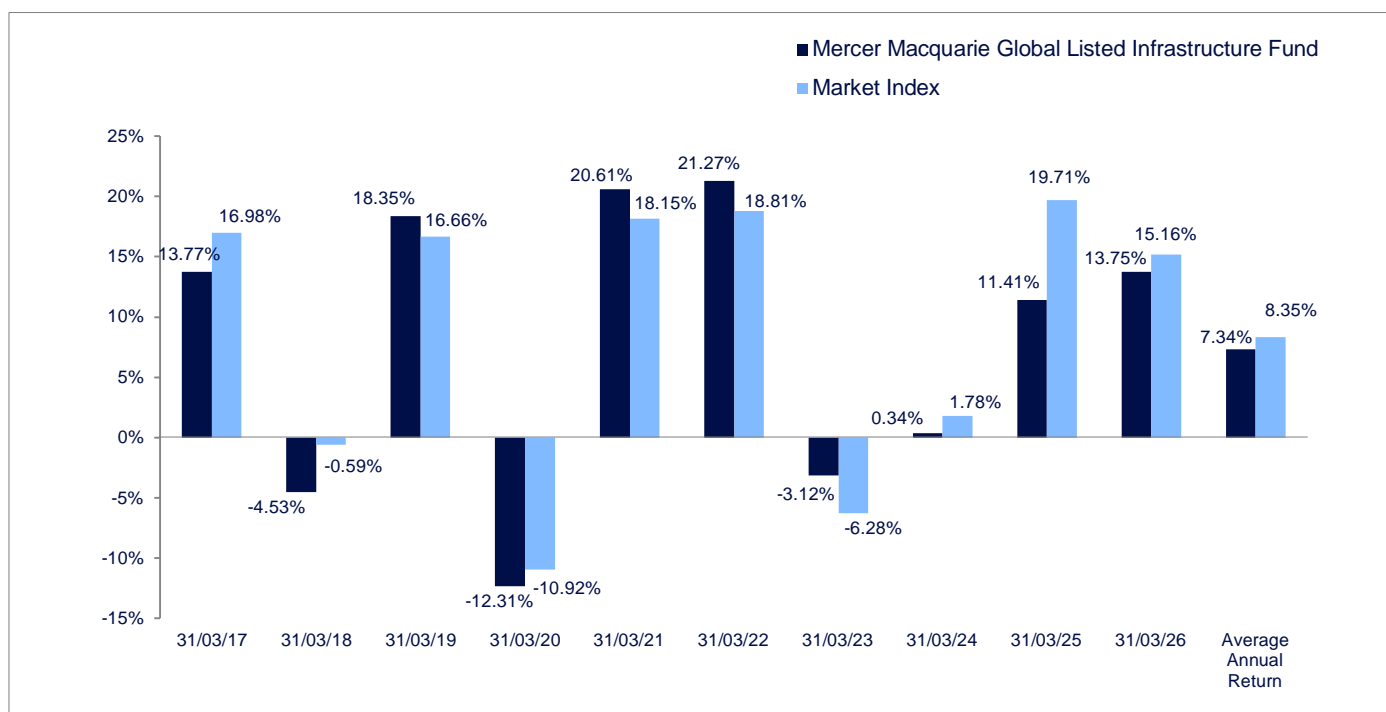

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

How has the fund performed?

	Average over past 5 years	Past year
Annual return¹ <i>(after deductions for charges and tax)</i>	8.36%	13.75%
Annual return¹ <i>(after deductions for charges but before tax)</i>	9.45%	14.76%
Market index annual return¹ <i>(reflects no deduction for charges and tax)</i>	9.34%	15.16%

The market index annual return is based on the FTSE Developed Core Infrastructure 50/50 Index with net dividends reinvested (100% hedged to the NZD on an after-tax basis). Annual Return Graph²

This shows the return after fund charges and tax for each of the last 10 years ending 31 March. The last bar shows the average annual return for the last 10 years, up to 31 March 2026.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the Mercer Global Listed Infrastructure Fund are charged fund charges. In the year to 31 March 2025 these were:

	% of net asset value
Total fund charges	1.34%
Which are made up of:	
Total management and administration charges	1.34%
Including:	
Manager's basic fee (excluding GST ³)	1.25%
Other management and administration charges (including GST)	0.09%
Total performance based fees	0.00%

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS for the Mercer Property and Infrastructure Funds at www.disclose-register.companiesoffice.govt.nz for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

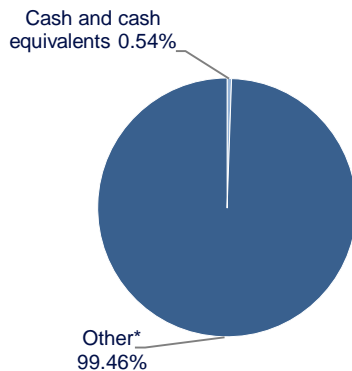

Example of how this applies to an investor

Ben had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Ben received a return after fund charges were deducted of \$1,375.00 (that is 13.75% of his initial \$10,000). Ben also paid \$0.00 in other charges. This gives Ben a total return after tax of \$1,375.00 for the year.
